Eastern Front Sniper - Martin Pegler 2017-04-30

Eastern Front Sniper is a long overdue and comprehensive biography of one of World War II's most accomplished snipers. Mathus Hetzenauer, the son of a Tyrolean peasant family, was born in December 1924. He was drafted into the Mountain Reserve Battalion 140 at the age of 18 but discharged five months later. He received a new draft notice in January 1943 for a post in the Styrian Truppenbungplatz Seetal Alps where he met some of the best German snipers and learned his art. Hetzenauer went on to fight in Romania, Eastern Hungary and in Slovakia. As recognition for his more than 300 confirmed kills he was awarded on the Knight's Cross of the Iron Cross on April 17, 1945. After nearly five years of Soviet captivity Mathus Hetzenauer returned to Austria on January 10, 1950. He lived in the Tyrol's Brixen Valley until his death on 3 October of 2004.

Sniper Ace - Bruno Sutkus 2009-11-01

Throughout World War II, German snipers were obliged to carry a 'Scharfshützen Buch' which recorded every kill. Each success noted had to be verified by a witness and signed by a superior officer. The journal of Sutkus is one of only a few such books to have survived the war. It records more than 200 kills, placing him as one of the war's most successful snipers. A large part of his journal is reproduced for the first time here.

American Sniper - Chris Kyle 2012-01-03

The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq—a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." — RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Survivors of Stalingrad - Reinhold Busch 2014-09-03

In November 1942 _ in a devastating counter-attack from outside the city _ Soviet forces smashed the German siege and encircled Stalingrad, trapping some 290,000 soldiers of the 6th Army inside. For almost three months, during the harshest part of the Russian winter, the German troops endured atrocious conditions. Freezing cold and reliant on dwindling food supplies from Luftwaffe air drops, thousands died from starvation, frostbite or infection if not from the fighting itself. ??This important work reconstructs the grim fate of the 6th Army in full for the first time by examining the little-known story of the field hospitals and central dressing stations. The author has trawled through hundreds of previously unpublished reports,

interviews, diaries and newspaper accounts to reveal the experiences of soldiers of all ranks, from simple soldiers to generals. ??The book includes first-hand accounts of soldiers who were wounded or fell ill and were flown out of the encirclement; as well as those who fought to the bitter end and were taken prisoner by the Soviets. They reflect on the severity of the fighting, and reveal the slowly ebbing hopes for survival. Together they provide an illuminating and tragic portrait of the appalling events at Stalingrad.

Stormtrooper on the Eastern Front - Lisa Blosfelds 2008-09-19

Following the conquest of his native Latvia by the Nazis, the author was given the stark choice: service in the SS or forced labor in a slave camp. So he 'volunteered' to fight for the Nazis. He describes his training and how he became an instructor before being sent into Russia. He nearly perished during the terrible winter of 1943-44 being wounded and finding himself with his friend lying dead on top of him. As the tide turned and the Russians advanced remorselessly through. He was wounded twice more and awarded the Iron Cross for bravery. With German resistance collapsing, the author had to flee for his life - capture by the Russians meant almost certain death. He surrendered to the Americans but describes the neglect he suffered at their hands. Unable to return to Latvia now occupied by the Russians, he became a Displaced Person eventually settling in the UK.

Soviet Sniper - Roza Shanina 2020-04-13

Described as the 'unseen terror of East Prussia', Soviet World War II sniper, Roza Shanina was celebrated for her remarkable shooting accuracy and astonishing bravery. Volunteering for military service after the death of her brother in 1941, she fought her way to the frontline and became a key player in a number of major battles. With 59 confirmed Nazi kills, she became the first servicewoman of the 3rd Belorussian Front to receive the Order of Glory. Although it was strictly forbidden within the Soviet military to keep a combat diary, Shanina managed to maintain hers throughout the last 4 months of her life. In it, she describes the hardships, triumphs, mundanities and extremities of war, the relationships formed and the comrades lost. Translated into English for the first time, the diary is a rare insight into the complexities of what it was to be both a sniper and a woman on the frontline and stands as a testament to Shanina's humor, determination, extraordinary courage and indefatigable spirit.

