The Message - Richard Wolffe 2013-09-17

They had 99 problems but Mitt Romney wasn't one. At the start of an epic election, the team trying to reelect President Obama faced a mountain of challenges: a dismal economy, the faded hopes of the first campaign, and a struggle to raise enough cash to compete. No president had risen so fast, or fallen so far, in the modern era. And no president in living memory had earned a second term in such troubled times. To resell the president, they needed to redefine the world they were living in. They needed to retell their own story and rewrite the characters. They needed to find The Message. But first, they needed to fight the enemy within: each other. For six years they kept a lid on their internal disputes-the ego clashes, the disappointed ambitions, and the battle to control the Obama brand. Everything was out of public view and under wraps. They called their style No Drama Obama, and the phrase matched the mood of the candidate. But it was never completely true. In 2008 they found a way around their rivalries.

Four years later, their hostilities threatened to undermine the reelection of a president at a time when most voters were deeply unhappy and ready for change. Drawing on unrivaled access to the key characters, *THE MESSAGE* tells the inside story of the Mad Men-the marketers, message-shapers, and admakers-who held the Obama presidency in their hands.

Fictional Presidential Films - Sarah Miles Bolam & Thomas J. Bolam 2011-07-01

Fictional Presidential Films Hollywood's manner of making films, its conventions, applies especially to fictional presidential films, allowing filmmakers to express their ideas that could not be done in traditional historical films. *Fictional Presidential Films* offers a complete filmography of these two-hundred-plus films decade by decade since 1930. The main body of the work provides a brief summary of each decade along with a summary on the overall nature of films in which a fictional President appeared. Each relevant film is then discussed with credits, plot

summary, description of the presidential appearance, and, when possible, an assessment of the presidential portrayal included.

The Young Oxford Book of Nasty Endings - Dennis Pepper 1997

Victorian Science and Imagery - Nancy Rose Marshall 2021-07-27

The nineteenth century was a period of science and imagery: when scientific theories and discoveries challenged longstanding boundaries between animal, plant, and human, and when art and visual culture produced new notions about the place of the human in the natural world. Just as scientists relied on graphic representation to conceptualize their ideas, artists moved

seamlessly between scientific debate and creative expression to support or contradict popular scientific theories—such as Darwin’s theory of evolution and sexual selection—deliberately drawing on concepts in ways that allowed them to refute popular claims or disrupt conventional knowledges. Focusing on the close kinship between the arts and sciences during the Victorian period, the art historians contributing to this volume reveal the unique ways in which nineteenth-century British and American visual culture participated in making science, and in which science informed art at a crucial moment in the history of the development of the modern world. Together, they explore topics in geology, meteorology, medicine, anatomy, evolution, and zoology, as well as a range of media from photography to oil painting. They remind us that science and art are not tightly compartmentalized, separate influences. Rather, these are fields that share forms, manifest as waves, layers, lines, or

geometries; that invest in the idea of the evolution of form; and that generate surprisingly kindred responses, such as pain, pleasure, empathy, and sympathy.

Science Fiction, Fantasy & Horror - 1986

A comprehensive bibliography of books and short fiction published in the English language.

TLA Video & DVD Guide 2005 - David Bleiler
2004-10

A comprehensive critical reference guide for film, video, and DVD discusses both popular movies and independent and international movies; reviews more than ten thousand films, including films from more than fifty countries; offers five different indexes--by star, director, theme, genre, and national origin--and more. "Five Books Making News This Week" From the
legendary whistle-blower who revealed the
Pentagon Papers, an eyewitness exposé of the
dangers of America's Top Secret, seventy-year-
long nuclear policy that continues to this day.
Here, for the first time, former high-level
defense analyst Daniel Ellsberg reveals his
shocking firsthand account of America's nuclear
program in the 1960s. From the remotest air
bases in the Pacific Command, where he
discovered that the authority to initiate use of
nuclear weapons was widely delegated, to the
secret plans for general nuclear war under
Eisenhower, which, if executed, would cause the
near-extinction of humanity, Ellsberg shows that
the legacy of this most dangerous arms buildup
in the history of civilization--and its proposed
renewal under the Trump administration--

michael-alexander-stories-the-skeleton-closet

threatens our very survival. No other insider
with high-level access has written so candidly of
the nuclear strategy of the late Eisenhower and
early Kennedy years, and nothing has
fundamentally changed since that era. Framed
as a memoir--a chronicle of madness in which
Ellsberg acknowledges participating--this
gripping exposé reads like a thriller and offers
feasible steps we can take to dismantle the
existing "doomsday machine" and avoid nuclear
catastrophe, returning Ellsberg to his role as

1946-1992 - 2009-07-08

In the early days of television, many of its actors, writers, producers and directors came from radio. This crossover endowed the American Radio Archives with a treasure trove of television documents. The collected scripts span more than 40 years of American television history, from live broadcasts of the 1940s to the late 1980s. They also cover the entire spectrum of television entertainment programming, including comedies, soap operas, dramas, westerns, and crime series. The archives cover nearly 1,200 programs represented by more than 6,000 individual scripts. Includes an index of personal names, program and episode titles and production companies, as well as a glossary of industry terms.

