Governance Feminism - Janet Halley 2019-03-26

An interdisciplinary, multifaceted look at feminist engagements with governance across the global North and global South *Governance Feminism: Notes from the Field* brings together nineteen chapters from leading feminist scholars and activists to critically describe and assess contemporary feminist engagements with state and state-like power. Gathering examples from North America, South America, Europe, Asia, and the Middle East, it complements and expands on the companion volume *Governance Feminism: An Introduction*. Its chapters argue that governance feminism (GF) is institutionally diverse and globally distributed—emerging from traditional sites of state power as well as from various forms of governance and operating at the grassroots level, in the private sector, in civil society, and in international relations. The book begins by confronting the key role that crime and punishment play in GFeminist projects. Here, contributors explore the ideological and political conditions under which this branch of GF became so robust and rethink the carceral turn. Other chapters speak to another face of GFeminism: feminists finding, in mundane and seemingly unspectacular bureaucratic tools, leverage to bring about change in policy and governance practices. Several contributions highlight the political, strategic, and ethical challenges that feminists and LGBT activists must negotiate to play on the governmental field. The book concludes with a focus on feminist interventions in postcolonial legal and political orders, looking at new policy spaces opened up by conflict, postconflict, and occupation. Providing a clear, cross-cutting, critical lens through which to map developments in feminist governance around the world, *Governance Feminism: Notes from the Field* makes sense of the costs and benefits of current feminist realities to reimagine feminist futures. Countering Violent Extremism in Pakistan - Anita M. Weiss 2021-04-29

This book identifies and analyzes the impact of the various ways in which local people are responding, taking stands, recapturing their culture, and saying 'stop' to the violent extremism that has manifested over the past decade (even longer) in Pakistan. Local groups throughout Pakistan are engaging in various kinds of social negotiations and actions to lessen the violence that has plagued the country since the 1979 Soviet invasion of Afghanistan which let loose abarrage of violence that overflowed into its borders. In so many ways, Pakistanis are engaging in powerful actions that transform how people think about their own society, impeding extremists' rants while acting on 'envisioning alternative futures'. This book, hence, focuses on finding the sparks of hope that local people are creating to counter violent extremism based on close ethnographic study of ground realities about not only what people are doing but why they are selecting these kinds of actions, how they are creating alternative narratives about culture and identity, and their vision of a future without violence. This book is also designed to celebrate what is flourishing in cultural performances, music, social activism, and the like in Pakistan today because of people's commitment to take stands against extremism.

Building a Road to Nuclear Disarmament - Rizwana Abbasi 2021-07-26

This book while comprehending the contemporary global security environment, offers a new roadmap for nuclear disarmament by creating a balance between deterrence supporters and disarmament advocates. The author identifies the divide between competing approaches such as traditional security-centric aspects and humanity-centered disarmament perspectives, tackling the complex question of how to balance some states' requirements for effective nuclear deterrence with other states' long-term desire for a nuclear-free world. The book explores how new technologies such as cyber and Artificial Intelligence advances are available to more countries than nuclear technology, and could level the playing field for weaker nuclear weapons states. It also looks into the issues which continue to be obstacles in the way of convincing the nuclear weapon states on nuclear disarmament presented in this volume. The author argues that the gap between states' security needs and disarmament aspirations can be bridged by building a new roadmap and creating new security environment. This volume will be of great interest to students and scholars, researchers, policymakers, NGOs and members of the diplomatic community, in the fields of security studies, strategic studies and nuclear policy.

New Realities in Foreign Affairs - Volker Stanzel 2019-07-08

Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Mit Beiträgen von Volker Stanzel, Sascha Lohmann, Andrew Cooper, Christer Jönsson, Corneliu Bjola, Emillie V. de Keulenaar, Jan Melissen, Karsten D. Voigt, Kim B. Olsen, Hanns W. Maull und R. S. 1971 - Srinath Raghavan 2013-11-12

The war of 1971 that created Bangladesh was the most significant geopolitical event in the Indian subcontinent since partition in 1947. It tilted the balance of power between India and Pakistan steeply in favor of India. Srinath Raghavan contends that the crisis and its cast of characters can be understood only in a wider international context.

Global Trends 2040 - National Intelligence Council 2021-03

"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will

escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Faith, Unity, Discipline - Hein Kiessling 2016-11-15

Established in the wake of the Indo-Pakistani War of 1947-8 by the Australian army officer Major-General Walter Cawthorne, then Deputy Chief of Staff in the Pakistan Army, Pakistan's Inter-Services Intelligence (ISI) for years remained an under-developed and obscure agency. In 1979, the organisation's growing importance was felt during the Soviet war in Afghanistan, as it worked hand in glove with the CIA to support the mujahideen resistance, but its activities received little coverage in news media. Since that time, the ISI has projected its influence across the region in 1988 its involvement in Indian Kashmir came under increasing scrutiny, and by 1995 its mentoring of what became the Afghan Taliban was well attested. But it was the organisation's alleged links with Al Qaeda and the discovery of Osama bin Laden in Abbottabad, at the heart of Pakistan's military zone, that really threw it under the spotlight. These controversies and many more have dogged the ISI, including its role in Pakistan's testing of a nuclear weapon in 1998 and its links with A.Q. Khan. Offering fresh insights into the ISI as a domestic and international actor based on intimate knowledge of its inner workings and key individuals, this startlingly original book uncovers the hitherto shady world of Pakistan's secret service.

Physics at a Glance - Tim Mills 2008-10-30

This book aims to cover all the GCSE Physics material needed to meet the specifications of the examining boards Edexcel, AQA, WJEC and OCR (both 21st Century Science and Gateway) both for single and double awards. The content also covers the additional topics necessary for the Physics GCSE single award. It is the third book in the series following 'Biology at a Glance' and 'Chemistry at a Glance' and it encourages learners to use a mind mapping approach to revision. Just like the other books in the series, each page contains clear annotated illustrations that will help the reader to assimilate the facts quickly and commit them to memory. The book covers force and energy, energy and its transfer (including waves, electrical and thermal energy), electromagnetism and radioactivity. It goes on to describe a wide range of the practical applications of physics and concludes with material on our place in the universe. To comply with the latest GCSE specifications, 'How Science Works' permeates all aspects of the book which also provides questions on all the topics covered, to reinforce skills and understanding.
