Encyclopedia of Children, Adolescents, and the Media - Jeffrey Jensen Arnett
2006-12-14

From Internet censorship to sex and violence on television and in video games to debates over rock lyrics, the effect of media on children and adolescents is one of the most widely debated issues in our society. The Encyclopedia of Children, Adolescents, and the Media presents state-of-the-art research and ready-to-use facts on the media's interaction with children and adolescents. With more than 400 entries, the two volumes of this resource cover the traditional and electronic media and their controversial impact—for good and ill—on children and adolescents.

Handbook for Achieving Gender Equity Through Education - Susan S. Klein
2014-05-22

First published in 1985, the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education. This new,

expanded edition provides a 20-year retrospective of the field, one that has the great advantage of documenting U.S. national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX, the landmark federal law prohibiting sex discrimination in education, equity programs and research. Key features include: Expertise - Like its predecessor, over 200 expert authors and reviewers provide accurate, consensus, research-based information on the nature of gender equity challenges and what is needed to meet them at all levels of education. Content Area Focus - The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics, science, and engineering. Global/Diversity Focus - Global gender equity is addressed in a separate chapter as well as in numerous other chapters. The expanded section on gender equity strategies for diverse populations contains seven

chapters on African Americans, Latina/os, Asian and Pacific Island Americans, American Indians, gifted students, students with disabilities, and lesbian, gay, bisexual, and transgender students. Action Oriented - All chapters contain practical recommendations for making education activities and outcomes more gender equitable. A final chapter consolidates individual chapter recommendations for educators, policymakers, and researchers to achieve gender equity in and through education. New Material - Expanded from 25 to 31 chapters, this new edition includes: *more emphasis on male gender equity and on sexuality issues; *special within population gender equity challenges (race, ability and disability, etc); *coeducation and single sex education; *increased use of rigorous research strategies such as meta-analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs; *technology and gender equity

is now treated in three chapters; *women's and gender studies; *communication skills relating to English, bilingual, and foreign language learning; and *history and implementation of Title IX and other federal and state policies. Since there is so much misleading information about gender equity and education, this Handbook will be essential for anyone who wants accurate, research-based information on controversial gender equity issues—journalists, policy makers, teachers, Title IX coordinators, equity trainers, women's and gender study faculty, students, and parents. *I'm Not a Girl* - Maddox Lyons 2020-08-04

Based on a true transgender identity journey, the picture book *I'm Not a Girl* is an empowering story from writers Maddox Lyons and Jessica Verdi about a boy who is determined to be himself, illustrated by Dana Simpson. Nobody seems to understand that Hannah is not a girl. His parents ask why he won't wear

the cute outfits they pick out. His friend thinks he must be a tomboy. His teacher insists he should be proud to be a girl. But a birthday wish, a new word, and a stroke of courage might be just what Hannah needs to finally show the world who he really is. A 2021 Rainbow Book List Recommended Reading Selection

Marriages, Families, and Relationships: Making Choices in a Diverse Society

- Mary Ann Lamanna
2020-06-26

Lamanna/Riedmann/Stewart's bestselling MARRIAGES, FAMILIES, AND RELATIONSHIPS: MAKING CHOICES IN A DIVERSE SOCIETY, 14th edition, emphasizes a theme that is especially relevant in our

modern and global world: making choices in a diverse society. Combining various theoretical perspectives with real-world examples, the text will help you understand how people are influenced by the society around them, how social conditions change in ways that affect family life, the interplay between families and the larger society, and the family-related choices that individuals make throughout adulthood. You'll gain insightful perspectives on different ethnic traditions and family forms. You will also be empowered to question assumptions and reconcile conflicting ideas and values as you make informed choices in your own life. Parenting in the Pandemic -
Rebecca Lowenhaupt
2021-05-01

