**Millionaire by Thirty** - Douglas R. Andrew 2008-04-30

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

*Cion* - Zakes Mda 2012-10-09

At the instigation of the sciolist, Toloki, the professional mourner introduced in Zakes Mda's early novel *Ways of Dying*, takes the opportunity to travel the world in search of new ways of mourning. He finds himself abandoned in Athens Ohio, but a chance meeting with a Halloween reveller leads him to the poor hamlet of Kilvert, home to descendants of fugitive slaves. A community of traditional quiltmakers, the people of Kilvert, and notably the Quigley family, offer Toloki hospitality while never completely coming to terms with what they regard as his shamanistic attributes. From them he learns the stories told by the quilts and the secrets held by the sycamores - ghost trees that are the carriers of memories - and he becomes aware that this is a community which strives to keep alive their past in order to validate the present. They cannot let go, for the past is all they have. And it is through the quilts and the sycamores and the messages they carry that the old story is told of the slaves in the plantations of the south and their eternal quest to escape and find their freedom, interwoven with the story of life in present-day Kilvert. It is also a time of growth for Toloki, bringing about a softening of his former austerity and enabling him to determine the path his future will take.
