Who Are You, Really? - Brian R. Little

2017-08-15

"Traditionally, scientists have emphasized what they call the first and second natures of personality--genes and culture, respectively. But today the field of personality science has moved well beyond the nature vs. nurture debate. In *Who Are You, Really?* Dr. Brian Little presents a distinctive view of how personality shapes our lives--and why this matters. Little makes the

case for a third nature to the human condition--the pursuit of personal projects, idealistic dreams, and creative ventures that shape both people's lives and their personalities. Little uncovers what personality science has been discovering about the role of personal projects, revealing how this new concept can help people better understand themselves and shape their lives"--Provided by publisher.

Project 3 - David Newbold 2000

Project brings English to life through motivating topics within a structured learning environment. It provides a clearly-structured, supportive framework of grammar with the flexibility to allow students to make their own discoveries. Language is presented in stimulating, realistic contexts. A high profile is given to skills development from the start of the course. Cross-curricular project work encourages students to communicate in English about their own lives and experiences. The strong cultural element helps students to establish a connection between

language and life. Students are encouraged to learn about life in Britain and other English-speaking countries, as well as to explore differences and draw comparisons with their own cultures. Strong emphasis is placed on learner independence: students are encouraged to think about their own learning and reflect on their progress. The course is enriched by numerous songs, games, and puzzles which make language learning fun. The fifth level, Project Plus, is a revision level with the emphasis on skills extension, in particular reading and speaking.

The Balkan Wars from Contemporary Perception to Historic Memory - Katrin Boeckh 2017-01-10

This book explores the historical role of the Balkan Wars. In Eastern Europe, the two Balkan Wars of 1912/13 had greater importance than the First World War for the construction of nations and states. This volume shows how these "short" wars profoundly changed the sociopolitical situation in the Balkans, with

consequences that are still felt today. More than one hundred years later, the successors of the belligerent states in Southeastern Europe memorialize the wars as heroic highlights of their respective pasts. Furthermore, the metaphor that the Balkans were Europe's "powder keg", perpetuated at the beginning of the twentieth century in the face of these wars, was reactivated in both the West and the East up through the Yugoslav wars of the 1990s. The authors entangle the hitherto exclusive national master narratives and analyse them cogently and trenchantly for an international readership. They make an indispensable contribution to the proper integration of the Balkan Wars into the European historical memory of twentieth-century warfare.

The Visegrad Four and the Western Balkans

- Adam Bence Balazs 2020-08-13

Der Westbalkan und die Visegrad-Gruppe sind zwei Makroregionen innerhalb eines größeren osteuropäischen Raums. Geografisch und

historisch nahe beieinander weisen beide Regionen sowohl auf makroregionaler als auch auf nationaler Ebene vergleichbare Merkmale auf. Kommt man zur Frage der Identität, scheint die nationale Ebene jedoch unumstößlich: Politisch gesehen bedeutet Identität zuallererst nationale Identität. Die aus den Regionen stammenden AutorenInnen untersuchen, auf welche Weise das Gefühl der Zugehörigkeit zu einer Region die Unzulänglichkeiten und Blockaden der nationalen Identität überwinden könnte - oder auch nicht. Die Vielfalt der Fallstudien konzentriert sich auf Identitätsaspekte und deren politischen (Missbrauch) durch Akteure in den untersuchten Regionen. Mit Beiträgen von Adam Bence Balazs, Adam Balcer, Ladislav Cabada, Ondřej Daniel, Kinga Anna Gajda, Kamil Glinka, Christina Griessler, Adis Maksic, Jovana Mihajlović Trbovc, Ešref Kenan Rašidagić, Andrea Schmidt, Tamara Trošt, Robert Wiszniowski, Nikola Zečević.

As the Romans Did - Jo-Ann Shelton 1998
Revised to include new selections and updated bibliographical material, the second edition of this popular sourcebook offers a rich, revealing look at everyday Roman life. It provides clear, lively translations of a fascinating array of documents drawn from Latin and Greek source material--from personal letters, farming manuals, medical texts, and recipes to poetry, graffiti, and tombstone inscriptions. Each selection has been translated into readable, contemporary English. This edition includes more than 50 additional selections that introduce new topics and expand coverage of existing topics. In addition, the commentary on all the selections has been revised to reflect the recent scholarship of social and cultural

historians. Extensive annotations, abundant biographical notes, maps, appendices, cross-references to related topics, and a newly-updated bibliography provide readers with the historical and cultural background material necessary to appreciate the selections. Arranged thematically into chapters on family life, housing, education, entertainment, religion, and other important topics, the translations reveal the ambitions and aspirations not only of the upper class, but of the average Roman citizen as well. They tell of the success and failure of Rome's grandiose imperialist policies and also of the pleasures and hardships of everyday life. Wide-ranging and lively, the second edition of *As the Romans Did* offers the most lucid account available of Roman life in all its diversity. Ideal for courses in Ancient Roman History, Social History of Rome, Roman Civilization, and Classics, it will also appeal to readers interested in ancient history.

