Issues in Accents of English - Ewa Waniek-Klimczak 2020-10-27

Adopting a central theme of variability, the book explores different aspects of native and non-native accents of English. The dominating perspective is that of a non-native speaker, although - as argued by some contributors - the

very distinction between native and non-native English may need to be redefined. As the debate on the pronunciation of English as a lingua franca continues, this volume presents well-focused studies investigating the acquisition and use of the sound system by native and non-native speakers, problems with the choice and variability in pronunciation models and pedagogical aspects of pronunciation instruction. The issue of accents calls for a comprehensive approach; this book aims to provide such a broad perspective, based on expertise and experience of the contributors, who are specialist in linguistics, applied linguistics, phonetics, phonology and ESL. The book is divided into three parts. Part one discusses complex conditioning of production and perception of native and non-native accents. It contains acoustic and auditory studies investigating the effect of such independent variables as identity, L1 or contextual factors on the elements of the sound system. Part two links the accent variability studies to the pedagogical context by presenting problems with the pronunciation model, its choice and variability. The main focus of part three is on pronunciation teaching: papers presented in this section report on the methods and results of phonetic instruction in different settings.

Dialogue Interpreting - Ian Mason 2014-04-23
Dialogue interpreting includes what is variously referred to in English as Community, Public Service, Liaison, Ad Hoc or Bilateral Interpreting - the defining characteristic being interpreter-mediated communication in spontaneous face-to-face interaction. Included under this heading are all kinds of professional encounters: police, immigration and welfare services interviews, doctor-patient interviews, business negotiations, political interviews, lawyer-client and courtroom interpreting and so on. Whereas research into conference interpreting is now well established, the investigation of dialogue interpreting as a professional activity is still in its infancy, despite some highly promising publications in recent years. This special issue of *The Translator*, guest-edited by one of the leading scholars in translation studies, provides a forum for bringing together separate strands within this developing field and should create an impetus for further research. Viewing the interpreter as a gatekeeper, coordinator and negotiator of meanings within a three-way interaction, the descriptive studies included in this volume focus on issues such as role-conflict, in-group loyalties, participation status, relevance and the negotiation of face, thus linking the observation of interpreting practice to pragmatic constraints such as power, distance and face-threat and to semiotic constraints such as genres and discourses as socio-textual practices of particular cultural communities.

Making Way in Corpus-based Interpreting Studies - Mariachiara Russo 2017-10-24

This book presents a collection of state-of-the-art work in corpus-based interpreting studies, highlighting international research on the properties of interpreted speech, based on naturalistic interpreting data. Interpreting research has long been hampered by the lack of naturalistic data that would allow researchers to make empirically valid generalizations about interpreting. The researchers who present their work here have played a pioneering role in the compilation of interpreting data and in the exploitation of that data. The collection focuses on both of these aspects, including a detailed overview of interpreting corpora, a collective paper on the way forward in corpus compilation and several studies on interpreted speech in diverse language pairs and interpreter-mediated settings, based on existing corpora.

Corpus-Based Translation Studies - Alet Kruger 2011-06-16

This is a collection of leading research within corpus-based translation studies (CTS). CTS is now recognized as a major paradigm that has transformed analysis within the discipline of translation studies. It can be defined as the use of corpus linguistic technologies to inform and elucidate the translation process, something that is increasingly accessible through advances in computer technology. The book pulls together a wide range of perspectives from respected authors in the field. All the chapters deal with the implementation of the basic concepts and methodologies, providing the reader with practical tools for their own research. The book addresses key issues in corpus analysis, including online corpora and corpus construction, and covers both translation and interpreting. The authors look at various languages and utilize a variety of approaches, qualitative and quantitative, reflecting the breadth of the field and providing many valuable examples of the methodology at work.

