The Pastoral Clinic - Angela Garcia 2010-06-08
Lyrically evoking the Española Valley and its residents through conversations, encounters, and recollections, *The Pastoral Clinic* is at once a devastating portrait of addiction, a rich ethnography of place, and an eloquent call for a new ethics of care. --amazon.com.

An Anthropology of Anthropology - Robert Borofsky 2019-03-21

The book uses anthropological methods and insights to study the practice of anthropology. It calls for a paradigm shift, away from the publication treadmill, toward a more profile-raising paradigm that focuses on addressing a broad array of social concerns in meaningful ways.

Reading Ethnography - David Jacobson 1991-01-01

This book presents a model for analyzing and evaluating ethnographic arguments. It examines the relationship between the claims anthropologists make about human behavior and the data they use to warrant them. Jacobson analyzes the textual organization of ethnographies, focusing on the ways in which problems, interpretations, and data are put together. He examines in detail a limited number of well-known ethnographic cases, which are selected to illustrate basic theoretical frameworks and modes of analysis. By advancing a method for assessing ethnographic accounts, the book contributes to the current debate on the role of rhetoric and reflexivity in anthropology.

The Land of Open Graves - Jason De Leon 2015-10-23

In his gripping and provocative debut,

anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. *The Land of Open Graves* reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. Drawing on the four major fields of anthropology, De León uses an innovative combination of ethnography, archaeology, linguistics, and forensic science to produce a scathing critique of “Prevention through Deterrence,” the federal border enforcement policy that encourages migrants to cross in areas characterized by extreme environmental conditions and high risk of death. For two decades, this policy has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field. In harrowing detail, De León chronicles the journeys of people who have made dozens of attempts to cross the border and uncovers the stories of the objects and bodies left behind in the desert. *The Land of Open Graves* will spark debate and controversy.

Global Political Ecology - Richard Peet 2010-12-17

The world is caught in the mesh of a series of environmental crises. So far attempts at resolving the deep basis of these have been superficial and disorganized. *Global Political Ecology* links the political economy of global capitalism with the political ecology of a series of environmental disasters and failed attempts at environmental policies. This critical volume draws together contributions from twenty-five

leading intellectuals in the field. It begins with an introductory chapter that introduces the readers to political ecology and summarizes the book's main findings. The following seven sections cover topics on the political ecology of war and the disaster state; fuelling capitalism: energy scarcity and abundance; global governance of health, bodies, and genomics; the contradictions of global food; capital's marginal product: effluents, waste, and garbage; water as a commodity, a human right, and power; the functions and dysfunctions of the global green economy; political ecology of the global climate, and carbon emissions. This book contains accounts of the main currents of thought in each area that bring the topics completely up-to-date. The individual chapters contain a theoretical introduction linking in with the main themes of political ecology, as well as empirical information and case material. *Global Political Ecology* serves as a valuable reference for students interested in political ecology, environmental justice, and geography.

Saints, Scholars, and Schizophrenics - Nancy Scheper-Hughes 2001-01-03

"Saints, Scholars, and Schizophrenics, in its original form--now integrally reproduced in the new edition--is a most important seminal study of an Irish community."—Conor Cruise O'Brien

Drugs and Addict Lifestyles - Documentation Associates 1974

Made in Madagascar - Andrew Walsh 2012-10-04

Since the 1990s, the Ankarana region of northern Madagascar has developed a reputation among globe-trotting gemstone traders and tourists as a source of some of the world's most precious natural wonders. Although some might see Ankarana's sapphire and ecotourist trades as being at odds with each other, many local people understand these trades to be fundamentally connected, most obviously in how both serve foreign demand for what Madagascar has to offer the world. Walsh explores the tensions and speculations that have come with the parallel emergence of these two trades with sensitivity and a critical eye, allowing for insights into globalization, inequality, and the appeal of the "natural." Social Deviance - Tim Delaney 2017-06-16

The topic of social deviance is inherently intriguing. People in general, and college students in particular, find the topic of deviant behavior fascinating. This can be explained, at least in part, by a combination of the subject matter itself, our own past deviant behaviors, and our willingness and desire to evaluate and comment on the behaviors of others. While the topic of deviant behavior seems straightforward at the surface, the study of social deviance reveals how complicated it really is. Although *Social Deviance* utilizes a textbook-style approach in its coverage of deviant behavior, this comprehensive, straightforward, and student-friendly book maintains student interest because of the author's use of real life phenomena and current examples. Each chapter includes chapter objectives, an introductory story, a glossary of key terms, discussion questions, and boxed material. The boxed materials include "A Closer Look" box that zooms in on topics that warrant deeper explanation; and a "Connecting Social Deviance and Popular Culture" box that shows how contemporary forms of popular culture illustrate deviant behavior.