Girl with a Sniper Rifle - Yulia Zhukova 2020-11-05

In this vivid first-hand account we gain unique access to the inner workings of Stalin's Central Women's Sniper School, near Podolsk in Western Russia. Luliia was a dedicated member of the Komsomol (the Soviet communist youth organisation) and her parents worked for the NKVD. She started at the sniper school and eventually became a valued member of her battalion during operations against Prussia. She persevered through eight months of training before leaving for the Front on 24th November 1944 just days after qualifying. Joining the third Belorussian Front her battalion endured rounds of German mortar as well as loudspeaker announcements beckoning them to come over to the German side. Luliia recounts how they would be in the field for days, regularly facing the enemy in terrifying one-on-one encounters. She sets down the euphoria of her first hit and starting her "battle count" but her reflection on how it was also the ending of a life. These feelings fade as she recounts the barbarous actions of Hitler's Nazi Germany. She recall how the women were once nearly overrun by Germans at their house when other Red Army formations had moved off and failed to tell them. She also details a nine-day stand-off they endured encircled by Germans in Landsberg.

The Forgotten Soldier - Guy Sajer 2000

The illustrated edition of the classic German WWII autobiography

Eastern Inferno - Christine Alexander 2010-11-30

“Remarkable personal journals . . . revealing the combat experience of the German-Russian War as seldom seen before . . . a harrowing yet poignant story” (Military Times). Hans Roth was a member of the anti-tank panzerjager battalion, 299th Infantry Division, attached to the Sixth Army, as the invasion of Russia began. As events transpired, he recorded the tension as the Germans deployed on the Soviet frontier in June 1941. Then, a firestorm broke loose as the Wehrmacht tore across the front, forging into the primitive vastness of the East. During the Kiev encirclement, Roth’s unit was under constant attack as the Soviets desperately tried to break through the German ring. At one point, after the enemy had finally been beaten, a friend serving with the SS led him to a site—possibly Babi Yar—where he witnessed civilians being massacred. After suffering through a brutal winter against apparently endless Russian reserves, his division went on the offensive again when the Germans drove toward Stalingrad. In these journals, attacks and counterattacks are described in you-are-there detail. Roth wrote privately, as if to keep himself sane, knowing his honest accounts of the horrors in the East could never pass Wehrmacht censors. When the Soviet counteroffensive of winter 1942 begins, his unit is stationed alongside the Italian 8th Army, and his observations of its collapse, as opposed to the reaction of the German troops sent to stiffen its front, are of special fascination. Roth’s three journals were discovered many years after his disappearance, tucked away in the home of his brother. After his brother’s death, his family discovered them and sent them to Rosel, Roth’s wife. In time, Rosel handed down the journals to Erika, Roth’s only daughter, who had emigrated to America. Roth was likely working on a fourth journal before he was reported missing in action in July 1944. Although his ultimate fate remains unknown, what he did leave behind, now finally revealed, is an incredible firsthand account of the horrific war the Germans waged in Russia.

Commanding the Red Army's Sherman Tanks - Dmitri? Fedorovich Loza 1996-01-01

Hero of the Soviet Union Dmitriy Loza has carefully crafted his World War II experiences with U.S.-provided Sherman tanks into a highly readable memoir. Between the fall of 1943 and August 1945, Loza fought in the Ukraine, Romania, Hungary, Czechoslovakia, and Austria. He commanded a tank battalion during much of this period and had three Shermans shot out from under him. Loza's unit participated in such well-known combat actions as the Korsun-Shevchenkivskiy Operation, the Jassy-Kishenev Operation, and the battles for Budapest, Vienna, and Prague. Following the German surrender, Loza's unit was sent to Mongolia, where it participated in the arduous trek across the Gobi Desert to attack the Japanese Kwantung Army in Manchuria. This is the first available detailed examination of the Red Army's exploitation of U.S. war materiel during World War II and one of the first genuine memoirs available from the Russian front. Loza also provides firsthand testimony on tactical command decisions, group objectives and how they were accomplished, and Soviet use of combat equipment and intelligence. Only after the collapse of the USSR and concomitant relaxing of prohibitions against publication of materials related to the Lend-Lease Program there could this account be made available. Dmitriy Loza served as an instructor at the Frunze Academy after the war, retiring in 1967 with the rank of colonel. He resides in Moscow. James F. Gebhardt, now a defense contractor at Fort Leavenworth, is a Vietnam veteran. He is the author of *Blood on the Shores: Soviet Naval Commandos in World War II*.

Northwest Africa - George Frederick Howe 1991

The assault on North Africa on 8 November 1942 led to a bitter conflict that finally culminated in the defeat of the Axis forces in Tunisia seven months later. The campaign was, for the U.S. Army, a school in coalition warfare and an introduction to enemy tactics.

