Action Research into Teaching English in Russia's Professional Context - Natalia A. Gunina 2015-10-13

This book is a result of the investigative attempts of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers, economists and other such specialists. The unifying feature of all the contributions brought together here is the active involvement of the authors in practical instruction of English for specific professional purposes at the tertiary (bachelors' and masters' programs) level in Russia. This volume covers a number of relevant areas in this field, including new developments in methodology, approaches to course and materials design, and the contribution of language theory to foreign language teaching in a professional context. The unique teaching approach advocated in this book denounces the traditional practice of transferring classical methodology of communicative-oriented teaching to language classes for students with a non-linguistic or non-teaching professional orientation. The underlying idea of this volume is that a change in professional context implies a change in language teaching methodology, including materials, techniques and target competences. The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists.

Essential English Grammar and Communication Strategies - Adrian Wallwork 2022-07-31

This book is for university students, with at least a mid-intermediate level of English. It is designed both for self-study and also as a support for a course on academic communication. It can thus be used alongside the companion volumes: Writing an Academic Paper in English and Giving an Academic Presentation in English. The book focuses only on those areas that are either the most commonly found in academic communication and/or cause the most problems. It is thus considerably more accessible than a traditional grammar or style guide. Grammar coverage includes: articles (a/an, the), countable vs uncountable nouns, modal verbs (can, may, could, might), comparisons, present and past tenses, link words, prepositions, and verbs that cause grammatical difficulties. There is a strong focus on those elements that make a paper more readable, and a presentation more accessible and memorable: clarity and empathy, sentence length, word order, and punctuation. There are chapters on two key areas of communication in academia: writing emails to editors, drafting a CV/resume. The book is laid out simply, with short explanations, and lots of example sentences (plus typical mistakes). Other books in the series: Writing an Academic Paper in English Giving an Academic Presentation in English Adrian Wallwork is the author of more than 40 ELT and EAP textbooks. He has trained several thousand PhD students and researchers from around 50 countries to write research papers and give presentations. He is also the co-founder of e4ac.com, an editing agency for non-native English-speaking researchers.

[A Course in Business English](#) - Maximilian Delphinus Berlitz 1919

[A Course Book in English Grammar](#) - Dennis Freeborn 1995-07-05

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that

arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.