Liquidated - Karen Ho 2009-06-22

Financial collapses—whether of the junk bond market, the Internet bubble, or the highly leveraged housing market—are often explained as the inevitable result of market cycles: What goes up must come down. In *Liquidated*, Karen Ho punctures the aura of the abstract, all-powerful market to show how financial markets, and particularly booms and busts, are constructed. Through an in-depth investigation into the everyday experiences and ideologies of Wall Street investment bankers, Ho describes how a financially dominant but highly unstable market system is understood, justified, and produced through the restructuring of corporations and the larger economy. Ho, who worked at an investment bank herself, argues that bankers' approaches to financial markets and corporate America are inseparable from the structures and strategies of their workplaces. Her ethnographic analysis of those workplaces is filled with the voices of stressed first-year

associates, overworked and alienated analysts, undergraduates eager to be hired, and seasoned managing directors. Recruited from elite universities as “the best and the brightest,” investment bankers are socialized into a world of high risk and high reward. They are paid handsomely, with the understanding that they may be let go at any time. Their workplace culture and networks of privilege create the perception that job insecurity builds character, and employee liquidity results in smart, efficient business. Based on this culture of liquidity and compensation practices tied to profligate deal-making, Wall Street investment bankers reshape corporate America in their own image. Their mission is the creation of shareholder value, but Ho demonstrates that their practices and assumptions often produce crises instead. By connecting the values and actions of investment bankers to the construction of markets and the restructuring of U.S. corporations, *Liquidated* reveals the particular culture of Wall Street often obscured by triumphalist readings of capitalist globalization.

Progressive Dystopia - Savannah Shange
2019-11-15

San Francisco is the endgame of gentrification, where racialized displacement means that the Black population of the city hovers at just over 3 percent. The Robeson Justice Academy opened to serve the few remaining low-income neighborhoods of the city, with the mission of offering liberatory, social justice--themed education to youth of color. While it features a progressive curriculum including Frantz Fanon and Audre Lorde, the majority Latinx school also has the district's highest suspension rates for Black students. In *Progressive Dystopia* Savannah Shange explores the potential for reconciling the school's marginalization of Black students with its sincere pursuit of multiracial uplift and solidarity. Drawing on ethnographic fieldwork and six years of experience teaching at the school, Shange outlines how the school fails its students and the community because it operates within a space predicated on antiblackness. Seeing San Francisco as a social laboratory for how Black communities survive the end of their worlds, Shange argues for abolition over revolution or progressive reform as the needed path toward Black freedom.

Terror Capitalism - Darren Byler 2021-12-10
In *Terror Capitalism* anthropologist Darren Byler theorizes the contemporary Chinese colonization of the Uyghur Muslim minority group in the northwest autonomous region of Xinjiang. He shows that the mass detention of over one million Uyghurs in “reeducation camps” is part of processes of resource extraction in Uyghur lands that have led to what he calls terror capitalism—a configuration of ethnoracialization, surveillance, and mass detention that in this case promotes settler colonialism. Drawing on ethnographic fieldwork in the regional capital Ürümchi, Byler shows how media infrastructures, the state’s enforcement of “Chinese” cultural values, and the influx of Han Chinese settlers contribute to Uyghur dispossession and their expulsion from the city. He particularly attends to the experiences of young Uyghur men—who are the primary target of state violence—and how they develop masculinities and homosocial friendships to protect themselves against gendered, ethnoracial, and economic violence. By tracing the political and economic stakes of Uyghur colonization, Byler demonstrates that state-directed capitalist dispossession is coconstructed with a colonial relation of domination.

America’s Arab Refugees - Marcia C. Inhorn
2018-01-09

America's Arab Refugees is a timely examination of the world's worst refugee crisis since World War II. Tracing the history of Middle Eastern wars—especially the U.S. military interventions in Iraq and Afghanistan—to the current refugee crisis, Marcia C. Inhorn examines how refugees fare once resettled in America. In the U.S., Arabs are challenged by discrimination, poverty, and various forms of vulnerability. Inhorn shines a spotlight on the plight of resettled Arab refugees in the ethnic enclave community of “Arab Detroit,” Michigan. Sharing in the poverty of Detroit's Black communities, Arab refugees struggle to find employment and to rebuild their lives. Iraqi and Lebanese refugees who have fled from war zones also face several serious health challenges. Uncovering the depths of these challenges, Inhorn's ethnography follows refugees in Detroit suffering reproductive health problems requiring in vitro fertilization (IVF).

