Lost Without You - Vinnie Jones 2020-09-03

'This is not a love story I ever wanted to tell, because I hoped it would just go on and on, and never end. I thought that we'd grow old together. I never wanted it to be a tale. But here I am, a middle-aged man sitting at the kitchen table as the California light fades, thinking about the coming night and how to get through it. Trying to explain to someone - to anyone - what it was like to live through something extraordinary: an amazing three decades that happened to me. Three decades that are now over.' In July 2019 Vinnie Jones tragically lost his wife and soulmate Tanya after her six-year battle with cancer. Tanya and Vinnie had shared 27 amazing years and raised a beautiful family together. Her passing was a devastating shock to everyone - and Vinnie found himself struggling to cope. In this extraordinarily intimate memoir, Vinnie tackles his grief honestly and with heart, sharing warm and colourful stories from the 25 years he spent married to Tanya, and unfiltered accounts of the reality of grief. From the darkest hours to the happiest moments, and everything in between, it is tender and heart-breaking, deeply honest but also full of humour and hope. Written to honour Tanya's life, *Lost Without You* is a beautiful and brave story of love and loss. Nothing will take away the pain of Tanya's death, but if in sharing his experiences Vinnie can inspire others in the depths of the unspeakable to find the help they need, then he will have succeeded in the keeping her kind, caring and selfless spirit alive.

The Trouble with Islam - Irshad Manji 2007-04-01

"I have to be honest with you. Islam is on very thin ice with me....Through our screaming self-pity and our conspicuous silences, we Muslims are conspiring against ourselves. We're in crisis and we're dragging the rest of the world with us. If ever there was a moment for an Islamic reformation, it's now. For the love of God, what are we doing about it?" In blunt, provocative, and deeply personal terms, Irshad Manji unearths the troubling cornerstones of mainstream Islam today: tribal insularity, deep-seated anti-Semitism, and an uncritical acceptance of the Koran as the final, and therefore superior, manifesto of God. In this open letter to Muslims and non-Muslims alike, Manji asks arresting questions. "Who is the real colonizer of Muslims - America or Arabia? Why are we all being held hostage by what's happening between the Palestinians and the Israelis? Why are we squandering the talents of women, fully half of God's creation? What's our excuse for reading the Koran literally when it's so contradictory and ambiguous? Is that a heart attack you're having? Make it fast. Because if more of us don't speak out against the imperialists within Islam, these guys will walk away with the show." Manji offers a practical vision of how the United States and its allies can help Muslims undertake a reformation that empowers women, promotes respect for religious minorities, and fosters a competition of ideas. Her vision revives Islam's lost tradition of independent thinking. This book will inspire struggling Muslims worldwide to revisit the foundations of their faith. It will also compel non-Muslims to start posing the important questions without fear of being deemed "racists." In more ways than one, *The Trouble with Islam* is a clarion call for a fatwa-free future.

Interactive Gambling - Nerilee Hing 2014

This report investigates how Australians are using interactive gambling services and the impact of such online gambling on non-online gambling and gambling related problems. Interactive gambling is a joint term capturing gaming and wagering on the Internet. A research study was conducted over three years and included a nationally representative telephone survey of 15,006 people, an online survey of 4,594 gamblers, interviews with 81 interactive gamblers, and data from gambling help services. This study provides a baseline of who, what, when, why and how people gamble, using interactive technology in Australia.

Taking Chances - John Haigh 2003

"What are the odds against winning the Lotto, The Weakest Link, or Who Wants to be a Millionaire? The answer lies in the science of probability, yet many of us are unaware of how this science works. Every day, people make judgements on a wide variety of situations where chance plays a role, including buying insurance, betting on horse-racing, following medical advice - even carrying an umbrella. In *Taking Chances*, John Haigh guides the reader round common pitfalls, demonstrates how to make better-informed decisions, and shows where the odds can be unexpectedly in your favour. This new edition has been fully updated, and includes information on top television shows, plus a new chapter on Probability for Lawyers." -BOOK JACKET.

