Part One gives the history of the main art-producing prehistoric traditions in the North American arctic, concentrating on the Dorset who once flourished in the Canadian region. It also demonstrates the influence of theories such as evolutionism, diffusionism, ethnographic comparison, and shamanism on the interpretation of prehistoric Inuit art. Part Two demonstrates the influence of such popular theories as nationalism, primitivism, modernism, and postmodernism on the aesthetics and representation of twentieth-century Canadian Inuit art. This discussion is supported by interviews conducted with Inuit artists. A final chapter shows the presence of Inuit art in the mainstream multi-cultural environment, with a discussion of its influence on Canadian artist Nicola Wojewoda. American Artists On Art - 2018-02-20

From the Preface: The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in, but does not explain, the increasing amount of writing and talking on the part of contemporary artists. Rather, the whole history of the changing role of art and artists in a democratic, industrial, and technological society stands behind the spate of artists' words and the public's hunger for them--even some of the general public out there beyond art's little circle. Statements by artists appeal somewhat the way drawings do: they bring us, or at least they hold the promise of bringing us, closer to the artist's thoughts and feelings and to an understanding of his or her modus operandi; they hold the keys to a mysterious realm. And sometimes they offer us the sheer pleasure of good reading. Such is the primary *raison d'être* of this book. Its other motivation is educational, and stems from the frustrating lack, in teaching contemporary art, of any single compilation of statements by American artists from 1940 to the present.... This anthology differs in several respects from those others that do include documents of American art since 1940.... The selection I have made is devoted exclusively to statements of artists; it is limited to the last four decades; it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism; and, whenever possible, it cites the first, or among the very earliest,

documents signaling a shift in the definition, intent, or direction of art."

The Renaissance Artist At Work - Bruce Cole
2018-02-02

This book gives the necessary background for the study and appreciation of Italian painting and sculpture from about 1250 to 1550. The book discusses how art was made?tempera, oil, panel, canvas, fresco; it surveys the characteristic types of Renaissance art?altarpieces, portraits, tombs, busts, doors fountains, medals, etc.

Thinking with Things - Esther Pasztory
2005-08-01

"At its heart, Pasztory's thesis is simple and yet profound. She asserts that humans create things (some of which modern Western society chooses to call "art") in order to work out our ideas - that is, we literally think with things. Pasztory draws on examples from many societies to argue that the art-making impulse is primarily cognitive and only secondarily aesthetic. She demonstrates that "art" always reflects the specific social context in which it is created, and that as societies become more complex, their art becomes more rarefied."--Jacket.

Art Themes - Marjorie Cohee Manifold
2017-11-20

Flexible in approach and full of colorful examples, this textbook provides a basic introduction to what art is and can be in the lives of people who do not necessarily think of themselves as "artists." You will be taught about a variety of art themes, genres, materials, and processes that appeal to novice art makers. The lessons are organized by themes of general subject matter or media. Options are available for work in mixed media, crafts, photography and digital media, as well as in traditional drawing or painting media. After picking a theme of particular interest to you, look next at the four strands of lessons presented in that thematic unit. Moving from left to right, select one lesson from each consecutive strand and complete that lesson. Because each lesson builds upon previously presented knowledge and developed skill, as you progress through four lessons, one from each strand, you should grow in your understanding of art concepts, meanings, and processes, while also improving your art making skills. Completing this course will help you develop a new appreciation for the power

and possibilities of art learning, by understanding better the art others create, as well as making it yourself.

American Anthropology in Micronesia - Robert Kiste 1999-03-01

Native Arts Of North America, Africa, And The South Pacific - George A. Corbin 2018-05-04

This introduction to the art of tribal peoples of North America, Africa, and the South Pacific does not briefly cover the hundreds of artistic traditions in these three vast areas but rather studies in depth thirty-six art styles within all three areas using the methods of art history, including stylistic analysis and iconographic interpretation. Emphasis is on the art in cultural context and as a system of visual communication within each tribal area. Where appropriate for a more complete understanding of the art, data from archaeology, ethnology, linguistics, religion, and other humanistic disciplines are included. Among the peoples and cultures whose art is studied are the Haida, Kwakiutl, and Tlingit; the Hohokam and Mongollon, the Anasazi and Hopi; the Dogon and Bamana of

Mali; the Asante of Ghana; the Benin, Yoruba, and Ibo of Nigeria; the Fan, the Bamum, and the Kuba of Central Africa; Australian aboriginal and Island New Guinea art; Island Melanesia art; central and eastern Polynesia; Hawaii and the Maori in Marginal Polynesia. The format of the text and selected illustrations is based on seventeen years of teaching African, North American Indian, and South Pacific art to undergraduate and graduate students at Herbert H. Lehman College (CUNY), New York University, and Columbia University. The book is intended for art history and anthropology students and the interested lay reader or collector.
