Its very nearly what you habit currently. This Philosophy For Dummies Tom Morris , as one of the most enthusiastic sellers here will agreed be in the middle of the best options to review.

Little Siddhartha - William Irwin 2018-10-16
First released in 1922, Hesse's classic novel Siddhartha has delighted and inspired generations of readers and seekers. In the sequel, Little Siddhartha, the search for meaning continues. Each one of us must follow a unique path toward wisdom. The constants, though, of love, forgiveness, family, and nature provide the

enduring backdrop to the journey. Despite our differences, we can all see ourselves in the character of little Siddhartha, and we can hear the resounding Om that concludes this beautiful and timeless story of spiritual hunger and fulfillment.
[The Big Bang Theory and Philosophy](#) - Dean A. Kowalski
2012-05-08
A lighthearted meditation on

the philosophical quandaries of the hit television show The Big Bang Theory Ever wonder what Aristotle might say about the life Sheldon Cooper leads? Why Thomas Hobbes would applaud the roommate agreement? Who Immanuel Kant would treat with "haughty derision" for weaving "un-unravelable webs?" And—most importantly—whether Wil Wheaton is truly evil? Of course you have. Bazinga! This book mines the deep thinking of some of history's most potent philosophical minds to explore your most pressing questions about The Big Bang Theory and its nerdy genius characters. You might find other philosophy books on science and cosmology, but only this one refers to Darth Vader Force-chokes, cloning Leonard Nimoy, and oompa-loompa-like engineers. Fo-shizzle. Gives you irresistibly geek-worthy insights on your favorite Big Bang Theory characters, story lines, and ideas Examines important themes involving ethics and virtue, science, semiotics,

religion, and the human condition Brings the thinking of some of the world's greatest philosophers to bear on The Big Bang Theory, from Aristotle and Plato to Nietzsche, Wittgenstein, Simone de Beauvoir, and more Essential reading for every Big Bang Theory fan, this book explores whether comic-book-wielding geeks can lead the good life, and whether they can know enough science to "tear the mask off nature and stare at the face of God."

[Our Idea of God](#) - Thomas V. Morris 2002

Socrates in Silicon Valley -

Morris Tom 2017-08-21

Steve Jobs overcame tremendous odds to create one of the greatest business success stories of all time. This book explores the deep and practical philosophy behind that success that can be used by any leader.

Plato's Lemonade Stand - Tom Morris 2019-12-29

We've all heard the adage: When life hands you lemons, make lemonade. But no one

ever says how. Finally, with the inspiration of Plato and the help other great philosophers, Tom Morris has figured it out and here gives us a recipe we all can use. Along the way, he shows us how to move with wisdom from difficulty to delight in everything we do.

Existentialism For Dummies

- Christopher Panza 2009-03-03

Have you ever wondered what the phrase "God is dead" means? You'll find out in *Existentialism For Dummies*, a handy guide to Nietzsche, Sartre, and Kierkegaard's favorite philosophy. See how existentialist ideas have influenced everything from film and literature to world events and discover whether or not existentialism is still relevant today. You'll find an introduction to existentialism and understand how it fits into the history of philosophy. This insightful guide will expose you to existentialism's ideas about the absurdity of life and the ways that existentialism guides politics, solidarity, and respect for others. There's even a section on religious

existentialism. You'll be able to review key existential themes and writings. Find out how to: Trace the influence of existentialism Distinguish each philosopher's specific ideas Explain what it means to say that "God is dead" See culture through an existentialist lens Understand the existentialist notion of time, finitude, and death Navigate the absurdity of life Master the art of individuality Complete with lists of the ten greatest existential films, ten great existential aphorisms, and ten common misconceptions about existentialism, *Existentialism For Dummies* is your one-stop guide to a very influential school of thought.