Revitalizing Real Madrid - Scott Martin 2020-12-21

Real Madrid was a broken club. As Cristiano Ronaldo and Zinedine Zidane walked away from the Estadio Santiago Bernabéu, a full-blown identity crisis emerged. In one humiliating week, losses to Barcelona in the Copa del Rey and La Liga, as well as a UEFA Champions League exit at the hands of Ajax, effectively ended Real Madrid's hope of a 2018/19 trophy. From the highs of Zinedine Zidane's first tenure to the lows of the 2018/19 season, discover how Zizou revitalized a broken Real Madrid squad. "Revitalizing Real Madrid - The Tactics and Stats behind Zinedine Zidane's Success" takes an in-depth look at the ideas fueling Real Madrid's 2019/20 La Liga title run. Once a high-scoring team with a leaky defense, Zidane reshaped the team's approach, transforming them into Europe's top defensive side. Through tactical visualizations and contextualized statistics from Scott Martin, a senior analyst for Total Football Analysis, experience the revitalization of world soccer's greatest heavyweight, Real Madrid.

Human-Friendly Robotics 2019 - Federica Ferraguti 2020-02-20

This book covers a wide range of topics related to human-robot interaction, both physical and cognitive, including theories, methodologies, technologies, and empirical and experimental studies. The International Workshop on Human-Friendly Robotics (HFR) is an annual meeting that brings together academic scientists, researchers and research scholars to present their latest, original findings on all aspects concerning the introduction of robots into everyday life. The growing need to automate daily tasks, combined with new robot technologies, is driving the development of human-friendly robots, i.e., safe and dependable machines that operate in close proximity to humans or directly interact with them in a wide range of contexts. The technological shift from classical industrial robots, which are safely kept away from humans in cages, to robots that are used in close collaboration with humans, is faced with major challenges that need to be overcome. The objective of the workshop was to stimulate discussion and exchange knowledge on design, control, safety and ethical issues concerning the introduction of robots into everyday life. The 12th installment was organized by the University of Modena and Reggio Emilia and took place in Reggio Emilia, Italy.

The Football Ramble - Marcus Speller 2016-10-20

Downloaded over ten million times a year the Football Ramble podcast has established itself as the essential, independent voice of football punditry. The weekly podcast has resonated with supporters around the world and their sold-out live shows have been a massive hit. This book is a collaboration from all four presenters and will tackle the real issues from fans you won't see or hear on Sky Sports, or anywhere else for that matter. From the weird and wonderful, from the Alan Pardew to the Kevin Keegan, the Ramble has it covered. Putting all aspects of the game under the microscope, this book is a timely reminder of why we just can't take our minds off football.

Data Analytics in Football - Daniel Memmert 2018-05-30

Data Analytics in Football provides students, researchers and coaches with a firm grounding in the principles of modern performance analysis. It offers an insight into the use of positional data, exploring how it can be collected, modelled, analysed and interpreted. Introducing cutting-edge methods, the book challenges long-held assumptions and encourages a new way of thinking about football analysis. Based on data collected from the German Bundesliga and the UEFA Champions League, the book seeks to define the

role of positional data in football match analysis by exploring topics such as: What is positional data analysis and how did it emerge from conventional match analysis? How can positional data be collected and which technologies can be used? What are the benefits of a data-driven approach to decision making in football? What Key Performance Indicators based on positional data should be used? How can traditional match analysis be complemented by using positional data and advanced KPIs? How can these new methods evolve in the future? Accessibly written, packed full of examples from elite football and supplemented with expert interviews (Ralf Rangnick, Urs Siegenthaler and others), Data Analytics in Football is a thought-provoking, rigorously evidence-based guide to the use of data analytics in football performance analysis. As such, it is a vital resource for any student, researcher or coach interested in performance analysis and skill acquisition, or anyone interested in football more generally.

Sports Analytics - Benjamin C. Alamar 2013-08-06

Benjamin C. Alamar founded the first journal dedicated to sports statistics, the Journal of Quantitative Analysis in Sports. He developed and teaches a class on sports analytics for managers at the University of San Francisco and has published numerous cutting-edge studies on strategy and player evaluation. Today, he co-chairs the sports statistics section of the International Statistics Institute and consults with several professional teams and businesses in sports analytics. There isn't a better representative of this emerging field to show diverse organizations how to implement analytics into their decision-making strategies, especially as analytic tools grow increasingly complex. Alamar provides a clear, easily digestible survey of

the practice and a detailed understanding of analytics' vast possibilities. He explains how to evaluate different programs and put them to use. Using concrete examples from professional sports teams and case studies demonstrating the use and value of analytics in the field, Alamar designs a roadmap for managers, general managers, and other professionals as they build their own programs and teach their approach to others.

