Transgender Rights - Paisley Currah 2006-08-18

"Transgender Rights packs a surprising amount of information into a small space. Offering spare, tightly executed essays, this slim volume nonetheless succeeds in creating a spectacular, well-researched compendium of the transgender movement." -Law Library Journal Over the past three decades, the transgender movement has gained visibility and achieved significant victories. Discrimination has been prohibited in several states, dozens of municipalities, and more than two hundred private companies, while hate crime laws in eight states have been amended to include gender identity. Yet prejudice and violence against transgender people remain all too common. With analysis from legal and policy experts, activists and advocates, Transgender Rights assesses the movement's achievements, challenges, and opportunities for future action. Examining crucial topics like family law, employment policies, public health, economics, and grassroots organizing, this groundbreaking book is an indispensable resource in the fight for the freedom and equality of those who cross gender boundaries. Moving beyond media representations to grapple with the real lives and issues of transgender people, Transgender Rights will launch a new moment for human rights activism in America. Contributors: Kylar W. Broadus, Judith Butler, Mauro Cabral, Dallas Denny, Taylor Flynn, Phyllis Randolph Frye, Julie A. Greenberg, Morgan Holmes, Bennett H. Klein, Jennifer L. Levi, Ruthann Robson, Nohemy Solórzano-Thompson, Dean Spade, Kendall Thomas, Paula Viturro, Willy Wilkinson. Paisley Currah is associate professor of political science at Brooklyn College, executive director of the Center for Lesbian and Gay Studies at the CUNY Graduate Center, and a founding board member of the Transgender Law and Policy Institute. Richard M. Juang cochairs the advisory board of the National Center for Transgender Equality (NCTE) in Washington, DC. He has taught at Oberlin College and Susquehanna University. He is the lead editor of NCTE's Responding to Hate Crimes: A Community Resource Manual and coeditor of Transgender Justice, which explores models of activism. Shannon Price Minter is legal director of the National Center for Lesbian Rights and a founding board member of the Transgender Law and Policy Institute.

Nurse Writers of the Great War - Christine Hallett 2016-02-15

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. The First World War was the first 'total war'. Its industrial weaponry damaged millions of men and drove whole armies underground into dangerously unhealthy trenches. Many were killed. Many more suffered terrible, life-threatening injuries: wound infections such as gas gangrene and tetanus, exposure to extremes of temperature, emotional trauma and systemic disease. In an effort to alleviate this suffering, tens of thousands of women volunteered to serve as nurses. Of these, some were experienced professionals, while others had undergone only minimal training. But regardless of their preparation, they would all gain a unique understanding of the conditions of industrial warfare. Until recently their contributions, both to the saving of lives and to our understanding of warfare, have remained

largely hidden from view. By combining biographical research with textual analysis, Nurse writers of the great war opens a window onto their insights into the nature of nursing and the impact of warfare.

**Long-Term Care in Europe** - Ulrich Becker 2018-03-05

This book provides a comprehensive overview on the long-term care systems in 12 EU member states and Norway. Focusing on the legal background and its main principles, it includes a comparative analysis which highlights the principal dissimilarities between European long term care benefits, but at the same time also a variety of features in common. It also discusses the increasingly transnational dimension of long-term as a result of migrants returning to their country of origin in old age, and the still-unsolved legal problem of entitlement to long-term care benefits in another EU-member state.

**Time Ages in a Hurry** - Antonio Tabucchi 2015-04-14

As the collection's title suggests, time's passage is the fil rouge of these stories. All of Tabucchi's characters struggle to find routes of escape from a present that is hard to bear, and from places in which political events have had deeply personal ramifications for their own lives. Each of the nine stories in Time Ages in a Hurry is an imaginative inquiry into something hidden or disguised, which can be uncovered not by reason but only by feeling and intuition, by what isn't said. Disquieted and disoriented yet utterly human in their loves and fears, the characters in

these vibrant and often playful stories suffer from what Tabucchi once referred to as a "corrupted relationship with history." Each protagonist must confront phantoms from the past, misguided or false beliefs, and the deepest puzzles of identity--and each in his or her own way ends up experiencing "an infinite sense of liberation, as when finally we understand something we'd known all along and didn't want to know."

**Brave New World Revisited** - Aldous Huxley 2014-01-01

When Aldous Huxley wrote his famous novel *Brave New World*, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, *Brave New World Revisited* is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. *Brave New World Revisited* condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in

*Brave New World Revisited* are still startlingly relevant, lending a chilling credibility to Aldous Huxley's unsettling predictions. **Rogue Economics** - Loretta Napoleoni 2011-01-04

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like *World of Warcraft* spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.