The White Sniper - Tapio A. M. Saarelainen 2016-10-31

The remarkable story of the Finnish marksman nicknamed “White Death” by the Red Army for his record number of confirmed kills. Simo Häyhä is the most famous sniper in the world. During the Winter War fought between Russia and Finland from 1939 to 1940, he had 542 confirmed kills with iron sights, a record that still stands today. A man of action who spoke very little, Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white

camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from corporal to second lieutenant, and he was awarded the Cross of Kollaa. For sniping, Simo Häyhä only ever used his own M/28-30 rifle. Eventually, his luck ran out, and Simo received a serious head wound on March 6, 1940, though he subsequently recovered. The *White Sniper* fully explores Simo Häyhä’s life, his exploits in the Winter War, the secrets behind his success, including character and technique, and also includes a detailed look at his rifle itself. There are appendices on the basics of shooting, the impact of fire on the battlefield, battles on the Kollaa Front during the Winter War, and a list of ranked snipers of the world. “No matter how many books on sniping you have read, this must be added to your list if you are serious about shooting.” —GunMart

Sniper on the Eastern Front - Albrecht Wacker 2012-05-17

Josef "Sepp" Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honored with the award of the Knight's Cross. An Austrian conscript, after qualifying as a machine gunner he was drafted to the southern sector of the Russian Front in July 1942. Wounded at Voroshilovsk, he experimented with a Russian sniper-rifle while convalescing and so impressed his superiors with his proficiency that he was returned to the front on his regiment's only sniper specialist. In this sometimes harrowing memoir, Allerberger provides an excellent introduction to the commitment in field craft, discipline and routine required of the sniper, a man apart. There was no place for chivalry on the Russian Front. Away from the film cameras, no prisoner survived long after surrendering. Russian snipers had used the illegal explosive bullet since 1941, and Hitler eventually authorized its issue in 1944. The result was a battlefield of horror. Allerberger was a cold-blooded killer, but few will find a place in their hearts for the soldiers of the Red Army against whom he fought.

Panzer Ace - Richard Freiherr von Rosen 2018-03-30

Richard Freiherr von Rosen was a highly decorated Wehrmacht soldier and outstanding panzer commander. His memoirs are richly illustrated with contemporary photographs, including key confrontations of World War II. After serving as a gunlayer on a Pz.Mk.III during Barbarossa, he led a Company of Tigers at Kursk. Later he led a company of King Tiger panzers at Normandy and in late 1944 commanded a battle group (12 King Tigers and a flak Company) against the Russians in Hungary in the rank of junior, later senior lieutenant (from November 1944, his final rank.) Only 489 of these King Tiger tanks were ever built. They were the most powerful heavy tanks to see service, and only one kind of shell could penetrate their armor at a reasonable distance. Every effort had to be made to retrieve any of them bogged down or otherwise immobilized, which led to many towing adventures. The author has a fine memory and eye for detail. His account is easy to read and not technical, and adds substantially to the knowledge of how the German Panzer Arm operated in the Second World War.

The Battle for Kharkov, 1941-1943 - Anthony Tucker-Jones 2016-06-30

The four battles fought for Kharkov during the Second World War are often overshadowed by the battles for Moscow, Leningrad and Stalingrad, yet they were critical stages in the struggle between the Wehrmacht and the Red Army for control of the southern Soviet Union. Anthony Tucker-Jones, in this volume in the *Images of War* series, offers a visual record of the dramatic and bloody conflict that took place there, showing every grim aspect of the fighting. Kharkov became one of the most bitterly contested cities during the war on the Eastern Front, and this book presents a graphic overview of the atrocious conditions the soldiers on both sides had to endure. In 1941 Kharkov fell to Hitler's Army Group South. In 1942 the Soviets tried and failed to retake it, losing 240,000 men in the Barvenkovo Bulge. Then, in 1943, the control of the battered city changed hands twice before the Soviets liberated it for good. The fate of Kharkov during the war reflects the history of the wider struggle between Hitler's Germany and Stalin's Soviet Union.

