[Africa's Mineral Fortune](#) - Saleem H. Ali 2018-08-20

For too long Africa's mineral fortune has been lamented as a resource curse that has led to conflict rather than development for much of the continent. Yet times are changing and the opportunities to bring technical expertise on modern mining alongside appropriate governance mechanisms for social development are becoming more accessible in Africa. This book synthesizes perspectives from multiple disciplines to address Africa's development goals in relation to its mineral resources. The authors cover ways of addressing a range of policy challenges, environmental concerns, and public health impacts and also consider the role of globalization within the extractive industries. Academic research is coupled with key field vignettes from practitioners exemplifying case studies throughout. The book summarizes the challenges of natural resource governance, suggesting ways in which mining can be more effectively managed in Africa. By providing an analytical framework it highlights the essential intersection between natural and social sciences, central to efficient and effective harnessing of the potential for minerals and mining to be a contributor to positive development in Africa. It will be of interest to policy makers, industry professionals, and researchers in the extractive industries, as well as to the broader development community.

Oskar and the Eight Blessings - Richard Simon 2015-09-08

Winner of the 2015 National Jewish Book Award for Children's Literature A refugee seeking sanctuary from the horrors of Kristallnacht, Oskar arrives by ship in New York City with only a photograph and an address for an aunt he has never met. It is both the seventh day of Hanukkah and Christmas Eve, 1938. As Oskar walks the length of Manhattan, from the Battery to his new home in the north of the city, he passes experiences the city's many holiday sights, and encounters it various residents. Each offers Oskar a small act of kindness, welcoming him to the city and helping him on his way to a new life in the new world. This is a heartwarming, timeless picture book.

Croatians of Chicagoland - Maria Dugandzic-Pasic 2010

Chicago was once known as the "Second Croatian Capital." Lured by economic, political, and social freedoms, Croatians, like other immigrants, came to Chicago in search of the American dream. The first documented groups settled mainly in Pilsen, Bridgeport, and the South Side in the late 1800s. By the turn of the century, these immigrants toiled in Chicago's steel mills, meatpacking plants, and construction sites. They soon formed social groups, churches, schools, Croatian-language newspapers, and other infrastructure needed to support the expanding community. Today there are more than 150,000 descendants of Croatian heritage in the Chicagoland area, and many of the foundations built by the forefathers continue to service the community. Ivan Metrovic's "Indian" sculptures still adorn Congress Parkway and Michael Bilandic remains in the history books as the only Croatian mayor of Chicago. *Croatians of Chicagoland* examines how this community and its leaders, clergy, laborers, politicians, athletes, benevolent societies, and social organizations helped build and shape Chicago's history.

The Magna Carta - King John of England 2018-04-06

The Magna Carta, Latin for "Great Charter" (literally "Great Paper"), also known as 'Magna Carta Libertatum, is an English 1215 charter which limited the power of English Monarchs, specifically King John, from absolute rule. The Magna Carta was the result of disagreements between the Pope and King John and his barons over the rights of the king: Magna Carta required the king to accept that the will of the king could be bound by law. The Code of Hammurabi was a Mesopotamian legal code that laid a foundation for later Hebraic and European law. The Magna Carta is widely considered to be the first step in a long historical process leading to the rule of constitutional law and is one of the most famous documents in the world. Originally issued by King John of England (r.1199-1216) as a practical solution to the political crisis he faced in 1215, Magna Carta established for the first time the principle that everybody, including the king, was subject to the law. Although nearly a third of the text was deleted or substantially rewritten within ten years, and almost all the clauses have been repealed in modern times, Magna Carta remains a cornerstone of the British constitution. Most of the 63 clauses granted by King John dealt with specific grievances relating to his rule. However, buried within them were a number of fundamental values that both challenged the autocracy of the king and proved highly adaptable in future centuries. Most famously, the 39th clause gave all 'free men' the right to justice and a fair trial. Some of Magna Carta's core principles are echoed in the United States Bill of Rights (1791) and in many other constitutional documents around the world, as well as in the Universal Declaration of Human Rights (1948) and the European Convention on Human Rights (1950). This translation is considered to be the best and an excellent reference document for your library. This is book 10 in the series of 150 books entitled "The Trail to Liberty." The following is a partial list (20 of 150) of books in this series on the development of constitutional law. 1. Laws of the town Eshnunna (ca. 1800 BC), the laws