Without money to afford costly IVF services, Arab refugee couples are caught in a state of "reproductive exile"—unable to return to war-torn countries with shattered healthcare systems, but unable to access affordable IVF services in America. America's Arab Refugees questions America's responsibility for, and commitment to, Arab refugees, mounting a powerful call to end the violence in the Middle East, assist war orphans and uprooted families, take better care of Arab refugees in this country, and provide them with equitable and affordable healthcare services.

Plundered Skulls and Stolen Spirits - Chip Colwell 2019-10-07

"A fascinating account of both the historical and current struggle of Native Americans to recover sacred objects that have been plundered and sold to museums. Museum curator and anthropologist Chip Colwell asks the all-important question: Who owns the past? Museums that care for the objects of history or the communities whose ancestors made them?"-- Provided by the publisher

The Stickup Kids - Randol Contreras 2013
Randol Contreras came of age in the South Bronx during the 1980s, a time when the community was devastated by cuts in social services, a rise in arson and abandonment, and the rise of crack-cocaine. For this riveting book, he returns to the South Bronx with a sociological eye and provides an unprecedented insider's look at the workings of a group of Dominican drug robbers. Known on the streets as "Stickup Kids," these men raided and brutally tortured drug dealers storing large amounts of heroin, cocaine, marijuana, and cash. As a participant observer, Randol Contreras offers both a personal and theoretical account for the rise of the Stickup Kids and their violence. He mainly focuses on the lives of neighborhood friends, who went from being crack dealers to drug robbers once their lucrative crack market opportunities disappeared. The result is a stunning, vivid, on-the-ground ethnographic description of a drug robbery's violence, the drug market high life, the criminal life course, and the eventual pain and suffering experienced by the casualties of the Crack Era. Provocative and eye-opening, *The Stickup Kids* urges us to explore the ravages of the drug trade through

weaving history, biography, social structure, and drug market forces. It offers a revelatory explanation for drug market violence by masterfully uncovering the hidden social forces that produce violent and self-destructive individuals. Part memoir, part penetrating analysis, this book is engaging, personal, deeply informed, and entirely absorbing.

Bandage, Sort, and Hustle - Josh Seim 2020-02-04

What is the role of the ambulance in the American city? The prevailing narrative provides a rather simple answer: saving and transporting the critically ill and injured. This is not an incorrect description, but it is incomplete. Drawing on field observations, medical records, and his own experience as a novice emergency medical technician, sociologist Josh Seim reimagines paramedicine as a frontline institution for governing urban suffering. *Bandage, Sort, and Hustle* argues that the ambulance is part of a fragmented regime that is focused more on neutralizing hardships (which are disproportionately carried by poor people and people of color) than on eradicating the root causes of agony. Whether by compressing lifeless chests on the streets or by transporting the publicly intoxicated into the hospital, ambulance crews tend to handle suffering bodies near the bottom of the polarized metropolis. Seim illustrates how this work puts crews in recurrent, and sometimes tense, contact with the emergency department nurses and police officers who share their clientele. These street-level relations, however, cannot be understood without considering the bureaucratic and capitalistic forces that control and coordinate ambulance labor from above. Beyond the ambulance, this book motivates a labor-centric model for understanding the frontline governance of down-and-out populations.

Kingsblood Royal - Sinclair Lewis 1959-01-01

Requiem for a Dream - Hubert Selby 2012
Harry Goldfarb, heroin addict and son of lonely widow Sara, cares only about enjoying the good life with girlfriend Marion and best friend Tyrone C Love, and making the most of all the hash, poppers and dope they can get. Sara Goldfarb sits at home with the TV, dreaming of the life she could have and struggling with her

own addictions - food and diet pills. But these four will pay a terrible price for the pleasures they believe they are entitled to. A passionate, heart-breaking tale of the crushing weight of hope and expectation, *Requiem for a Dream* is a dark modern-day fable of New York. 'Selby brings a scorching light to a limited area of human existence, which most people know of but do not know.' Newsweek 'One of the great American novelists, and one who has helped us to understand the nature of addiction and the human condition better, perhaps, than any other.' Guardian

