Grammaticalization meets Construction Grammar - Evie Coussé 2018-05-23

Grammaticalization research has increasingly highlighted the notion of constructions in the last decade. In the wake of this heightened interest, efforts have been made in grammaticalization research to more precisely articulate the largely pretheoretical notion of construction in the theoretical framework of construction grammar. As such, grammaticalization research increasingly interacts and converges with the emerging field of diachronic construction grammar. This

volume brings together articles that are situated at the intersection of grammaticalization research and diachronic construction grammar. All articles share an interest in integrating insights from grammaticalization research and construction grammar in order to advance our understanding of empirical cases of grammaticalization. Constructions at various levels of abstractness are investigated, both in well-documented languages, such as Ancient Greek, Latin, Spanish, German, Norwegian and English, and in less-described languages, such as Manchu and Mongolian.

Parks in Transition - Brian Child 2013-06-17
Parks face intense pressure from both environmental and developmental perspectives to conserve biodiversity and provide economic opportunities for rural communities. These imperatives are often in conflict, while potential solutions may be subject to theoretical and practical disagreement and complicated by pressing economic, political and cultural considerations. *Parks in Transition* collects the work of the most distinguished scholars and practitioners in this field, drawing on insight from over 50 case studies and synthesizing them into lessons to guide park management in transitional economies where the challenges of poverty and governance can be severe. The central message of the book is that parks are common property regimes that are supposed to serve society. It analyses and sheds light on the crucial questions arising from this perspective. If parks are set aside to serve poor people, should conservation demands over-rule demands for jobs and economic growth? Or will deliberately using parks as bridgeheads for better land use and engines for rural development produce more and better conservation? The issue that arises at all levels is that of accountability, including the problematic linkages between park authorities and political systems, and the question of how to

measure park performance. This book provides vital new insights for park management, regarding the relationship between conservation and commercialization, performance management, new systems of governance and management, and linkages between parks, landscape and the land-use economy.

It's OK That You're Not OK - Megan Devine 2017-10-01

Challenging conventional wisdom on grief, a pioneering therapist offers a new resource for those experiencing loss. When a painful loss or life-shattering event upends your world, here is the first thing to know: there is nothing wrong with grief. "Grief is simply love in its most wild and painful form," says Megan Devine. "It is a natural and sane response to loss." So, why does our culture treat grief like a disease to be cured as quickly as possible? In *It's OK That You're Not OK*, Megan Devine offers a profound new approach to both the experience of grief and the way we try to help others who have endured tragedy. Having experienced grief from both sides—as both a therapist and as a woman who witnessed the accidental drowning of her beloved partner—Megan writes with deep insight about the unspoken truths of loss, love, and healing. She debunks the culturally prescribed goal of returning to a normal, "happy" life, replacing it with a far healthier middle path, one that invites us to build a life alongside grief rather than seeking to overcome it. In this compelling and heartfelt book, you'll learn: • Why well-meaning advice, therapy, and spiritual wisdom so often end up making it harder for people in grief • How challenging the

myths of grief—doing away with stages, timetables, and unrealistic ideals about how grief should unfold—allows us to accept grief as a mystery to be honored instead of a problem to solve • Practical guidance for managing stress, improving sleep, and decreasing anxiety without trying to “fix” your pain • How to help the people you love—with essays to teach us the best skills, checklists, and suggestions for supporting and comforting others through the grieving process Many people who have suffered a loss feel judged, dismissed, and misunderstood by a culture that wants to “solve” grief. Megan writes, “Grief no more needs a solution than love needs a solution.” Through stories, research, life tips, and creative and mindfulness-based practices, she offers a unique guide through an experience we all must face—in our personal lives, in the lives of those we love, and in the wider world. It’s OK That You’re Not OK is a book for grieving people, those who love them, and all those seeking to love themselves—and each other—better.

Doctor Engel - Elena García 2020-11-13

When Mario attacks Natalia again she is transferred to a hospital in Madrid with serious injuries. There she meets Doctor Engel, a handsome and attractive German, with a Spanish mother, who is willing to help her. When the doctor discovers that it is a case of domestic abuse and that the life of the girl is in serious danger, he convinces her to leave her aggressor. When Mario finds out, the death threats begin. Natalia and Engel discover that there is something more between the two of them than a simple doctor-patient relationship and that their past is not as different as it seemed at first. Mario will try by all means to end the life of his ex-girlfriend, whatever the price that he must pay for it. Despite the love that Natalia and Engel end up feeling for each other, there is something that prevents them from being together...

