COOs play a critical part in executing the strategies developed by top management. And, in many cases, they are being groomed—or test-driven—as the firm's CEO-elect. *Riding Shotgun* provides unique insight into this little-understood role. The authors develop a framework that illustrates who the COO is, why a company should create this position, and what the challenges associated with this job entail. Drawing heavily on first-person accounts from top executives, the authors offer a set of strategies to inform individuals who aspire to serve as COO. With a new preface and conclusion, and even more interviews from some of the most established and important companies in today's economy, this book is a one-of-a-kind resource for the C-suite and the boardroom.

[The Coaching Habit](#) - Michael Bungay Stanier 2016-02-29

Coaching is an essential skill for leaders. But for most busy, overworked managers, coaching employees is done badly, or not at all. They're just too busy, and it's too hard to change. But what if managers could coach their people in 10 minutes or less? In Michael Bungay Stanier's *The Coaching Habit*, coaching becomes a regular, informal part of your day so managers and their teams can work less hard and have more impact. Coaching is an art and it's far easier said than done. It takes courage to ask a question rather than offer up advice, provide an answer, or unleash a solution. Giving another person the opportunity to find their own way, make their own mistakes, and create their own wisdom is both brave and vulnerable. It can also mean unlearning our "fix it" habits. In this practical and inspiring book, Michael shares seven transformative questions that can make a difference in how we lead and support. *Ten Years to Midnight* - Blair H. Sheppard 2020-08-04

"Shows how humans have brought us to the brink and how humanity can find solutions. I urge people to read with humility and the daring to act." —Harpal Singh, former Chair, Save the Children, India, and former Vice Chair, Save the Children International In conversations with people all over the world, from government officials and business leaders to taxi drivers and schoolteachers, Blair Sheppard, global leader for strategy and leadership at PwC, discovered they all had surprisingly similar concerns. In this prescient and pragmatic book, he and his team sum up these concerns in what they call the ADAPT framework: Asymmetry of wealth; Disruption wrought by the unexpected and often problematic consequences of technology; Age disparities--stresses caused by very young or very old populations in developed and emerging countries; Polarization as a symptom of the breakdown in global and national consensus; and loss of Trust in the institutions that underpin and stabilize society. These concerns are in turn precipitating four crises: a crisis of prosperity, a crisis of technology, a crisis of institutional legitimacy, and a crisis of leadership. Sheppard and his team analyze the complex roots of these crises--but they also offer solutions, albeit often seemingly counterintuitive ones. For example, in an era of globalization, we need to place a much greater emphasis on developing self-sustaining local economies. And as technology permeates our lives, we need computer scientists and engineers conversant with sociology and psychology and poets who can code. The authors argue persuasively that we have only a decade to make headway on these problems. But if we tackle them now, thoughtfully, imaginatively, creatively, and energetically, in ten years we could be looking at a dawn instead of darkness.

**Modern Management and Leadership** - Mark Tarallo 2021-08-06

In one modest-sized volume, this book offers three valuable sets of knowledge. First, it provides best practice guidance on virtually every large-scale task a modern manager may be involved in—from recruiting and hiring to onboarding and leading teams, and from employee engagement and retention to performance management and working with difficult employees. Second, it explains the essential concepts and practice of a range of effective leadership styles—including (but not limited to) servant leadership, crisis leadership, change agent leadership, and diversity and inclusion leadership. Third, it offers brief case studies from select CISOs and CSOs on how these management and leadership principles and practices play out in real-life workplace situations. The best practice essentials provided throughout this volume will empower aspiring leaders and also enable experienced managers to take their leadership to the next level. Many if not most CISOs and other leaders have had very little, if any, formal training in management and leadership. The select few that have such training usually obtained it through academic courses that take a theoretical, broad brush approach. In contrast, this book provides much actionable guidance in the nitty-gritty tasks that managers must do every day. Lack of management practical knowledge puts CISOs and CSOs at a disadvantage vis-a-vis other executives in the C-suite. They risk being pigeonholed as "security cops" rather than respected business leaders. Many articles on these subjects published in the press are too incomplete and filled with bad information. And combing through the few high-quality sources that are out there, such as Harvard Business Publishing, can take hundreds of dollars in magazine subscription and book purchase fees and weeks or months of reading time. This book puts all the essential information into your hands through a series of concise chapters authored by an award-winning writer.

The Man Who Mistook His Job for His Life - Naomi Shragai 2021-08-26

A revolutionary approach to understanding the emotional dynamics within our working lives. 'Nobody understands the everyday madness of working life better than Naomi Shragai. This book should be read by everyone who ventures anywhere near an office' - Lucy Kellaway You probably don't realise this, but every working day you replay and re-enact conflicts, dynamics and relationships from your past. Whether it's confusing an authority figure with a parent; avoiding conflict because of past squabbles with siblings; or suffering from imposter syndrome because of the way your family responded to success, when it comes to work we are all trapped in our own upbringings and the patterns of behaviour we learned while growing up. Many of us spend eighteen formative years or more living with family and building our personality; but most of us also spend fifty years - or 90,000 hours - in the workplace. With the pull of the familial so strong, we unconsciously re-enact our personal past in our professional present - even when it holds us back. Through intimate stories, fascinating insights and provocative questions that tackle the issues that cause us most problems - from imposter syndrome and fear of conflict to perfectionism and anxiety - business psychotherapist Naomi Shragai will transform how you think about yourself and your working life. Based on thirty years of expertise and practice, Shragai will show you that what is holding you back is within your gift to change - and the first step is to realise how you, like the rest of the people you work with, habitually confuse your professional present with your personal past.
