Target XAT 2022 (Past Papers 2005 - 2021 + 5 Mock Tests) 13th Edition - Disha Experts 2020-07-01

Instructional Writing in English - Matti Peikola 2009-07-29

The history of English writing is, to a considerable extent, the history of instructional writing in English. This volume is the first collection of papers to focus on instructional writing throughout the history of the language. Spanning a millennium of English texts, the materials studied represent procedural and behavioural discourse in a variety of genres. The primary texts, from Ælfric's homilies to medieval cooking recipes to seventeenth-century American conduct literature to present-day language textbooks, display a variety of linguistic devices typical of instruction. The materials nonetheless differ with respect to the explicitness of their instructive purpose. Bringing together a broad range of instructional writing from the Old, Middle and Modern English periods, this collection celebrates the sixtieth birthday of Risto Hiltunen, who has successfully combined discourse-linguistic approaches with the history of English in his research, and inspired the colleagues and former students contributing to this volume.

Testing and Assessment in Translation and Interpreting Studies - Claudia V. Angelelli 2009

"Testing and Assessment in Translation and Interpreting Studies" examines issues of measurement that are essential to translation and interpreting. Conceptualizing testing both as a process and a product, the collection of papers explores these issues across languages and settings (including university classrooms, research projects, the private sector, and professional associations). The authors have approached their chapters from different perspectives using a variety of methods, some focusing on very specific variables, and others providing a much broader overview of the issues at hand. Chapters range from a discussion of the measurement of text cohesion in translation; the measurement of

interactional competence in interpreting; the use of a particular scale to measure interpreters' renditions to the application of a specific approach to grading or general program assessment (such as interpreter or translator certification at the national level or program admissions processes). These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field."