The Economics of Sports Betting - Plácido Rodríguez

This unique book delves into a number of intriguing issues and addresses several pertinent questions including, should gambling markets be privatized? Is the 'hot hand' hypothesis real or a myth? Are the 'many' smarter than the 'few' in estimating betting odds? How are prices set in fixed odds betting markets? The book also explores the informational efficiency of betting markets and the prevalence of corruption and illegal betting in sports.

KELONG KINGS - Wilson Raj Perumal, Alessandro Righi, Emanuele Piano 2014-04-28

Wilson Raj Perumal has been labeled the world's most prolific match-fixer in football's recent history. Born a village boy in rural Singapore in the mid-60's, Wilson climbed the heights of international match-fixing across five continents, becoming FIFA's most wanted man. Like a "guppy in the sea", Wilson starts off a small gambler, mixing with the local Singapore bookies, and witnesses the rise and fall of the old-school Asian "big fish" of match-fixing until he finds himself competing against them in a world with no set rules, where turncoats are the norm and quick money the only drive. Perumal was arrested in Finland in February 2011 and decided to collaborate with authorities, thus opening the match-fixing Pandora's box. In his book, Wilson reveals an unprecedented account of how the international match-fixing underworld has influenced the outcomes of matches at every level of football that we may well have watched unsuspectingly. *Kelong Kings* is the ultimate tale about gambling, football and match-fixing, told directly by the man who made it all happen. But be advised, after you read this book, you will never be able to watch a soccer match in the same way again.

Soccermaths - David Sumpter 2016-05-05

'Football looked at in a very different way' Pat Nevin, former Chelsea and Everton star and football media analyst Football - the most mathematical of sports. From shot statistics and league tables to the geometry of passing and managerial strategy, the modern game is filled with numbers, patterns and shapes. How do we make sense of them? The answer lies in the mathematical models applied in biology, physics and economics. *Soccermaths* brings football and mathematics together in a mind-bending synthesis, using numbers to help reveal the inner workings of the beautiful game. This new and expanded edition analyses the current big-name players and teams using mathematics, and meets the professionals working inside football who use numbers and statistics to boost performance. Welcome to the world of mathematical modelling, expressed brilliantly by David Sumpter through the prism of football. No matter who you follow - from your local non-league side to the big boys of the Premiership, La Liga, the Bundesliga, Serie A or the MLS - you'll be amazed at what mathematics has to teach us about the world's favourite sport.

The Body Nirvana - Garima Gupta 2017-04-10

Winner of The International Book Awards, 2019 The body listens, remembers and speaks to us. We receive the body's messages all the time, although we seldom recognize them. Our body expresses its unmet needs and calls for attention in many ways. And so it is with weight. This is a puzzling matter only because some pieces of the puzzle are not in the box you were handed. Your weight is not a body issue. Excess weight is really a multi-dimensional problem showing up as an oversized body. Popular media is still full of diet and exercise advice that is based on sacrifice and punishment. Too few books use this research to show how weight can be reduced in a happier and healthier way. *The Body Nirvana* is about gradually letting go of everything that literally and metaphorically weighs you down. It is time to rejoice in your body's vitality and its capacity to take you towards your life's goals!

Deviant Leisure - Thomas Raymen 2019-09-28

This book brings together a collection of critical essays that challenge the existing dogma of leisure as an unmitigated social good, in order to examine the commodification and marketisation of leisure across a number of key sites. Leisure and consumer culture have become symbolic of the individual freedoms of liberal society, ostensibly presenting individuals with the opportunity to display individual creativity, cultural competence and taste. This book problematizes these assertions, and considers the range of harms that emerge in a consumer society predicated upon intense individualism and symbolic competition.

Approaching the field of commodified leisure through the lens of social harm, this collection of essays pushes far beyond criminology's traditional interest in 'deviant' forms of leisure, to consider the normalized social, interpersonal and environmental harms that emerge at the intersection of leisure and consumer capitalism. Capturing the current vitality and interdisciplinary scope of recent work which is underpinned by the deviant leisure perspective, this collection uses case studies, original research and other forms of empirical enquiry to scrutinise activities that range from alcohol consumption and gambling, to charity tourism; CrossFit training; and cosmetic pharmaceuticals. Drawn from researchers across the UK, US, Europe and Australia, *Deviant Leisure: Criminological Perspectives on Leisure and Harm* represents the first systematic attempt at a criminological consideration of the global harms of the leisure industry; firmly establishing leisure as a subject of serious criminological importance.