The Golden Palace - Tom Morris 2016-01-29

This book for all ages has been called "Plato and Aristotle meet Harry Potter and Lawrence of Arabia." In 1934, a thirteen-year-old boy and his uncle arrive in Cairo, launch a political revolution, and make discoveries that will change the boy's life forever. With new friends he fights crime,

encounters mysteries, and begins a new life in a palace

Logic For Dummies - Mark Zegarelli 2006-11-29

A straightforward guide to logic concepts Logic concepts are more mainstream than you may realize. There's logic every place you look and in almost everything you do, from deciding which shirt to buy to asking your boss for a raise, and even to watching television, where themes of such shows as CSI and Numbers incorporate a variety of logistical studies. *Logic For Dummies* explains a vast array of logical concepts and processes in easy-to-understand language that make everything clear to you, whether you're a college student or a student of life. You'll find out about: Formal Logic Syllogisms Constructing proofs and refutations Propositional and predicate logic Modal and fuzzy logic Symbolic logic Deductive and inductive reasoning *Logic For Dummies* tracks an introductory logic course at the college level. Concrete, real-

world examples help you understand each concept you encounter, while fully worked out proofs and fun logic problems encourage you students to apply what you've learned.

Woody Allen and Philosophy - Mark T. Conard 2011-04-15

Fifteen philosophers representing different schools of thought answer the question what is Woody Allen trying to say in his films? And why should anyone care? Focusing on different works and varied aspects of Allen's multifaceted output, these essays explore the philosophical undertones of *Anne Hall*, *Crimes and Misdemeanors*, *Manhattan*, *A Midsummer Night's Sex Comedy* and reminds us that just because the universe is meaningless and life is pointless is no reason to commit suicide.

If Aristotle Ran General Motors - Tom Morris 2013-12-24

What does classical philosophy have to offer modern business? Nothing less than the secrets to building great morale and

productivity in any size organization. This is the message that Tom Morris will deliver this year to thousands of executives of leading companies such as Merrill Lynch, Coca Cola, Bayer, and Northwestern Mutual Life. In *If Aristotle Ran General Motors*, Morris, who taught philosophy at Notre Dame for fifteen years, shares the knowledge that he garnered from a lifetime of studying the writings and teachings of history's wisest thinkers and shows how to apply their ideas in today's business environment. Although he frequently draws on the wisdom of Aristotle, Morris also finds inspiration in the teachings of a wide array of thinkers from many different traditions and eras. Throughout these pages we're invited to pause and consider the words of Confucius, Seneca, Saint Augustine, Ralph Waldo Emerson, Abraham Lincoln, and many others. By looking at the inside workings of various kinds of businesses--from GE to Tom's of Maine--

Morris shows why any company that is serious about attaining true excellence must adhere to four timeless virtues first identified by Aristotle more than two thousand years ago: Truth, Beauty, Goodness, and Unity. Morris makes clear that the most successful companies encourage a corporate culture that ensures that all interactions among colleagues, employees, management, bosses, clients, customers, and suppliers are infused with dignity and humanity. Moreover, the book provides clearly stated strategies for how everyone who works can make these qualities the foundation for their everyday business (and personal) lives. *If Aristotle Ran General Motors* presents the most compelling case of any book yet written for a new ethics in business and for a workplace where openness and integrity are the rule rather than the exception. It offers an optimistic vision for the future of leadership and a plan for reinvigorating the soul back into our professional lives.

Awakening Memory - Tom Morris 2021-11-06

Awakening Memory is a practical, encouraging guide to exploring your life experiences and expressing these in your own voice through memoir writing. Based on workshops for non-professional writers led by the author, this book will inspire you to start writing, help develop your writing skills, explain the roles of storytelling and personal essays in a memoir, guide you step-by-step from writing first drafts to producing your final, satisfying memoir, and even help you start your own memoir writing workshop. What really sets Awakening Memory apart, however, is the author's view that memoir writing, fully realized, is far more than the retelling of one's familiar life stories. It is a unique opportunity to awaken your memory, explore your life experiences, and learn anew about where you have come from and who you are. What is genuinely significant among your experiences, and what do you mean by 'significant'? What

life stories do you hear when you listen to the voices of your single-bodied, sensate life-your creaturely life-with its pleasures, loves, aggravations, furies, vulnerability, wishes? Do your viewpoints and stories change as you explore the tensions between your life in society and your inner life? Awakening Memory is an invitation to approach your life with renewed curiosity-to feel, question, listen, investigate, reflect, wonder-and to use the gift of writing to express the truths of your creaturely experience in your own voice.