Renegade Dreams - Laurence Ralph
2014-09-15

Inner city communities in the US have become junkyards of dreams, to quote Mike Davis wastelands where gangs package narcotics to stimulate the local economy, gunshots occur multiple times on any given day, and dreams of a better life can fade into the realities of poverty and disability. Laurence Ralph lived in such a community in Chicago for three years, conducting interviews and participating in meetings with members of the local gang which has been central to the community since the 1950s. Ralph discovered that the experience of injury, whether physical or social, doesn't always crush dreams into oblivion; it can transform them into something productive: renegade dreams. The first part of this book moves from a critique of the way government officials, as opposed to grandmothers, have been handling the situation, to a study of the history of the historic Divine Knights gang, to a portrait of a duo of gang members who want to be recognized as authentic rappers (they call their musical style crack music) and the difficulties they face in exiting the gang. The second part is on physical disability, including being wheelchair bound, the prevalence of HIV/AIDS among heroin users, and the experience of brutality at the hands of Chicago police officers. In a final chapter, *The Frame, Or How to Get Out of an Isolated Space*, Ralph offers a fresh perspective on how to understand urban violence. The upshot is a total portrait of the

interlocking complexities, symbols, and vicissitudes of gang life in one of the most dangerous inner city neighborhoods in the US. We expect this study will enjoy considerable readership, among anthropologists, sociologists, and other scholars interested in disability, urban crime, and race."

Perspectives - Tina Stavenhagen-Helgren
2018-12-05

Righteous Dopefiend - Philippe Bourgois
2009-04-29

Explores the world of homelessness and drug addiction in contemporary United States, discussing such themes as violence, race relations, sexuality, family trauma, social inequality, and power relations.

All I Eat Is Medicine - Ippolytos Kalofonos
2021-08-24

All I Eat Is Medicine charts the lives of individuals and the operation of institutions in the thick of the AIDS epidemic in Mozambique during the global scale-up of treatment for HIV/AIDS at the turn of the twenty-first century. Even as the AIDS treatment scale-up saved lives, it perpetuated the exploitation and exclusion that was implicated in the propagation of the epidemic in the first place. This book calls attention to the global social commitments and responsibilities that a truly therapeutic global health requires.

addicted.pregnant.poor - Kelly Ray Knight
2015-10-05

For the addicted, pregnant, and poor women living in daily-rent hotels in San Francisco's Mission district, life is marked by battles against drug cravings, housing debt, and potential violence. In this stunning ethnography Kelly Ray Knight presents these women in all their complex humanity and asks what kinds of futures are possible for them given their seemingly hopeless situation. During her four years of fieldwork Knight documented women's struggles as they traveled from the street to the clinic, jail, and family court, and back to the hotels. She approaches addicted pregnancy as an everyday phenomenon in these women's lives and describes how they must navigate the tension between pregnancy's demands to stay clean and the pull of addiction and poverty toward drug use and sex work. By creating the

space for addicted women's own narratives and examining addicted pregnancy from medical, policy, and social science perspectives, Knight forces us to confront and reconsider the ways we think about addiction, trauma, health, criminality, and responsibility.

Humanitarian Reason - Didier Fassin 2012

Studies primarily France with shorter sections on South Africa, Venezuela, and Palestine.

The Great Shark Hunt - Hunter S. Thompson 2011-09-06

The first volume in Hunter S. Thompson's bestselling Gonzo Papers offers brilliant commentary and outrageous humor, in his signature style. Originally published in 1979, the first volume of the bestselling "Gonzo Papers" is now back in print. The Great Shark Hunt is Dr. Hunter S. Thompson's largest and, arguably, most important work, covering Nixon to napalm, Las Vegas to Watergate, Carter to cocaine. These essays offer brilliant commentary and outrageous humor, in signature Thompson style. Ranging in date from the National Observer days to the era of Rolling Stone, The Great Shark Hunt offers myriad, highly charged entries, including the first Hunter S. Thompson piece to be dubbed "gonzo"—"The Kentucky Derby Is Decadent and Depraved," which appeared in Scanlan's Monthly in 1970. From this essay a new journalistic movement sprang which would change the shape of American letters.

Thompson's razor-sharp insight and crystal clarity capture the crazy, hypocritical, degenerate, and redeeming aspects of the explosive and colorful '60s and '70s.

