Tales of Vice and Virtue -

Adrian P. Tudor 2021-11-08

Here is presented for the first time an extraordinary medieval text, the first Old French Vie des Pères. The Vie des Pères is in fact a collective text comprising three branches and, at its fullest, over seventy individually enclosed pious tales / miracles. The first Vie - the first forty-one or -two tales - dates from the first third of the thirteenth century. It is a vitally significant but hitherto

neglected part of the Old French canon. Indeed, in his preface to this volume Michel Zink, one of the most respected medievalists of his generation, notes that the qualities of the Vie des Pères 'devraient valoir à son auteur une place au voisinage de celle qu'occupent pour nous celui de la Chanson de Roland ou Chrétien de Troyes.' The tales are remarkably well written and offer fascinating glimpses of thirteenth-century life and spirituality. They were also extremely popular in Medieval France. Sharing close links with a number of traditions - fabliaux, Saints' Lives, Miracles of the Virgin, Romance, Sermons - the Vie des Pères has value for those interested in many branches of vernacular literature, codicology, lexicography, art history, theology and philology. Tales of Vice and Virtue - the first sustained analysis of the entire first Vie des Pères to be published - is a groundbreaking book providing readers new to the text with detailed commentaries,

offering abundant intertextual information for romance philologists, and suggesting many new areas for further research.

**The Exorcism Stories in Luke-Acts** - Todd Klutz  
2004-06-24

This 2004 book in English integrates detailed literary criticism of the exorcism stories in Luke-Acts with wide-ranging comparative study of ancient sources on demonology, spirit affliction and exorcistic healing. Methods from systemic functional linguistics and critical theory are explained and then applied to each story. Careful focus is placed on each narrative's linguistic functions and also on relevant aspects of its literary co-text and the wider context of culture. Implications of the analysis for the new perspective on Luke-Acts, especially the implied author's relationship with Judaism, are explored in relation to the Lukan stories' original context of reception. Largely neglected interfaces between Luke's narrative

representation of exorcism and emerging academic discourse about religious experience, shamanism, health care in antiquity, ritual performance and ancient Jewish systems of impurity are probed in ways that shed fresh light on this supremely alien part of the Lukan writings.

*The SAGE Encyclopedia of African Cultural Heritage in North America* - Mwalimu J. Shujaa 2015-07-13

The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States. Our conceptual framework holds, first, that culture is a form of self-knowledge and knowledge about self in the world as transmitted from one person to another. Second, that African people continuously create their own cultural history as they move through time and space. Third, that African descended people living

outside of Africa are also contributors to and participate in the creation of African cultural history. Entries focus on illuminating Africanisms (cultural retentions traceable to an African origin) and cultural continuities (ongoing practices and processes through which African culture continues to be created and formed). Thus, the focus is more culturally specific and less concerned with the broader transatlantic demographic, political and geographic issues that are the focus of similar recent reference works. We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity. FEATURES: A two-volume A-to-Z work, available in a choice of print or electronic formats 350 signed entries, each concluding with Cross-references and Further Readings 150 figures and photos Front matter consisting of an Introduction and a Reader's Guide organizing

entries thematically to more easily guide users to related entries Signed articles concluding with cross-references

**The Collected Works of James Hogg: Altrive tales** - James Hogg 2003

"Hogg left a written record of three of his many journeys to the Highlands, those of 1802, 1803 and 1804, and in *Highland Journeys* he offers a thoughtful and deeply-felt response to the Highland Clearances. He gives vivid pictures of his experiences, including a narrow escape from a Navy press-gang, and a Sacrament day with one minister preaching in English and another in Gaelic. Hogg also explains aspects of Gaelic culture such as the waulking songs, and he describes the trade in kelp, lucrative to the landowners but back-breaking and ill-paid for the workers.

Highland Journeys makes a refreshing contribution to our understanding of early nineteenth-century travel writing"--Publisher description.

**Motivating Language Theory** - Jacqueline Mayfield 2017-09-07

This book presents the findings, applications, and theoretical underpinnings of a unique leadership communication model: motivating language theory. Drawing from management, social science, and communication theories, motivating language theory demonstrates how leader-to-follower speech improves employee and organizational well-being and drives positive workplace outcomes (such as employee performance, retention, and job satisfaction) in a wide array of settings. It presents an integrated model based on empirical findings and theoretical developments from the past three decades to explore the three dimensions of motivating language: direction giving language, empathetic language, and meaning-making

language. It will be a comprehensive source for its empirical relationships, generalizability, theoretical basis, and future directions for research and practice.

