The Rise and Growth of Economic Nationalism in India - Bipan Chandra 2010

The Millionaire Fastlane - MJ DeMarco
2011-01-04

10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a

used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan?

Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions...

Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

The Global Encyclopaedia of Informality, Volume 2 - Alena Ledeneva 2018-01-17

Alena Ledeneva invites you on a voyage of discovery to explore society's open secrets, unwritten rules and know-how practices. Broadly defined as 'ways of getting things done', these invisible yet powerful informal practices tend to escape articulation in official discourse. They include emotion-driven exchanges of gifts or favours and tributes for services, interest-driven know-how (from informal welfare to informal employment and entrepreneurship), identity-driven practices of solidarity, and power-driven forms of co-optation and control. The paradox, or not, of the invisibility of these informal practices is their ubiquity. Expertly practised by insiders

but often hidden from outsiders, informal practices are, as this book shows, deeply rooted all over the world, yet underestimated in policy. Entries from the five continents presented in this volume are samples of the truly global and ever-growing collection, made possible by a remarkable collaboration of over 200 scholars across disciplines and area studies. By mapping the grey zones, blurred boundaries, types of ambivalence and contexts of complexity, this book creates the first Global Map of Informality. The accompanying database (www.in-formality.com) is searchable by region, keyword or type of practice, so do explore what works, how, where and why! Praise for Global Encyclopaedia of Informality 'The Global Informality Project unveils new ways of understanding how the state functions and ways in which civil servants and citizens adapt themselves to different local contexts by highlighting the diversity of the relationships between state and society. The project is of

great interest to policymakers who want to imagine solutions that are beneficial for all, but sufficiently pragmatic to ensure a seamless implementation, particularly in the field of cross-border trade in developing countries.' - Kunio Mikuriya, Secretary General of the World Customs Organisation, Brussels 'An extremely interesting and stimulating collection of papers. Ledeneva's challenging ideas, first applied in the context of Russia's economy of shortage, came to full blossom and are here contextualized by practices from other countries and contemporary systems. Many original and relevant practices were recognized empirically in socialist countries, but this book shows their generality.' - János Kornai, Allie S. Freed Professor of Economics Emeritus at Harvard and Professor Emeritus at Corvinus University of Budapest 'Alena Ledeneva's Global Encyclopedia of Informality is a unique contribution, providing a global atlas of informal practices through the contributions of over 200 scholars across the

world. It is far more rewarding for the reader to discover how commonalities of informal behavior become apparent through this rich texture like a complex and hidden pattern behind local colors than to presume top down universal benchmarks of good versus bad behavior. This book is a plea against reductionist approaches of mathematics in social science in general, and corruption studies in particular and makes a great read, as well as an indispensable guide to understand the cultural richness of the world.' - Alina Mungiu-Pippidi, Professor of Democracy Studies, Hertie School of Governance, Berlin 'Transformative scholarship in method, object, and consequence. Ledeneva and her networked expertise not only enable us to view the informal comparatively, but challenge conventionally legible accounts of membership, markets, domination and resistance with these rich accounts from five continents. This project offers nothing less than a social scientific revolution... if the broader scholarly community has the imagination to

follow through. And by globalizing these informal knowledges typically hidden from view, the volumes' contributors will extend the imaginations of those business consultants, movement mobilizers, and peace makers who can appreciate the value of translation from other world regions in their own work.' Michael D. Kennedy, Professor of Sociology and International and Public Affairs, Brown University and author of Globalizing Knowledge 'Don't mistake these weighty volumes for anything directory-like or anonymous. This wonderful collection of short essays, penned by many of the single best experts in their fields, puts the reader squarely in the kinds of conversations culled only after years of friendship, trust, and with the keen eye of the practiced observer. Perhaps most importantly, the remarkably wide range of offerings lets us "de-parochialise" corruption, and detach it from the usual hyper-local and cultural explanations. The reader, in the end, is the one invited to

consider the many and striking commonalities.'

and Chair of the US National Council for East
European and Eurasian Research

Marxist Theories of Imperialism - Anthony Brewer 1990

The last two hundred years have seen a massive

increase in the size of the world economy and
equally massive inequalities of wealth and power
between different parts of the world. They have
also witnessed the rise to dominance of the
capitalist mode of production. Marxists, from
Marx himself through to present day thinkers,
have argued that these changes are profoundly
interconnected. This book offers a unique
account of Marxist theories of Imperialism. It
has been fully updated and expanded to cover all
the developments since its initial publication and
will be essential reading for any student of
Marxism.

