The James Bond Cold Reading - Julian Moore 2012-09-29

The James Bond Cold Reading is a whole new take on the twelve lines of the 'Classic Reading' made so popular from the 50's to the present day. Julian 'Bev' Moore shows you how this much discussed but seldom used powerful cold reading technique can be applied effectively and memorised in no time at all using characters such as James Bond that you already know and love. Forget about learning stock lines and never using them - using the proven techniques in The James Bond Cold Reading, you can learn to speak in you own words and amaze people by how much you know about them using one of the most misunderstood tools of mentalism - the character reading. By bringing a modern slant to an old technique, Julian 'Bev' Moore proves once again that that the old ones are the best - if only we knew how to apply them. If you're not a fan of 'stock lines' and think that learning them is a waste of time, this ebook could seriously change your mind! REVIEWS "I got Julian's book and it is wonderful! It is a great system for doing a reading and extremely practical. I applaud Julian and highly recommend this!" - Richard Osterlind "First palmistry, now general Forer-Barnum 101... this guy really amazes me." - Craig Browning "Julian has taken the Classic Reading - which isn't out of date, as some would suggest - and applied a James Bond theme to its LEARNING (not to the reading itself), to make the reading's customization so much easier. It's ingenious, simple, and thought-inspiring, all at the same time! Buy this now, and start using it right away!" - R. Lee Davis "I have tried many times to learn the stock lines of cold reading. I've tried memory techniques, linking, the peg system, and even with all that everything seemed a confusing, repetitive mess. Because of Julian's system, in two days, I have learned to give a cold reading forward, backward, inside out and in my own words. Just as with Julian's palmistry book saved me about five years of study, this book is just as good and also very interesting. If you're interested in cold reading at all this will be the best money you'll ever spend. As a side note his system could be applied to anything else you might want to memorize and make your own. I have never heard of his techniques before and I have studied a lot of memory techniques. It's so easy I will add this to my 'readings' repertoire." - Scott Martisse "So I'm finally watching the new Casino Royale and lines from the James Bond Reading keep popping unbidden into my head. What makes this interesting is I hadn't really intended on learning the reading via James Bond but via a character I know more about. I followed Julian's suggestions to practice readings aloud, even to inanimate objects. After a bit of this, I tried the real deal. This isn't something you can do mechanically, at least if you want to get maximum effect and responses. It is a matter of a give and take that is "entrancing" in its impact. I can't wait to see what more experience will bring. Thank you Julian, you really have made a significant contribution. Your ability to simplify and teach is exceptional. I generally rely on my knowledge as a psychologist to add a bit of reading but it wasn't anywhere as powerful as applying this system. Folks, don't just read JBR. Get out there and use it." - Dr Bill Cushman OTHER KINDLE BOOKS IN THE SPEED

That which we call our secret thought, Speeds to the earth's remotest spot, And leaves its blessings or its woes, Like tracks behind it as it goes." "We awaken in another Just the

thoughts our minds contain. If we're kind, we win their kindness, If we hate, they hate again. The Thought Reader Craze - Barry H. Wiley 2012-10-06

Beginning in 1870, the hunger for scientific discovery in Great Britain drove prominent scientists, philosophers and others to promote the legitimacy of telepathy. At the same time, mind-reading as a form of entertainment gained increasing popularity as persuasive performers like John Randall Brown, W.I. Bishop, and Stuart C. Cumberland convinced reporters that they truly could read the thoughts of others. The widely publicized, sometimes bizarre, interactions between scientists and these charlatans ushered in the Thought Reader Craze, a period that lasted through about 1910 and saw entertainers make and lose fortunes and scientists make and lose reputations. This volume explores this unusual cultural phenomenon, showing how it was aided through the years by public scientific pronouncements, astonishing performances by the thought readers, and the rapidly changing industrial society.

Hellstrom was a man who baffled many of the brightest scientific and magical minds of his time by singlehandedly taking this ability to incredible, new heights—so much so, in fact, that for many magicians his name remains synonymous with "Contact" and "Non-Contact" Mind Reading—"Hellstromism!" In this book, he painstakingly explains the inner workings of Hellstrom's miracles. Every phase is covered in detail: from choosing and working with subjects to suggested performance routines. You will learn everything you need to know to begin developing your own abilities, as well as what is required to take your performance to the next level.