On the Roads of War - Ivan Yakushin 2005-07-19

Ivan Yakushin survived the Siege of Leningrad, fought at the Battle of Kursk and pursued the retreating German army through Russia, Belorussia, Poland and into Germany itself. This is the story of his war. He tells the tale in his own words, with remarkable clarity of recall, and gives an authentic insight into what combat on the Eastern Front was like for the ordinary soldier. He also provides a detailed, firsthand record of cavalry operations during a highly mechanized war, and this gives his book its special value. The war for

him began in Leningrad where he endured the terrifying first winter of the German siege. He describes the perils and privations that beset the city during a period in which over half a million civilians who lost their lives. Yet it is his vivid recollections of his experiences as an artillery man, then a cavalry officer on the Eastern Front that are at the heart of this rare memoir. In the Kursk salient Yakushin was severely wounded in the legs, during the Nevel offensive and Operation Bagration he took part in daring cavalry raids behind the German lines and, as the Soviet army penetrated into East Prussia and Germany itself, he was confronted by increasingly desperate German units struggling to defend their homeland. His descriptions of the merciless fighting during these last months of the war, in particular against the fanatical German Volkssturm, make fascinating reading. The author, Ivan Yakushin survived the Siege of Leningrad as a teenager, completed an artillery lieutenant's course in 1943 and joined the heavy mortar regiment during the Battle of Kursk. After recovering from a wound he was transferred to the elite 5th After the war Captain Yakushin came back to Leningrad and worked as an engineer at Admiralty Shipyards, taking part in construction of over 100 ships, until his retirement in 1992. He lives in St Petersburg, has one son and a grandson.

Sniping in the Great War - Martin Pegler 2008-10-30

A military history analyzing the evolution of sniper warfare during WWI by the firearms expert and author of Eastern Front Sniper. From the sharpshooters of the American Civil War to Navy SEAL Chris Kyle, military snipers are legendary for their marksmanship and effectiveness in battle. The specialized role of the sniper developed among the ranks of the British Army over the course of World War I. As Martin Pegler shows in this wide-ranging study, the technique of sniping adapted rapidly to the conditions of static warfare that prevailed through much of the conflict. Pegler's account follows the development of sniping from the early battles of 1914, through the trench fighting and the attritional offensives of the middle years, to the renewed open warfare of 1918. Focusing on the British and German sniping war on the western front, Pegler also looks at how snipers operated at Gallipoli, Salonika, and on the Eastern Front. He also covers sniper training, fieldcraft, and counter-sniping measures in detail. Sniping in the Great War includes a full reference section detailing the sniping rifles of the period and assessing their effectiveness in combat. Also featured are vivid memoirs and eyewitness accounts that offer insight into the lethal skill of Great War snipers and their deadly trade.

Blood Red Snow - Gunter Koschorrek 2011-04-13

Günter Koschorrek wrote his illicit diary on any scraps of paper he could lay his hands on, storing them with his mother on infrequent trips home on leave. The diary went missing, and it was not until he was reunited with his daughter in America some forty years later that it came to light and became Blood Red Snow. The author's excitement at the first encounter with the enemy in the Russian Steppe is obvious. Later, the horror and confusion of fighting in the streets of Stalingrad are brought to life by his descriptions of the others in his unit – their differing manners and techniques for dealing with the squalor and death. He is also posted to Romania and Italy, assignments he remembers fondly compared to his time on the Eastern Front. This book stands as a memorial to the huge numbers on both sides who did not survive and is, some six decades later, the fulfilment of a responsibility the author feels to honour the memory of those who perished.

Until the Eyes Shut - Andreas Hartinger 2019-10-10

"The rulers' mistakes are paid for with the blood of the people. This is shown in history both recent and ancient, time and time again. It was no different of an Austrian mountain farmer's son who was thrown into the carnage of the Eastern Front. He was in the prime of his youth, and the German Reich was already close to losing the war. In ripe old age, he remembers those dark hours that have haunted him throughout his life. Manning his machine gun in merciless struggles with a superior enemy, or fighting for survival in brutal close combat, reduced to basest instincts. He also remembers the rock-solid comradeship with his mountain troop, the unexpected gestures of humanity, and an insane destructiveness at a time when the world was out of joint. This ruthless, honest, and touching real-life account of a simple frontline soldier serves as a reminder to stand up for peace at all times, and to despise war. Until the eyes shut..."--