The Brand Called You -

Ashutosh Garg 2018-12-18

There is no one else in the world like you. Your personal brand has been registered in your name and patented with your persona even though there may be hundreds of people carrying the same name. Creating, building, and developing your personal brand is entirely in your own hands. Conversely, destroying or diminishing your brand is also only in your own hands. Your brand is the essence of your

own unique story. The key to this is reaching deep inside yourself and pulling out the authentic, the unique 'you', from within your own self. What we do with our own brand name could be the difference between being very successful and not so successful. This is as true for personal branding as it is for business branding. The Brand Called You outlines how critical it is for each one of us to understand the power and vulnerabilities of our brand and invest wisely and consistently in our persona and our name. Remember, the only legacy you will leave behind in the world is your name.

The Philosopher Queens -

Rebecca Buxton 2020-09-17

Where are the women philosophers? The answer is right here. The history of philosophy has not done women justice: you've probably heard the names Plato, Kant, Nietzsche and Locke - but what about Hypatia, Arendt, Oluwole and Young? The Philosopher Queens is a long-awaited book about the lives

and works of women in philosophy by women in philosophy. This collection brings to centre stage twenty prominent women whose ideas have had a profound - but for the most part uncredited - impact on the world. You'll learn about Ban Zhao, the first woman historian in ancient Chinese history; Angela Davis, perhaps the most iconic symbol of the American Black Power Movement; Azizah Y. al-Hibri, known for examining the intersection of Islamic law and gender equality; and many more. For anyone who has wondered where the women philosophers are, or anyone curious about the history of ideas - it's time to meet the philosopher queens.

Steve Jobs and Philosophy -

Shawn E. Klein 2015-04-20

In Steve Jobs and Philosophy sixteen philosophers take a close look at the inspiring yet often baffling world of Steve Jobs. What can we learn about business ethics from the example of Jobs? What are the major virtues of a creative innovator? How could Jobs

successfully defy and challenge conventional business practices? How did Jobs combine values and attitudes previously believed to be unmixable? What does it really mean to “think different”? Can entrepreneurs be made or are they just born? If Jobs didn’t make any major inventions, just what was his contribution? How is Jobs’s life illuminated by Buddhism? How does a counter-culture transform mainstream culture? What does Jobs teach us about the notions of simplicity and functionality in design? How do Jobs’s achievements alter the way we think about technology in relation to human life? The chapters cover vital issues in ethics, business, aesthetics, and technology. They are followed by a fascinating appendix listing all the philosophers mentioned in the book, along with explanations of their lives and key themes in their thoughts. Steve Jobs and Philosophy is aimed at readers interested in Jobs himself, in entrepreneurship, in technology, culture, and

values.

Great Philosophers Who Failed at Love - Andrew Shaffer 2011-01-04

“Amazing stories! Incredible quotes! Sordid details! This book shows that a genius in the realm of thought can be a dummy in the land of love.” — Tom Morris, author of *If Aristotle Ran General Motors*

What do René Descartes, John Locke, Jean-Jacques Rousseau, and Jean-Paul Sartre have in common? That’s right: they were all hopeless failures when it came to romance. Author Andrew Shaffer explores the paradox at the core of Western philosophical thought—that history’s greatest thinkers were also the most pathetic lovers to ever walk the earth. With razor-sharp wit and probing insight, Shaffer shows how it’s the philosophers’ missteps, as much as their musings, that are able to truly boggle the intellect.