**How People Learn II** - National Academies of Sciences, Engineering, and Medicine 2018-09-27

There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000,

How People Learn: Brain, Mind, Experience, and School: Expanded Edition was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. How People Learn II: Learners, Contexts,

and Cultures provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. How People Learn II will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults.

**Stories of Oka** - Isabelle St. Amand 2018-05-04

In the summer of 1990, the Oka Crisis—or the Kanehsatake Resistance—exposed a rupture in the relationships between settlers and Indigenous peoples in Canada. In the wake of the failure of the Meech Lake Accord, the conflict made visible a contemporary Indigenous presence that Canadian society had imagined was on the verge of disappearance. The 78-day standoff also reactivated a long history of Indigenous people's resistance to colonial policies aimed at assimilation and land

appropriation. The land dispute at the core of this conflict raises obvious political and judicial issues, but it is also part of a wider context that incites us to fully consider the ways in which histories are performed, called upon, staged, told, imagined, and interpreted. "Stories of Oka: Land, Film, and Literature" examines the standoff in relation to film and literary narratives, both Indigenous and non-Indigenous. This new English edition of St-Amand's interdisciplinary, intercultural, and multi-perspective work offers a framework for thinking through the relationships that both unite and oppose settler societies and Indigenous peoples in Canada.

### **Metaphorical Stories in**

**Discourse** - L. David Ritchie  
2017-09-14

When Hillary Clinton conceded in 2008 that she didn't quite 'shatter the glass ceiling', and when Rick Perry in 2012 called Mitt Romney a 'vulture capitalist', they used abbreviated metaphorical stories, in which stories about

one topic are presented as stories about something entirely different. This book examines a wide range of metaphorical stories, beginning with literary genres such as allegories and fables, then focusing on metaphorical stories in ordinary conversations, political speeches, editorial cartoons, and other communication. Sometimes metaphorical stories are developed in rich detail; in other examples, like 'vulture capitalist', they may merely be referenced or implied. This book argues that close attention to metaphorical stories and story metaphors enriches our understanding and is essential to any theory of communication. The book introduces a theoretical structure, which is developed into a theory of metaphorical stories and then illustrates the theory by applying it to actual discourse.

[Make Your Bed](#) - Admiral William H. McRaven  
2017-04-04

Based on a Navy SEAL's inspiring graduation speech,

this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves- and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with

hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. Motivation, Volition, and Engagement in Online Distance Learning - Ucar, Hasan

2021-06-25

Motivation is an important factor in and for all education levels. However, as learners in online distance education milieus are away from both teachers, other learners, and

the learning environments physically, this concept becomes more important for online education. Motivating learners in distance education and keeping their motivation alive throughout the learning process is an issue that should be emphasized and taken care of for teachers and instructional designers. At this point, although there are many approaches, models, and theories regarding enhancing and sustaining motivation and engagement in the education processes, it is seen that there is not enough work and/or effective and efficient strategies that can be applied in online distance learning environments. Motivation, Volition, and Engagement in Online Distance Learning evaluates motivational obstacles in online distance education both theoretically and practically, identifies the strengths and weaknesses of the online education environments regarding motivation, and provides actionable motivational and volitional strategies for online

educators. This book offers coverage of topics such as learning theories, motivation research, and synchronous online learning environments, making it a valuable resource for researchers, professionals, decision makers, institutions in all education levels, academicians, pre-service teachers, and most importantly, online educators from various disciplines and learners from all educational landscapes.

*Preventing Reading Difficulties in Young Children* - National Research Council 1998-07-22

While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors.

Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective

approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read.

Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, *Preventing Reading Difficulties in Young Children* examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.

### Fairy Tales as Literature of

Literature - Lothar Bluhm

2022-09-15

In this study, the Brothers

Grimm's fairy tales are consistently examined as literature out of literature. Through the history of their creation and transformation, it becomes apparent how literary models were re-declared and transformed into the well-known fairy tale narratives, in the course of the editing process by the Brothers Grimm, essentially by Wilhelm Grimm. By means of a series of model studies - including Rapunzel, Jorinde und Joringel and Der Jude im Dorn - it is shown that the Brothers Grimm's fairy tales, contrary to their traditional assessment as 'folk tales', are of literary origin and have a literary character themselves.
