Iberian Books Volumes II & III / Libros Ibéricos

Volúmenes II y III (2 vols) - Alexander Samuel Wilkinson 2015-10-05

Iberian Books II & III offer an indispensable foundational listing of all books published in Spain, Portugal and the New World in the first half of the seventeenth century. They record information on 45,000 items, surviving in 215,000 copies worldwide. Iberian Books II & III ofrece registro de lo publicado en España, Portugal y el Nuevo Mundo, o en español o portugués en otros lugares, entre 1601 y 1650. Recoge 45.000 impresos conservados en 215.000 ejemplares preservados en 1.800 colecciones.

Revolutionary Masculinity and Racial Inequality - Bonnie A. Lucero 2021-12-01

One of the most paradoxical aspects of Cuban history is the coexistence of national myths of racial harmony with lived experiences of racial inequality. Here a historian addresses this issue by examining the ways soldiers and politicians coded their discussions of race in ideas of masculinity during Cuba's transition from colony to republic. Cuban insurgents, the author shows, rarely mentioned race outright. Instead, they often expressed their attitudes toward racial hierarchy through distinctly gendered language—revolutionary masculinity. By examining the relationship between historical experiences of race and discourses of masculinity, Lucero advances understandings about how racial exclusion functioned in a supposedly raceless society. Revolutionary masculinity, she shows, outwardly reinforced the centrality of color blindness to Cuban ideals of manhood at the same time as it perpetuated exclusion of Cubans of African descent from positions of authority.

Three Centuries of Greek Culture under the Roman Empire. Homo Romanus Graeca Oratione (eBook) - Francesca Mestre 2014-05-15

The underlying theme of *Three Centuries of Greek Culture under the Roman Empire* is the idea that, under Roman rule, Greek culture was still alive and dynamic and continued to exert a degree of cultural domination, either real or apparent. So, we hope to analyse the meanings of concepts such as "Greek" or "Greece" in the Empire. Are we right to assume that there was a clear opposition between Greek and Roman? Or would it be more accurate to speak of a "Graeco-Roman world"? It would certainly be possible to make a list of "elements of identity", on both sides—Greek and Roman—, but, in this case, where should the borders between identity and community be placed? *Three Centuries of Greek Culture under the Roman Empire* presents several approaches to the period between the second and fourth centuries AD from a variety of angles, perspectives and disciplines. Until now, this time has usually been considered to be the junction of the decline between the classical world and the emergence of the medieval world; however, this book establishes a basis for considering the Imperial period as a specific stage in cultural, historical and social development with a distinct personality of its own.

Cuba Between Empires, 1878-1902 - Louis A. Pérez

Cuban independence arrived formally on May 20, 1902, with the raising of the Cuban flag in Havana - a properly orchestrated and orderly inauguration of the new republic. But something had gone awry. Republican reality fell far short of the separatist ideal. In an unusually powerful book that will appeal to the general reader as well as to the specialist, Louis A. Perez, Jr., recounts the story of the critical years when Cuba won its independence from Spain only to fall in the American orbit. The last quarter of the nineteenth century found Cuba enmeshed in a complicated colonial environment, tied to the declining Spanish empire yet economically dependent on the newly ascendant United States. Rebellion against Spain had involved two generations of Cubans in major but fruitless

wars. By careful examination of the social and economic changes occurring in Cuba, and of the political content of the separatist movement, the author argues that the successful insurrection of 1895-98 was not simply the last of the New World rebellions against European colonialism. It was the first of a genre that would become increasingly familiar in the twentieth century: a guerrilla war of national liberation aspiring to the transformation of society. The third player in the drama was the United States. For almost a century, the United States had pursued the acquisition of Cuba. Stepping in when Spain was defeated, the Americans occupied Cuba ostensibly to prepare it for independence but instead deliberately created institutions that restored the social hierarchy and guaranteed political and economic dependence. It was not the last time the U.S. intervention would thwart the Cuban revolutionary impulse.

Hispanics/Latinos in the United States - Jorge J.E. Gracia 2012-11-12

The presence and impact of Hispanics/Latinos in the United States cannot be ignored. Already the largest minority group, by 2050 their numbers will exceed all the other minority groups in the United States combined. The diversity of this population is often understated, but the people differ in terms of their origin, race, language, custom, religion, political affiliation, education and economic status. The heterogeneity of the Hispanic/Latino population raises questions about their identity and their rights: do they really constitute a group? That is, do they have rights as a group, or just as individuals? This volume, addresses these concerns through a varied and interdisciplinary approach.

Ringside Seat to a Revolution - David Dorado Romo 2014-01-01

El Paso/Juárez served as the tinderbox of the Mexican Revolution and the tumultuous years to follow. In essays and archival photographs, David Romo tells the surreal stories at the roots of the greatest Latin American revolution: The sainted beauty queen Teresita inspires revolutionary fervor and is rumored to have blessed the first rifles of the revolutionaries; anarchists publish newspapers and hatch plots against the hated Porfirio Diaz regime; Mexican outlaw Pancho Villa eats ice cream cones and rides his Indian motorcycle happily through

downtown; El Paso's gringo mayor wears silk underwear because he is afraid of Mexican lice; John Reed contributes a never-before-published essay; young Mexican maids refuse to be deloused so they shut down the border and back down Pershing's men in the process; vegetarian and spiritualist Francisco Madero institutes the Mexican revolutionary junta in El Paso before crossing into Juárez to his ill-fated presidency and assassination; and bands play Verdi while firing squads go about their deadly business. Romo's work does what Mike Davis' City of Quartz did for Los Angeles—it presents a subversive and contrary vision of the sister cities during this crucial time for both countries. David Dorado Romo, the son of Mexican immigrants, is an essayist, historian, musician and cultural activist. *Ringside Seat to a Revolution* is the result of his three-year exploration of archives detailing the cultural and political roots of the Mexican Revolution along la frontera. Romo received a degree in Judaic studies at Stanford University and has studied in Israel and Italy.