Lady Death - Lyudmila Mykhailvna Pavlichenko 2018-09-05

"Arguably the finest account of sniping during World War II." – Adrian Gilbert, author of Challenge of Battle. "Undoubtedly literature's most remarkable account of sniper action." – Charles W. Sasser, former US Army Special Forces soldier and author of One Shot-One Kill Lyudmila Pavlichenko was one of the most successful – and feared – female snipers of all time. When Hitler launched Operation Barbarossa in June 1941 she left her university studies to join the Red Army. Ignoring offers of positions as a nurse she became part of Soviet Russia's elite group of female snipers. Within a year she had 309 confirmed kills, including 29 enemy sniper kills. Renowned as the scourge of German soldiers, she was regarded as a key heroic figure for the war effort and, in 1942, on Stalin's personal orders, she travelled as part of a Soviet delegation to the West, fundraising in Canada, Great Britain and the USA. Dubbed 'Lady Death', she spoke out about gender equality in the Red Army and made the case for the USA to continue the fight against the Nazis in Europe. The folk singer Woody Guthrie wrote a song about her exploits – 'Miss Pavlichenko' – and she visited the White House, where she formed an unlikely but long-lasting friendship with Eleanor Roosevelt. In November 1942 she visited Coventry and accepted donations of £4,516 from Coventry workers to pay for three X-ray units for the Red Army. She also visited a Birmingham factory as part of her fundraising tour.

Mortar Gunner on the Eastern Front. Volume II - Hans Heinz Rehfeldt 2019-10-30

Returning to his old unit, the grenade launcher, in May 1944, he experienced the heavy defensive battles in Romania as a platoon commander and from August 1944 in East Prussia and Lithuania. After being transferred by ship from Memel to Königsberg in late 1944, he took part in the battles for Ostprussen in the winter of 1944/1945. Constantly exposed to the attacks of Russian bombers and fighter planes and severely wounded by shrapnel on the leg, he manages, with the help of a Russian volunteer and a horse-drawn vehicle from Balga to Rosenberg, from there by ship transport via Pillau to ?winouj?cie and by train to Schwerin. Fleeing the impending Russian imprisonment to the west, he falls into American captivity on 3 May 1945 and is released in July 1945 in the home. Memories of a corporal and platoon commander in the grenade launcher 1943-1945

At Hitler's Side - Nicolaus von Below 2010-11-30

"An intimate glimpse into the decision-making process of the Nazi military leadership" from a Luftwaffe aide at Hitler's side until the last days in Berlin (Library Journal). Nicolaus von Below was a 29-year-old pilot when Goering selected him for the position of Hitler's Luftwaffe adjutant. He was with Hitler at every stage as the Second World War unfolded. His observations tell of Hitler's responses to momentous events as well as military decisions and policy-making at headquarters. Published for the first time in English, this is a superb historical source describing life in Hitler's inner circle, relied upon by Gitta Sereny in her biography of Albert Speer. The book provides fascinating insight into how Hitler planned the invasions of Poland and Russia; what he thought of Britain and America; why he placed his faith in the V-1 and V-2 projects; how others dealt with him; and much more. Von Below was present at the assassination attempt in July 1944, and records the effect on Hitler and his followers. He was also the last of Hitler's close military entourage to emerge from the bunker alive, eventually imprisoned as a material witness at Nuremberg.

"Sure to become an important memoir for those studying the Nazi war machine."—Publishers Weekly

"Indispensable."—Ian Kershaw, author of Hitler: A Biography

Red Army Sniper - Yevgeni Nikolaev 2017-11-30

'I did not regard myself as a slacker. Even in childhood I taught myself to carry out tasks entrusted conscientiously and carefully. In war, it is no secret that the casual don't survive'. Yevgeni Nikolaev was one of Russia's leading snipers of World War II and his memoir provides an unparalleled account of front-line

action in crucial theaters of war. Nikolaev is credited with a remarkable 324 kills and his wartime service included time in the siege of Leningrad in 1941/1942. His memoir is not a neutral, apolitical account. Far from it. Nikolaev asserts, for example, that Finland attacked Russia. As a member of the NKVD, it is not surprising that his memoir full of historical misinterpretation and justification of the agency's actions. Equally, Nikolaev is dismissive of his Nazi opponents. On several occasions, he discusses his Nazi counterparts as bandits and scum, and implores the reader to take a look, fellows, at the beast of a bastard I've laid low. In vivid, arresting recollections he paints his actions in a saintly heroic light. He describes the comfort of the German foxholes, wired with telephone connections, relative to the Russians who fasted without food or water awaiting the moment for a perfect shot. He claims the Russian soldier was a moral warrior, killing only with head or heart shots. In addition to describing details of his kills, Nikolaev explains how his life was saved when an explosive rifle bullet struck a watch that he kept in his jacket pocket. His life was saved by a surgeon who extracted all the watch parts.