Comics as Philosophy - Jeff McLaughlin 2005

Through the combination of text and images, comic books offer a unique opportunity to

explore deep questions about aesthetics, ethics, and epistemology in nontraditional ways. The essays in this collection focus on a wide variety of genres, from mainstream superhero comics, to graphic novels of social realism, to European adventure classics. Included among the contributions are essays on existentialism in Daniel Clowes's graphic novel "Ghost World," ecocriticism in Paul Chadwick's long-running "Concrete" series, and political philosophies in Herge's perennially popular "The Adventures of Tintin." Modern political concerns inform Terry Kading's discussion of how superhero comics have responded to 9/11 and how the genre reflects the anxieties of the contemporary world. Essayists also explore the issues surrounding the development and appreciation of comics. Amy Kiste Nyberg examines the rise of the Comics Code, using it as a springboard for discussing the ethics of censorship and child protection in America. Stanford

W. Carpenter uses interviews to analyze how a team of Marvel artists and writers reimagined the origin of one of Marvel's most iconic superheroes, Captain America. Throughout, essayists in Comics as Philosophy show how well the form can be used by its artists and its interpreters as a means of philosophical inquiry. Jeff McLaughlin is assistant professor of philosophy at Thompson Rivers University in Kamloops, British Columbia."

Twisdom (Twitter Wisdom) - Tom V. Morris 2009

What happens when a modern philosopher gets on Twitter? Twisdom! This is the first book of wisdom to arise out of the amazing social media website Twitter. It's a collection of tweets by one of the world's most active and positive public philosophers, Tom Morris, known on Twitter as TomVMorris. It's been called "the first true book of twenty-first century philosophy." It's as deep and practical as it is fun to read, and will set your mind working in new

directions. Topics include courage, patience, love, work, play, and personal possibility. This wide-ranging book also takes on such universal challenges as how to deal with difficulty and anger, the importance of self-confidence in times of change, the ups and downs of our relationships, the challenge of inner peace, and how to find meaning and fulfillment in our lives. The tweets are small but the insights are big. Jump-start your brain with Twisdom!

Forewords by Mariel Hemingway and Kathy Ireland.
True Success - Tom Morris
1995-04-01

Tom Morris is the Notre Dame philosophy professor whose classes have become a campus legend and whose nationwide speaking engagements have brought a new ethics of excellence to the business world. Now he reveals in a wise and joyous book how the pursuit of true success leads to genuine achievement—and genuine happiness. He offers a framework for success that he calls “The 7 Cs”—seven basic

concepts that are essential to meeting life’s challenges. And he creates realistic guidelines for putting our beliefs into practice and making our goals become realities. He doesn’t just shed new light on old problems—he sheds old light on new problems, referring to the great thinkers of the past and revealing the continuing importance of their message in the world of today. With down-to-earth humor and honesty, Tom Morris offers us a renaissance of values—and possibility of deep, lasting fulfillment in work, love, and play.

Harry Potter and Philosophy - David Baggett 2004

Urging readers of the Harry Potter series to dig deeper than wizards, boggarts, and dementors, the authors of this unique guide collect the musings of seventeen philosophers on the series, who cover a wide range of Potter-related philosophical issues, including the difference between good and evil, the ethics of sorcery, and Aristotle's own school for

wizards. Original.

Dr. Seuss and Philosophy -

Jacob M. Held 2011-07-16

Dr. Seuss, children and adults alike have been captivated by the charming and laconic tales of whimsical characters and imaginative worlds. But Dr. Seuss' stories are more than just catchy poems; they often wrestle with serious philosophical and moral dilemmas, whether it is Horton discovering the very essence of life or the Lorax teaching us about morality. Dr. Seuss and Philosophy explores philosophical concepts such as the nature of the good life in *Oh the Places You'll Go*, the method and value of thinking critically in *Oh the Things You Can Think*, and morality and ethics in *How the Grinch Stole Christmas*, among many others. Anyone who loves Dr. Seuss or is interested in philosophy will find this book to be intriguing and enlightening.

