Children and Schooling - Phillip Gammage
2012-05-04

The book provides a synthesis of a broadly-based social-psychology of education and bridges the gap between theory and practice in education by emphasising the relationship between research and actuality. The author discusses the major issues in childhood socialisation relating to

schooling, achievement and the curriculum, and in so doing makes a sensitive and well-argued case for the social-psychological perspective. He presents a social-psychologist's view of the interaction between child, school and curriculum, and summarises mainstream psychological contributions to current thinking on achievement, self-esteem and education. He

covers areas of social learning and attribution theory not commonly dealt with in education texts, showing that there are major fields of research which have until now been neglected. Children and Schooling is constructed so that its chapters can be used as independent study-guides to specific subjects or read in sequence, each subject inter-related. The text can be treated as an introduction, particularly in view of the notes and comprehensive and apposite scholarly apparatus: and as a spring-board for serious study at advanced level.

I Will Survive - Gloria Gaynor 2014-03-11

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller.

With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

This paper presents an empirical approach to identifying and ranking the world's largest clusters of inventive activity on the basis of patent filings. Our approach goes beyond existing work by identifying and ranking innovation clusters on an internationally comparable basis.

Big Billion Startup: The Untold Flipkart Story - Mihir Dalal 2019-10-06

The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal

recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, *Big Billion Startup* is the riveting and revealing account of how Sachin and Binny Bansal built and sold India's largest internet company.

risks, this book explains the key nonfinancial (environmental, social, governance and technological or ESGT) risks. In this book, global governance, risk, ethics and cyber strategist, author and board member, Andrea Bonime-Blanc, shows practitioners at all levels how to effectively identify and manage their top ESGT risks to avoid crises and transform risk into sustainable long-term resilience and value. Gloom to Boom is a book for everyone - from the highest levels of leadership in an organization (the board, CEO and C-suite), to other senior leaders (the chief risk officer, CFO, general counsel, head of CSR and sustainability, CISO, CHRO), and midlevel leaders, students and folks
