**Walker's Appeal, in Four Articles** - David Walker 2011-09-01

First published in 1829, Walker's Appeal called on slaves to rise up and free themselves. The two subsequent versions of his document (including the reprinted 1830 edition published shortly before Walker's death) were increasingly radical. Addressed to the whole world but directed primarily to people of color around the world, the 87-page pamphlet by a free black man born in North Carolina and living in Boston advocates immediate emancipation and slave rebellion. Walker asks the slaves among his readers whether they wouldn't prefer to "be killed than to be a slave to a tyrant." He advises them not to "trifle" if they do rise up, but rather to kill those who would continue to enslave them and their wives and children. Copies of the pamphlet were smuggled by ship in 1830 from Boston to Wilmington, North Carolina, Walker's childhood home, causing panic among whites. In 1830, members of North Carolina's General Assembly had the Appeal in mind as they tightened the state's laws dealing with slaves and free black citizens. The resulting stricter laws led to more policies that repressed African Americans, freed and slave alike. A DOCSOUTH BOOK. Lavishly illustrated with over 300 pictures, including more than 200 in full color, *The Oxford History of Islam* offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, *The Oxford History of Islam* offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

*The Code of Hammurabi* - Hammurabi 2019-03-04

*The Code of Hammurabi* is one of the most important monuments in the history of the human race. Containing as it does the laws which were enacted by a king of Babylonia in the third millennium B.C., whose rule extended over the whole of Mesopotamia from the mouths of the rivers Tigris and Euphrates to the Mediterranean coast, we must regard it with interest. But when we reflect that the ancient Hebrew tradition ascribed the migration of Abraham from Ur of the Chaldees to this very period, and clearly means to represent their tribe's father as triumphing over this very same Hammurabi (Amraphel, Gen. xiv. 1), we can hardly doubt that these very laws were part of that tradition. At any rate, they must have served to mould and fix the ideas of right throughout that great empire, and so form the state of society in Canaan when, five hundred years

later, the Hebrews began to dominate that region. - Taken from "The Code Of Hammurabi" written by Hammurabi

**World History** - Roger B. Beck 2006-02-09

*Gilgamesh Epic and Old Testament Parallels* - Alexander Heidel 1949  
Cuneiform records made some three thousand years ago are the basis for this essay on the ideas of death and the afterlife and the story of the flood which were current among the ancient peoples of the Tigris-Euphrates Valley. With the same careful scholarship shown in his previous volume, *The Babylonian Genesis*, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. He compares them with corresponding portions of the Old Testament in order to determine the inherent historical relationship of Hebrew and Mesopotamian ideas.

**Divided by Faith** - Benjamin J Kaplan 2009-06-30

Can people coexist in peace when their basic beliefs are irreconcilable? Kaplan responds by taking us back to early modern Europe, when the issue of religious toleration was no less pressing than it is today. *Divided by Faith* is both history from the bottom up and a much-needed challenge to our belief in the triumph of reason over faith. This compelling story reveals that toleration has taken many guises in the past and suggests that it may well do the same in the future.

They also represent six eras that span the course of

civilization-from the adoption of agriculture, to the birth of cities, to the advent of globalization. *A History of the World in 6 Glasses* tells the story of humanity from the Stone Age to the twenty-first century through each epoch's signature refreshment. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. **The Oxford Handbook of the Bronze Age Aegean** - Eric H. Cline  
2012-01-01