God and the Philosophers -

Thomas V. Morris 1994

Brings together a series of essays by a group of highly regarded philosophers on the

role of God and spirituality in their lives and in their philosophies.

The Ashtray - Errol Morris

2018-05-16

Filmmaker Errol Morris offers his perspective on the world and his powerful belief in the necessity of truth. In 1972, philosopher of science Thomas Kuhn threw an ashtray at Errol Morris. This book is the result. At the time, Morris was a graduate student. Now we know him as one of the most celebrated and restlessly probing filmmakers of our time, the creator of such classics of documentary investigation as *The Thin Blue Line* and *The Fog of War*. Kuhn, meanwhile, was—and, posthumously, remains—a star in his field, the author of *The Structure of Scientific Revolutions*, a landmark book that has sold well over a million copies and introduced the concept of “paradigm shifts” to the larger culture. And Morris thought the idea was bunk. *The Ashtray* tells why—and in doing so, it makes a powerful case for Morris’s way of viewing the

world, and the centrality to that view of a fundamental conception of the necessity of truth. "For me," Morris writes, "truth is about the relationship between language and the world: a correspondence idea of truth." He has no patience for philosophical systems that aim for internal coherence and disdain the world itself. Morris is after bigger game: he wants to establish as clearly as possible what we know and can say about the world, reality, history, our actions and interactions. It's the fundamental desire that animates his filmmaking, whether he's probing Robert McNamara about Vietnam or the oddball owner of a pet cemetery. Truth may be slippery, but that doesn't mean we have to grease its path of escape through philosophical evasions. Rather, Morris argues powerfully, it is our duty to do everything we can to establish and support it. In a time when truth feels ever more embattled, under siege from political lies and virtual lives alike, *The Ashtray* is a

bracing reminder of its value, delivered by a figure who has, over decades, uniquely earned our trust through his commitment to truth. No Morris fan should miss it.

Philosophy and the Christian Faith - Thomas V. Morris 1988

Presents a collection of discussions on the philosophy of religion, especially with regard to Christianity. The essays cover such subjects as salvation, the resurgence of philosophy of religion, the Acts of the Apostles, the Trinity, original sin and the Holy Spirit. [Philosophy For Dummies](#) - Tom Morris 2011-03-10

Discover how to apply ancient wisdom to your everyday life. Philosophy at its best is an activity more than a body of knowledge. In an ancient sense, done right, it is a healing art. It's intellectual self-defense. It's a form of therapy. But it's also much more. Philosophy is map-making for the soul, cartography for the human journey. It's an important navigational tool for life that

too many modern people try to do without. Philosophy For Dummies is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book's author - a modern-day scholar and lecturer - brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? This book is chock full of all those questions you may have long wanted to think about and talk with someone about, but have never had the time or opportunity to tackle head on. Philosophy For Dummies invites you to discuss the issues you find in the guide, share perspectives, and compare thoughts and feelings

with someone you respect. You'll find lots of material to mull over with your friends or spouse, including thoughts on When to doubt, and when to doubt our doubts The universal demand for evidence and proof The four dimensions of human experience Arguments for materialism Fear of the process of dying Prayers and small miracles Moral justification for allowing evil The ancient philosopher Socrates (fifth century, B.C.) thought that, when it comes to the Ultimate Questions, we all start off as dummies. But if we are humbly aware of how little we actually know, then we can really begin to learn. Philosophy For Dummies will put you on the path to wising up as you steer through the experience called life.

[The Mysterious Village](#) - Tom Morris 2018-04-26

This is book five in the philosophical adventure series, Walid and the Mysteries of Phi. Animals are disappearing all over Cairo, Egypt. A detective who moves to town is trying to find out why. Walid and his

friends get involved and discover things about animal spirituality they never could have imagined. They also face the greatest danger of their lives, and their adventure culminates in a way that will stun all readers. The world is much stranger than it seems.