In March of 2020, our daily
lives were upended by the
COVID pandemic and
subsequent school closures.
With work and school shifting
online, a new and ongoing set
of demands has been placed on
parents as school moved to
online, virtual and hybrid
models of learning. Families
need to balance professional
responsibilities with parenting
and supporting their children's
education. As education
professionals, we find ourselves in
a particular position as our
expertise collides with the
reality of schooling our own
children in our homes during a
global pandemic. This book
focuses on the experiences of
education faculty who navigate
this relationship as pandemic
professionals and pandemic
parents. In this collection of

personal essays, we explore parenting in the pandemic among education professors. Through our stories, we share our perspectives on this moment of upheaval, as we find ourselves confronting practical (and impractical) aspects of long held theories about what school could be, seeing up close and personally the pedagogy our children endure online, watching education policy go awry in our own living rooms (and kitchens and bathrooms), making high-stakes decisions about our children's (and other children's) access to opportunity, and trying to maintain our careers at the same time. In this collision of personal and professional identities, we find ourselves reflecting on fundamental questions about the purpose and design of schooling, the value of our work as education professors, and the precious relationships we hope to maintain with our children through this difficult time. Praise for Parenting in the Pandemic "Lowenhaupt and

Theoharis have curated a magnificent collection of essays that captures the hopes, fears, tensions, and possibilities of parenting in a time of crisis. A gift to parents and educators everywhere as we continue to process and reflect on what the pandemic has taught us about what it means to educate others, and perhaps through a renewed imagination, our very own children." - Sonya Douglass Horsford, Teachers College, Columbia University "In this powerful collection of essays, we have a rare window into how the personal and professional worlds of academics collided during the COVID-19 pandemic. What emerges from these reflections is an intimate portrait of the longstanding tensions in our lives as public intellectuals and parents that have long burned as embers, but are now set ablaze by the public health, economic, and educational crisis we have lived through during the last year. Reading these essays will help us to see questions of education policy and practice in a new, more

personal light." - Matthew Kraft, Brown University
Food and Culture - Carole Counihan 2013

This reader reveals how food habits and beliefs both present a microcosm of any culture and contribute to our understanding of human behaviour. Particular attention is given to how men and women define themselves differently through food choices.

Keep It R.E.A.L.! - Mary Amanda Stewart 2017

This book introduces a set of pedagogical practices designed to assist adolescent English learners in developing their English skills in a way that honors and leverages their native languages and cultures. Responding to the linguistic and educational diversity of adolescents, the R.E.A.L. (Relevant, Engaging, and Affirming Literacy) method offers teachers a range of scalable activities, reading lists, and other resources, along with numerous suggestions on how to adapt them for students' particular needs. By sharing experiences from actual secondary English classes, Stewart presents diverse learners making meaningful connections to texts and responding through writing, speaking, and other artistic means. These students are developing high levels of literacy, English language

skills, and even biliteracy through R.E.A.L. instruction that all English teachers can use. "Keep It R.E.A.L. is a must-read for secondary teachers and teacher educators who want their students to appreciate literacy as a critical resource for lifelong learning. This is truly an invaluable resource for teachers of multilingual youth." —Christian Faltis, chair and professor, The Ohio State University "A must-have resource! The powerful student-centered and teacher-friendly framework Mary Amanda Stewart offers in this book makes building literacy skills for adolescent English learners achievable and impactful." —Andrea Honigsfeld, associate dean and director, Molloy College, New York

This book combines teaching-informed research studies and research-informed teaching accounts which explore English

language education that engages with (a)gender and (a)sexual diversity. Informed by critical theories, critical literacy, post-structuralism, queer theory, and indigeneity/(de)coloniality, the critical perspectives in this volume consider gender and sexuality as dimensions of human life and aim to promote sexual, gender, emotional and relational wellbeing together with the construction of cultural horizons and citizenship. The chapters are organised around three interdependent areas of inquiry: 1) how educators design pedagogies and curriculums around gender diversity and sexuality, 2) how students and teachers navigate issues of gender diversity and sexuality in practice, as well as 3) how issues of gender diversity and sexuality are (not) addressed in the materials for teaching and learning English. The contributors are all teacher educators-researchers and therefore have vast experience in enacting, implementing, designing, and

examining the field of English language teacher education from/for the classroom with a gender perspective in diverse settings, with chapters come from Argentina, Bangladesh, Canada, Germany, Norway, Poland, Saudi Arabia, South Africa, Spain, Taiwan, Turkey, the UK and Uruguay.