At Leningrad's Gates - William Lubbeck 2006-11-30

"A first-rate memoir" from a German soldier who rose from conscript private to captain of a heavy weapons company on the Eastern Front of World War II (City Book Review). William Lubbeck, age nineteen, was drafted into the Wehrmacht in August 1939. As a member of the 58th Infantry Division, he received his baptism of fire during the 1940 invasion of France. The following spring, his division served on the left flank of Army Group North in Operation Barbarossa. After grueling marches amid countless Russian bodies, burnt-out vehicles, and a great number of cheering Baltic civilians, Lubbeck's unit entered the outskirts of Leningrad, making the deepest penetration of any German formation. In September 1943, Lubbeck earned the Iron Cross First Class and was assigned to officers' training school in Dresden. By the time he returned to Russia, Army Group North was in full-scale retreat. In the last chaotic scramble from East Prussia, Lubbeck was able to evacuate on a newly minted German destroyer. He recounts how the ship arrived in the British zone off Denmark with all guns blazing against pursuing Russians. The following morning, May 8, 1945, he learned that the war was over. After his release from British captivity, Lubbeck married his sweetheart, Anneliese, and in 1949, immigrated to the United States where he raised a successful family. With the assistance of David B. Hurt, he has drawn on his wartime notes and letters, Soldatbuch, regimental history, and personal memories to recount his four years of frontline experience. Containing rare firsthand accounts of both triumph and disaster, *At Leningrad's Gates* provides a fascinating glimpse into the reality of combat on the Eastern Front.

[800 Days on the Eastern Front](#) - Nikolai Litvin 2007

Litvin's stark, candid memoir focuses on his more than two years of service in the Red Army during its war with Germany. War Story - Steven V. Elliott 2019

"Everyone knows about Pat Tillman, the hero who didn't come home after a tragic encounter with friendly fire in Afghanistan. Aftermath is the untold story of what happened in the accident's wake—and the fall and unlikely redemption of Steven Elliot, a fellow soldier behind the bullets that killed Tillman. Though Elliott was only a young man in his first gunfight, following his superior officer's direction, the shame and regret over his actions wrecked his life. In the years that followed, he suffered from PTSD, depression, and alcohol addiction—and saw no way out beyond suicide. But then a supernatural encounter with God changed everything, restored his broken marriage, and set him on the path to a new mission of helping veterans through the trauma that too often comes in the aftermath of their service. A story of war and faith, love and tragedy, and ultimate healing"—

[One Soldier's War](#) - Arkady Babchenko 2009-02-17

A visceral and unflinching memoir of a young Russian soldier's experience in the Chechen wars. In 1995, Arkady Babchenko was an eighteen-year-old law student in Moscow when he was drafted into the Russian army and sent to Chechnya. It was the beginning of a torturous journey from naïve conscript to hardened soldier that took Babchenko from the front lines of the first Chechen War in 1995 to the second in 1999. He fought in major cities and tiny hamlets, from the bombed-out streets of Grozny to anonymous mountain

villages. Babchenko takes the raw and mundane realities of war—the constant cold, hunger, exhaustion, filth, and terror—and twists it into compelling, haunting, and eerily elegant prose. Acclaimed by reviewers around the world, this is a devastating first-person account of war that brilliantly captures the fear, drudgery, chaos, and brutality of modern combat. An excerpt of *One Soldier's War* was hailed by Tibor Fisher in *The Guardian* as "right up there with Joseph Heller's *Catch-22* and Michael Herr's *Dispatches*." Mark Bowden, bestselling author of *Black Hawk Down*, hailed it as "hypnotic and terrifying" and the book won Russia's inaugural Debut Prize, which recognizes authors who write despite, not because of, their life circumstances. "If you haven't yet learned that war is hell, this memoir by a young Russian recruit in his country's battle with the breakaway republic of Chechnya, should easily convince you." —Publishers Weekly