[Philosophy For Dummies](#) - Martin Cohen 2012-01-24

Confused by metaphysics? In a muddle with aesthetics? Intimidated by Kant? Then look no further! *Philosophy For Dummies*, UK Edition is a complete crash-course in philosophical thought, covering key philosophers, philosophical history and theory and the big questions that affect us today. Tying in with standard UK curricula and including core topics such as logic, ethics and political philosophy, this impartial, expert guide cuts through the jargon to give you the facts. Whether you're a philosophy student or a complete beginner, *Philosophy For Dummies*, UK Edition will get you thinking and talking about philosophy in no time, and with maximum confidence.

Superheroes and Philosophy - Tom Morris 2010-10

Great Caesars Ghost!! A team of Brainiacs! Superheroes and Philosophy is Kryptonite for those super villains who diss the heroes as lightweights!

Riddle me this, Batman: How are Gotham City and Metropolis like ancient Athens and modern Paris? Read this sensational book and find out!

The Logic of God Incarnate - Thomas V. Morris 2001-04-06

This book is a philosophical examination of the logical problems associated with the claim that Jesus of Nazareth was one and the same person as God the Son, the Second Person of the divine Trinity. How can a being or person who is omniscient, omnipotent, omnipresent, etc., have become human given that humans are limited in knowledge and beset with weaknesses? Unless this belief in the incarnation is to be dismissed as pious sentimentality, a philosophical case must be made for at least the possible rationality of the idea. Tom Morris makes such an attempt in this book.

Indeed, although it claims only to be arguing that the idea of God Incarnate is not impossible, *The Logic of God Incarnate* confronts the preponderance of modern philosophical argumentation against the incarnation and manages to put the traditional doctrine in a quite plausible light.

Philosophy & Ethics For Dummies 2 eBook Bundle: Philosophy For Dummies & Ethics For Dummies - Tom Morris 2013-01-04

Two complete eBooks for one low price! Created and compiled by the publisher, this Philosophy & Ethics bundle brings together two important titles in one, e-only bundle. Whether you're currently enrolled in an ethics course or are interested in living a good life but are vexed with ethical complexities, *Ethics For Dummies* has you covered! About the Author of *Philosophy For Dummies* Tom Morris, Ph.D., author of *True Success* and other books, taught philosophy at Notre Dame University for 15 years and currently heads the Morris Institute for Human Values. About the Authors of *Ethics For Dummies* Christopher Panza, PhD, is an associate professor of philosophy at Drury University and coauthor of *Existentialism For Dummies*. Adam Potthast, PhD, is an assistant professor of philosophy at Missouri University of Science and Technology.

Philosophy 101 - Paul

Kleinman 2013-09-18

Discover the world's greatest thinkers and their groundbreaking notions! Too often, textbooks turn the noteworthy theories, principles, and figures of philosophy into tedious discourse that even Plato would reject. *Philosophy 101* cuts out the boring details and exhausting philosophical methodology, and instead, gives you a lesson in philosophy that keeps you engaged as you explore the fascinating history of human thought and inquisition. From Aristotle and Heidegger to free will and metaphysics, *Philosophy 101* is packed with hundreds of entertaining philosophical tidbits, illustrations, and thought puzzles that you won't be able to find anywhere else. So whether you're looking to unravel the mysteries of existentialism, or just want to find out what made Voltaire tick, *Philosophy 101* has all the answers--even the ones you didn't know you were looking for.

The Art of Achievement - Tom Morris 2013-07-30

Throughout the ages, plenty of people have written and spoken about success and excellence. But leave it to contemporary philosopher and popular business speaker Tom Morris to gather the best of it into a universal tool kit for achieving nearly any goal. From a clear CONCEPTION of what we want, to a stubborn CONSISTENCY in pursuing our vision, to a CAPACITY to enjoy the process, *The Art of Achievement* outlines a simple framework that will lead readers down a road of excellence. Peppared with quotes from great thinkers and successful people, such as Plato, Aristotle, Einstein, and Churchill, *The Art of Achievement* helps readers map out new paths to better health, greater efficiency, and deeper satisfaction.

