This Book Is Not Yet Rated - Peter Bognanni 2019-04-09

In this enormously funny, smart, and moving contemporary YA novel, fighting for the thing you love doesn't always turn out like in the movies. "Hilarious, big-hearted, poignant...An unadulterated triumph." --Jeff Zentner, author of The Serpent King Movies have always helped Ethan Ashby make sense of the world. So when developers swoop in and say

the classic Green Street Cinema is going to be destroyed to make room for luxury condos, Ethan is ready for battle. And so a motley crew of cinema employees comes together to save the place they love: There's Sweet Lou, the elderly organist with a penchant for not-so-sweet language; Anjo, the too-cool projectionist; Griffin and Lucas who work concessions, if they work at all; and Ethan, their manager (who can barely manage his own life). Still, it's going to take a movie miracle for the Green Street to have a happy ending. And when Raina Allen, Ethan's oldest friend (and possible soul mate?), comes back to town after working in Hollywood--cue lights and music--it seems that miracle may have been delivered. But life and love aren't always like in the movies. *This Book is Not Yet Rated* is about growing up, letting go, and realizing love hides in plain view--in the places that shape us, the people who raise us, the first loves who leave us, and the

lives that fade in and fade out all around us. "A beautifully written look at first love and first loss." --Julie Buxbaum, author of *What to Say Next* "Film aficionados and fans of John Green will especially like this one." --Booklist, starred review "It pulls you in, holds you...A funny and moving winner." --Adi Alsaid, author of *Never Always Sometimes* "I cannot get over how much I love this book." --Jared Reck, author of *A Short History of the Girl Next Door* "[A] sweet love story with a quest at its heart." --PW "Reel[s] you in...Absorbing...quirky and fun." --VOYA

[Finding It](#) - Valerie Bertinelli
2009-10-06

Welcome back to chez

Bertinelli, where life is as crazy and comical as ever. In revealing talks with her longtime boyfriend, Tom, Valerie gets even more personal about her inner worries: her maternal anxieties about her son, Wolfie (he's fallen in love and, as she writes, "getting your sex talk from Eddie Van Halen wasn't recommended in any of the parenting books I read"); the challenges of dealing with a blended family; her mother's own new diet adventure; and a craving for a deeper relationship with a Higher Power ("I have experienced days of inner peace and connectedness with a larger spirit -- twice," she writes. "Why not more often?"). And as if these everyday challenges weren't enough, Valerie is working to maintain her own very public weight loss. She even gets to thinking she might kick it up a notch, shed more weight and get so buff she can wear a bikini -- in public. In this new, inspiring memoir from the beloved actress and author of the bestseller *Losing*

It, Valerie tells the story of what happens after you change your life. It's not all peaches and cream, or even non-fat yogurt. In *Finding It*, Valerie comes face-to-face with hard questions of family, faith, and beachwear, and realizes that she's hungering for another transformation -- to become better, not just thinner. Forget the scale; the real change is happening inside, and Valerie realizes that this is the part of dieting that no one ever talks about -- the reality of keeping the pounds off. Dieting fixes one problem, she discovers, but to maintain that weight loss, she has to work on everything else -- all the reasons she got fat in the first place. Warm and friendly, honest and self-aware -- like a talk with your BFF -- *Finding It* tells of the common worries and frustrations, the funny and fabulous moments in Valerie's publicly private life. Humorous and humble, it is also the emotional story of family and the deep bonds and patterns that persist through generations: for as Valerie transitions to her latest role of

motherhood with an increasingly independent son, she connects with her own mother in a profound new way. With the same winning wit and candor that touched several generations of fans in *Losing It*, *Finding It* is an optimistic story for trying times. It's about believing in love and happiness, having faith that both are possible, and finding out that God does want you to enjoy life's desserts -- even when you're on a diet.

A Perfect Union of Contrary Things - Maynard James

Keenan 2018-10-01

A Perfect Union of Contrary Things is the authorized biography of musician and vintner Maynard James Keenan. Co-author Sarah Jensen's 30-year friendship with Keenan gives her unique insight into his history and career trajectory. The book traces Keenan's journey from his Midwest childhood to his years in the Army to his time in art school, from his stint at a Boston pet shop to his place in the international spotlight and his influence on contemporary

music and regional winemaking. A comprehensive portrayal of a versatile and dedicated artist, *A Perfect Union of Contrary Things* pays homage to the people and places that shaped the man and his art. Until now, Maynard's fans have had access to only an abridged version of his story. *A Perfect Union of Contrary Things* presents the outtakes, the scenes of disappointment and triumph, and the events that led him to take one step after the next, to change direction, to explore sometimes surprising opportunities. Included are sidebars in his own words, often humorous anecdotes that illuminate the narrative, as well as commentary by his family members, friends, instructors, and industry colleagues. The book also features a foreword by Alex Grey, an American visionary artist and longtime friend of Keenan.

