Making Stuff and Doing Things - Kyle Bravo 2017

Making Stuff and Doing Things is probably the most useful book on the planet. It's been called more important than the Bible. It's an indispensable handbook full of basic life skills for the young punk or activist, or for anyone else who's just trying to get stuff done - without having to have loads of money. The book started as a '90s zine with dozens of contributors setting down the most important skills they knew in concise, often hand-written pages. If you want to do it all yourself or do it together, this book has it all. Honestly, you'll never be bored again.

Television Production Workbook - Herbert Zettl 2005-07

This workbook, developed by Herb Zettl in conjunction with the main text, helps students apply the concepts introduced in the course to real-world production scenarios. Sections of the workbook may also be used as assignments that you can use to evaluate students' level of production skills. The workbook's three-hole-punched/tear-out worksheet format makes it easy for students to tear out specific sheets and turn them in to you. The Television Production Workbook can be bundled with the main text or sold separately.

We the People - Benjamin Ginsberg 1999

Emphasizing the relevance of politics and government in everyday life, *We the People* provides tools to help students think critically about American government and politics. The Sixth Edition has been carefully updated to reflect most recent developments, including the ongoing conflict in Iraq and the 2006 midterm elections. Complemented by a rich package of multimedia tools for instructors and students, including a new video-clip DVD, *We the People* is now more pedagogically effective than ever.

Art Visionaries - Mark Getlein 2016-02-09

This compelling book chronicles 75 of the most influential artists from the dawn of the 20th century to the present, and from around the world. Each entry provides a fascinating insight into the artist and his or her vision of what they were trying to do, while also acknowledging the lasting effect or impression of their work. Arranged in a broadly chronological order, the book gives a sense of the impact each artist has had on the development of art practice over the last 100 years. Key dates in each artists career are clearly drawn out in the accompanying timeline. Through a combination of lively text and arresting visuals, this is an inspirational and wholly original guide to some of the artists whose vision has helped to shape the modern art world.

Living with Art - Rita Gilbert 1998-01

Designed for introduction to art courses, this text covers art history and looks at art from the oldest cultures and from around the world.

The Shape of Content - Ben Shahn 1992-01-01

In his 1956-57 Charles Eliot Norton Lectures, the Russian-born American painter Ben Shahn sets down his personal views of the relationship of the artist—painter, writer, composer—to his material, his craft, and his society. He talks of the creation of the work of art, the importance of the community, the problem of communication, and the critical theories governing the artist and his audience.

Prebles' Artforms - Patrick Frank 2006

Text and accompanying photographs present art theory, practices, and history from ancient Egypt through the early twenty-first century.

Claro Que Si - Caycedo 1996-01-01

Understanding Art - Lois Fichner-Rathus 2019

Problems from Philosophy - James Rachels 2008-03-21

"This [text] is an introduction to some of the main problems of philosophy—the existence of God, the nature of the mind, human freedom, the limits of knowledge, and the truth about ethics. The

chapters may be read independently of one another, but when read in order, they tell a more or less continuous story. We begin with some reflections on the life of Socrates and then go on to the existence of God, which is the most basic philosophical question, because our answer to it affects everything else. This leads naturally to a discussion of death and the soul, and then to more modern ideas about the nature of persons. The later chapters are about whether we can have objective knowledge in either science or ethics." -from the Preface
Problems from Philosophy represents the final work of author and philosopher James Rachels. In it, he brings the same liveliness and clarity to the introduction of philosophy that he brings to his best-selling ethics text, *The Elements of Moral Philosophy*. This second edition has been revised by Rachels' son Stuart, who carefully has carefully refined his father's work to further strengthen its clarity and accessibility.

Looseleaf for Living with Art - Mark Getlein 2010-05-26

Analyze, Understand, Appreciate *Living with Art* provides the tools to help students think critically about the visual arts. Using a wealth of examples, the first half of the text examines the nature, vocabulary, and

elements of art, offering a foundation for students to learn to analyze art effectively. The latter half sets out a brief but comprehensive history of art, leading students to understand art within the context of its time and place of origin. High quality images from a wide range of periods and cultures bring the art to life, and topical essays throughout the text foster critical thinking skills. Taken together, all of these elements help students to better appreciate art as a reflection of the human experience and to realize that living with art is living with ourselves.

Jim Dine - Jim Dine 2003-07-02

Jim Dine is one of America's best-known image-makers. This book, published to accompany the first major exhibition of Dine's work from the 1960s, reproduces a broad selection of his early mixed-media works, paintings and sculptures. Many of the works featured in this volume contain elements of the now-familiar themes of Dine's career: tools, robes, hearts, palettes and domestic interiors. Bringing together fascinating performance photographs with vivid full-color reproductions, the book is the first to explore the complex relationship between Dine's mixed-media works and his environments and theater pieces.