The Philosophy of Hebrew Scripture - Yoram Hazony 2012-07-30

This book offers a new framework for reading the Bible as a work of reason.

The Inner Philosopher - Lou Marinoff 2012

In the 16 spirited conversations comprising this volume, authors Lou Marinoff and Daisaku Ikeda revive and celebrate philosophy as an accessible source of wisdom and courage for everyone. For Marinoff and Ikeda, the philosophies of Shakyamuni Buddha, Lao Tzu, Confucius, Aristotle, and Socrates are as relevant now as when first articulated more than 2,000 years ago. They are motivated by the conviction that philosophy should do nothing less than help draw forth an inner strength to face and surpass life's inevitable hardships and challenges—showing here that wisdom is never out of reach and opportunities for positive transformation are many.

If Harry Potter Ran General Electric - Tom Morris 2006-05-16

However important the magic of wands, brooms, cauldrons, potions, and spells might be to the vivid story telling of [the Harry Potter] books, it is

merely incidental to their philosophy of life.... I can't count the number of times I've heard someone in a business context say something like "I wish I could just magically solve all these problems" or "I'll try my best to deal with this, but remember, I'm no magician." What is particularly interesting is that the most difficult problems that the people in Harry's world face are rarely solved with just magic, but rather by the use of intelligence, reasoning, planning, courage, determination, persistence, resourcefulness, creativity, fidelity, friendship, and many other qualities traditionally known by the philosophers in our world as virtues.... The meaning of life is not to be found in elixirs or incantations, secret words or exotic objects with esoteric powers, but in real moral virtue and the magic of what it can help us do...." J. K. Rowling's novels about Harry Potter and the Hogwarts School of Witchcraft and Wizardry have captured the imaginations of people

everywhere. In *IF HARRY POTTER RAN GENERAL ELECTRIC*, bestselling business author Tom Morris (*IF ARISTOTLE RAN GENERAL MOTORS*) uncovers the values and timeless truths that underlie Rowling's hugely popular books and illuminate the lessons they offer to all of us in our careers and daily lives. But, you say, Harry Potter lives in a world of magic? What can we possibly learn to apply to our own careers and everyday lives? Morris shows that the most difficult problems Harry and his friends face are rarely solved by the use of magic alone. Rather, they are conquered by intelligence, reasoning, determination, creativity, friendship, and a host of other classic virtues—the very qualities, in fact, that make for success in every aspect of our lives. Blending an array of provocative examples from the novels with thought-provoking commentary on contemporary management practices, *IF HARRY POTTER RAN GENERAL ELECTRIC*

offers readers a master's course on leadership and ethics, told in an engaging and insightful way.

Believing Philosophy - Dolores G. Morris 2021-11-23

Believing Philosophy introduces Christians to philosophy and the tools it provides believers, helping them understand, articulate, and defend their faith in an age of unbelief. Philosophy has been a part of Christianity since its earliest days, and theistic philosophy predates Christianity by thousands of years. But Christians today often don't realize or are skeptical of all that philosophy can offer them. In Part 1, author Dolores G. Morris explains why Christians should read and study philosophy. She begins with a historical overview of Christian philosophy from the church fathers to contemporary philosophers and then introduces the basic resources of philosophical reasoning: the role and aim of reason, distinctions between truth and reason and provability, and

learning to read like a philosopher. These chapters address three foundational questions: What is philosophy? Why should a Christian study philosophy? How should a Christian study philosophy? In Part 2, Morris introduces students to philosophical arguments and questions relevant to Christians. She presents arguments by three key branches of philosophy: metaphysics, epistemology, and practical philosophy. Building on concepts introduced in Part 1, she explains what philosophical arguments are and how they ought to be evaluated from a philosophical and Christian perspective. The following chapters examine specific questions most pressing for Christians today: The problem of evil Rationality and faith Free will Skeptical theism The moral argument for the existence of God Reformed epistemology Each chapter introduces the problem, explains Christian responses, discusses the strengths and weaknesses of each response, and leaves the final verdict to

the reader. Finally, each chapter concludes with a list of recommended further readings.

