**Transformation of Cities in Central and Eastern Europe** - F. E. Ian Hamilton 2005

The dramatic changes since 1989 including the collapse of Communist ideology, the break-up of the Soviet Union, Czechoslovakia and Yugoslavia, the end of the Cold War and the impact of globalisation and European integration, have reconfigured Central and Eastern Europe and affected the re-integration of the capital cities into European and global networks. This volume identifies and describes the transformations of these cities towards market oriented and democratic systems.

**Communities Of Innovation: How Organizations Harness Collective Creativity And Build Resilience** - Patrick Cohendet 2021-04-12

This book describes the important role played by communities in innovation processes and how organizations can benefit from it. A community brings together individuals who share a common passion for a given area of knowledge and can contribute to innovation at different levels: capitalization of good practices, problem solving, sharing of expertise, or development of new and creative ideas. The literature has progressively identified many variants of communities such as communities of practice, epistemic communities, communities of

interest, virtual communities, etc. These forms of communities differ regarding the type of the specialized activities of knowledge on which they focus. As practitioners and academics increasingly emphasized the needs of collaborative approaches in innovation, they progressively challenged the traditional idea that innovation is mainly generated by hierarchical corporate departments and highlighted the active role that communities play in innovation processes. The aim of this book is to shed light, using multiple examples, on the proactive and fundamental role of communities in the new innovation practices of organizations.

**Innovation and Transition in Law: Experiences and Theoretical Settings** -

This book features a discussion on the modernisation of law and legal change, focusing on the key concepts of innovation" and "transition". These concepts both appear to be relevant and poorly defined in contemporary legal science. A critical reflection on the heuristic value of these categories seems appropriate, particularly considering their dyadic value. While innovation is increasingly appearing in the present day as being the category in which one looks at the modernisation of law, the concept of transition also seems to be the privileged place of occurrence for such dynamics. This group of Italian and Brazilian scholars contributing to this volume intends to investigate such problems through an interdisciplinary prism. It includes points of view both internal to legal

studies - such as the history of law, theory of law, constitutional law, private law and commercial law - and external, such as political philosophy and history of justice and political institutions.

**Characters in Fictional Worlds** - Jens Eder 2011-01-01

Although fictional characters have long dominated the reception of literature, films, television programs, comics, and other media products, only recently have they begun to attract their due attention in literary and media theory. The book systematically surveys today's diverse and at times conflicting theoretical perspectives on fictional character, spanning research on topics such as the differences between fictional characters and real persons, the ontological status of characters, the strategies of their representation and characterization, the psychology of their reception, as well as their specific forms and constellations in - and across - different media, from the book to the internet.

*Disordering the Establishment* - Lily Woodruff 2020-06-12

In the decades following World War II, France experienced both a period of affluence and a wave of political, artistic, and philosophical discontent that culminated in the countrywide protests of 1968. In *Disordering the Establishment* Lily Woodruff examines the development of artistic strategies of political resistance in France in this era. Drawing on interviews with artists, curators, and cultural figures of the time, Woodruff analyzes the formal and rhetorical methods that artists used to counter establishment ideology, appeal to direct political engagement, and grapple with French intellectuals' modeling of society. Artists and collectives such as Daniel Buren, André Cadere, the Groupe de Recherche d'Art Visuel, and the Collectif d'Art Sociologique shared an opposition to institutional hegemony by adapting their works to unconventional spaces and audiences, asserting artistic autonomy from art institutions, and embracing interdisciplinarity. In showing how these artists used art to question what art should be and where it should be

seen, Woodruff demonstrates how artists challenged and redefined the art establishment and their historical moment.

**The Dance: Its Place in Art and Life** - Margaret West Kinney

2022-06-03

"The Dance" by Margaret West Kinney is a book about dance as a form of art. The writing includes a chapter of explanation of the salient steps of the ballet. These steps, with superficial variations and additions, form the basis also of all-natural or "character" dances that can lay claim to any consideration as interpretative art. Direct practical instruction is furnished on the subject of present-day ballroom dancing, to the extent of clear and exact directions for the performance of steps now fashionable in Europe and America. Some notable titles are: The "Schuhplatteltanz" Classic Ballet Positions Fundamental Positions of the Feet The "Tango" Development of an Arch "À La Pirouette", etc.

**Slow Man** - J. M. Coetzee 2017-04-04

J.M. Coetzee's latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. J. M. Coetzee, one of the greatest living writers in the English language, has crafted a deeply moving tale of love and mortality in his new book, Slow Man. When photographer Paul Rayment loses his leg in a bicycle accident, he is forced to reexamine how he has lived his life. Through Paul's story, Coetzee addresses questions that define us all: What does it mean to do good? What in our lives is ultimately meaningful? How do we define the place we call "home"? In his clear and uncompromising voice, Coetzee struggles with these issues and offers a story that will dazzle the reader on every page.

**New Frontiers of the Automobile Industry** - Alex Covarrubias V.  
2019-11-28

Analysing developments in digital technologies and institutional changes, this book provides an overview of the current frenetic state of transformation within the global automobile industry. An ongoing transition brought about by the relocation of marketing, design and production centres to emerging economies, and experimentation with new mobility systems such as electrical, autonomous vehicles, this process poses the question as to how original equipment manufacturers (OEMs) and newcomers can remain competitive and ensure sustainability. With contributions from specialists in the automobile sector, this collection examines the shifts in power and geographical location occurring in the industry, and outlines the key role that public policy has in generating innovation in entrepreneurial states. Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry, this book will provide valuable reading for those researching internationalization and emerging markets, business strategy and more specifically, the automotive industry.