Indian Jewellery - Thomas Holbein Hendley 2009

The Journal of Indian Art is still one of the most
consulted books on Indian jewellery. It is an
authentic source for scholars and collectors who
are engaged with traditional Indian jewellery or
ancient techniques. The original of Indian
Jewellery was edited in 1909 by Thomas Holbein
Hendley, comprising Nos. 95-107 of The Journal

of Indian Art. The picture plates of this book show native ornaments of British India, demonstrating the vast of Indian jewellery in the eight provinces at the end of the nineteenth century. Examples of the jewellery of past civilizations of Asia and Europe were added for consideration of the history and development of the different styles. The book's illustrations and descriptions of old Indian royal and peasant ornaments are of unaltered interest now, one hundred years later. During this past period, new developments and designs of jewellery have come up, frequently based on the old traditions. The centenary reprint edition of Indian Jewellery was therefore supplemented with photographs of recent Indian jewellery, as an attempt to present revival pieces that are still en vogue after one hundred years, as well as to show examples of new developments which were manufactured after the old style, yet with modifications and adaptations, answering to a modernized taste and demand.

Atlas Shrugged - Ayn Rand 2005-04-21

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these

questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

Handbook of Spices, Seasonings, and Flavorings, Second Edition - Susheela

Raghavan 2006-10-23

An A to Z Catalog of Innovative Spices and Flavorings Designed to be a practical tool for the many diverse professionals who develop and market foods, the Handbook of Spices, Seasonings, and Flavorings combines technical information about spices—forms, varieties, properties, applications, and quality specifications — with information about trends, spice history, and the culture behind their cuisines. The book codifies the vast technical and culinary knowledge for the many professionals who develop and market foods. While many reference books on spices include alphabetized descriptions, the similarity between this book and others ends there. More than just a list of spices, this book covers each spice's varieties, forms, and the chemical components that typify its flavor and color. The author includes a description of spice properties, both chemical and sensory, and the culinary information that will aid in product development.

She also explains how each spice is used around the world, lists the popular global spice blends that contain the spice, describes each spice's folklore and traditional medicine usage, and provides translations of each spice's name in global languages. New to this edition is coverage of spice labeling and a chapter on commercial seasoning formulas. Going beyond the scope of most spice books, this reference describes ingredients found among the world's cuisines that are essential in providing flavors, textures, colors, and nutritional value to foods. It explores how these ingredients are commonly used with spices to create authentic or new flavors. The author has created a complete reference book that includes traditionally popular spices and flavorings as well as those that are emerging in the US to create authentic or fusion products. Designed to help you meet the challenges and demands of today's dynamic marketplace, this book is a complete guide to developing and marketing successful products.

SPIN® -Selling - Neil Rackham 2020-04-28

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried

in many of today's leading companies with dramatic improvements to their sales performance.

Praise for The Global Encyclopaedia of Informality 'The Global Encyclopaedia of Informality represents the beginning of a new era in informality studies. With its wealth of information, diversity, scope, theoretical innovation and artistic skill, this collection touches on all the aspects of social and cultural complexity that need to be integrated into policy thinking.' Predrag Cveticanin, Centre for Empirical Cultural Studies of South-East Europe, Belgrade, Serbia 'This is a monumental achievement - an