The Greek Bronze Age, roughly 3000 to 1000 BCE, witnessed the flourishing of the Minoan and Mycenaean civilizations, the earliest expansion of trade in the Aegean and wider Mediterranean Sea, the development of artistic techniques in a variety of media, and the evolution of early Greek religious practices and mythology. The period also witnessed a violent conflict in Asia Minor between warring peoples in the region, a conflict commonly believed to be the historical basis for Homer's Trojan War. The Oxford Handbook of the Bronze Age Aegean provides a detailed survey of these fascinating aspects of the period, and many others, in sixty-six newly commissioned articles. Divided into four sections, the handbook begins with Background and Definitions, which contains articles establishing the discipline in its historical, geographical, and chronological settings and in its relation to other disciplines. The second section, Chronology and Geography, contains articles examining the Bronze Age Aegean by chronological period (Early Bronze Age, Middle Bronze Age, Late Bronze Age). Each of the periods are further subdivided geographically, so that individual articles are concerned with Mainland Greece during the Early Bronze Age, Crete during the Early Bronze Age, the Cycladic Islands during the Early Bronze Age, and the same for the Middle Bronze Age, followed by the Late Bronze Age. The third section, Thematic and Specific Topics, includes articles examining thematic topics that cannot be done justice in a strictly chronological/geographical treatment, including religion, state and society, trade, warfare, pottery, writing, and burial customs, as well as specific events, such as the eruption of Santorini and the Trojan War. The fourth section, Specific Sites and Areas, contains articles examining the most important regions and sites in the Bronze Age Aegean, including Mycenae, Tiryns, Pylos, Knossos, Kommos, Rhodes, the northern Aegean, and the Uluburun shipwreck, as well as adjacent areas

such as the Levant, Egypt, and the western Mediterranean. Containing new work by an international team of experts, The Oxford Handbook of the Bronze Age Aegean represents the most comprehensive, authoritative, and up-to-date single-volume survey of the field. It will be indispensable for scholars and advanced students alike.

**The Book of the Dead** - Sir Ernest Alfred Wallis Budge 1901

**African-American Christianity** - Paul E. Johnson 1994-07-06

Eight leading scholars have joined forces to give us the most comprehensive book to date on the history of African-American religion from the slavery period to the present. Beginning with Albert Raboteau's essay on the importance of the story of Exodus among African-American Christians and concluding with Clayborne Carson's work on Martin Luther King, Jr.'s religious development, this volume illuminates the fusion of African and Christian traditions that has so uniquely contributed to American religious development. Several common themes emerge: the critical importance of African roots, the traumatic discontinuities of slavery, the struggle for freedom within slavery and the subsequent experience of discrimination, and the remarkable creativity of African-American religious faith and practice. Together, these essays

enrich our understanding of both African-American life and its part in the history of religion in America.

**Daodejing** - Laozi 2008-09-11

'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

**Light Against Darkness** - Armin Lange 2011

Light Against Darkness is comprised of articles that put on display the power and pervasiveness of dualistic thought. Dualism has proved a potent cultural tool for clarifying and ordering reality. Particularly in times of social stress and psychological insecurity, it can offer a valuable conceptual grid that provides orientation to the world and a clear sense of identity. At the same time, though, there are important questions to be asked about the social effects of binary thinking. As history amply illustrates, dualistic notions can readily be deployed to legitimate cultural demonization and to rationalize violence. At a deeper level, a

dualist worldview can also obscure the possibilities to be found in multiplicity. The articles in this volume treat Dualism across a wide historical spectrum and from multiple methodological perspectives. The studies are organized around the religious and cultural contexts of Ancient Judaism and they include contributions from leading voices on ancient Persia, Israel, Greece, and Egypt. Experts on modern religious and philosophical thought not only lend context to concepts applied to the ancient world, but engage recent European and American experiments in binary thought. All of the studies contribute to a richer and more complete portrait of dualism in ancient Judaism.

**The Glory of Byzantium** - Metropolitan Museum of Art (New York, N.Y.) 1997

Conceived as a sequel to the 1976 exhibition "Age of Spirituality," which focused on the first centuries of Byzantium. Preceding the catalogue, 17 essays treat the historical context, religious sphere, and secular courtly realm of the empire, and the interactions between Byzantium and other medieval cultures. Abundantly illustrated. Annotation copyrighted by Book News, Inc., Portland, OR