Dr. B. - Daniel Birnbaum 2022-05-24

The former director of the Museum of Modern Art in Stockholm makes his literary debut with this dramatic and riveting novel of book publishing, émigrés, spies, and diplomats in World War II Sweden based on his grandfather's life. In 1933, after Hitler and the Nazi Party consolidated power in Germany, Immanuel Birnbaum, a German Jewish journalist based in Warsaw, is forbidden from writing for newspapers in his homeland. Six years later, just months before the German invasion of Poland that ignites World War II, Immanuel escapes to Sweden with his wife and two young sons. Living as a refugee in Stockholm, Immanuel continues

to write, contributing articles to a liberal Swiss newspaper in Basel under the name Dr. B. He also begins working as an editor for the legendary German publisher S. Fischer Verlag. Gottfried Bermann Fischer had established an office in Stockholm to evade German censorship, publishing celebrated German writers such as Thomas Mann and Stefan Zweig. Immanuel also becomes entangled with British intelligence agents who produce and distribute anti-Nazi propaganda in Stockholm. On orders from Winston Churchill, the Allied spies plan several acts of sabotage. But when the Swedish postal service picks up a letter written in invisible ink, the plotters are exposed. The letter, long a mystery in military history accounts, was in fact written by Dr. B. But why would a Jew living in exile and targeted for death by the Nazis have wanted to tip them off? Daniel Birnbaum's novel will intrigue readers with its fascinating portrayal of the astonishing connections and often mysterious players illuminated by his grandfather's remarkable wartime life.

Research With Children - Pia Christensen 2012-10-02

Research with Children is a unique resource book on the methodology of childhood research. Leading and new researchers within the social studies of childhood discuss central questions of epistemology and methodology, demonstrating the links between theory and practice. The theoretical and practical questions are set out in a clear and well-argued fashion and will therefore appeal both to the newcomer to childhood studies and to experienced researchers in the field.

Interdisciplinary Studies in Pragmatics, Culture and Society - Alessandro Capone 2015-07-31

This volume is part of the series 'Pragmatics, Philosophy and Psychology', edited for Springer by Alessandro Capone. It is intended for an audience of undergraduate and graduate students, as well as postgraduate and advanced researchers. This volume focuses on societal pragmatics. One of the main concerns of societal pragmatics is the world of language users. We are interested in the investigation of linguistic practices in the context of societal practices ('praxis', to use a term used in the Wittgensteinian and other traditions). It is clear that the world of users, including their practices, their culture, and their social aims has to be taken into account and seriously investigated when we deal with the pragmatics of language. It is not enough to discuss principles of language use solely in the guise of abstract theoretical tools. Consequently, the present volume focuses explicitly on the interplay of abstract, theoretical principles and the necessities imposed by societal contexts often requiring a more flexible use of such theoretical tools. The volume includes articles on pragmatics, politeness and anti-politeness, dialogue, joint utterances, discourse markers, pragmatics and the law, institutional discourse, critical discourse analysis, pragmatics and culture, cultural scripts, argumentation theory, connectives and argumentation, language games and psychotherapy, slurs, the analysis of funerary rites, as well as an authoritative chapter by Jacob L. Mey on societal pragmatics.

Wellbeing, Education and Contemporary Schooling - Malcolm Thorburn 2017-08-08

Wellbeing, Education and Contemporary Schooling examines the role of wellbeing in schools and argues that it should be integral to core policy objectives in health and education. The whole school focus chosen is conducive to the review of wellbeing in schools, and assists in better understanding the complex relationships between learners and teachers in policy contexts, where every teacher has a responsibility for learners' wellbeing. By exploring a range of debates about the nature of wellbeing, the book shows how a child's wellbeing is inseparable from their overall capacity to learn and achieve, and to become confident, self-assured and active citizens. Drawing on international curriculum developments, it considers the ways in which wellbeing could reshape educational aims in areas such as outdoor learning and aesthetic imagination, helping to inform programmes of professional learning for teachers. Separated into six parts, the book covers: philosophical perspectives on wellbeing policy perspectives on wellbeing professional perspectives on wellbeing practice perspectives on wellbeing future prospects for wellbeing a personal perspective on wellbeing. Examining ways in which wellbeing can become a central component of the ethos, culture and environment of contemporary schools, Wellbeing, Education and Contemporary Schooling is an invaluable guide for all students, teachers, researchers and policy

makers with an interest in learning, teaching and children's wellbeing.