The Encyclopedia of Fantasy - John Clute

Contains more than four thousand entries touching on all aspects of fantasy literature, movies, and art

The Sweetheart of Prosper County - Jill S. Alexander 2010-08-31

In a small East Texas town largely ruled by prejudices and bullies, fourteen-year-old Austin sets out to win a ride in the next parade and, in the process, grows in her understanding of friendship and helps her widowed mother through her mourning.

A Political Biography of Alexander Pope - Pat Rogers 2015-10-06

This is the first study to assess the entire career of Alexander Pope (1688-1744) in relation to the political issues of his time.

Who's afraid of...? - Marion Gymnich 2012-11-20
Fear in its many facets appears to constitute an intriguing and compelling subject matter for writers and screenwriters alike. The contributions address fictional representations and explorations of fear in different genres and different periods of literary and cultural history. The topics include representations of political violence and political fear in English

Renaissance culture and literature; dramatic representations of fear and anxiety in English Romanticism; the dramatic monologue as an expression of fears in Victorian society; cultural constructions of fear and empathy in George Eliot's *Daniel Deronda* (1876) and Jonathan Nasaw's *Fear Itself* (2003); facets of children's fears in twentieth- and twenty-first-century stream-of-consciousness fiction; the representation of fear in war movies; the cultural function of horror film remakes; the expulsion of fear in Kazuo Ishiguro's novel *Never Let Me Go* and fear and nostalgia in Mohsin Hamid's post-9/11 novel *The Reluctant Fundamentalist*.

Fascinatingly Disturbing - Alexander Darius Ornella 2010-04-07

Michael Haneke is one of Europe's most successful and controversial film directors. Awarded the Palme d'Or and numerous other international awards, Haneke has contributed to and shaped contemporary auteur cinema and is

becoming more and more popular among academics and cinephiles. His mission is as noble as it is provocative: he wants "to rape the audience into independence," to wake them up from the lethargy caused by the entertainment industry. The filmic language he employs in this mission is both highly characteristic and efficient, and yet his methods are open to criticism for their violence toward and manipulation of the audience. The aim of this book is to analyze critically Haneke's aesthetics, his message, as well as his ethical motivation from an interdisciplinary and intercultural perspective. Contributors to the book come from a variety of academic disciplines and cultural backgrounds-European and North American. *A Dictionary of Literary Pseudonyms in the English Language* - T.J. Carty 2015-12-03 First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company. *Catalogue of the J. Morgan Slade Library and Other Architectural Works in the Apprentices'*

The Queen of the Night - Alexander Chee
2017-04-20

"A 'wild opera of a novel', *The Queen of the Night* tells the story of Lilliet Berne, an orphan who leaves the American frontier for Europe and is swept into the glamour and terror of Second Empire France. She becomes a sensation of the Paris Opera, with every accolade but an original role - her chance at immortality. When one is offered to her, she finds the part is based on her deepest secret, something only four people have ever known. But who has betrayed her? With 'epic sweep, gorgeous language, and haunting details', Alexander Chee shares Lilliet's cunning transformation from circus rider to courtesan to legendary soprano, retracing the path that led to the role that could secure her reputation - or destroy her with the secrets it reveals."

Skeleton Keys - Riley Black (Brian Switek)
2020-03-03

"A provocative and entertaining magical mineral tour through the life and afterlife of bone."
—Wall Street Journal Our bones have many stories to tell, if you know how to listen. Bone is a marvel, an adaptable and resilient building material developed over more than four hundred million years of evolutionary history. It gives your body its shape and the ability to move. It grows and changes with you, an undeniable document of who you are and how you lived. Arguably, no other part of the human anatomy has such rich scientific and cultural significance, both brimming with life and a potent symbol of death. In this delightful natural and cultural history of bone, Brian Switek explains where our skeletons came from, what they do inside us, and what others can learn about us when these artifacts of mineral and protein are all we've left behind. Bone is as embedded in our culture as it is in our bodies. Our species has made

instruments and jewelry from bone, treated the dead like collectors' items, put our faith in skull bumps as guides to human behavior, and arranged skeletons into macabre tributes to the afterlife. Switek makes a compelling case for getting better acquainted with our skeletons, in all their surprising roles. Bridging the worlds of paleontology, anthropology, medicine, and forensics, *Skeleton Keys* illuminates the complex life of bones inside our bodies and out.

The Whole Story - John E. Simkin 1996

This work is the only comprehensive guide to sequels in English, with over 84,000 works by 12,500 authors in 17,000 sequences.

