The Future of the German-Jewish Past - Gideon Reuveni 2020-12-15

Germany's acceptance of its direct responsibility for the Holocaust has strengthened its relationship with Israel and has led to a deep commitment to combat antisemitism and rebuild Jewish life in Germany. As we draw close to a time when there will be no more firsthand experience of the horrors of the Holocaust, there is great concern about what will happen when German responsibility turns into history. Will the present taboo against open antisemitism be lifted as collective memory fades? There are alarming signs of the rise of the far right, which includes blatantly antisemitic elements, already visible in public discourse. The evidence is unmistakable—overt antisemitism is dramatically increasing once more. *The Future of the German-Jewish Past* deals with the formidable challenges created by these developments. It is conceptualized to offer a variety of perspectives and views on the question of the future of the German-Jewish past. The volume addresses topics such as antisemitism, Holocaust memory, historiography, and political issues relating to the future relationship between Jews, Israel, and Germany. While the central focus of this volume is Germany, the implications go beyond the German-Jewish experience and relate to some of the broader challenges facing modern societies today.

Boruto: Naruto Next Generations, Vol. 1 - Ukyo Kodachi 2017-04-04

Years have passed since Naruto and Sasuke teamed up to defeat Kaguya, the progenitor of chakra and the greatest threat the ninja world has ever faced. Times are now peaceful and the new generation of shinobi has not experienced the same hardships as its parents. Perhaps that is why Boruto would rather play video games than train. However, one passion does burn deep in this ninja boy's heart, and that is the desire to defeat his father! -- VIZ Media

The Forest Passage - Ernst Jünger 2013

Ernst Jünger's *The Forest Passage* explores the possibility of resistance: how the independent thinker can withstand and oppose the power of the omnipresent state. No matter how extensive the technologies of surveillance become, the forest can shelter the rebel, and the rebel can strike back against tyranny. Jünger's manifesto is a defense of freedom against the pressure to conform to political manipulation and artificial consensus. A response to the European experience under Nazism, Fascism, and Communism, *The Forest Passage* has lessons equally relevant for today, wherever an imposed uniformity threatens to stifle liberty.

Gesundheit! - Patch Adams 1998-10-01

The inspiring and hilarious story of Patch Adams's quest to bring free health care to the world and to transform the way doctors practice medicine • Tells the story of Patch Adams's lifetime quest to transform the health care system • Released as a film from Universal Pictures, starring Robin Williams Meet Patch Adams, M.D., a social revolutionary who has devoted his career to giving away health care. Adams is the founder of the *Gesundheit* Institute, a home-based medical practice that has treated more than 15,000 people for free, and that is now building a full-scale

hospital that will be open to anyone in the world free of charge. Ambitious? Yes. Impossible? Not for those who know and work with Patch. Whether it means putting on a red clown nose for sick children or taking a disturbed patient outside to roll down a hill with him, Adams does whatever is necessary to help heal. In his frequent lectures at medical schools and international conferences, Adams's irrepressible energy cuts through the businesslike facade of the medical industry to address the caring relationship between doctor and patient that is at the heart of true medicine. All author royalties are used to fund The Gesundheit Institute, a 40-bed free hospital in West Virginia. Adams's positive vision and plan for the future is an inspiration for those concerned with the inaccessibility of affordable, quality health care. Today's high-tech medicine has become too costly, impersonal, and grim. In his frequent lectures to colleges, churches, community groups, medical schools, and conferences, Patch shows how healing can be a loving, creative, humorous human exchange—not a business transaction. Yoga, Tantra and Meditation in Daily Life - Janakanada Swami Saraswau 1992-02-01

The author demonstrates how you can practice Tantric Yoga and go on living your life as you usually do, adding another habit to the ones you already have. The step-by-step, well-illustrated instructions in this book take you from beginners' exercises to those for advanced students. You will learn how to meditate easily, breathe correctly during yoga or meditation, and how to do easy yoga poses and exercises, such as the back program to improve posture and maintain youthfulness, and a great deal more!