Confessionalization on the Frontier - Antal Molnár 2021-02-22T11:50:00+01:00

This book presents a lesser-known chapter of the cultural history of the Ottoman Balkans, the world of its Catholic communities and institutions. Alongside Orthodox Christians, Muslims and Jews, Catholics lived in nearly every area of the Balkan Peninsula in the 16th and 17th centuries. The great religious revolution of the early modern age, confessionalization, did not leave the Balkan Catholics untouched. Unlike the Christian confessional states of Europe, the Ottoman Empire, with Islam as its state religion, neither assisted nor impeded the formation of denominations, but put many obstacles in the way of their institutional growth. The confessionalization of Catholics in the European frontier regions of the Ottoman Empire thus resulted in a peripheral and unestablished

Catholicism. This book explores the peculiarities of this local Catholic confessionalization in the Balkans through a micro-analytical approach. The prime objective of the book is to contribute – through an exploration of the history of the Balkan Catholics – to the renewal of research into the early modern Mediterranean world.

Enhancing Quality in Assessment - Wynne Harlen 1994-07-28

This challenging book is essential reading for teachers, teacher-educators, policymakers, and all those involved in the assessment of pupils and students. Its publication is motivated by the contributors' concern at the accelerating return to formal assessment procedures in National Tests and examinations, and at the downgrading over recent years of assessments made by teachers. The contributors believe that formal assessment is the reverse of what is needed for the valid assessment of progress in abilities, such as solving problems, handling information, and being adaptable, interactive and reflective.

Nationhood and Politicization of History in School Textbooks - Gorana Ognjenović 2020-02-15

This book explores how school history textbooks are used to perpetuate nationalistic policies within divided regions. Exploring the 'divide and rule' politics across ex-Yugoslav successor states, the editors and contributors draw upon a wide range of case studies from across the region. Textbooks and other educational media provide the foundations upon which the new generation build understanding about their own

context and the events that are creating their present. By promoting nationalistic politics in such media, textbooks themselves can be used as tools to further promote and preserve ongoing hostility between ethnic groups following periods of conflict. This edited collection will appeal to scholars of educational media, history education and post-conflict societies.

Europeanisation and Memory Politics in the Western Balkans - Ana Milošević 2021-10-30

This volume explores how the process of European integration has influenced collective memory in the countries of the Western Balkans. In the region, there is still no shared understanding of the causes (and consequences) of the Yugoslav wars. The conflicts of the 1990s

but also of WWII and its aftermath have created "ethnically confined" memory cultures. As such, divergent interpretations of history continue to trigger confrontations between neighboring countries and hinder the creation of a joint EU perspective. In this volume, the authors examine how these "memory wars" impact the European dimension - by becoming a tool to either support or oppose Europeanisation. The contributors focus on how and why memory is renegotiated, exhibited, adjusted, or ignored in the Europeanisation process.

Textbook Quality - Slobodanka Antic 2013-12-11

This book is about textbooks, textbook quality and quality standards of textbooks. From a theoretical point of view, in the light of Bahtin's theory of speech genres, school textbooks are seen as a specific, complex genre, defined by the addressee. At the same time, this approach requires us to see textbooks as a cultural

product. From an educational point of view, textbooks are, according to Vygotsky's theory of cultural development, a key socio-cultural aid to cognitive development in school years. Forty-three quality standards are operationally defined and explained. They can be used for compiling textbooks, for textbook accreditations, for textbook evaluation and for selection by teachers.

The Slavic Akathistos Hymn - Antonina
Filonov Gove 1988

This work offers a detailed analysis of the Slavic translation of a sixth-century Greek liturgical poem that is representative of the poetic genius of the best of the Byzantine melodies. The immediate goal has been to discover to what degree the poetic elements of the original text were reproduced in the translation. The analysis illuminates the question of the quality of the Slavic translations of Byzantine liturgical hymns. Text engl., teilw. Griech. U. makedon. A Darkling Sea - James L. Cambias 2014-01-28

On the planet Ilmatar, under a roof of ice a kilometer thick, a team of deep-sea diving scientists investigates the blind alien race that lives below. The Terran explorers have made an uneasy truce with the Sholen, their first extraterrestrial contact: so long as they don't disturb the Ilmataran habitat, they're free to conduct their missions in peace. But when Henri Kerlerrec, media personality and reckless adventurer, ends up sliced open by curious Ilmatarans, tensions between Terran and Sholen erupt, leading to a diplomatic disaster that threatens to escalate to war. Against the backdrop of deep-sea guerrilla conflict, a new age of human exploration begins as alien cultures collide. Both sides seek the aid of the newly enlightened Ilmatarans. But what this struggle means for the natives—and the future of human exploration—is anything but certain, in *A Darkling Sea* by James Cambias.