[Red Sniper on the Eastern Front](#) - Joseph Pilyushin 2010-03-19

Joseph Pilyushin, a top Red Army sniper in the ruthless fight against the Germans on the Eastern Front, was an exceptional soldier and has a remarkable story to tell. His firsthand account of his wartime service gives a graphic insight into his lethal skill with a rifle and into the desperate fight put up by Soviet forces to defend Leningrad. He also records how, during the three-year siege, close members of this family died, including his wife and two sons, as well as many of his comrades in arms. He describes these often-terrible events with such honesty and clarity that his memoir is remarkable. Pilyushin, who lived in Leningrad with his family, was already 35 years old when the war broke out and he was drafted. He started in the Red Army as a scout, but once he had demonstrated his marksmanship and steady nerve, he became a sniper. He served throughout the Leningrad siege, from the late 1941 when the Wehrmacht's advance was halted just short of the city to its liberation during the Soviet offensive of 1944. His descriptions of grueling front-line life, of his fellow soldiers and of his sniping missions are balanced by his vivid recollections of the protracted suffering of Leningrad's imprisoned population and of the grief that was visited upon him and his family. His gripping narrative will be fascinating reading for any one who is keen to learn about the role and technique of the sniper during the Second World War. It is also a memorable eyewitness account of one man's experience on the Eastern Front.

LOST HONOUR, BETRAYED LOYALTY - HERBERT. MAEGER 2019

[Avenging Angels](#) - Lyuba Vinogradova 2017-05-09

A gripping account of the Soviet female sniper corps of WWII. Beginning in 1942, with the Eastern Front having claimed the lives of several million Soviet soldiers, Stalin's Red Army began drafting tens of thousands of women, most of them in their teens or early twenties, to defend against the Nazi invasion. Some volunteered, but most were given no choice, in particular about whether to become a sniper or to fill some other combat role. After a few months of brutal training, the female snipers were issued with high-powered rifles and sent to the front. Almost without exception, their first kill came as a great shock, and changed them forever. But as the number of kills grew, many snipers became addicted to their new profession, some to the point of becoming depressed if a "hunt" proved fruitless. Accounts from the veterans of the female sniper corps include vivid descriptions of the close bonds they formed with their fellow soldiers, but also the many hardships and deprivations they faced: days and days in a trench without enough food, water, or rest, their lives constantly at risk from the enemy and from the cold; burying their friends, most of them yet to leave their teenage years; or the frequent sexual harassment by male officers.

Although many of these young women were killed, often on their first day of combat, the majority returned from the front, only to face the usual constellation of trials with which every war veteran is familiar. Some continued their studies, but most were forced to work, even as they also started families or struggled to adjust to life as single parents. Nearly all of them were still in their early twenties, and despite the physical and mental scars left by the war, they had no time for complaints as the Soviet Union rebuilt following the war. Drawing on original interviews, diaries, and previously unpublished archival material, historian Lyuba Vinogradova has produced an unparalleled quilt of first-person narratives about these women's lives. This fascinating document brings the realities and hardships faced by the Red Army's female sniper corps to life, shedding light on a little-known aspect of the Soviet Union's struggles against Hitler's war machine.

Notes of a Russian Sniper - Vassili Zaitsev 2016-11-30

'As a sniper, I've killed more than a few Nazis. I have a passion for observing enemy behaviour. You watch a Nazi officer come out of a bunker, acting all high and mighty, ordering his soldiers every which way, and putting on an air of authority. The officer hasn't got the slightest idea that he only has seconds to live.' Vassili Zaitsev's account of the hell that was Stalingrad is moving and harrowing. This was a battle to the death - fighting street by street, brick by brick, living like rats in a desperate struggle to survive. Here, the rules of war were discarded and a psychological war was being waged. In this environment, the sniper was king - an unseen enemy who frayed the nerves of brutalised soldiers. Zaitsev volunteered to fight at Stalingrad in 1942. His superiors recognized quickly his talent, and made him a sniper. He adapted his hunting skills to the ruins of the city, watching his prey with nerves of steel. In his first 10 days, Zaitsev killed 40 Germans. He achieved at least 225 kills and the tactics he developed are still being studied. Zaitsev was used a symbol of Russian resistance against the Nazis. His exploits, including a famous 'duel' with a Nazi sniper, remain the stuff of legend. His account is absorbing to anyone interested in World War II and seeing how one person could survive in the most extreme of conditions.