*Rapid Sensory Profiling Techniques* - J Delarue 2014-11-28

Sensory analysis is an important tool in new product development. There has recently been significant development in the methods used to capture sensory perception of a product. Rapid Sensory Profiling

Techniques provides a comprehensive review of rapid methods for sensory analysis that can be used as alternatives or complementary to conventional descriptive methods. Part one looks at the evolution of sensory perception capture methods. Part two focuses on rapid methods used to capture sensory perception, and part three covers their applications in new product development and consumer research. Finally, part four explores the applications of rapid methods in testing specific populations.

**Planning Twentieth Century Capital Cities** - David Gordon  
2006-09-27

The twentieth century witnessed an unprecedented increase in the number of capital cities worldwide - in 1900 there were only about forty, but by 2000 there were more than two hundred. And this, surely, is reason enough for a book devoted to the planning and development of capital cities in the twentieth century. However, the focus here is not only on recently created capitals. Indeed, the case studies which make up the core of the book show that, while very different, the development of London or Rome presents as great a challenge to planners and politicians as the design and building of Brasília or Chandigarh. Put simply, this book sets out to explore what makes capital cities different from other cities, why their planning is unique, and why there is such variety from one city to another. Sir Peter Hall's 'Seven Types of Capital City' and Lawrence Vale's 'The Urban Design of Twentieth Century Capital Cities' provide the setting for the fifteen case studies which follow - Paris, Moscow and St Petersburg, Helsinki, London, Tokyo, Washington, Canberra, Ottawa-Hull, Brasília, New Delhi, Berlin, Rome, Chandigarh, Brussels, New York. To bring the book to a close Peter Hall looks to the future of capital cities in the twenty-first century. For anyone with an interest in urban planning and design, architectural, planning and urban history, urban geography, or simply capital cities and why they are what they are, *Planning Twentieth Century Capital Cities* will be the key source book for a long time to come.

**Brazilian Bodies and Their Choreographies of Identification** -  
Cristina F. Rosa 2015-08-26

Brazilian Bodies, and their Choreographies of Identification retraces the presence of a particular way of swaying the body that, in Brazil, is commonly known as *ginga*. Cristina Rosa traces its presence across distinct and specific realms: samba-de-roda (samba-in-a-circle) dances, capoeira, and Angola games, and the repertoire of Grupo Corpo.

**Comparative Law** - Rudolf B. Schlesinger 1980

**Mistrust** - Matthew Carey 2017-05-15

Trust occupies a unique place in contemporary discourse. Seen as both necessary and virtuous, it is variously depicted as enhancing the social fabric, lowering crime rates, increasing happiness, and generating prosperity. It allows for complex political systems, permits human communication, underpins financial instruments and economic institutions, and generally holds society together. Against these overwhelmingly laudable qualities, mistrust often goes unnoticed as a positive social phenomenon, treated as little more than a corrosive absence, a mere negative of trust itself. With this book, Matthew Carey proposes an ethnographic and conceptual exploration of mistrust that

raises it up as a legitimate stance in its own right. While mistrust can quickly ruin relationships and even dissolve extensive social ties, Carey shows that it might have other values. Drawing on fieldwork in Morocco's High Atlas Mountains as well as comparative material from regions stretching from Eastern Europe to Melanesia, he examines the impact of mistrust on practices of conversation and communication, friendship and society, and politics and cooperation. In doing so, he demonstrates that trust is not the only basis for organizing human society and cooperating with others. The result is a provocative but enlightening work that makes us rethink social issues such as suspicion, doubt, and uncertainty. "Language, Counter-Memory, Practice - Michel Foucault 2019-06-30 Because of their range, brilliance, and singularity, the ideas of the philosopher-critic-historian Michel Foucault have gained extraordinary currency throughout the Western intellectual community. This book offers a selection of seven of Foucault's most important published essays, translated from the French, with an introductory essay and notes by Donald F. Bouchard. Also included are a summary of a course given by Foucault at Collège de France; the transcript of a conversation between Foucault and Gilles Deleuze; and an interview with Foucault that appeared in the journal *Actuel*. Professor Bouchard has divided the book into three closely related sections. The four essays in Part One examine language as a "perilous limit" of what we know and what we are. The essays in the second part suggest the methodological guidelines to which Foucault subscribes, and they record, in the editor's words, "the penetration of the language of literature into the domain of discursive thought." The material in the last section is more obviously political than the essays. It treats language in use, language attempting to impart knowledge and power. Translated by the editor and Sherry Simon into fluent and lucid English, these essays will appeal primarily to students of literature, especially those interested in contemporary continental structuralist criticism. But because of the breadth of Foucault's interests, they should also prove valuable to anthropologists, linguists, sociologists, and psychologists.

The Exhibitionary Complex - Kim West 2017

**The Monkey Wrench Gang** - Edward Abbey 2011-08-19

A motley crew of saboteurs wreak outrageous havoc on the corporations destroying America's Western wilderness in this classic, comic extravaganza. When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced

Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, *The Monkey Wrench Gang* is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (*Lonesome Dove*) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all "praise the earth for Edward Abbey!"