Theory U - C. Otto Scharmer 2009-01-01

Shows how leaders can access the deepest source of inspiration and vision • Includes dozens of tested exercises, practices, and real-world examples We live in a time of massive institutional failure, one that requires a new consciousness and a new collective leadership capacity. In this groundbreaking book, Otto Scharmer invites us to see the world in new ways and in so doing discover a revolutionary approach to leadership. What we pay attention to and how we pay attention is key to what we create. What prevents us from attending to situations more effectively is that we aren't fully aware of and in touch with the inner place from which attention and intention originate. This is what Scharmer calls our blind spot. By moving through Scharmer's U process, we consciously access the blind spot and learn to connect to our authentic Self—the deepest source of knowledge and inspiration—in the realm of "presencing," a term coined by Scharmer that combines the concepts of presence and sensing. Based on ten years of research and action learning and interviews with over 150 practitioners and thought leaders, Theory U offers a rich diversity of compelling stories and examples and includes dozens of exercises and practices that allow leaders, and entire organizations, to shift awareness, connect with the best future possibility, and gain the ability to realize it.

Teaching English as a Foreign Language - Carola Surkamp 2018-03-24

Diese Einführung in englischer Sprache präsentiert in 14 Kapiteln die grundlegenden Themen und Gegenstandsbereiche der Englischdidaktik. Gleichermaßen praxisnah wie theoretisch fundiert, behandelt der Band zentrale Prinzipien und Kompetenzbereiche eines modernen Fremdsprachenunterrichts. Ausgehend von den zentralen Akteur/innen (Lehrende und Lernende) und mit Blick auf die Teilbereiche der Sprach-, Literatur- und Kulturdidaktik werden zudem Vorschläge für den Einsatz unterschiedlicher Materialien und Medien diskutiert. Weitere Kapitel widmen sich den institutionellen Organisationsstrukturen und dem Bereich Assessment/Diagnose. Der Band erscheint in zweifarbiger Gestaltung, mit Definitionen und Beispielen sowie mit zahlreichen Abbildungen. This comprehensive introduction presents the fundamental topics and issues of TEFL (Teaching English as a Foreign Language) in 14 chapters. Integrating both profound theoretical and creative practical considerations, the central principles and competence domains of modern foreign language teaching are discussed. Starting with the main classroom agents (teachers and learners), the chapters outline a variety of content areas (language, literature, cultural issues) and thoroughly review materials, media and methods. Additional chapters are concerned with the historical development of English language teaching, its current institutional organisation as well as assessment and evaluation.

Sapiens - Yuval Noah Harari 2015-02-10

New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be "human." One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability

to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

The Maddest Obsession - Danielle Lori 2019-04-16

She fears the dark. He rules it. Her dresses are too tight, her heels too tall. She laughs too loudly, eats without decorum, and mixes up most sayings in the book. Little do most know it's just a sparkly disguise, there to hide one panic attack at a time. Nobody can crack Gianna's facade . . . no one anyway, until he comes along. Most see a paragon of morality; a special agent upholding the law. In the New York underworld, others know him as a hustler, a killer, his nature as cold as the heart of ice in his chest. Christian Allister has always followed the life plan he'd envisioned in his youth, beneath the harsh lights of a frigid, damp cell. With a proclivity for order and the number three, he's never been tempted to veer off course. But perhaps one should never say never . . . One winter night and their lives intertwine. She hates him--his stone-cold demeanor, his arrogance and too-perceptive eye--but over the years, even as their games consist of insulting each other's looks and intelligence, she begins to live to play with him. Nowhere in Christian's plans had he ever prepared for Gianna. She's chaos embodied, not his type, and married, but none of that can stop his eyes from following her wherever she goes. All along, she doesn't even know that she's his--his frustration, his fascination. His maddest obsession. *Can be read as a standalone

Homo Deus - Yuval Noah Harari 2017-02-21

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

Private Empire - Steve Coll 2012-05-01

From the award-winning and bestselling author of *Ghost Wars* and *Directorate S*, an "extraordinary" and "monumental" exposé of Big Oil (The Washington Post) Includes a profile of current Secretary of State and former chairman and chief executive of ExxonMobil, Rex Tillerson In this, the first hard-hitting examination of ExxonMobil—the largest and most powerful private corporation in the United States—Steve Coll reveals the true extent of its power. *Private Empire* pulls back the curtain, tracking the corporation's recent history and its central role on the world stage, beginning with the Exxon Valdez accident in 1989 and leading to the Deepwater Horizon oil spill in the Gulf of Mexico in 2010. The action spans the globe—featuring kidnapping cases, civil wars, and high-stakes struggles at the Kremlin—and the narrative is driven by larger-than-life characters, including corporate legend Lee "Iron Ass" Raymond, ExxonMobil's chief executive until 2005, and current chairman and chief executive Rex Tillerson, President-elect Donald Trump's nomination for Secretary of State. A penetrating, news-breaking study, *Private Empire* is a defining portrait of Big Oil in American politics and foreign policy.