Disaster Recovery - Rajib Shaw 2013-10-30

This book explains key lessons learned from diverse disaster situations and analyzes them within the framework of governance, education, and technology, providing a framework for disaster recovery as a development opportunity. In post-disaster situations, different types of resources are put into the affected region, varying according to technical, financial, intellectual, and community resources. If properly implemented, disaster recovery can change the context of risk-reduction approaches; if not, it can create additional hazards. In some countries, the post-disaster recovery process has

even changed the socio-economic and political context of the affected region and country. The book has 21 chapters and is divided into four parts: governance and institutional issues (five chapters), education and learning issues (four chapters), technology and innovation issues (five chapters), and cross-cutting issues (five chapters). The final chapter provides an analysis of the key topics. The primary target groups for this book are students and researchers in the fields of environment, disaster risk reduction, and climate change studies. The book provides them with a good idea of the current research trends in the field and furnishes basic knowledge about these vital topics. Another target group comprises practitioners and policy makers, who will be able to apply the knowledge collected here to policy and decision making.

The Beach at Doonshean - Penny Feeny 2019-08-15

In Ireland, the past never dies... Long ago, on a windswept Irish beach, a young father died saving the life of another man's child. Thirty years later, his widow, Julia, decides to return to this wild corner of Ireland to lay the past to rest. Her journey sparks others: her daughter Bel, an artist, joins her mother in Ireland, while son Matt and daughter-in-law Rachel, at home in Liverpool, embark on some soul-searching of their own. As the threads of past and present intertwine, Julia's family confront long-buried feelings of guilt, anger, fear and desire. Only then can they allow the crashing waves of the beach at Doonshean to bond them together once again. This is a grown-up, thoughtful family drama for fans of Maeve Binchy and Patricia Scanlan.

Films that Work - Vinzenz Hediger 2009

Industriële films worden gezien als een apart filmgenre van de twintigste eeuw. Ze werden geproduceerd en gesponsord door de overheid en grote bedrijven en moesten vooral aan de

wensen van de sponsors voldoen, en niet zo zeer aan die van de filmmakers. In de hoogtijdagen werkten er duizenden mensen aan deze industriële films. Zo zijn er vakbladen en filmfestivals ontstaan door samenwerking met grote bedrijven als Shell en AT & T. Daarnaast hebben belangrijke regisseurs, zoals Buster Keaton, John Grierson en Alain Resnais, aan deze films meegewerkt. Toch lijkt de industriële film geen spoor te hebben achtergelaten in het filmische culturele discours. Films that Work is het eerste boek waarin de industriële film en zijn opmerkelijke geschiedenis worden onderzocht. Renault Megane & Scenic (99-02) Service & Repair Manual - Peter Gill 2002

Artistic and Cultural Exchanges between Europe and Asia, 1400-1900 - Michael North
2016-12-05

The European expansion to Asia was driven by the desire for spices and Asian luxury products. Its results, however, exceeded the mere exchange of commodities and precious metals. The meeting of Asia and Europe signaled not only the beginnings of a global market but also a change in taste and lifestyle that influences our lives even today. Manifold kinds of cultural transfers evolved within a market framework that was not just confined to intercontinental and intra-Asiatic trade. In Europe and Asia markets for specific cultural products emerged and the transfers of objects affected domestic arts and craft production. Traditionally, relations between Europe and Asia have been studied in a hegemonic perspective, with Europe as the

dominant political and economic centre. Even with respect to cultural exchange, the model of diffusion regarded Europe as the centre, and Asia the recipient, whereby Asian objects in Europe became exotica in the Kunst- und Wunderkammern. Conceptions of Europe and Asia as two monolithic regions emerged in this context. However, with the current process of globalization these constructions and the underlying models of cultural exchange have come under scrutiny. For this reason, the book focuses on cultural exchange between different European and Asian civilizations, whereby the reciprocal complexities of cultural transfers are at the centre of observation. By investigating art markets, workshops and collections in Europe and Asia the contributors exemplify the varieties of cultural exchange. The book examines the changing roles of Asian objects in European material culture and collections and puts a special emphasis on the reception of European visual arts in colonial settlements in Asia as well as in different Asian societies.
