[Challenging Islamic Orthodoxy](#) - Al Makin 2016-09-22

This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden's prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism, religious freedom, tolerance, discrimination against minorities, and secularisation.

**Marketing Aesthetics** - Alex Simonson 1997-08-30

There is no way to mistake the ubiquitous trademarked Coca-Cola bottle, or the stylish ads for Absolut Vodka with any of their competitors. How have these companies created this irresistible appeal for their brands? How have they sustained a competitive edge through aesthetics? Bernd Schmitt and Alex Simonson, two leading experts in the emerging field of identity management, offer clear guidelines for harnessing a company's total aesthetic output -- its "look and feel" -- to provide a vital competitive advantage. Going beyond standard traditional approaches on branding, this fascinating book is the first to combine branding, identity, and image and to show how aesthetics can be managed through logos, brochures, packages, and advertisements, as well as sounds, scents, and lighting, to sell "the memorable experience." The authors explore what makes a corporate or brand identity irresistible, what styles and themes are crucial for different contexts, and what meanings certain visual symbols convey. Any person in any organization in any industry can benefit from employing the tools of "marketing aesthetics." Schmitt and Simonson describe how a firm can use these tools strategically to create a variety of sensory experiences that will (1) ensure customer satisfaction and loyalty; (2) sustain lasting customer impressions about a brand's or organization's special personality; (3) permit premium pricing; (4) provide legal "trade dress" protection from competitive attacks; (5) lower costs and raise productivity; and (6) most importantly, create irresistible appeal. The authors show how to manage identity globally and how to develop aesthetically pleasing retail spaces and environments. They also address the newly emergent topic of how to manage corporate and brand identity on the Internet. Supporting their thesis with numerous real-world success stories such as Absolut Vodka, Nike, the Gap, Cathay Pacific Airlines, Starbucks, the New Beetle Website, and Lego, the authors explain how actual companies have developed, refined, and maintained distinct corporate identities that set them apart from competitors.

**100 Birds and How They Got Their Names** - Diana Wells 2001-10-30

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers—from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized

alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

[Literacy and Education](#) - James Paul Gee 2014-12-05

Literacy and Education tells the story of how literacy—starting in the early 1980s—came to be seen not as a mental phenomenon, but as a social and cultural one. In this accessible introductory volume, acclaimed scholar James Paul Gee shows readers how literacy "left the mind and wandered out into the world." He traces the ways a sociocultural view of literacy melded with a social view of the mind and speaks to learning in and out of school in new and powerful ways. Gee concludes by showing how the very idea of

"literacy" has broadened into new literacies with words, signs, and deeds in contexts enhanced, augmented, and transformed by new technologies.