Current Trends in the Development and Teaching of the four Language Skills -

Esther Usó-Juan 2006-01-01

Current Trends in the Development and Teaching of the four Language Skills builds connections from theory in the four language skills to instructional practices. It comprises twenty-one chapters that are grouped in five sections. The first section includes an introductory chapter which presents a communicative competence framework developed by the editors in order to highlight the key role the four skills play in language learning and teaching. The next four sections each represent a language skill: Section II is devoted to listening, Section III to speaking, Section IV to reading and Section V to writing. In order to provide an extensive treatment of each of the four skills, each section starts with a theoretical chapter which briefly illustrates advances in the understanding of how each skill is likely to be learned and taught, followed by four didactically oriented chapters authored by leading international specialists. These pedagogical chapters deal specifically with four key topics: 1) areas of research that influence the teaching of a particular skill; 2) an overview of strategies or techniques necessary for developing a particular skill; 3) an approach to the academic orientation of a particular skill, and 4) unique aspects of teaching each skill. Moreover, all chapters incorporate two common sections: pre-reading questions at the beginning of the chapter in order to stimulate readers' interest in its content, and a section entitled suggested activities at the end of the chapter in order to allow readers put the ideas and concepts presented into practice. The accessible style and practical focus of the volume make it an ideal tool for teachers, teacher trainers, and teacher trainees who are involved in teaching the four language skills in a second or foreign language context.

Horseracing is the sport of kings, perhaps because racehorses are very expensive animals. But when they win, they can make a lot of money for the owners, for the trainers, and for the people who put bets on them. Silver Blaze is a young horse, but already the winner of many races. One night he disappears, and someone kills his trainer. The police want the killer, and the owner wants his horse, but they can't find them. So what do they do? They write to 221B Baker Street, of course - to ask for the help of the great detective, Sherlock Holmes.

Mass Higher Education Development in East Asia - Jung Cheol Shin 2015-02-16

This book discusses mass higher education development in East Asian countries by means of three main issues: the strategy for higher education development; the way professors and students in the region are experiencing the rapid developments; and the challenges imposed by mass higher education. These challenges include the quality of education as well as structural changes in the rapidly developing systems, funding sources for supporting mass higher education, and job markets for college graduates. Part I discusses how the East Asian countries have accomplished or are in the process of accomplishing the rapid development of higher education. Japan, Korea, China, Taiwan, Malaysia, Singapore, and Hong Kong serve as case studies of mass higher education in the region. The case studies introduce and discuss national strategies to develop higher education, funding sources and mechanisms, and initiatives to assure quality of education in a period of rapid growth. Part II and Part III of the book focus on the phenomena of mass higher education in the region and the influence on academia. Mass higher education changes professors and students, who are different from those in elite higher education. Part III further

discusses the challenges posed to Asian mass higher education. The Comparative and International Education Society Higher Education (HESIG) has awarded Mass Higher Education Development in East Asia the Higher Education SIG Best Book Award 2015.

Strategic Learning: A Holistic Approach To Studying - Robert K Kamei 2021-07-21

'Dr Bob was our pediatrician. If we could trust him with our kids, you can trust him with how to learn better. I discovered many surprising truths about learning in this book, so follow the scientific research and become a better learner.' Guy Kawasaki Bestselling book author, chief evangelist of Canva and creator of the 'Remarkable People' podcast Most 'how to learn' books focus only on study techniques. However, knowing these study techniques doesn't guarantee they will be successfully implemented. Based on Professor Kamei's popular undergraduate course at the National University of Singapore, the author shares his unique perspective as an educator and physician to provide a strategic approach to learning that will benefit all students looking to optimize their learning. His extensive experience with helping students with their studies has identified a wide variety of reasons why they were not learning properly. What throws many learners off is that they hold certain myths that result in poor study habits. Learners who understand the truth behind these myths can use this knowledge to better plan their study and have an advantage over others that don't. Furthermore, modifying your study methods won't make much difference if you are too sleepy to learn or lack the motivation and self-discipline to pick up a book. These foundational aspects of learning also need to be solidly in place. This book takes learners through the author's holistic method to help students learn better and meet whatever learning challenges they face. Learners of all ages who wish to optimize their learning will benefit from this book, as well as educators seeking an approach to help their students learn better. Related Link(s)