In the Hell of the Eastern Front - Arno Sauer 2020-09-30

On 22 June 1941, German forces launched Operation Barbarossa - Hitler's invasion of the Soviet Union. Instead of the swift knockout blow that the Germans had anticipated, the war against the Soviets ground on relentlessly for almost four years. It was into this bloody theater of war that Fritz Sauer was sent. Having initially joined the ranks of the Reichsarbeitsdienst, the Reich Labour Service, Fritz was posted to Infantry Regiment No. 437 in April 1942. Part of the 132nd Infantry Division, the regiment was serving on the Eastern Front having been deployed to the Crimea. The regiment was then transferred to the region around Leningrad, where, for the first time, Fritz truly experienced the horrors of war. As well as his best friend being killed by a sniper, Fritz recalled events such as recovering the body of a fallen colleague from No Man's Land, the terrifying experience of facing a Red Army infantry attack, Soviet tank assaults, and the moment when a group of comrades in a neighboring crater were hit by a shell. He became a casualty himself when he was badly wounded in the legs during a counterattack. After his recovery and retraining in a convalescent unit, Fritz was detailed to serve as a guard in a prisoner of war camp - still on the Eastern Front. Transferred to a tank assault regiment during the last year of the war, he was ordered to make contact with another unit, but lost his way in the snow. After sheltering with a farmer's family, Fritz decided to head west, fleeing before the advancing Red Army. His subsequent journey home took many twists and turns. Based on Fritz's own recollections and narrative, this account of a young soldier's experiences in the Second World War was brought together by his son. It is a moving and graphic description of one man's involvement in the largest military confrontation in history - the Hell that was the

Eastern Front.

[Sniper on the Eastern Front](#) - Sepp Allerberger 2005

Josef "Sepp" Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honoured with the award of the Knight's Cross. An Austrian conscript, after qualifying as a machine gunner he was drafted to the southern sector of the Russian Front in July 1942. This book is a rare first-hand account by a ruthlessly efficient German sniper of life and death during the bitter conflict that followed the Nazi invasion of Russia.

Sniper on the Eastern Front - Albrecht Wacker 2008-06-15

Josef Sepp Allerberger was the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honoured with the award of the Knights Cross. An Austrian conscript, after qualifying as a machine gunner he was drafted to the southern sector of the Russian Front in July 1942. Wounded at Voroshilovsk, he experimented with a Russian sniper-rifle while convalescing and so impressed his superiors with his proficiency that he was returned to the front on his regiments only sniper specialist. In this sometimes harrowing memoir, Allerberger provides an excellent introduction to the commitment in fieldcraft, discipline and routine required of the sniper, a man apart. There was no place for chivalry on the Russian Front. Away from the film cameras, no prisoner survived long after surrendering. Russian snipers had used the illegal explosive bullet since 1941, and Hitler eventually authorised its issue in 1944. The result was a battlefield of horror. Allerberger was a cold-blooded killer, but few will find a place in their hearts for the soldiers of the Red Army against whom he fought.

The Eastern Front - Leon Degrelle 2014-08

A gripping first-person memoir of soldierly sacrifice, heroism and fierce combat against numerically superior Soviet forces during World War II, by a charismatic Belgian writer and politician turned Waffen SS front-line infantryman. In a laudatory review appearing in an official US Army Department magazine, US Army Brigadier General John C. Bahnsen wrote: "The pace of the writing is fast; the action is graphic, and a warrior can learn things from reading this book. I recommend its reading by students of the art of war. It is well worth the price." Here is the epic story of the Walloon Legion, a volunteer Belgian unit of the World War II pan-European SS force, as told by the legendary figure whose unmatched frontline combat experience and literary talent made him the premier spokesman for his fallen comrades. Captures the grit, the terror and the glory of Europe's crusade against Communism in absorbing prose. Includes fascinating first-person descriptions of Hitler, Himmler and other Third Reich personalities. Degrelle vividly describes how he and his comrades endured danger, privation and torrents of shot and shell -- on the sun-baked steppes of Ukraine, at the foothills of the Caucasus, in the depths of bone-chilling winter, through the stinking mud and the flaming hell of Cherkassy, and across the rolling plains of Estonia and the Pomeranian lake country. You'll learn what moved the 35-year-old Degrelle -- a brilliant intellectual and his country's most colorful political leader -- to enlist as a private in the volunteer legion he himself organized to join with Third Reich Germany and its allies in their titanic fight against the Bolshevik enemy."

Red Road From Stalingrad - Mansur Abdulin 1990-12-31

Mansur Abdulin fought in the front ranks of the Soviet infantry against the German invaders at Stalingrad, Kursk and on the banks of the Dnieper. This is his extraordinary story. His vivid inside view of a ruthless war on the Eastern Front gives a rare insight into the reality of the fighting and into the tactics and mentality of the Soviet army. In his own words, and with a remarkable clarity of recall, he describes what combat was like on the ground, face to face with a skilled, deadly and increasingly desperate enemy.