The Corner - David Simon 2013-03-13

The crime-infested intersection of West Fayette and Monroe Streets is well-known--and cautiously avoided--by most of Baltimore. But this notorious corner's 24-hour open-air drug market provides the economic fuel for a dying neighborhood. David Simon, an award-winning author and crime reporter, and Edward Burns, a 20-year veteran of the urban drug war, tell the chilling story of this desolate crossroad. Through the eyes of one broken family--two drug-addicted adults and their smart, vulnerable 15-year-old son, DeAndre McCollough, Simon and Burns examine the sinister realities of inner cities across the country and unflinchingly assess why law enforcement policies, moral crusades, and

the welfare system have accomplished so little. This extraordinary book is a crucial look at the price of the drug culture and the poignant scenes of hope, caring, and love that astonishingly rise in the midst of a place America has abandoned.

The Cambridge Handbook of the Capability Approach - Enrica Chiappero-Martinetti 2020-11-30

This landmark handbook collects in a single volume the current state of cutting-edge research on the capability approach. It includes a comprehensive introduction to the approach as well as new research from leading scholars in this increasingly influential multi-disciplinary field, including the pioneers of capability research, Martha C. Nussbaum and Amartya Sen. Incorporating both approachable introductory chapters and more in-depth analysis relating to the central philosophical, conceptual and theoretical issues of capability research, this handbook also includes analytical and measurement tools, as well as policy approaches which have emerged in the recent literature. The handbook will be an invaluable resource for students approaching the capability approach for the first time as well as for researchers engaged in advanced research in a wide range of disciplines, including development studies, economics, gender studies, political science and political philosophy.

In Search of Respect - Philippe Bourgois 2003

This new edition brings this study of inner-city life up to date.

The Making of a Teenage Service Class - Ranita Ray 2018

"Stereotypes of economically marginalized black and brown youth focus on drugs, gangs, violence, and teen parenthood. Families, schools, nonprofit organizations, and institutions in poor urban neighborhoods emphasize preventing such "risk behaviors." In *The Making of a Teenage Service Class*, Ranita Ray uncovers the pernicious consequences of concentrating on risk behaviors as key to targeting poverty. Having spent three years among sixteen black and Latina/o youth, Ray shares their stories of trying to beat the odds of living in poverty. Their struggles of hunger, homelessness, and untreated illnesses are juxtaposed with the perseverance of completing homework, finding

jobs, and spending long hours traveling from work to school to home. By focusing on the lives of youth who largely avoid drugs, gangs, violence, and teen parenthood, the book challenges the idea that targeting these "risk behaviors" is key to breaking the cycle of poverty. Ray compellingly demonstrates how the disproportionate emphasis on risk behaviors reinforces class and race hierarchies and diverts resources that could support marginalized youth's basic necessities and educational and occupational goals."--Provided by publisher.

The 1916 Preparedness Day Bombing -

Jeffrey A. Johnson 2017-08-15

This book places the 1916 San Francisco Preparedness Day Bombing within the broader context of American radicalism and isolationism during the Progressive Era. A concise narrative and key primary documents offer readers an introduction to this episode of domestic violence and the subsequent, sensationalized trial that followed. The dubious conviction of a local labor organizer raised serious questions about political extremism, pluralistic ideals, and liberty in the United States that continue to resonate in the twenty-first century.

From Modern Production to Imagined Primitive -
Paige West 2012-02-10

West looks at the process from which coffee is grown, gathered, sorted, shipped, and served from the highlands of Papua New Guinea to coffee shops in far away places. She shows how coffee becomes a commodity, the different forms of labor involved, and the way that coffee shapes the lives and understandings of those who grow, process, export, sell and consume coffee.

Scripting Addiction - E. Summerson Carr
2010-10-18

Scripting Addiction takes readers into the highly ritualized world of mainstream American addiction treatment. It is a world where clinical practitioners evaluate how drug users speak about themselves and their problems, and where the ideal of "healthy" talk is explicitly promoted, carefully monitored, and identified as the primary sign of therapeutic progress. The book explores the puzzling question: why do addiction counselors dedicate themselves to reconciling drug users' relationship to language in order to reconfigure their relationship to drugs? To answer this question, anthropologist Summerson

Carr traces the charged interactions between counselors, clients, and case managers at "Fresh Beginnings," an addiction treatment program for homeless women in the midwestern United States. She shows that shelter, food, and even the custody of children hang in the balance of everyday therapeutic exchanges, such as clinical assessments, individual therapy sessions, and self-help meetings. Acutely aware of the high stakes of self-representation, experienced clients analyze and learn to effectively perform prescribed ways of speaking, a mimetic practice they call "flipping the script." As a clinical ethnography, *Scripting Addiction* examines how decades of clinical theorizing about addiction, language, self-knowledge, and sobriety is manifested in interactions between counselors and clients. As an ethnography of the contemporary United States, the book demonstrates the complex cultural roots of the powerful clinical ideas that shape therapeutic transactions--and by extension administrative routines and institutional dynamics--at sites such as "Fresh Beginnings."

