Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing

care. Medication Alerts stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-

Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes.

For 2- and 4-year college-level nursing courses that cover pregnancy, birth, and the postpartum period. This package includes MyNursingLab(r) Help readers think like maternal-newborn nurses Accurate, readable, and up-to-date, Contemporary Maternal-Newborn Nursing presents pregnancy and childbirth as normal life processes with family members as co-participants in care. This text thoroughly illuminates all aspects of maternal-newborn nursing and many opportunities for nurses to make a difference in a changing healthcare environment. After introducing key concepts, it progresses through the steps of the nursing process, clearly delineating nurses' roles throughout pregnancy, labor, birth, the newborn period, and postpartum care. For each, it

presents basic theory followed by chapters on assessment and care for essentially healthy women or infants, and then by complications and treatment. Recurring themes include evidence-based practice, critical thinking, clinical decision-making, community-based care, patient and family teaching, safety, cultural competence, complementary/alternative therapies, and health promotion. This edition's significant updates include revisions reflecting the latest recommendations of AACN Baccalaureate Essentials, QSEN, the Institute of Medicine (IOM), and Healthy People 2020.

Maternal & Child Health Nursing - Adele Pillitteri 2010
Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional

teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

Maternal Newborn Nursing Care Plans - Carol J. Green
2004

Maternal Newborn Nursing Care Plans provides students with a necessary care plan reference that includes a strong nursing process approach and comprehensive coverage of maternity nursing content. The goal of the book is to provide interventions for both collaborative problems and nursing diagnoses. It emphasizes the use of standardized nursing languages, including NANDA diagnoses, NIC interventions, and NOC outcomes in each care plan. Includes over 65 of the most common normal and high risk care plans associated with maternal newborn nursing care. UNIQUE! Lists the collaborative problems or potential complications for every condition covered.

Incorporates a consistent format presentation for each content area that includes: 1) Focus on Collaborative Practice - definition, etiology, physical findings, diagnostic studies; 2) Collaborative Problems - list of collaborative problems and focus assessments; 3) Nursing Diagnosis Care Plans - list of each diagnosis, care plan for each nursing diagnosis that links NANDA, NIC, and NOC; and 4) Teaching/Collaborative Activities. Emphasizes collaboration throughout to show students how to use standardized approaches such as Critical Paths and individualized approaches (Nursing Care Plans) focusing on individualized care much the same as nurses do in practice. UNIQUE! Includes Care Plans from a wellness perspective to provide a greater emphasis on health promotion and prevention and to provide students with the necessary tools for care for areas other than just the problem. Integrates Home Care for certain interventions

to stress the importance of follow-up care. Integrates Patient Teaching Interventions for certain diagnoses to help students understand the importance of teaching the patient self-care.

Maternal Child Nursing Care - E-Book - Shannon E. Perry 2022-03-05

Master the essentials of maternity and pediatric nursing with this comprehensive, all-in-one text! Maternal Child Nursing Care, 7th Edition covers the issues and concerns of women during their childbearing years and children during their developing years. It uses a family-centered, problem-solving approach to patient

care, with guidelines supported by evidence-based practice.

New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction. Written by a team of experts led by Shannon E. Perry and Marilyn J.

Hockenberry, this book provides the accurate information you need to succeed in the classroom, the clinical setting, and on the Next Generation NCLEX-RN® examination. Focus on the family throughout the text emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues. Nursing Alerts highlight critical information that could lead to deteriorating or emergency situations. Guidelines boxes outline nursing procedures in

an easy-to-follow format. Evidence-Based Practice boxes include findings from recent clinical studies. Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step-by-step interventions. Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes highlight important information nurses need to communicate to patients and families. Cultural Considerations boxes describe beliefs and practices relating to pregnancy, labor and birth, parenting, and women's health. Family-Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family-centered care.

Elizabeth J. Dickason 1998

Hundreds of full-color illustrations highlight the most current, essential information on normal and high-risk maternity nursing. This new third edition has been completely updated with expanded coverage of maternal/newborn home care, reality-based nursing planning/intervention and family involvement in nursing care. Features thorough discussions of complications, unique Warning Signs to alert you to potential problems, and cultural considerations. A new chapter on the socially high-risk client keeps you up to date on timely issues such as homelessness, AIDS and abuse. Teaching Plans for Home Care boxes and expanded content on

home care for the mother and newborn stresses understanding the role of home care in the overall nursing care. Care Maps and Decision Trees are examples of clinical, collaborative tools to introduce students to care implementation in the clinical environment. Warning Signs boxes alert students to potential problems. Answers to Test Yourself and Clinical Decision boxes at the end of the book help students evaluate their learning and application of critical thinking

skills. Research boxes highlight selected studies applying research to today's nursing practice. New Chapter on the Socially High Risk Client addresses abuse, homelessness, drugs, and AIDS to keep the student informed and up-to-date on the latest issues affecting nursing care. A reorganised Chapter 26, The Childbearing Family At Psychological Risk, addresses important care concerns such as preterm defects, death, loss, and grief.