Accompanying the text are photos of Keenan from childhood to the present. Maynard's story is a metaphor

for the reader's own evolution and an encouragement to follow one's dreams, hold fast to individual integrity, and work ceaselessly to fulfill our creative potential.

specialists consider type 2 diabetes to be a chronic and progressive disease—a life sentence with no possibility of parole. But the truth, as Dr. Fung reveals in this paradigm-shifting book, is that type 2 diabetes is reversible. Writing with clear, persuasive language, he explains why conventional treatments that rely on insulin or other blood-glucose-lowering drugs can actually exacerbate the problem, leading to significant weight gain and even heart disease. Computer Applications in

Food Technology - R. Paul Singh 1996-08-12

The Institute of Food Technologists (IFT) recently endorsed the use of computers in food science education. The minimum standards for degrees in food science, as suggested by IFT, "require the students to use computers in the solution of problems, the collection and analysis of data, the control processes, in addition to word processing." Because they are widely used in business, allow statistical and graphical of experimental data, and can mimic laboratory experimentation, spreadsheets provide an ideal tool for learning the important features of computers and programming. In addition, they are ideally suited for food science students, who usually do not have an extensive mathematical background. Drawing from the many courses he has taught at UC Davis, Dr. Singh covers the general basics of spreadsheets using examples specific to food science. He includes more than

50 solved problems drawn from key areas of food science, namely food microbiology, food chemistry, sensory evaluation, statistical quality control, and food engineering. Each problem is presented with the required equations and detailed steps necessary for programming the spreadsheet. Helpful hints in using the spreadsheets are also provided throughout the text. Key Features * The first book to integrate spreadsheets in teaching food science and technology * Includes more than 50 solved examples of spreadsheet use in food science and engineering * Presents a step-by-step introduction to spreadsheet use * Provides a food composition database on a computer disk

The Wish Book - Alex Lemon
2014-02-17

In his first collection since *Fancy Beasts*, a book that "slice[d] straight through nerve and marrow on its way to the heart and mind of the matter" (Tracy K. Smith), Alex Lemon dazzles us again with his exuberance and candor. Whether in unrestrained descriptions of sensory overload or tender meditations on fatherhood and mortality, Lemon blurs that nebulous line between the personal and the pop-cultural. These poems are full of frenetic energy and images pleasantly, strangely colliding: jigsaws and bathtubs and kung-fu and X-rays. It's a distinct brand of edginess that readers of Lemon will once again applaud. A lean and muscular collection, *The Wish Book* marks a new high in this

poet's unstoppable career.

[Boozehound](#) - Jason Wilson
2010-09-21

While some may wonder, “Does
the world really need another
flavored vodka?” no one

answers this question quite so memorably as spirits writer and raconteur Jason Wilson does in *Boozehound*. (By the way, the short answer is no.) A unique blend of travelogue, spirits history, and recipe collection, *Boozehound* explores the origins of what we drink and the often surprising reasons behind our choices. In lieu of odorless, colorless, tasteless spirits, Wilson champions Old World liquors with hard-to-define flavors—a bitter and complex Italian amari, or the ancient, aromatic herbs of Chartreuse, as well as distinctive New World offerings like lively Peruvian pisco. With an eye for adventure, Wilson seeks out visceral experiences at the source of production—visiting fields of spiky agave in Jalisco, entering the heavily and reverently-guarded Jägermeister herb room in Wolfenbüttel, and journeying to the French Alps to determine if mustachioed men in berets really handpick blossoms to make elderflower liqueur. In addition, *Boozehound* offers more than

fifty drink recipes, from three riffs on the Manhattan to cocktail-geek favorites like the Aviation and the Last Word. These recipes are presented alongside a host of opinionated essays that cherish the rare, uncover the obscure, dethrone the overrated, and unravel the mysteries of taste, trends, and terroir. Through his far-flung, intrepid traveling and tasting, Wilson shows us that perhaps nothing else as entwined with the history of human culture is quite as much fun as booze.