Braving the Street - Irene Glasser 1999-04-01

As homelessness continues to plague North America and also becomes more widespread in Europe, anthropologists turn their attention to solving the puzzle of why people in some of the most advanced technological societies in the world are found huddled in a subway tunnel, squatting in a vacant building, living in a shelter, or camping out in an abandoned field or on a beach. Anthropologists have a long tradition of working in poverty subcultures and have been able to contribute answers to some of the puzzles of homelessness through their ability to enter the culture of the homeless without some of the preconceptions of other disciplines. The authors, anthropologists from the U.S.A. and Canada, offer us an analysis of homelessness that is grounded in anthropological research in North America and throughout the world. Both have in-depth experience through working in communities of the homeless and present us with the results of their own work and with that of their colleagues.

Folk Devils and Moral Panics - Stanley Cohen
2011

'Richly documented and convincingly presented'
-- New Society Mods and Rockers, skinheads,

video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Storming Caesar's Palace - Annelise Orleck
2005-07-01

The inspirational and little-known story of welfare mothers in Las Vegas, America's Sin City, who crafted an original response to poverty-from the ground up In *Storming Caesars Palace*, historian Annelise Orleck tells the compelling story of how a group of welfare mothers built one of this country's most successful antipoverty programs. Declaring "We can do it and do it better," these women proved that poor mothers are the real experts on poverty. In 1972 they founded Operation Life, which was responsible for many firsts for the poor in Las Vegas-the first library, medical center, daycare center, job training, and senior citizen housing. By the late 1970s, Operation Life was bringing millions of dollars into the community. These women became influential in Washington, DC-respected and listened to by political heavyweights such as Daniel Patrick Moynihan, Ted Kennedy, and Jimmy Carter. Though they lost their funding with the country's

move toward conservatism in the 1980s, their struggles and phenomenal triumphs still stand as a critical lesson about what can be achieved when those on welfare chart their own course.

Vita - João Biehl 2013-10-12

"João Biehl's *Vita* is a greatly arresting work. The tale of Catarina is one that haunts the reader. This book's central character is sure to become an anthropological classic, her humanity reaffirmed by the author."—Arthur Kleinman, author of *Writing at the Margin: Discourse between Anthropology and Medicine*

Number Our Days - Barbara Myerhoff
1980-05-09

This investigation into the lives of a group of elderly Jews living in Venice, California, establishes correlations between their ethnic heritage and rituals and their acceptance of physical hardship and approaching death
Reimagining Global Health - Paul Farmer
2013-09-07

Bringing together the experience, perspective and expertise of Paul Farmer, Jim Yong Kim, and Arthur Kleinman, *Reimagining Global Health* provides an original, compelling introduction to the field of global health. Drawn from a Harvard course developed by their student Matthew Basilio, this work provides an accessible and engaging framework for the study of global health. Insisting on an approach that is historically deep and geographically broad, the authors underline the importance of a transdisciplinary approach, and offer a highly readable distillation of several historical and ethnographic perspectives of contemporary global health problems. The case studies presented throughout *Reimagining Global Health* bring together ethnographic, theoretical, and historical perspectives into a wholly new and exciting investigation of global health. The interdisciplinary approach outlined in this text should prove useful not only in schools of public health, nursing, and medicine, but also in undergraduate and graduate classes in anthropology, sociology, political economy, and history, among others.

Death Without Weeping - Nancy Scheper-Hughes 1993

When lives are dominated by hunger, what becomes of love? When assaulted by daily acts of violence and untimely death, what happens to

trust? Set in the lands of Northeast Brazil, this is an account of the everyday experience of scarcity, sickness and death that centres on the lives of the women and children of a hillside "favela". Bringing her readers to the impoverished slopes above the modern plantation town of Bom Jesus de Mata, where she has worked on and off for 25 years, Nancy Scheper-Hughes follows three generations of

shantytown women as they struggle to survive through hard work, cunning and triage. It is a story of class relations told at the most basic level of bodies, emotions, desires and needs. Most disturbing - and controversial - is her finding that mother love, as conventionally understood, is something of a bourgeois myth, a luxury for those who can reasonably expect, as these women cannot, that their infants will live.