The Bikini Killer - David Morrisey 2016-03-12

There are few serial killers quite as successful as Charles Sobhraj. Fluent in several languages, extremely intelligent, and known for his irresistible charms with women, Sobhraj lived a life of nonstop thievery, murder, drugs, and scandal. His unstoppable resourcefulness allowed him to escape authorities half a dozen times through luck, timing, and even what seems to be a strange sense of fate. His favorite means of getting what he wanted involved befriending his victims through faked favors and gifts only to eventually drug and loot, or sometimes murder, them. Known as the "Bikini Killer", a name given to him after he brutally drowned two women and left their bodies dressed in similar bikinis, Charles Sobhraj stretched his crimes across an entire continent and three separate countries. Along the way, he gathered to himself many loyal followers, amassing a sort of cult-like group of acolytes that helped him scam, murder, and steal from nearly everyone he met.

The 101 Ranch - Ellsworth Collings 1973-02-01

In the first third of the twentieth century, the 101 Real Wild West Show was known halfway round the world. It featured such headliners as Bill Pickett, the African-American inventor of bulldogging, and the future Hollywood film stars Tom Mix, Buck Jones, and Hoot Gibson. What was not so well known abroad was that the show stemmed from a real, working ranch that rivaled the fabled XIT Ranch in the folklore of the West.

My Days - Marion Ross 2018-03-27

For eleven seasons, she was head of one of America's favorite television households. Now meet the lovable real-life woman behind the Happy Days mom. Before she was affectionately known to millions as "Mrs. C.," Marion Ross began her career as a Paramount starlet who went on to appear in nearly every major TV series of the 1950s and 1960s—including *Love*, *American Style*, in which she donned an apron that would cinch her career. Soon after came the phone call that changed her life . . . In this warm and candid memoir, filled with recollections from the award-winning Happy Days team—from break-out star Henry Winkler to Cunningham "wild child" Erin Moran—Ross shares what it was like to be a starry-eyed young girl with dreams in poor, rural Minnesota, and the resilience it took to make them come true. She recalls her early

years in the business, being in the company of such luminaries as Humphrey Bogart and Lauren Bacall, yet always feeling the Hollywood outsider—an invisibility that mirrored her own childhood. She reveals the joys of playing a wife and mother on TV, and the struggles of maintaining those roles in real life. But among Ross's most heart-rending recollections are those of finally finding a soulmate—another hope made true beyond her expectations. Featuring producer Garry Marshall's final interview—as well as a touching foreword from her “TV son” Ron Howard, and a conversation with her real-life son and daughter, Marion Ross's inspiring story is also a glowing tribute to all those who fulfilled her dreams—and in turn, gave us some of the happiest days of our own lives.

Changes in Wagering Within the Racing Industry - 2005

I've Got Mail - Jeff Stelling 2021-04-22

I've Got Mail is the brand new book from Jeff Stelling, the Sunday Times bestselling author and host of Sky Sports' iconic football show Soccer Saturday. Reproducing a selection of correspondence he has received down the years, Stelling tells some intriguing stories around his experiences in broadcasting and football. This charming book is by turns warm and funny, moving and poignant, and invariably underpinned by a deeply rooted love of football and people. It arrived while I was playing football. I remember my mum

running towards me, dressed in pinny and slippers, waving a piece of flesh coloured paper, gripped in her hand, the print all in slightly faded block capitals. But the message from my new employer was clear and urgent. BERNARD GENT UNWELL. GO TO LEEDS IMMEDIATELY. COVER LEEDS UNITED V MIDDLESBROUGH It was the first and last telegram I ever received. It was a message that probably changed the course of my life. It was the first of many pieces of correspondence during my life which have made me laugh, cry or perhaps influenced my pathway in a more significant way. Receiving letters by post or via e-mail has always been important to me. Even now I feel slightly disappointed if the postman passes the door without anything for me, even though I know the chances are it will be a bill, a parking fine, a bank statement or a catalogue offering me clothing or garden furniture. The same applies when my inbox is empty save for someone offering a deal on a used car or urging me to change my energy provider. These days my mail is often from total strangers, usually with a simple birthday or autograph request. But at times the correspondence is emotional, and sometimes it is angry. Occasionally I'm entrusted with personal issues that the correspondents probably would not tell their closest friends. The only thing they all have in common is they start 'Dear Jeff'. Or almost all do...