Meditations - Marcus Aurelius
2021-11-17

In one of the world's most famous and influential books, Roman emperor Marcus Aurelius describes the Stoic precepts he used to cope with his life as a warrior and ruler of an empire. Beautiful hardcover edition of a specially modernized version of the classic George Long translation.

The Stoic Art of Living - Tom Morris 2004

Tom Morris is the former Notre Dame philosophy professor whose classes became a campus legend and whose nationwide speaking engagements have electrified the audiences of corporate America. Continuing in his mission to bring philosophical wisdom into the trenches of everyday life, he shows how ideas of Stoic Philosophy ? which emphasizes goals like gaining command of one's passions and achieving

indifference to pain and distress ? are completely up to date in their relevance to the practical issues people confront in the 21st century. Divided into three accessible sections, the book focuses on three leading Stoics: the slave Epictetus, the lawyer Seneca, and the Roman emperor Marcus Aurelius. From the bottom of society to the upwardly mobile middle to society's very top, the book highlights how these Stoics' insights relate to modern experience. Philosophy buffs and fans of Morris's other works will appreciate this latest application of ancient wisdom to new concerns.

The Oasis Within - Tom Morris
2015-09-01

This is a book about our inner power to live and flourish in a challenging world. In 1934, a thirteen-year-old boy from a small village in western Egypt is on his first trip across the desert when he discovers something about his life that transforms his future. He's traveling with his seventy-year-old uncle, who is exceptionally

wise for any stage of life. The boy and his older relative are also accompanied by a caravan of merchants and animals traveling to Cairo to bring goods to market. The young man has had no idea what awaits him on this trip. His uncle will decide to share with him the basic elements of a practical and yet profound philosophy of life, as they deal with events and challenges that appear throughout the journey. And this wisdom for living will prove to have come at just the right time, when the boy learns that he is on his way, not just to a marketplace, but to a life change that will thrust him into new dangers and opportunities beyond anything he has ever imagined. This book is the short prologue to a forthcoming series of seven novels entitled, *Walid and the Mysteries of Phi*.

A Brief History of the Paradox - Roy Sorensen 2003-12-04

Can God create a stone too heavy for him to lift? Can time have a beginning? Which came first, the chicken or the egg? Riddles, paradoxes,

conundrums--for millennia the human mind has found such knotty logical problems both perplexing and irresistible. Now Roy Sorensen offers the first narrative history of paradoxes, a fascinating and eye-opening account that extends from the ancient Greeks, through the Middle Ages, the Enlightenment, and into the twentieth century. When Augustine asked what God was doing before He made the world, he was told: "Preparing hell for people who ask questions like that." *A Brief History of the Paradox* takes a close look at "questions like that" and the philosophers who have asked them, beginning with the folk riddles that inspired Anaximander to erect the first metaphysical system and ending with such thinkers as Lewis Carroll, Ludwig Wittgenstein, and W.V. Quine. Organized chronologically, the book is divided into twenty-four chapters, each of which pairs a philosopher with a major paradox, allowing for extended consideration and putting a human face on the strategies

that have been taken toward these puzzles. Readers get to follow the minds of Zeno, Socrates, Aquinas, Ockham, Pascal, Kant, Hegel, and many other major philosophers deep inside the tangles of paradox, looking for, and sometimes finding, a way out. Filled with illuminating anecdotes and vividly written, A Brief History of the Paradox will appeal to anyone who finds trying to answer unanswerable questions a paradoxically pleasant endeavor.

Ethics For Dummies -

Christopher Panza 2010-04-29

An easy-to-grasp guide to addressing the principles of ethics and applying them to daily life How do you define "good" versus "evil?"
