Risk Game - Francis J. Greenburger 2016-09-06

Prior to the real-estate boom of the 1980s, Francis J. Greenburger risked it all to buy three older loft buildings at 50 West Street near the current 9/11 Memorial. He ultimately dreamed of one day erecting a magnificent skyscraper in their place. But disaster struck in 2008, just as his plans were coming together, and development came to a screeching halt. The global financial crisis had made the land practically worthless and it would be years before he could get back on track, but he refused to give up on his dream. Today, 50 West is a striking 780-foot skyscraper with curved glass windows that has become an iconic feature on the city skyline—but it took much more than

a financial investment to get there. It required Greenburger to do what he does best—take huge risks at every turn. During his parallel careers, Francis J. Greenburger has made publishing and real-estate history. Whether risking the reputation of his agency for the super -star authors of tomorrow, such as James Patterson to Dan Brown, or pioneering the New York co-op market by taking "hopeless" properties and turning them into prized homes, he has successfully navigated the worlds of business, politics, and social change to become the quintessential American entrepreneur. A math and business prodigy who started working for his father at the age of 12. After a stop-and-start academic career, he voluntarily left one of the most elite and academically distinguished New York City high schools and started his adult life at 15. Greenburger has made it his life's work to find value where others never thought to look, and his keen instincts and innovative strategies have taken him from a high-school "dropout" to a

well-educated self-made billionaire. Francis has mastered the "risk game." Now, with Rebecca Paley's gripping prose, he takes us behind the scenes in *Risk Game* and reveals firsthand how he has become a self-made force in the competitive world of New York real estate—and a champion for nonprofit organizations in the fields of art, education, and, most recently, social and criminal justice.

Pride and Prejudice - Jane Austen 2013-09

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 edition. Excerpt: ... CHAPTER X. Elizabeth, as they drove along, watched for the first appearance of Pemberley Woods with some perturbation; and when at length they turned in at the lodge, her spirits were in a high flutter. The park was very large, and contained great variety of ground. They entered it in one of its lowest points, and drove for some time through a beautiful wood stretching over a wide extent. Elizabeth's mind was too full for conversation, but she saw and admired every remarkable spot and point of view. They gradually ascended for half a mile, and then found themselves at the top of a considerable eminence, where the wood ceased, and the eye was instantly caught by Pemberley House,

situated on the opposite side of the valley, into which the road with some abruptness wound. It was a large, handsome stone building, standing well on rising ground, and backed by a ridge of high woody hills; and in front a stream of some natural importance was swelled into greater, but without any artificial appearance. Its banks were neither formal nor falsely adorned. Elizabeth was delighted. She had never seen a place for which VOL. II. -- 6 Nature had done more, or where natural beauty had been so little counteracted by an awkward taste. They were all of them warm in their admiration; and at that moment she felt that to be mistress of Pemberley might be something! They descended the hill, crossed the bridge, and drove to the door; and while examining the nearer aspect of the house, all her apprehension of meeting its owner returned. She dreaded lest the chambermaid had been mistaken. On applying to see the place, they were admitted into the hall; and Elizabeth, as they waited for the housekeeper, had leisure

to wonder at her being where she was. The...
Bet the Farm - Beth Hoffman 2021-10-05
"Eloquent and detailed...It's hard to have hope, but the organized observations and plans of Hoffman and people like her give me some. Read her book -- and listen." -- Jane Smiley, The Washington Post
In her late 40s, Beth Hoffman decided to upend her comfortable life as a professor and journalist to move to her husband's family ranch in Iowa--all for the dream of becoming a farmer. There was just one problem: money. Half of America's two million farms made less than \$300 in 2019, and many struggle just to stay afloat. *Bet the Farm* chronicles this struggle through Beth's eyes. She must contend with her father-in-law, who is reluctant to hand over control of the land. Growing oats is good for the environment but ends up being very bad for the wallet. And finding somewhere, in the midst of COVID-19, to slaughter grass finished beef is a nightmare. If Beth can't make it, how can farmers who

confront racism, lack access to land, or don't have other jobs to fall back on hack it? *Bet the Farm* is a first-hand account of the perils of farming today and a personal exploration of more just and sustainable ways of producing food.

The Diary of a Young Girl - Anne Frank
1996-02-01

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding.

