The Social Animal - David Brooks 2012-01-03

#1 NEW YORK TIMES BESTSELLER With unequaled insight and brio, New York Times columnist David Brooks has long explored and explained the way we live. Now Brooks turns to the building blocks of human flourishing in a multilayered, profoundly illuminating work grounded in everyday life. This is the story of how success happens, told through the lives of one composite American couple, Harold and Erica. Drawing on a wealth of current research from numerous disciplines, Brooks takes Harold and Erica from infancy to old age, illustrating a fundamental new understanding of human nature along the way: The unconscious mind, it turns out, is not a dark, vestigial place, but a creative one, where most of the brain's work gets done. This is the realm where character is formed and where our most important life decisions are made—the natural habitat of The Social Animal. Brooks reveals the deeply social aspect of our minds and exposes the bias in modern culture that overemphasizes rationalism, individualism, and IQ. He demolishes conventional definitions of success and looks toward a culture based on trust and humility. The Social Animal is a moving intellectual adventure, a story of achievement and a defense of progress. It is an essential book for our time—one that will have broad social impact and will change the way we see ourselves and the world.

Como reconquistar seu ex - Paula Cassim 2019-08-26

Ei, você...Com certeza a esta altura você já deve ter corrido atrás dele de todas as maneiras possíveis e imagináveis. Ligou, mandou mensagem, e-mail e nada o fez mudar de ideia. Muito pelo contrário. Você sente que ele está cada vez mais longe. Você liga para suas amigas e repete um milhão de vezes tudo o que ele lhe disse, tudo o que você disse de volta, tudo o que estava acontecendo entre vocês. Você não sabe mais o que fazer. Devo ligar? Devo ir atrás? E se ele arrumar outra? E se ele não me quiser NUNCA mais? Você não aguenta mais elas pedindo para você ter calma, dizendo que tudo tem a hora certa e que você merece alguém melhor. Ficar se lamentando, torturando, culpando, não vai adiantar absolutamente nada agora. Não o fará voltar, muito pelo contrário. Tem jeito? Sim! ...Você soube conquistá-lo e saberá reconquistá-lo da mesma forma!

The Power of Habit - Charles Duhigg 2012-02-28

NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. World Order - Henry Kissinger 2014-09-09

"Dazzling and instructive . . . [a] magisterial new book." —Walter Isaacson, Time "An astute analysis that illuminates many of today's critical international issues." —Kirkus Reviews Henry Kissinger offers in *World Order* a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true "world order," Kissinger observes. For most of history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often

instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík. He offers compelling insights into the future of U.S.-China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, *World Order* anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, *World Order* is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of *On China*.

Secrets of the Baby Whisperer - Tracy Hogg 2001-06-01

"TRACY HOGG HAS GIVEN PARENTS A GREAT GIFT—the ability to develop early insight into their child's temperament." —Los Angeles Family When Tracy Hogg's *Secrets of the Baby Whisperer* was first published, it soared onto bestseller lists across the country. Parents everywhere became "whisperers" to their newborns, amazed that they could actually communicate with their baby within weeks of their child's birth. Tracy gave parents what for some amounted to a miracle: the ability to understand their baby's every coo and cry so that they could tell immediately if the baby was hungry, tired, in real distress, or just in need of a little TLC. Tracy also dispelled the insidious myth that parents must go sleepless for the first year of a baby's life—because a happy baby sleeps through the night. Now you too can benefit from Tracy's more than twenty years' experience. In this groundbreaking book, she shares simple, accessible programs in which you will learn:

- E.A.S.Y.—how to get baby to eat, play, and sleep on a schedule that will make every member of the household's life easier and happier.
- S.L.O.W.—how to interpret what your baby is trying to tell you (so you don't try to feed him when he really wants a nap).
- How to identify which type of baby yours is—Angel, Textbook, Touchy, Spirited, or Grumpy—and then learn the best way to interact with that type.
- Tracy's Three Day Magic—how to change any and all bad habits (yours and the baby's) in just three days.

At the heart of Tracy's simple but profound message: treat the baby as you would like to be treated yourself. Reassuring, down-to-earth, and often flying in the face of conventional wisdom, *Secrets of the Baby Whisperer* promises parents not only a healthier, happier baby but a more relaxed and happy household as well.

O Grande livro do amor e sexo - Maurício Sita 2020-11-25

O grande livro do amor e do sexo traz como tema central os relacionamentos, lembrando o leitor de pontos importantes a serem trabalhados em uma relação, mas que são esquecidos conforme a rotina se instaura. Um desses pontos, que pode aparecer, inclusive, no início dos relacionamentos é a expectativa que se cria sobre o outro. Tanto em relação ao ser como ao fazer, cria-se uma expectativa sobre o que o outro deveria fazer para você e por você, sem que ele saiba disso. A consequência é a frustração, além de surgirem desentendimentos. Entre os diversos fatores importantes em um relacionamento, como cumplicidade, carinho, respeito e afeto, a vida sexual é um ponto muito importante que precisa ser mais abordado. Nos capítulos, os autores falam sobre a importância do autoconhecimento, do orgasmo feminino, das carícias e desejos, além de contextualizar historicamente o que se entendia por sexo e como mudar algumas ideias enraizadas ao longo dos séculos. Um dos temas, por exemplo, é a "fisioterapia a serviço do autoconhecimento e prazer", texto de Camila Patriota. Outro ponto é a comunicação, que deve ser trabalhada. Uma boa comunicação evita problemas e deixa os assuntos claros, facilitando a resolução de conflitos. É importante entender que cada pessoa tem com um repertório de vida, a forma como foi criada e as experiências pelas quais passou fazem parte da sua subjetividade e nem sempre as ideias e opiniões são

compatíveis. Por isso, é importante tentar entender o outro lado e não achar que apenas uma opinião e modo de ver o mundo é válido.

The Acts of the Apostles - Ellen G. White 2014-05-26

The fifth book of the New Testament has been known from ancient times as *The Acts of the Apostles*; but this title cannot be found in the book itself. One of the earliest manuscripts, the *Codex Sinaiticus*, gives as the title the simple word *Acts*, with no mention of the apostles. There is a reason for this. *Acts* was intended to be more than a brief history of the service rendered by the twelve disciples, much more than the principal events in the lifework of its four leading characters, Peter, James, John, and Paul. *The Acts of the Apostles* was one of the last books written by Ellen G. White. It was published a few years before her death. It is one of the most illuminating volumes that came from her prolific pen. The average reader will find in it light for Christian witnessing. The message of the book is up to date, and its relevancy is reflected in the effort of the author to show that the twentieth century will witness a bestowal of spiritual power exceeding that of Pentecost. The work of the gospel is not to close with a lesser display of the Holy Spirit's power than marked its beginning.

Beyond Good and Evil (Squashed Edition) - Friedrich Nietzsche 2019-01-09

The Squashed edition of *Beyond Good and Evil* by Friedrich Nietzsche. Abridged from the original text to read in an hour or so. Squashed editions are precise abridgements - the original ideas, in their own words, the full beam of the book, the quotable quotes and all the famous lines, but neatly honed down to the length of a readable short story. ""Like reading the bible without all the begats"" - Prof. Jim Curtis

Why Nations Fail - Daron Acemoglu 2013-09-17

Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including:

- China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West?
- Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority?
- What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions?

Why Nations Fail will change the way you look at—and understand—the world.
