Shadows in the Tree - Jennifer DeBruin 2015-08

"We have been marked as traitors." A mere shadow in the family tree, little could Eliza have realized the way in which her fifth great-grandmother, Maria Catrina, would step from the shadows of her husband's life to reveal the true price paid for loyalty. The unrivaled beauty and abundance of the Mohawk Valley, engulfed in the fight for liberty, forced the Eamers to choose between the freedom sought by many and their loyalty to the king. The impossible choice, once made, compelled them to abandon the land they loved and the hope that they would find peace amongst their once-loved neighbours, friends...and family. Fleeing his impending arrest, Peter leaves Maria Catrina with their young children, telling her she must make her way north to the safety of the king's lands in Quebec. Their exodus through

the wild, untamed Adirondack Mountains reveals the darkness of men's hearts and the lengths to which a mother will go to safeguard her precious ones. Inspired by true events.

The Book of L

- G. Rozenberg 2012-12-06
This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the

models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and o (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive

way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A.

Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

High Line Nudes - 2016-05-10
From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a

series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis."

A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world.

High Line Nudes captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.
