Local Public Finance - René Geissler 2021-04-20

This book is based upon a comparative public administration research project, initiated by the Hertie School of Governance (Germany) and the Bertelsmann Foundation (Germany) and supported by a network of researchers from many EU countries. It analyzes both the regimes and the practices of local fiscal regulation in 21 European countries. The book brings together key findings of this research project. The regulatory discussion is not limited to the prominent issue of fiscal rules but focuses on every component of regulation. Beyond this, the book covers affiliated topics such as the impact of regulation for local governments, evolution of regulation, administrative costs and crisis prevention. The various book chapters throughout provide a broad picture of local public finance regulation in theory and in practice, using different theoretical and

national lenses for the analysis. Furthermore, the authors investigate the effects of budgetary constraints and higher-level regulatory efforts on local governments and on democracy and public services in every European country. This book fills a gap with respect to the lack of discussion on local government finance from an international, comparative perspective and, in particular, the regulation of local public finance. With its mix of authors, this book will be useful for practitioners as well as for scholars and for theory-driven research.

In Our Image - Stanley Karnow 2010-11-24

"A brilliant, coherent social and political overview spanning three turbulent centuries."—San Francisco Chronicle Stanley Karnow won the Pulitzer Prize for this account of America's imperial experience in the Philippines. In a swiftly paced, brilliantly vivid narrative, Karnow focuses on the relationship that has existed between the two nations since the United States acquired the country from Spain in 1898, examining how we have sought to remake the Philippines "in our image," an experiment marked from the outset by blundering, ignorance, and mutual misunderstanding. "Stanley Karnow has written the ultimate book—brilliant, panoramic, engrossing—about American behavior overseas in the twentieth century."—The Boston Sunday Globe "A page-turning story and authoritative history."—The New York Times "Perhaps the best journalist writing on Asian affairs."—Newsweek

Way of the Ancient Healer - Virgil Mayor Apostol 2012-06-12

Way of the Ancient Healer provides an overview of the rich tradition of Filipino healing practices, discussing their origins, world influences, and role in daily life. Enhanced with over 200 photographs and illustrations, the book combines years of historical research with detailed descriptions of the spiritual belief system that forms the foundation of these practices. Giving readers a rare look at modern-day Filipino healing rituals, the book also includes personal examples from author Virgil Mayor Apostol's own experiences with shamanic healing and dream interpretation. The book begins with an explanation of Apostol's Filipino lineage and legacy as a healer. After a brief history of the Philippine archipelago, he describes the roots of traditional Filipino healing and spirituality, and discusses the Indian, Islamic, Chinese, Japanese, Spanish, and American influences that have impacted the Filipino culture. He presents a thorough description of Filipino shamanic and spiritual practices that have developed from the concept that everything in nature contains a spirit (animism) and that living in the presence of spirits demands certain protocols and rituals for interacting with them. The book's final chapter thoughtfully explores the spiritual tools used in Filipino healing—talismans, amulets, stones, and other natural symbols of power.

Philippines: Fiscal Transparency Evaluation - International Monetary Fund. Fiscal Affairs Dept. 2015-06-30

EXECUTIVE SUMMARY Improving fiscal transparency has been a priority in the Philippines over recent years. The government's public financial management reform strategy has helped initiate a wide variety of reforms, which are beginning to bear fruit. In light of this, the evaluation against the 36 principles of the draft Fiscal Transparency Code (Annex IV) is broadly favorable: ? Fiscal reporting is relatively comprehensive, frequent and timely, with many areas of good and advanced practices. Coverage of public sector units' stocks and flows is well-developed but coverage of the public sector as a whole lacks consolidated data for the public sector and general government subsectors. Comparability of fiscal data from various reports and of budget outturns against the original budget is not always possible, reflecting a fragmentation of agencies involved. While audits of individual agencies' financial reports are undertaken, there is no separate independent audit of the consolidated Annual Financial Reports; this differs from international practice (Annex I). ? Fiscal forecasting and budgeting is generally good, with several recent improvements, especially regarding fiscal policy objectives, performance orientation, public participation, and the comprehensiveness and orderliness of the budget. However, budget credibility is undermined by the complexity and large flexibility of the annual budget framework which resulted in the non-rating of the principle on the supplementary budget (Annex II). ? Fiscal risk analysis and management is relatively strong in the Philippines compared to other countries, as shown by the publication of a comprehensive Fiscal Risk Statement with a relatively comprehensive collation of risks that could affect public finances. However, improvements are needed in a few areas, especially to capture of risks from guarantees and PPPs, assess the scope of tax expenditures, and introduce a longer-term perspective in the fiscal sustainability analysis (Annex III). The evaluation reveals two cross-cutting issues spanning across the three FTC pillars: (i) the fragmentation of responsibilities for fiscal management in the public sector, and (ii) the complexity and flexibility of the budget system, which complicate fiscal reporting. This report highlights twelve priority recommendations to

address gaps in the Philippines' transparency practices. They focus on (i) publishing a consistent set of budget documents that provides the public with the means to track and assess the operations of government; (ii) reducing the discrepancy between initial budget plans and end-year fiscal outturns; (iii) integrating fiscal sustainability considerations into short-term policy decisions; (iv) delineating more rigorously the government's policy activities from purely commercial activities; (v) better allocating resources to priority areas over the medium term; and (vi) ensuring that consolidated financial reports are audited in a fully-independent manner.

So when 16-year-old Naia is found in an illicit pornography video, the tight-knit community is outraged. They want answers. The finger of blame soon points to Narita, Naia's absentee mother, for putting career ahead of duty. Now Narita is back from Manila and must face her past and the memories of a life she fled. In search of the answers to her daughter's scandal, she follows a trail of

evidence to reveal a web of family secrets, corruption, prejudice and the barriers of social class. Sharp-witted, keenly observant, with a passion for the rich tragic-comedy of life, Lakambini Sitoy takes on the everyday complacencies that can shatter a life - or save it.

Local Autonomy in the Philippines--myth Or Reality? - 1989

Antigua and Barbuda - International Monetary Fund. Fiscal Affairs Dept.
2015-02-04

The purpose of this Public Expenditure and Financial Accountability (PEFA) performance assessment is to provide an objective analysis of the present performance of the public financial management system in Antigua and Barbuda, and identify changes incurred since the last PEFA assessment undertaken in 2010. In the wake of a prolonged economic crisis, fiscal outcomes have not been consistent with the budget as approved. Central government public finances are comprehensively presented in budget documents, but some weaknesses persist. New policy initiatives and their budgetary implications are not sufficiently analyzed; a significant share of extra-budgetary expenditures remains unreported; and oversight and reporting requirements of statutory bodies are not yet fully enforced, impeding a comprehensive assessment of the associated fiscal risks. Although the revenue administration has

been strengthened over the last years, the control over budget execution is still weak. There have been improvements in the quality of external audit, but lack of Parliamentary scrutiny undermines the accountability framework.
