*Mr. Democrat* - Daniel Mark Scroop 2009-01-20

Mr. Democrat tells the story of Jim Farley, Franklin D. Roosevelt's campaign manager. As party boss, Farley experienced unprecedented success in the New Deal years. And like his modern counterpart Karl Rove, Farley enjoyed unparalleled access and power. Unlike Rove, however, Farley was instrumental in the creation of an overwhelming new majority in American politics, as the emergence of the New Deal transformed the political landscape of its time. Mr. Democrat is timely and indispensable not just because Farley was a fascinating and unduly neglected figure, but also because an understanding of his career advances our knowledge of how and why he revolutionized the Democratic Party and American politics in the age of the New Deal. Daniel Scroop is Lecturer in American History, University of Liverpool School of History.

**Alan Brinkley** - David Greenberg 2019-01-08

Few American historians of his generation have had as much influence in both the academic and popular realms as Alan Brinkley. His debut work, the National Book Award-winning *Voices of Protest*, launched a storied career that considered the full spectrum of American political life. His books give serious and original treatments of populist dissent, the role of mass media, the struggles of liberalism and conservatism, and the powers and limits of the presidency. A longtime professor at Harvard University and Columbia University, Brinkley has shaped the field of U.S. history for generations of students through his textbooks and his mentorship of some of today's foremost historians. *Alan Brinkley: A Life in History* brings together essays on his major works and ideas, as well as personal reminiscences from leading historians and thinkers beyond the academy whom Brinkley collaborated with, befriended, and influenced. Among the luminaries in this volume are the critic Frank Rich, the journalists Jonathan Alter and Nicholas Lemann, the biographer A. Scott Berg, and the historians Eric Foner and Lizabeth Cohen. Together, the seventeen essays that form this book chronicle the life and thought of a working historian, the development of historical scholarship in our time, and the role that history plays in our public life. At a moment when Americans are pondering the plight of their democracy, this volume offers a timely overview of a consummate student—and teacher—of the American political tradition.

**John F. Kennedy** - Alan Brinkley 2012-05-08

The young president who brought vigor and glamour to the White House while he confronted cold war crises abroad and calls for social change at home John Fitzgerald Kennedy was a new kind of president. He redefined how Americans came to see the nation's chief executive. He was forty-three when he was inaugurated in 1961—the youngest man ever elected to the office—and he personified what he called the "New Frontier" as the United States entered the 1960s. But as Alan Brinkley shows in this incisive and lively assessment, the reality of Kennedy's achievements was much more complex than the legend. His brief presidency encountered significant failures—among them the Bay of Pigs fiasco, which cast its shadow on nearly every national-security decision that followed. But Kennedy also had successes, among them the Cuban Missile Crisis and his belated but powerful stand against segregation. Kennedy seemed to live on a knife's edge, moving from one crisis to another—Cuba, Laos, Berlin, Vietnam, Mississippi, Georgia, and Alabama. His controversial public life mirrored his hidden private life. He took risks that would seem reckless and even foolhardy when they emerged from secrecy years later. Kennedy's life, and his violent and sudden death, reshaped our view of the presidency. Brinkley gives us a full picture of the man, his times, and his enduring legacy.

American History - Alan Brinkley 2006-01-01

**Borneo in the Cold War, 1950-1990** - Keat Gin Ooi 2019-08-22

Although by about 1950 both British Borneo, including the protected sultanate of Brunei, and Indonesian Borneo seemed settled under their different regimes and well on the way to post-war reconstruction and economic development, the upheavals which affected Southeast and East Asia during the Cold War period also deeply affected Borneo. Besides the impact of the Korean and Vietnam Wars and the Malayan Emergency and communist uprisings in other Southeast Asian states, there was within Borneo the attempted communist takeover of Sarawak from the 1950s, a failed coup d'état in Brunei in 1962, Sukarno's Konfrontasi (confrontation) with Malaysia, and the horrific purge of Leftists and ethnic Chinese in the late 1960s. This book details these momentous events and assesses their impact on Borneo and its people. It is a sequel to the author's earlier books *The Japanese Occupation of Borneo, 1941-1945* (2011) and *Post-War Borneo, 1945-1950: Nationalism, Empire, and State-Building* (2013), collectively a trilogy.

The Publisher - Alan Brinkley 2011-04-05

Acclaimed historian Alan Brinkley gives us a sharply realized portrait of Henry Luce, arguably the most important publisher of the twentieth century. As the founder of *Time*, *Fortune*, and *Life* magazines, Luce changed the way we consume news and the way we understand our world. Born the son of missionaries, Henry Luce spent his childhood in rural China, yet he glimpsed a milieu of power altogether different at Hotchkiss and later at Yale. While working at a Baltimore newspaper, he

and Brit Hadden conceived the idea of *Time*: a "news-magazine" that would condense the week's events in a format accessible to increasingly busy members of the middle class. They launched it in 1923, and young Luce quickly became a publishing titan. In 1936, after *Time*'s unexpected success—and Hadden's early death—Luce published the first issue of *Life*, to which millions soon subscribed. Brinkley shows how Luce reinvented the magazine industry in just a decade. The appeal of *Life* seemingly cut across the lines of race, class, and gender. Luce himself wielded influence hitherto unknown among journalists. By the early 1940s, he had come to see his magazines as vehicles to advocate for America's involvement in the escalating international crisis, in the process popularizing the phrase "World War II." In spite of Luce's great success, happiness eluded him. His second marriage—to the glamorous playwright, politician, and diplomat Clare Boothe—was a shambles. Luce spent his later years in isolation, consumed at times with conspiracy theories and peculiar vendettas. The Publisher tells a great American story of spectacular achievement—yet it never loses sight of the public and private costs at which that achievement came.

**The Age of Reform** - Richard Hofstadter 2011-12-21

Winner of the Pulitzer Prize in Non-Fiction. This book is a landmark in American political thought. Preeminent Richard Hofstadter examines the passion for progress and reform that colored the entire period from 1890 to 1940 with startling and stimulating results. *The Age of Reform* searches out the moral and emotional motives of the reformers the myths and dreams in which they believed, and the realities with which they had to compromise.

**The Dumbest Generation Grows Up** - Mark Bauerlein 2022-02-01

From *Stupefied Youth to Dangerous Adults* Back in 2008, Mark Bauerlein was a voice crying in the wilderness. As experts greeted the new generation of "Digital Natives" with extravagant hopes for their high-tech future, he pegged them as the "Dumbest Generation." Today, their future doesn't look so bright, and their present is pretty grim. The twenty-somethings who spent their childhoods staring into a screen are lonely and purposeless, unfulfilled at work and at home. Many of them are even suicidal. *The Dumbest Generation Grows Up* is an urgently needed update on the Millennials, explaining their not-so-quiet desperation and, more important, the threat that their ignorance poses to the rest of us. Lacking skills, knowledge, religion, and a cultural frame of reference, Millennials are anxiously looking for something to fill the void. Their mentors have failed them. Unfortunately, they have turned to politics to plug the hole in their souls. Knowing nothing about history, they are convinced that it is merely a catalogue of oppression, inequality, and hatred. Why, they wonder, has the human race not ended all this injustice before now? And from the depths of their ignorance rises the answer: Because they are the first ones to care! All that is needed is to tear down our inherited civilization and replace it with their utopian aspirations. For a generation unacquainted with the constraints of human nature, anything seems possible. Having diagnosed the malady before most people realized the patient was sick, Mark Bauerlein surveys the psychological and social wreckage and warns that we cannot afford to do this to another generation.
