Compersion - Hypatia from Space 2018-05-07

Compersion can be defined as the opposite of jealousy. Hypatia, famous polyamorous blogger and inspirational writer, has intensively focused her research on this feeling somewhat unknown to most people. Through her careful research as well as her personal experience, she has come to the conclusion that compersion is within the reach of every polyamorous individual. However, this feeling of joy towards the happiness of our partners does not happen by chance, or without effort. Her hypothesis: Each polyamorous has specific individual needs that, once fulfilled, allow them to experience a solid and lasting sentiment of compersion. Hypatia warmly invites the reader on a journey of self-discovery to explore their inner selves to see what their essential compersion needs are. She also addresses the fundamental topic of how one can successfully support their partners and metamours in their own journey towards this liberating experience. Last, not least, she evokes the state of mind necessary for those who wish to develop, or integrate more fully, compersion into their lives. Controlling jealousy is great, but cultivating compersion is way better!

**Black Iron** - Franklin Veaux 2018

It's 1855, but not as we know it. The schism between the One True French Catholic Church and the heretical Italian Catholic Church has stoked three centuries of conflict, imploding the dream of European ascendancy. Thousands flee the Spanish Inquisition for havens in Germany, France, Britain and the colonies of the New World. The face and character of London has been indelibly altered by generations of refugees. Tasked with keeping order and preserving the ecumenical vision of the Holy French Catholic Church in the face of throngs clamoring for traditional British values, the London police find themselves in an awkward position. And nobody is quite sure how to deal with the technological innovation of animates: mindless laborers crafted from the body parts of the dead. A murderous plot with far-reaching implications casts a city torn between renaissance and tyranny as the unwitting catalyst for unspeakable global calamity. The fate of this world lies, as it often does, in the hands of a motley and disparate crew brought together by

inglorious serendipity. Ironworks and iron fists will take London, and the Old World with it, to the cutting edge of a treacherous new century.

**The Brazen Altar** - Eunice Hung 2021-05

Welcome to the City. In this place of peace and plenty, with no disease, no suffering, and no want, people find meaning in service to their gods. They know the gods were created by humans, of course. But the gods protect and provide for the people, so why wouldn't the people serve the gods? In a Utopian society, what better way to express service than through pleasure and faith? For Kheema and her seven fellow Potentials, that means entering the temple of the Sun God to undergo months of training and practice to determine which of them will be chosen as Sacrifice. On the day of the summer Solstice, the one chosen as Sacrifice must recite the entire litany from atop the temple, while enduring nonstop forced orgasms from dawn 'til dusk. For Terlyn, service means becoming part of the Garden, bound naked and asleep while worshippers help themselves to her body. Terlyn wakes in ecstasy over and over, only to fall asleep again. The experience changes her, and her relationship with her friend and lover Donvin, who visits her while she is part of the Garden. Ashi's service to the god known as the Wild entails competing with other worshippers in a forest that appears overnight to demonstrate her resilience and will, so that she might become part of a ritual involving an altar, a long row of cages, and the complete abandonment of the self. The three stories brush against each other, revealing the heart of the City, as the people of the City serve, or ask for enlightenment from, multiple gods at once.
