Every great team, culture, society, religion or business that has endured time, adversity and challenge has always had one thing in common: a set of simple but powerful rules that govern the internal behaviors and expectations of that group. It is called The Code of Honor. We hear of these Codes when we think of things like The Ten Commandments, the Marine Corps or the Constitution. Yet if sales is the number one skill in business, number two has to be the ability to bring ordinary people together to build a championship team. This does not happen by chance or by the simple accumulation of talent. The Code is the core ingredient to creating winning organizations. The book is a step-by-step guide for any individual, group or company to actually create a Code of Honor specific to their team. The Rich Dad Poor Dad Advisor series was designed as a "how-to" series to empower individuals to succeed in the world of business and finance. "Team Code of Honor" is critical to this series because its processes bridge all facets of business, investment, entrepreneurship and even personal life. Sales Dogs - Blair Singer 2013-02-28

The number one skill for any entrepreneur or business owner is the ability to sell. Why? Because sales = income. Yet, many fail financially not because they do not have great ideas or even good work ethic, but typically because they don't know how to, refuse to, are afraid to, or don't think it is important to know

how to sell. SalesDogs was written as the very first of the Rich Dad Poor Dad “how-to” Advisory series to teach in a very fun and impactful way how to overcome the fears, the myths and the obstacles to selling your products, services or yourself. It then teaches a simple, time-proven process of selling that will generate great income in most any business. The reader will learn the five most important selling skills to master, how to overcome any objection, manage a territory and much more. The book quickly debunks the idea that you have to be an overly aggressive “attack dog” to be successful. It uses the metaphor of “man’s best friend” to say that a great sales person is like a loyal, persistent and lovable canine. It stipulates that there are five different “breeds” or personalities of SalesDogs that can each make a lot of money by playing to its strength. You will learn how to identify, maximize and train to that strength and also how to teach others on your team to do the same. While the book is fun and engaging, it also dives deep into the personal development issues that block a person’s ability to generate income and how to overcome them. The book is perfect for first time salespeople, individuals who are uncomfortable with the notion of “selling”, those who need to train others to sell and those who want to simply get better quicker.

Imagining Organizations - Paolo Quattrone
2013-06-17

Organizations rely extensively upon a myriad of images and pictorial representations such as budgets, schedules, reports, graphs, and organizational charts to name but a few. Visual images play an integral role in the process of organizing. This volume argues that images in organizations are ‘performative’, meaning that they can be seen as performances, rather than mere representations, that play a significant role in all kind of organizational activities. Imagining Organizations opens up new ways of imagining business through an interdisciplinary approach that captures the role of visualizations and their performances. Contributions to this volume challenge this orthodox view to explore how images in business, organizing and organizations are viewed in a static and rigid form. Imagining Business addresses the question of how we visualize organizations and their activities as an important aspect of managerial work, focusing

on practices and performances, organizing and ordering, and media and technologies. Moreover, it aims to provide a focal point for the growing collection of studies that explore how various business artifacts draw on the power of the visual to enable various forms of organizing and organizations in diverse contexts.