For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

Mountain agriculture: Opportunities for harnessing Zero Hunger in Asia - Food and

Agriculture Organization of the United Nations
2019-08-07

Mountain food security and nutrition are core issues that can contribute positively to the achievement of the Sustainable Development Goals but paradoxically are often ignored in Zero Hunger and poverty reduction-related agenda. Under the overall leadership of José Graziano da Silva, the Former Director-General of FAO, sustainable mountain agriculture development is set as a priority in Asia and the Pacific, to effectively address this issue and assist Member Countries in tackling food insecurity and malnutrition in mountain regions. This comprehensive publication is the first of its kind that focuses on the multidimensional status, challenges, opportunities and solutions of sustainable mountain agriculture development for Zero Hunger in Asia. This publication is building on the 'International Workshop and Regional Expert Consultation on Mountain Agriculture Development and Food Security and

Nutrition Governance', held by FAO RAP and UIR in November 2018 Beijing, in collaboration with partners from national governments, national agriculture institutes, universities, international organizations and international research institutes. The publication provides analysis with evidence on how mountain agriculture could contribute to satisfying all four dimensions of food security, to transform food systems to be nutrition-sensitive, climate-resilient, economically-viable and locally adaptable. From this food system perspective, the priority should be given to focus on specialty mountain product identification (e.g. Future Smart Food), production, processing, marketing and consumption, which would effectively expose the potential of mountain agriculture to contribute to Zero Hunger and poverty reduction. In addition, eight Asian country case studies not only identify context-specific challenges within biophysical-technical, policy, socio-economic and institutional dimensions.

[Learning From Violent Extremist Attacks: Behavioural Sciences Insights For Practitioners And Policymakers](#) - Majeed Khader 2018-12-19

How can we use psychology and the behavioural sciences to aid law enforcement to better identify violent extremists? What can we learn from past attacks to ensure that our society is more prepared? How can societies deal with tension after these attacks? Violent extremists are evolving, constantly honing their strategies

to out-manuever the 'good guys'. Faced with the quandary, challenges, and responsibilities of ensuring the safety of the society, practitioners and policymakers have to take decisive steps to respond and mitigate the impact of an attack. However, the daunting task of countering violent extremism is still plagued by the lack of basic understanding of the phenomenon. This book, *Learning from Violent Extremist Attacks: Behavioural Sciences Insights for Practitioners and Policymakers*, attempts to fill a gap in the extant literature by offering a behavioural sciences approach to integrate our understanding of the threat of violent extremism, with knowledge drawn from diverse fields, such as psychology, sociology, history, political science, technology, and communications to identify the lessons learned and provide scientifically defensible interventions and approaches for both the practitioners and policymakers.

Rituals of Ethnicity - Sara Shneiderman
2015-02-02

Rituals of Ethnicity is a transnational study of

the relationships between mobility, ethnicity, and ritual action. Through an ethnography of the Thangmi, a marginalized community who migrate between Himalayan border zones of Nepal, India, and the Tibetan Autonomous Region of China, Shneiderman offers a new explanation for the persistence of enduring ethnic identities today despite the increasing realities of mobile, hybrid lives. She shows that ethnicization may be understood as a process of ritualization, which brings people together around the shared sacred object of identity. The first comprehensive ethnography of the Thangmi, *Rituals of Ethnicity* is framed by the Maoist-state civil conflict in Nepal and the movement for a separate state of Gorkhaland in India. The histories of individual nation-states in this geopolitical hotspot—as well as the cross-border flows of people and ideas between them—reveal the far-reaching and mutually entangled discourses of democracy, communism, development, and indigeneity that have

transformed the region over the past half century. Attentive to the competing claims of diverse members of the Thangmi community, from shamans to political activists, Shneiderman shows how Thangmi ethnic identity is produced collaboratively by individuals through ritual actions embedded in local, national, and transnational contexts. She builds upon the specificity of Thangmi experiences to tell a larger story about the complexities of ethnic consciousness: the challenges of belonging and citizenship under conditions of mobility, the desire to both lay claim to and remain apart from the civil society of multiple states, and the paradox of self-identification as a group with cultural traditions in need of both preservation and development. Through deep engagement with a diverse, cross-border community that yearns to be understood as a distinctive, coherent whole, *Rituals of Ethnicity* presents an argument for the continued value of locally situated ethnography in a multisited world.

The Ailing Turkish Democracy - Magdalene Antreou 2019-11-29

Turkey currently has an ailing democratic regime, and the country remains trapped in the gap which separates liberal constitutional regimes from totalitarian regimes. It has been trying to join the former camp for decades, but

has not yet made substantial progress in this endeavour. This book documents the four main causes of the “disease” which troubles the Turkish democracy: namely, socio-economic underdevelopment, the dependent middle classes, the perpetuation of the “Kurdish Issue”, and the weak opposition play a significant role in the shaping of the modern Turkish political system. It shows that, following the post-Cold War trend of the developing world of establishing a hybrid majoritarian political system, the Turkish political system constituted the conservative response of the ruling elites to the country’s socio-political changes.
