Maidasani 2007

Computer Networks - Ajit  
Kumar Singh 2012-03  
This is one of the best Study  
Materials for CS-09 "  
Networking" MCA III Semester  
Students. In this book, question  
papers of the previous year  
exams as well as their solutions  
have been given. In this book,  
you can also identify the  
problems and their  
solutions. All things are as per  
the Syllabus. No other Study  
Material can give you more  
perfect idea about the  
examination, the problems one  
faces in the exam, questions  
pattern etc., than this one.  
There are three question paper  
sets in this book which are also  
important and according to the  
examination pattern. Every  
effort has been made to make  
the book simple and error-free.  
I welcome any constructive  
criticism of the book and will

be grateful for any honest  
appraisal from the readers.  
**Golden Sequences and**

**Infinite Series** - N. P. Bali  
2007