Keeping the Republic - Christine Barbour 2018-11-23

Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. *Keeping the Republic* draws students into the study of American politics, showing them how to think critically about "who gets what, and how" while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Eighth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power - the ability to create and share their own narratives - while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election results and analysis, as well as the impact of recent Supreme Court rulings, shifting demographics, and emerging and continuing social movements, *Keeping the Republic, Eighth Edition* is a much-needed resource to help students make sense of politics in America today. Carefully condensed from the full version by authors Christine Barbour and Gerald Wright, *Keeping the Republic, Brief Edition* gives your students all the continuity and crucial content, in a more concise, value-oriented package. Understanding Child Abuse and Neglect - Cynthia Crosson-Tower 2019-12

"This book, now in the tenth edition, to prepare future and even current professionals to better intervene and treat the children and families at risk. This book draws on my years of practice to present an all-encompassing view of maltreatment, in its various guises, from symptoms of abuse and neglect to motivations of those who abuse and neglect children, as well as how the social services system intervenes. The questions asked of me by students, social service workers, and trainees have helped to shape the direction of the book. The responses from faculty reviewers who teach courses in child welfare have further fine-tuned what is presented here. My experiences not only as a protective social worker but also as a therapist treating victims, families, and perpetrators and now as a clergywoman have helped to provide ideas for the illustrations and examples"--

Critical Thinking - Brooke Noel Moore 2011-01-11

Imagine a class where students are actively and personally engaged in thinking critically while also discovering how to apply those thinking skills in everyday life. Now imagine those same students confidently participating in class, working efficiently through the exercises outside class, and performing better in the course. With *Connect Critical Thinking*, students can achieve this success. *Connect Critical Thinking* is a first: a learning program with pedagogical tools that are anchored in research on critical thinking. Along with Moore & Parker's engaging writing style and the wealth of topical exercises and examples that are relevant to students' lives, *Connect Critical Thinking* helps ensure that students can come to class confident and prepared. What other course provides students with skills they can apply so broadly to success in school and success in life?

Living with Art - Mark Getlein 2009-10-13

Analyze, Understand, Appreciate *Living with Art* provides the tools to help students think critically about the visual arts. Using a wealth of examples, the first half of the text examines the nature, vocabulary, and elements of art, offering a foundation for students to learn to analyze art effectively. The latter half sets out a brief but comprehensive history of art, leading students to understand art within the context of its time and place of origin. High quality images from a wide range of periods and cultures bring the art to life, and topical essays throughout the text foster critical thinking skills. Taken together, all of these elements help students to better appreciate art as a reflection of the human experience and to realize that living with art is living with ourselves.

The Legal and Regulatory Environment of Business - Robert Neil Corley 1996

Upon its publication in 1963, Corley's *Legal Environment of Business* was the first and only business law textbook to emphasize public rather than private law, government regulation of business rather than contracts, and legal relationships rather than business transactions. A major innovation, it established a new course that the authors termed the legal environment of business. Over the years others have attempted to attain the success and stature of *The Legal and Regulatory Environment of Business*, but none has been able to match its timely, innovative coverage. Substantially updated, the 10th edition continues the text's reputation for ethics, authority and coverage of current areas of importance to business.

Art History - Marilyn Stokstad 2002

Exceptional in its scholarship and stunning in its beauty, this is the art history book of choice for a new generation. Balancing both the traditions of art history and the new trends of the present. *Art History* is the most comprehensive, accessible, and magnificently illustrated work of its kind.

A Short Guide to Writing about Art - Sylvan Barnet 2000

A Short Guide to Writing about Art offers invaluable advice for any art course where students write papers. It addresses a wealth of fundamental matters: description versus analysis some critical approaches to art (e.g., formal analysis, cultural materialism, gender studies) getting ideas for an essay engaging in peer review developing paragraphs organizing a comparison using bibliographic tools, including the Internet quoting sources writing captions for illustrations avoiding sexist and Eurocentric language editing the final draft documenting sources, using either *The Chicago Manual of Style* or *The Art Bulletin* style preparing for essay examinations Among the new features of the sixth edition are new guidelines for using the World Wide Web and the Internet for art-

historical research, five new checklist (e.g., a checklist for evaluating Web Sites), ten new illustrations, and the style guide published by *The Art Bulletin*. Several sample essays are also included, accompanied by analyses that show readers the particular strengths of effective writing.

Impressionism and Its Canon - James E. Cutting 2006

Impressionism and Its Canon examines the diffuse relations among Impressionist artists and how history coalesced them into a uniform group. A pivotal artistic canon is that of French Impressionism. By considering the artists, the museums showcasing Impressionist artwork, the collectors who donated it to museums, and the scholars and art professionals who have written about the art, this work explores the evolution of this canon and its now iconic role in Western culture. The book also highlights the role of the public in supporting and solidifying the structure of the French Impressionist canon.

Dictionary Of Word Roots - Donald Borrer 1960-09-01

One of the outstanding problems of the biologist, whether he be beginning student or specialists, is that of understanding technical terms. The best way to understand and remember technical terms is to understand first their component parts, or roots. This dictionary has been designed primarily to meet the needs of the beginning student, the medical student, and the taxonomist, but it should be of value to all biologists.

This useful, inexpensive resource features one full-length practice test per chapter, along with answers and page references in the back. Each test contains multiple choice and essay questions.

Mathematics for Elementary School Teachers - Tom Bassarear 2015-01-01

MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS, 6E offers future teachers a comprehensive mathematics course designed to foster concept development through examples, investigations, and explorations. In this text, intended for the one- or two-semester course required of Education majors, Bassarear demonstrates that there are many paths to solving a problem, and sometimes problems have more than one solution. The author presents real-world problems—problems that require active learning in a method similar to how archaeologists explore an archaeological find: they carefully uncover the site, slowly revealing more and more of the structure. Visual icons throughout the main text allow instructors to easily connect content to the hands-on activities in the corresponding *Explorations Manual*. With this exposure, future teachers will be better able to assess student needs using diverse approaches.