indispensable reference for anyone in the social sciences interested in informality.' Martin Holbraad, Professor of Social Anthropology, UCL, and editor-in-chief of Social Analysis 'This impressive work helps us understand our complex times by showing how power develops through informal practices, mobilizing emotional, cognitive and relational mechanisms in strategies of survival, but also of camouflage and governance.' Donatella della Porta, Director of Centre of Social Movements Studies, Scuola normale superiore, Firenze, Italy 'An impressive, informative, and intriguing collection. With evident passion and patience, the team of 250 researchers insightfully portrays the multiplicity of informal and often invisible expressions of human interdependence.' Subi Rangan, Professor of Strategy and Management, INSEAD, Fontainebleau, France 'This compendium of terms used in different cultures to express aspects of informal economy provides a unique supplement to studies of a major (yet

understated by academic economics) social issue. It will be of key significance for in-depth teaching of sociology, economics and history.’ Teodor Shanin, OBE Professor and President of the Moscow School of Social and Economic Sciences ‘Modern states have sought to curb, control and subdue informality. The entries in the Global Encyclopaedia demonstrate the endurance of informality over such efforts. More recently, the rise and political success of anti-establishment movements in so many parts of the world is a wide-ranging challenge and delegitimisation of national and transnational formal institutions of governance. Understanding the perceived shortcomings of formal institutions and the appeal of anti-establishment movements must at least in part be informed by a study of informality and its networks. This Encyclopaedia is essential reading if we wish to understand and engage with these challenges of our age.’ Fredrik Galtung, Chairman, Integrity Action

Intravenous Lipid Emulsions - P.C. Calder

This book brings together articles written by leading international authorities in the area of intravenous lipids. Contributions discuss the latest findings in the field, ranging from pre-clinical research to the most recent clinical trials. Lipid functionality and utility in pediatric, adult surgical and critically ill patients are covered, as is the use of lipids in long-term home parenteral nutrition. Indian Sufism since the Seventeenth Century -

Nile Green 2006-09-27

Sufism is often regarded as standing mystically aloof from its wider cultural settings. By turning this perspective on its head, Indian Sufism since the Seventeenth Century reveals the politics and poetry of Indian Sufism through the study of Islamic sainthood in the midst of a cosmopolitan Indian society comprising migrants, soldiers, litterateurs and princes. Placing the mystical traditions of Indian Islam within their cultural contexts, this interesting study focuses on the shrines of four Sufi saints in the neglected Deccan region and their changing roles under the rule of the Mughals, the Nizams of Haydarabad and, after 1948, the Indian nation. In particular Green studies the city of Awrangabad, examining the vibrant intellectual and cultural history of this city as part of the independent state of Haydarabad. He employs a

combination of historical texts and anthropological fieldwork, which provide a fresh perspective on developments of devotional Islam in South Asia over the past three centuries, giving a fuller understanding of Sufism and Muslim saints in South Asia.

Twelve Years a Slave - Solomon Northup 2012-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I

Higher Gossip - John Updike 2011-11-01

Here is the collection of nonfiction pieces that John Updike was compiling when he died in January 2009. It opens with a self-portrait of the writer in winter, a Prospero who, though he fears his most dazzling performances are behind him, reveals himself in every sentence to be in deep conversation with the sources of his magic. It concludes with a moving meditation on a world without religion, without art, and on the difficulties of faith in a disbelieving age. In between are pieces on Peanuts, Mars, and the songs of Cole Porter, a pageant of scenes from early Massachusetts, and a good deal of Updikean table talk. At the heart of the volume are dozens of book reviews from *The New Yorker* and illustrated art writings from *The New*

York Review of Books. Updike's criticism is gossip of the highest sort. We will not hear the likes of it again.

[Observability of food safety losses in maize: Evidence from Kenya](#) - Hoffmann, Vivian 2019-12-06

Unlike physical losses, deterioration of food safety can be difficult to observe. In low- and middle- income countries, much of the food supply is never tested for safety hazards. We analyze data from 1500 maize samples and associated consumer surveys collected from clients of small-scale hammer mills in rural Kenya. We find that while visible damage to maize is penalized by lower prices, there is no correlation between price and aflatoxin, a carcinogenic fungal contaminant, implying an absence of market incentives to manage this aspect of food loss. Aflatoxin contamination is, however, correlated with consumer perceptions of quality, especially for self-produced maize, suggesting an information asymmetry that could

lead to inefficiencies in this market.
