The Origins of Christmas - Joseph F. Kelly
2014-10-14

When was Christmas first celebrated? How did December 25 become the date for the feast? How did the Bible's "magi from the East" become three kings named Melchior, Caspar,

and Balthasar who rode camels from three different continents to worship the newborn Christ? How did the Feast of the Nativity generate an entire liturgical season from Advent to Candlemas? Why did medieval and Renaissance artists portray Joseph as an old man? When did the first Christmas music appear? And who was the real Saint Nicholas? These and many other questions are answered in this revised and expanded edition of *The Origins of Christmas*. The story of the origins of Christmas is not well known, but it is a fascinating tale. It begins when the first Christians had little interest in Christ's Nativity, and it finishes when Christmas had become an integral part of Christian life and Western culture. *The Origins of Christmas* covers a variety of topics in a concise and accessible style, and is suitable for group discussions.

Spycatcher - Matthew Dunn 2011-08-09

"Great talent, great imagination, and real been-there done-that authenticity make this one of the year's best thriller debuts." —Lee Child "Not since Fleming charged Bond with the safety of the world has the international secret agent mystique been so anchored with an insider's reality." —Noah Boyd, New York Times bestselling author of *Agent X* and *The Bricklayer* "A real spy proves he is a real writer—and a truly deft and inventive one. *Spycatcher* is a stunning debut." —Ted Bell, New York Times bestselling author of *Warlord* A real life former field officer, Matthew Dunn makes an extraordinary debut with *Spycatcher*, a masterwork of international espionage fiction that crackles with electrifying authenticity. Fans

of Daniel Silva, Robert Ludlum, Brad Thor, and Vince Flynn will be on the edge of their seats as intelligence agent Will Cochrane—working on a joint covert mission for the CIA and MI6—sets out to capture a brilliant and ruthless Iranian spy. Timely and gripping, Spycatcher rockets the reader into a shadowy world of terrorism and counter-terrorism, and holds them in an iron grip until the last pulse-pounding page is turned.

Venture Capital and Private Equity - Josh Lerner 2000

What Explains the Recent Tremendous Growth in Private Equity Funds? How Have These Funds Created so Much Value? Can We Expect This Kind of Growth in Other Countries and Other Types of Investments? The pool of U.S. private equity funds has grown from \$5 billion in 1980 to over \$175 billion in 1999. Private equity's recent growth has outstripped that of almost every class of financial product. Whether you are an entrepreneur seeking private equity finance, a private equity investor grappling with the industry's changes, or an investor interested in private equity as a potential investment, this book is required reading! It presents a collection of real world cases-supplemented by detailed industry notes-that explore the exciting and dynamic world of venture capital and buyout

funds. The organization mirrors that of the venture capital/private equity process itself: * The first part explores the raising and structuring of private equity funds, as well as the perspective of investors. * The second part explores the selection, oversight, and adding value to firms-the 'heart' of the private equity cycle. * The third part describes how private equity groups reap attractive returns from successful investments. * The final section explores the emerging efforts to translate the private equity model into other settings, such as corporate venturing programs.

The Malay Handloom Weavers - Maznah Mohamad 1996

Malay society of the past has usually been characterized by the presence of the peasantry, a pre-modern class of producers, tied to the land and beholden to a feudalistic or feudal-like ruling structure. In contrast, this book explores the diversity which in fact colours the economic history of the Malays. The subject of this book is a relatively unknown class of people, the handloom weavers, who played a decisive role in the economies of the eastern Malay states of Terengganu, Kelantan, and Pahang. Today, the products of these handloom weavers, the beautiful hand-woven sarongs and cloths, grace the most elegant and auspicious of occasions. What is the story behind the vicissitudes, often brutal, of textile production in the early or proto-industrial phases of the Malay economy? Why was the handloom industry, at its height, halted from realizing its full potential of trans-forming into a full-fledged industrial manufacture? What exactly is the putting-out system of production and how did men and women actualize their roles in such production regimes? Why did the putting-out system endure? In answering such questions this book explores the origins of the Malay handloom industry, its technology, its people, and its turbulent relationship with the ambitions of both the colonial and modern nation-states.

The Islamic Antichrist - Joel Richardson 2009

"In 'The Islamic Antichrist', Richardson exposes Western readers to the traditions of Islam and predicts that the end times may not be far away. His book will stun readers unaware of the similarities between the Antichrist and the "Islamic Jesus." His research on the relationship between Christian end-time prophecy and Islamic expectations of world domination will shock readers and shape the debate over radical Islam for years to come. This is the book to read to understand Islam's potential role in fulfilling the prophecies of the Bible"--Page 2 of cover.

Divine Holiness and Divine Action - Mark C. Murphy 2021-02-18

Holiness is the attribute most emphatically ascribed to God in Scripture, but there has been little attention devoted to characterizing and considering the entailments of divine holiness. In *Divine Holiness and Divine Action*, Mark C. Murphy defends an account of holiness indebted to Rudolf Otto's description of the experience of the holy as that of a *mysterium tremendum et fascinans*. God's being holy consists in God's being someone with whom intimate union is both extremely desirable for us and yet something for which we—and indeed any limited beings—are unfit. This notion of divine holiness is useful for addressing disputed theological questions regarding divine action. In contrast to standard accounts of divine action that begin with assumptions regarding God's moral perfection or God's maximal love, the appeal to divine holiness supports a rival framework for explaining and predicting divine action—the holiness framework—according to which God is motivated to act in ways that are a response to God's own value by keeping distance from that which is deficient, defective, or in any way limited in goodness. This study exhibits the fruitfulness of a reorientation from the morality

and love frameworks to the holiness framework by showing how such a reorientation suggests distinct approaches to perennial problems of divine action regarding creation, incarnation, atonement, and salvation. From the treatment of these perennial problems, a general theme regarding divine action emerges: that God's interaction with the world exhibits a radical sort of humility.

**OECD Reviews of Innovation Policy
Innovation in Southeast Asia** - Organisation for Economic Co-operation and Development
2013-05-23

The Southeast Asian (SEA) region is one of the most dynamic in the world. It is in a period of transition as its national economies become strongly integrated into global knowledge networks. Science and technology (S&T) offer opportunities for countries to 'move up the value chain'. A better understanding of existing capabilities helps enhance mutually beneficial S&T and innovation co-operation between SEA and OECD countries. This review provides a quantitative and qualitative assessment of Southeast Asian countries' capacity in S&T and innovation. A regional synthesis highlights current performance and intra- and extra-regional knowledge circulation, including flows between the Southeast Asian region and the established centres of knowledge production such as the EU, Japan and the United States. The country profiles describe the dynamics of national innovation systems and their relation to international knowledge flows, taking into account the wider framework conditions for innovation. Part I Innovation in Southeast Asia: An overview Chapter 1. Economic development and performance Chapter 2. Science and technology performance and linkages Chapter 3. Business sector innovation Chapter 4. Innovation and the role of government Part II National innovation profiles Chapter 5. Cambodia Chapter 6. Indonesia Chapter 7. Malaysia Chapter 8.