Key Issues in Sustainable Development and Learning - William Scott 2004

This book presents seminal readings from existing literature alongside specially commissioned, critical vignettes from leading thinkers with interests in sustainable development and learning. The book sets out to inform readers about the many perspectives that exist, and to challenge assumptions they may have about both sustainable development and learning. Through the readings and vignettes, the book raises wide-ranging issues of how we choose to act. Following the format of its companion volume, Sustainable Development and Learning: framing the issues, the book

builds on existing work across a number of fields as well as on original international research. Key Issues in Sustainable Development and Learning: a critical review is a major resource for anyone studying for masters degrees focusing on environment and sustainable development. It is also a valuable tool for professionals in both public and private sector who are dealing with these issues daily. Bill and Steve's book for Routledge, Sustainable Development and Learning: framing the issues is one of the academic sources cited by the United Nations in its draft international implementation scheme for the Decade of Education for Sustainable Development (which was launched by Kofi Annan last month).

This powerful photography collection, drawn from the celebrated National Geographic archive, reveals the lives of women from around the globe, accompanied by revelatory new interviews and portraits of contemporary trailblazers including Oprah Winfrey, Jane Goodall, and Christiane Amanpour. #MeToo. #GirlBoss. Time's Up. From Silicon Valley to politics and beyond, women are reshaping our world. Now, in anticipation of the 100th anniversary of the 19th amendment, this bold and inspiring book from National Geographic mines 130 years of photography to showcase their

past, their present, and their future. With 300+ stunning images from more than 50 countries, each page of this glorious book offers compelling testimony about what it means to be female, from historic suffragettes to the haunting, green-eyed "Afghan girl." Organized around chapter themes like grit, love, and joy, the book features brand-new commentary from a wide swath of luminaries including Laura Bush, Gloria Allred, Roxane Gay, Melinda Gates, New Zealand prime minister Jacinda Ardern, and the founders of the #MeToo and Black Lives Matter movements. Each is accompanied by a bold new portrait, shot by acclaimed NG photographer Erika Larsen. The ultimate coffee table book, this iconic collection provides definitive proof that the future is female.

Experimental Psychology -

Anne Myers 2011-04-14
Focusing on experimental methods, authors Anne Myers and Christine Hansen lead students step by step through the entire research process,

from generating testable hypotheses to writing the research report. The major sections of the book parallel the major sections of a research report (Introduction, Method, Results, and Discussion), giving students the skills they'll need to design and conduct an experiment, analyze and interpret the research findings, and report those findings. Although the main focus is on experimentation, alternative approaches are discussed as important complements. Solar Flares - Andrew M. Butler 2012

Science fiction produced in the 1970s has long been undervalued, dismissed by Bruce Sterling as confused, self-involved, and stale. The New Wave was all but over and Cyberpunk had yet to arrive. The decade polarised sf - on the one hand it aspired to be a serious form, addressing issues such as race, Vietnam, feminism, ecology and sexuality, on the other hand it

broke box office records with Star Wars, Close Encounters of the Third Kind, Alien and Superman: The Movie.

Beginning with chapters on the First sf and New Wave authors who published during the 1970s, Solar Flares examines the ways in which the genre confronted a new epoch and its own history, including the rise of fantasy, the sf blockbuster, children's sf, pseudoscience and postmodernism. It explores significant figures such as Joanna Russ, Samuel R. Delany and Octavia Butler. From Larry Niven's Ringworld to Thomas M. Disch's On Wings of Song, from The Andromeda Strain to Flash Gordon and from Doctor Who to Buck Rogers, this book reclaims seventies sf writing, film and television - alongside music and architecture - as a crucial period in the history of science fiction.

Handbook of Research in Social Studies Education - Linda S. Levstik 2010-04-15
This Handbook outlines the current state of research in social studies education - a complex, dynamic, challenging

field with competing perspectives about appropriate goals, and on-going conflict over the content of the curriculum. Equally important, it encourages new research in order to advance the field and foster civic competence; long maintained by advocates for the social studies as a fundamental goal. In considering how to organize the Handbook, the editors searched out definitions of social studies, statements of purpose, and themes that linked (or divided) theory, research, and practices and established criteria for topics to include. Each chapter meets one or more of these criteria: research activity since the last Handbook that warrants a new analysis, topics representing a major emphasis in the NCSS standards, and topics reflecting an emerging or reemerging field within the social studies. The volume is organized around seven themes: Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies
