## **Politics and Aesthetics in Contemporary Native American Literature** - Matthew Herman 2010-02

Over the last twenty years, Native American literary studies has taken a sharp political turn. In this book, Matthew Herman provides the historical framework for this shift and examines the key moments in the movement away from cultural analyses toward more politically inflected and motivated perspectives. He highlights such notable cases as the prevailing readings of the popular within Native American writing; the Silko-Erdrich controversy; the ongoing debate over the comparative value of nationalism versus cosmopolitanism within Native American literature and politics; and the status of native nationalism in relation to recent critiques of the nation coming from postmodernism, postcolonialism, and subaltern studies. Herman concludes that the central problematic defining the last two decades of Native American literary studies has involved the emergence in theory of anti-colonial nationalism, its variants, and its contradictions. This study will be a necessary addition for students and scholars of Native American Studies as well as 20th-century literature.

## Literature & Medicine During the Eighteenth Century - Marie Mulvey Roberts 2022-10-10

First published in 1993, *Literature & Medicine During the Eighteenth Century* analyses the close interplay of medicine and literature by paying special attention to questions of body language and the representation of inner life. Although today, medicine and literature are widely seen as falling on different sides of the 'two cultures' divide, this was not so in the eighteenth century when doctors, scientists, writers, and artists formed a well-integrated educated elite. Locke, Smollett and Goldsmith were doctors, and physicians such as Erasmus Darwin doubled as poets. Written by leading historians of medicine and eighteenth-century literary critics, this book uncovers the interconnections between medical and psychological theory and ideas of taste, beauty, and genius. Its contributors explore the rich cultural milieu of the period and investigate the ways in which medicine itself contributed to informing a gendered discourse of the world. This book will be of interest to historians, literary scholars and medical historians.

## **Louise Erdrich's Love Medicine** - Hertha Dawn Wong 2000

Louise Erdrich's first novel, *Love Medicine*, came out in 1984 to instant and international acclaim. A short story cycle narrated by a variety of different characters, the book chronicles the intertwined histories of Chippewa and mixed-blood families in North Dakota over half a century, laying bare the ordeals and joys of twentieth-century Native American life. Like the other books in the series, this Casebook presents important background material to establish the context of the novel, interviews with the author, and pivotal critical responses to the work.

## Tales of Burning Love - Louise Erdrich 1996

Stranded together by snow just outside of Fargo, North Dakota, five women--all former wives of Jack Mauser--relate the stories of their lives, their dreams, their vulnerabilities, their passions, and their feelings for Jack and for one another. \$150,000 ad/promo. Tour.

## *Kierkegaard's Influence on Literature, Criticism, and Art: The Anglophone world* - Jon Bartley Stewart 2013

Vol. 2 is dedicated to the use of Kierkegaard by later Danish writers. Almost from the beginning Kierkegaard's works were standard reading for these authors. Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings. These included the theoretical leader of the movement, the critic Georg Brandes, who wrote an entire book on Kierkegaard, and the novelists Jens Peter Jacobsen and Henrik

Pontoppidan

## **Art Is a Way of Knowing** - Pat B. Allen 1995-04-11

An expert in art therapy offers this "wonderful" guide "for anyone, artistic or not, who is interested in using art to know more about himself or herself" (*Library Journal*) Making art—giving form to the images that arise in our mind's eye, our dreams, and our everyday lives—is a form of spiritual practice through which knowledge of ourselves can ripen into wisdom. This book offers encouragement for everyone to explore art-making in this spirit of self-discovery—plus practical instructions on material, methods, and activities, such as ways to:

- Discover a personal myth or story
- Recognize patterns and themes in one's life
- Identify and release painful memories
- Combine journaling and image making
- Practice the ancient skill of active imagination
- Connect with others through sharing one's art works

Interwoven with this guidance is the intimate story of the author's own journey as a student, art therapist, teacher, wife, mother, and artist—and, most of all, as a woman who discovered a profound and healing connection with her soul through making art.

## **The Art of Dying** - Patricia Weenolsen, Ph.D. 1997-09-15

Provides guidance for those who are facing their own death, giving advice on telling family, making legal, medical, and financial arrangements, forgiving loved ones, and creating life meaning from despair

## **Continuum Encyclopedia of Native Art** - Hope B. Werness 2003-01-01

## **Roads, Mobility, and Violence in Indigenous Literature and Art from North America** - Deena Rymhs 2018-12-20

*Roads, Mobility, and Violence in Indigenous Literature and Art from North America* explores mobility, spatialized violence, and geographies of activism in a diverse archive of literary and visual art by Indigenous authors and artists. Building on Raymond Williams's observation that "traffic is not only a technique; it is a form of consciousness and a form of social relations," this book pulls into focus racial, sexual, and environmental violence localized around roads. Reading this archive of texts next to lived struggles over spatial justice, Rymhs argues that roads are spaces of complex signification. For many Indigenous communities, the road has not often been so open. Recent Indigenous writing and visual art explores this tension between mobility and confinement. Drawing primarily on the work of Marie Clements, Tomson Highway, Marilyn Dumont, Leanne Simpson, Richard Van Camp, Kent Monkman, and Louise Erdrich, this volume examines histories of uprooting and violence associated with roads. Along with exploring these fraught histories of mobility, this book emphasizes various ways in which Indigenous communities have transformed roads into sites of political resistance and social memory.

## **The Art of Peace and Relaxation Workbook** - Brian Seaward 2008

## **The Art of Fiction** - David Lodge 2012-04-30

In this entertaining and enlightening collection David Lodge considers the art of fiction under a wide range of headings, drawing on writers as diverse as Henry James, Martin Amis, Jane Austen and James Joyce. Looking at ideas such as the Intrusive Author, Suspense, the Epistolary Novel, Magic Realism and Symbolism, and illustrating each topic with a passage taken from a classic or modern novel, David Lodge makes the richness and variety of British and American fiction accessible to the general reader. He provides essential reading for students, aspiring writers and anyone who wants to understand how fiction works.

## *Back to Venice* - Michael Grant 2011-05-26

Imagine what it would be like to go back in time to the 15th century Venice. And imagine what it would be like to meet your lifelong hero,

Michelangelo. And imagine what it would be like if, on first meeting, you spill a tray of pasta and wine on that very same hero. Well, that's what happens to serious young artist Mark Breen. As the result of a drunken bet, Mark knocks out a painting of a toilet bowl. Much to his amazement, he sells it. In short order he's hailed as the new Andy Warhol and becomes an overnight sensation and a very wealthy man. Soon, images of his toilet bowls are on more t-shirts, mugs, and calendars than Edvard Munch's *The Scream*. His friend and mentor, Hugh Connelly, afraid that Mark is in danger of losing his "artistic soul," advises him to go back to Italy and reacquaint himself with the "old masters." In Venice, Mark falls in love with Alexandra, a beautiful art restorer, but it's a one-sided affair. One night, hoping to win her over, he climbs up on a roof to find out who painted her favorite fresco. He falls off the roof and wakes up in 15th century Venice where he meets an innkeeper named Francesca, who looks exactly like Alexandra. And it gets curiously and curiously from there. During his stay—which is sometimes zany and sometimes frightening—he meets his hero, Michelangelo, who teaches him the true meaning of art.

**The Arts Therapies** - Phil Jones 2020-07-29

The separate arts therapies – drama, art, music and dance – are becoming available to increasing numbers of clients as mental health professionals discover their potential to reach and help people. But what are the arts therapies, and what do they offer clients? This fully updated new edition of *The Arts Therapies* provides, in one volume, a guide to the different disciplines and their current practice and thinking in different parts of the world. Each chapter draws on a variety of perspectives and accounts to develop understandings of the relations between theory, research and practice, offering perspectives on areas such as the client-therapist-art form relationship or on outcomes and efficacy to help articulate and understand what the arts therapies can offer specific client groups. This new edition features 'Focus on Research' highlights from music therapy, art therapy, drama therapy and dance movement therapy, which offer interviews with researchers in China, Africa, South America, Australia, Europe and North America, exploring significant pieces of enquiry undertaken within recent years. This comprehensive overview will be an essential text for students and practitioners of the arts therapies. It is international in scope, fully up-to-date with innovations in the field and will be relevant to new practitioners and those looking to deepen their understanding.

**Cultural Appropriation and the Arts** - James O. Young 2008-04-15

Now, for the first time, a philosopher undertakes a systematic investigation of the moral and aesthetic issues to which cultural appropriation gives rise. Cultural appropriation is a pervasive feature of the contemporary world (the Parthenon Marbles remain in London; white musicians from Bix Beiderbeck to Eric Clapton have appropriated musical styles from African-American culture) Young offers the first systematic philosophical investigation of the moral and aesthetic issues to which cultural appropriation gives rise. Tackles head on the thorny issues arising from the clash and integration of cultures and their artifacts. Questions considered include: "Can cultural appropriation result in the production of aesthetically successful works of art?" and "Is cultural appropriation in the arts morally objectionable?" Part of the highly regarded *New Directions in Aesthetics* series

**Volume 12, Tome IV: Kierkegaard's Influence on Literature, Criticism and Art** - Jon Stewart 2016-12-05

While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics and artists. This use can be traced in the work of major cultural figures not just in Denmark and Scandinavia but also in the wider world. They have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric and literary style, and his rich images, parables, and allegories. The present volume documents this influence in the different language groups and traditions. Tome IV examines Kierkegaard's surprisingly extensive influence in the Anglophone world of literature and art, particularly in the United States. His thought appears in the work of the novelists Walker Percy, James Baldwin, Flannery O'Connor, William Styron, Don DeLillo, and Louise Erdrich. He has also been used by the famous American literary critics, George Steiner and Harold Bloom. The American composer Samuel Barber made use of Kierkegaard in his musical works. Kierkegaard has also exercised an influence on British and Irish letters. W.H. Auden sought in Kierkegaard ideas for his poetic works, and the contemporary English novelist David Lodge has written a novel *Therapy*, in which Kierkegaard plays an important role. Cryptic traces of Kierkegaard can also be found in the work of the famous Irish writer James Joyce.

**Native American Women** - Gretchen M. Bataille 2003-12-16

Containing biographical sketches of approximately 270 Native American women, this book shows the many important roles they occupy in both contemporary and traditional culture. **Medicine and Art** - Alan EH Emery 2002-11-28

Lavishly illustrated and beautifully presented 53 colour illustrations of art. Marvel at the A4 size pictures in a hardback volume. Read the stories behind them. Alan and Marcia Emery present a superb collection of over fifty pieces of art, reflecting the physician's role in society and the relationship between doctor and patient. *Medicine and Art* contains an international selection of artworks, tracing both the history of art and the development of medicine from the Ancient Greeks to the present day, illustrating changing perceptions and applications of medicine, through varied styles and artistic media. Each work of art is accompanied by a

short essay describing the history of the artist and the subject of the artwork. The full colour illustrations and detailed Appendix of further artworks depicting specific medical conditions make this book a unique treasure trove of information for all who share the authors' love of art, history and medicine. This intriguing book evolved from a series of articles written and researched by Alan Emery about art and medicine in *Clinical Medicine*, the journal of the Royal College of Physicians of London. In addition to his life-long love of art, Professor Alan EH Emery has written over twenty books and 300 scientific articles during his long career in medical genetics. Marcia LH Emery shares her husband's love of art and history. She qualified in psychology in the UK and later obtained qualifications in library science at Case Western Reserve University, USA.

**Where "Indians" Fear to Tread?** - Fabienne C. Quennet 2001

The two fields of contemporary Native American literature and culture exist in the tension between two literary traditions: the Native oral and literary tradition and the modern Western mainstream literary influence. In her North Dakota quartet *Love Medicine* (1984), *The Beet Queen* (1986), *Tracks* (1988), *The Bingo Palace* (1994), Native American mixedblood author, Louise Erdrich (b. 1954) exemplifies where and how these traditions meet and interact. A postmodern reading of the quartet shows that Native American authors and literary critics alike need not be afraid to tread into postmodernism, since an interpretation from this perspective opens up the possibility of freeing Native American literature from the limiting label of "ethnic or minority literature" and of establishing it as a vital part of American literature. This postmodern interpretation of Louise Erdrich's quartet offers a discussion of the theoretical issues involved in the context of ethnic writing and its relation to postmodernism, as well as an analysis of her intricate narrative strategies, in particular, her use of multiple perspectives and of intertextual techniques. The main part of the interpretation consists of a reading of postmodern concepts such as magical realism, carnivalesque humor, the relationship between reader and text, gender roles and sexual identities, history and textuality, the trickster figure, and games and chance as can be found in Louise Erdrich's North Dakota quartet.

**Nature, Love, Medicine** - Thomas Lowe Fleischner 2017-11-14

"A beautiful collaboration that brings together diverse perspectives...a common passion and sense of beauty unites the book and transcends any expectations." —BOOKLIST A diverse array of people—psychologists and poets, biologists and artists, a Buddhist teacher and a rock musician—share personal stories that reveal a common theme: when we pay conscious, careful attention to our wider world, we strengthen our core humanity. This practice of natural history leads to greater physical, psychological, and social health for individuals and communities. *Nature, Love, Medicine* features writers with varied backgrounds and talents. Notable contributors range from conservationist and author Brooke Williams and award-winning author Elisabeth Tova Bailey to Vietnamese Buddhist monk and teacher Thich Nhat Hanh and internationally known poet Jane Hirshfield. THOMAS LOWE FLEISCHNER, editor of *Nature, Love, Medicine*, is a naturalist and conservation biologist, and founding director of the Natural History Institute at Prescott College, where he has taught interdisciplinary environmental studies for almost three decades. He edited *The Way of Natural History* and authored *Singing Stone: A Natural History of the Escalante Canyons and Desert Wetlands*.

**Love Medicine** - Louise Erdrich 1993

The first book in Erdrich's Native American tetralogy that includes *The Beet Queen*, *Tracks*, and *The Bingo Palace* is an authentic and emotionally powerful glimpse into the Native American experience--now resequenced and expanded to include never-before-published chapters.

**The Creative Arts in Counseling** - Samuel T. Gladding 2016-03-17

This latest edition of *The Creative Arts in Counseling* is a powerful, evidence-based examination of how creative expression can be used in counseling with clients of various ages and backgrounds. It explores the clinical application of all of the major creative arts, including music, dance/movement, imagery, visual arts, writing/literature, drama, play and humor, and—new to this edition—animal-assisted therapy, therapeutic horticulture, and nature/wilderness experiences. The history, rationale, and theory behind each art form are discussed, in addition to its clinical benefits and uses in counseling settings. Each chapter contains a variety of practical exercises that clinicians, instructors, and students can incorporate immediately into their work, as well as "creative reflections" for personal and professional self-evaluation. The final chapter summarizes the 126 exercises that appear throughout the text so that readers can quickly access exercises that meet their needs.

**The Gentle Art of Blessing** - Pierre Pradervand 2009-11-10

How can a blessing change the world? According to Pierre Pradervand, making the conscious choice to bless every person or being around you can truly make a world of difference in yourself and in others around you. In *The Gentle Art of Blessing*, Pradervand shows that the practice of blessing has the power to create more than just a renewed perspective. It unleashes tangible benefits throughout your entire life -- through your daily interactions, your life-long relationships, and in the way your approach your place in the world. Pradervand describes blessing as genuinely wishing the best for another person through seeing their individual worth and honoring them for it. By looking at several different perspectives -- providing spiritual inspiration from Hinduism, Taoism, the Koran, the Bible, and other important spiritual sources -- *The Gentle Art of Blessing* explores the potential in shifting one's attitude from confrontation and negativity to acceptance and enthusiasm. A powerfully simple way of perceiving and shaping our surroundings, blessings can reflect the unconditional love and acceptance that is necessary for world -- and inner -- peace.

**Handbook of the Arts in Qualitative Research** - J. Gary Knowles 2007-11-14

"This work's quality, diversity, and breadth of coverage make it a valuable resource for collections concerned with qualitative research in a broad range of disciplines. Highly recommended." —G.R.