A Traffic of Dead Bodies - Michael Sappol
2018-06-05

A Traffic of Dead Bodies enters the sphere of bodysnatching medical students, dissection-room pranks, and anatomical fantasy. It shows how nineteenth-century American physicians

used anatomy to develop a vital professional identity, while claiming authority over the living and the dead. It also introduces the middle-class women and men, working people, unorthodox healers, cultural radicals, entrepreneurs, and health reformers who resisted and exploited anatomy to articulate their own social identities and visions. The nineteenth century saw the rise of the American medical profession: a proliferation of practitioners, journals, organizations, sects, and schools. Anatomy lay at the heart of the medical curriculum, allowing American medicine to invest itself with the authority of European science. Anatomists crossed the boundary between life and death, cut into the body, reduced it to its parts, framed it with moral commentary, and represented it theatrically, visually, and textually. Only initiates of the dissecting room could claim the privileged healing status that came with direct knowledge of the body. But anatomy depended on confiscation of the dead--mainly the plundered

bodies of African Americans, immigrants, Native Americans, and the poor. As black markets in cadavers flourished, so did a cultural obsession with anatomy, an obsession that gave rise to clashes over the legal, social, and moral status of the dead. Ministers praised or denounced anatomy from the pulpit; rioters sacked medical schools; and legislatures passed or repealed laws permitting medical schools to take the bodies of the destitute. Dissection narratives and representations of the anatomical body circulated in new places: schools, dime museums, popular lectures, minstrel shows, and sensationalist novels. Michael Sappol resurrects this world of graverobbers and anatomical healers, discerning new ligatures among race and gender relations, funerary practices, the formation of the middle-class, and medical professionalization. In the process, he offers an engrossing and surprisingly rich cultural history of nineteenth-century America.

Feminism Without Illusions - Elizabeth Fox-

Genovese 1991

In arguing that feminism has neither adequately acknowledged its ties to individualism nor squarely faced the extent to which many of its campaigns for social justice are based on the insistence of rights for the individual over good of the community, thi

Pediatric Rehabilitation, Fifth Edition - Michael A. Alexander, MD 2015-05-28
Named a Doody's Core Title in 2012 and 2013!
Widely acknowledged as the cornerstone reference in the field, Pediatric Rehabilitation brings together renowned specialists from all

sectors of the pediatric rehabilitation community to provide the most current and comprehensive information available. The fifth edition has been substantially updated and expanded with evidence-based discussions of new theories, therapies, interventions, research findings, and controversies. Five completely new chapters focus on such emerging areas as the use of ultrasound to guide motor point and nerve injections, rehabilitation of chronic pain and conversion disorders, management of concussions, sports injuries, and neurodegenerative and demyelinating diseases in children. This edition also addresses important new directions in genetic markers and tests, cognitive, developmental, and neuropsychological assessment, and rehabilitation for common genetic conditions. Additionally, several new contributors provide fresh perspectives to the voices of established leaders in the field. The text covers all aspects of pediatric rehabilitation medicine from basic

examination and testing to electrodiagnosis, therapeutic exercise, orthotics and assistive devices, gait labs, aging with pediatric onset disability, and in-depth clinical management of the full range of childhood disabilities and injuries. *“Pearls and Perils”* featured throughout the book underscore crucial information, and illustrations, summary tables, information boxes, and lists contribute to the text’s abundant clinical utility. New to the Fifth Edition: Every chapter has been thoroughly revised and expanded to reflect current thinking and practice Evidence-based discussions of new theories, therapies, interventions, research findings, and areas of controversy Five entirely new chapters illuminating emerging areas: rehabilitation of chronic pain and conversion disorders, ultrasound-guided injections, concussion management, sports injuries, and neurodegenerative and demyelinating diseases in children

To Be the Best - Barbara Taylor Bradford

2014-02-06

Emma Harte's legacy lives on in a "lushly detailed" novel following *A Woman of Substance* and *Hold the Dream* from the #1 New York Times–bestselling author (Rave Reviews). The heiress to Emma Harte's international retail empire, Paula McGill O'Neill has grown to fill her legendary grandmother's shoes and become the woman she has always wanted to be. Coming into her own, she now keeps her grandmother's vision alive with firm, confident control. But unbeknownst to her, Paula faces threats from every side. Two families watch her carefully, each hoping for their own chance at the reins of power, and an old enemy lurks in the shadows, alert to any sign of weakness. When Paula's unscrupulous cousin Jonathan returns, even more determined than ever to wrest away everything Paula has fought for, she must marshal all her strength and fortitude to defend her fortune and her family. "A compulsive read."
—Daily Mail "Will keep you up till all hours

reading just one more chapter before you can bear to turn out the bedside light." —Prima "A host of dramatic subplots continues the amorous, sorrowful and shady doings of the O'Neills and the Kallinskis, two families whose fortunes are entwined with the Hartes."
—Publishers Weekly "Readers will happily reacquaint themselves with the sprawling Harte clan . . . A more than satisfactory sequel to the previous segments of this generational tale, with an ending that promises still more to come."
—Library Journal

New York Magazine - 1981-02-23

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself,

while celebrating New York as both a place and an idea.
