Asian Courts in Context - Jiunn-rong Yeh 2014-12-11

The rise of Asia in global political and economic developments has been facilitated in part by a profound transformation of Asian courts. This book provides the most up-to-date and comprehensive analysis of these courts, explaining how their structures differ from courts in the West and

how they have been shaped by the current challenges facing Asia. Contributors from across the continent analyze fourteen selected Asian jurisdictions representing varying degrees of development: Japan, Korea, Taiwan, India, Indonesia, Mongolia, the Philippines, Hong Kong, Singapore, Bangladesh, Malaysia, Thailand, China and Vietnam. Setting the courts of each region in the context of their country's economic, political, and social dynamics, this book shows how and why Asian courts have undergone such profound transformations in recent years and predicts the future trajectories of tradition, transition and globalization to suggest the challenges and developments that lie ahead.

The Law on Public Officers - Carlo L. Cruz 2018

Human Rights and Wrongs - Isagani A. Cruz 1998

Unplugging the Constitution - Florin T. Hilbay 2009

In this collection of articles and essays, the author confronts a wide

range of issues—constitutional theory, adjudication, legal hermeneutics, the bar exams, marriage, psychological incapacity, free speech, presidential immunity, liberalism, church and state—and takes a nonconventional and, at times, critical view of standard legal discourse and prevailing social institutions. The author approaches his subjects from an interdisciplinary perspective, articulating his positions with insights from history, economics, linguistics, and philosophy. The result is a set of views that creates novel platforms for conversation and serves as a counter-push from the pull of the mainstream.

The Lovely Bienvenido N. Santos - Isagani R. Cruz 2005

Asian Courts in Context - Jiunn-rong Yeh 2014-12-11

Analyzes courts in fourteen selected Asian jurisdictions to provide the most up-to-date and comprehensive interdisciplinary book available.

A Guide to Philippine Legal Materials - Fortunato Gupit 1993

Power, Law, and Maritime Order in the South China Sea - Tran Truong Thuy 2015-09-04

Over the last few decades there has been growing recognition of the importance of a peaceful and stable South China Sea for Indo-Pacific security and development, a recognition that has been underlain, paradoxically, by the increasingly precarious situation in this body of water that straddles critical shipping lanes from the Indian to the Pacific Ocean. This book informs its readership of the most recent developments in the South China Sea with insightful and prescient analyses from both legal and international relations perspectives. It delves into the policy perspectives and deliberations of the various relevant regional and extra-regional actors in the South China Sea dispute, the exercise of

international law in the context of the changing regional political landscape, and the promise and pitfalls of past, current, and potential initiatives to manage and settle the dispute. Written by some of the most well-known scholars and knowledgeable insiders in the fields South China Sea studies, the collection offers a wide array of diverse views that should help enrich the ongoing global discussion on conflict management and resolution in the South China Sea.

Philosophy of Education 2006 Ed. - Cecilio D. Duka 2006

Administrative Law and Governance in Asia - Tom Ginsburg 2008-10-30

This book examines administrative law in Asia, exploring the profound changes in the legal regimes of many Asian states that have taken place in recent years. Political democratization in some countries, economic change more broadly and the forces of globalization have put pressure on the developmental state model, wherein bureaucrats governed in a kind of managed capitalism and public-private partnerships were central. In their stead, a more market-oriented regulatory state model seems to be emerging in many jurisdictions, with emphases on transparency, publicity, and constrained discretion. This book analyses the causes and consequences of this shift from a socio-legal perspective, showing clearly how decisions about the scope of administrative law and judicial review have an important effect on the shape and style of government regulation. Taking a comparative approach, individual chapters trace the key developments in the legal regimes of major states across Asia, including China, Japan, Korea, Malaysia, Taiwan, Hong Kong, Indonesia, Singapore, the Philippines, Thailand and Vietnam. They demonstrate that, in many cases, Asian states have shifted away from traditional systems in which judges were limited in terms of their influence over social and economic policy, towards regulatory models of the state involving a greater role for judges and law-like processes. The book also considers whether judiciaries are capable of performing the tasks they are being given, and assesses the profound consequences the judicialization of governance is starting to have on state policy-making in Asia.

A Dictionary of Philippine English - 1995

The Making of the Constitution of Kenya - Charles O. Oyaya 2018-05-11
Kenya, like the rest of Africa, has gone through three sets of constitutional crises. The first related to the trauma of colonialism and struggle for independence. The second a period of constitutional dictatorship and the clamor for reform. The third, most recent crisis, being one of identity, legitimacy and the inability of the state to discharge its functions which has resulted in civil unrest, violent ethnic conflicts, poverty, social exclusion and inequality. The Making of the Constitution of Kenya examines the processes, issues and challenges of constitution making, governance and legitimacy in that country and the lessons that can be learned for others on the continent. Equipping the reader with a sound historical perspective on constitutional developments and the crisis of constitutional legitimacy in Kenya it gives an invaluable insight into the normative and political complexities involved in evolving a truly democratic and widely acceptable constitutional order in Africa.

Marine Protected Areas Network in the South China Sea - Vu Hai Dang 2014-01-09

Marine Protected Areas Network in the South China Sea suggests legal and political measures to support the development of a network of marine protected areas in the South China Sea. They could not only help protect the marine environment but also promote peace and cooperation between regional States.

The 1987 Constitution - Antonio G. M. La Viña 2017-11-09

Twenty-five years after its ratification, the 1987 Constitution of the Philippines has survived serious attempts to change it during several presidencies. Why were there attempts and why did they fail? What are the available options to explore Charter Change? What is a systematic way to explore and pursue it? These and more questions are examined and answered in this book.

Hague Yearbook of International Law / Annuaire de La Haye de Droit International, Vol. 33 (2020) - 2022-10-24

The aim of the Hague Yearbook of International Law is to offer a platform for review of new developments in the field of international law. In addition, it devotes attention to developments in the international law institutions based in the international City of Peace and Justice, The Hague.

The Global Expansion of Judicial Power - C Neal Tate 1997-06-01

In Russia, as the confrontation over the constitutional distribution of authority raged, Boris Yeltsin's economic program regularly wended its way in and out of the Constitutional Court until Yeltsin finally suspended that court in the aftermath of his clash with the hard-line parliament. In Europe, French and German legislators and executives now routinely alter desired policies in response to or in anticipation of the pronouncements of constitutional courts. In Latin America and Africa, courts are--or will be-- important participants in ongoing efforts to establish constitutional rules and policies protect new or fragile democracies from the threats of military intervention, ethnic conflict, and revolution. This global expansion of judicial power, or judicialization of politics is accompanied by an increasing domination of negotiating or

decision making arenas by quasi-judicial procedures. For better or for worse, the judicialization of politics has become one of the most significant trends of the end of the millennium. In this book, political scientists, legal scholars, and judges around the world trace the intellectual origins of this trend, describe its occurrence—or lack of occurrence—in specific nations, analyze the circumstances and conditions that promote or retard judicialization, and evaluate the phenomenon from a variety of intellectual and ideological perspectives.