of King Lipit-Ishtar of Isin (ca. 1930 BC), and Old Babylonian copies (ca. 1900-1700 BC) of the Ur-Nammu law code 2. Code of Hammurabi (1760 BCE) - Early Mesopotamian legal code 3. Ancient Greek and Latin Library - Selected works on ancient history, customs and laws. 4. The Civil Law, tr. & ed. Samuel Parsons Scott (1932) - Includes the classics of ancient Roman law: the Law of the Twelve Tables (450 BCE) 5. "Constitution" of Medina (Dustur al-Madinah), Mohammed (622) 6. Policraticus, John of Salisbury (1159), various translations - Argued that citizens have the right to depose and kill tyrannical rulers. 7. Constitutions of Clarendon (1164) - Established rights of laymen and the church in England. 8. Assize of Clarendon (1166) - Defined rights and duties of courts and people in criminal cases. 9. Assize of Arms (1181) - Defined rights and duties of people and militias. 10. Magna Carta (1215) - Established the principle that no one, not even the king or a lawmaker, is above the law. 11. Britton, (written 1290, printed 1530) 12. Confirmatio Cartarum (1297) - United Magna Carta to the common law 13. The Declaration of Arbroath (1320) - Scotland's declaration of independence from England. 14. The Prince, Niccolò Machiavelli (1513) - Practical advice on governance and statecraft 15. Utopia, Thomas More (1516) 16. Discourses on Livy, Niccolò Machiavelli (1517 tr. Henry Neville 1675) 17. Relectiones, Franciscus de Victoria (lect. 1532, first pub. 1557) - Provided the basis for the law of nations doctrine. 18. Discourse on Voluntary Servitude, Étienne De La Boétie (1548, tr.) 19. De Republica Anglorum, Thomas Smith (1565, 1583) - describes the constitution of England under Elizabeth I 20. Vindiciae Contra Tyrannos (Defense of Liberty Against Tyrants) *Creative Community Organizing* - Si Kahn 2010-02-15 Privatization has been on the right-wing agenda for years. Health care, schools, Social Security, public lands, the military, prisons-all are considered fair game. Through stories, analysis, impassioned argument-even song lyrics-Si Kahn and Elizabeth Minnich show that corporations are, by their very nature, unable to fulfill effectively what have traditionally been the responsibilities of government. They make a powerful case that the market is not the measure of all things, and that a

vital public sector is an indispensable component of a healthy democracy.

The White Eyelash - Susan Kinsolving 2007-12-01

A poetry collection of "peculiar grace" from the National Book Critics Circle Award finalist author of *Dailies & Rushes* (Brian Phillips, Poetry Magazine). Susan Kinsolving's first poetry collection, *Dailies & Rushes*, was hailed as a "brilliant debut" by the New York Times, and "grand and almost terrifying" by the New Yorker. In her new work, *The White Eyelash*, she turns the extremes of her recent experiences—especially those with her ageing, mentally ill mother—into poems of harsh factuality. This dark narrative sequence is highly contrasted by the humor presented in a section called "Light Fare & Oddballs." Once again, Kinsolving exhibits a daunting range with signature style and substance. "[The White Eyelash] finds the poet remembering her trouble mother, concentrating on visual detail or pursuing light-verse forms and verbal games with a demotically highbrow, casual grace. . . . Often organized around colors . . . these poems show a love for beauty and a casual line reminiscent of Eamon Grennan's." —Publishers Weekly *Richey Tracks: Richey-Browning-Demarest-Hickman-Lewis families of IL-KY-MD-PA-OH-VA-WV* - James Richey 1991

The Moth Girl - Heather Kamins 2022-03-08

Flying doesn't always mean freedom. Anna is a regular teenaged girl. She runs track with her best friend, gets good grades, and sometimes drinks beer at parties. But one day at track practice, Anna falls unconscious . . . but instead of falling down, she falls up, defying gravity in the disturbing first symptom of a mysterious disease. This begins a series of trips to the hospital that soon become Anna's norm. She's diagnosed with lepidopsya: a rare illness that causes symptoms reminiscent of moths: floating, attraction to light, a craving for sugar, and for an unlucky few, more dangerous physical manifestations. Anna's world is turned upside down, and as she learns to cope with her illness, she finds herself drifting further and further away from her former life. Her friends don't seem to understand, running track is out of the question, and the other kids at the disease clinic she attends once a week are a cruel reminder that things will never be the same. From debut author Heather Kamins comes a beautiful and evocative story about one girl's journey of choosing who she wants to be--in a life she never planned for.

The Prison Memoirs of a Japanese Woman - Kaneko Fumiko

2016-04-29

Kaneko Fumiko (1903-1926) wrote this memoir while in prison after being convicted of plotting to assassinate the Japanese emperor. Despite an early life of misery, deprivation, and hardship, she grew up to be a strong and independent young woman. When she moved to Tokyo in 1920, she gravitated to left-wing groups and eventually joined with the Korean nihilist Pak Yeol to form a two-person nihilist organization. Two days after the Great Tokyo Earthquake, in a general wave of anti-leftist and anti-Korean hysteria, the authorities arrested the pair and charged them with high treason. Defiant to the end (she hanged herself in prison on July 23, 1926), Kaneko Fumiko wrote this memoir as an indictment of the society that oppressed her, the family that abused and neglected her, and the imperial system that drove her to her death.

The Island Between Us - Wendy Hudson 2021-08-18

Lesbian romance and adventure collide in this gripping story of survival and second chances. Georgia Hamilton is an adventurer. After a life spent exploring the most remote places on earth, she's found her way back home to Scotland, where she teaches her expert survival skills. Kelsey Campbell has spent her whole life acting, both personally and professionally, and has had it with the pressure of keeping everyone else happy. Craving somewhere far from the glaring spotlight, she signs up

for a two-week team survival course. It's not just the remote island location that appeals to Kelsey. There's the fact she met the course leader years ago and always regretted how they left things. However, just as Georgia and Kelsey are renewing their long-lost connection over bushcraft, a storm hits, leaving them stranded. With the group's lives now in Georgia's hands, the race is on to find a way home. As the reality of survival kicks in, their battle becomes about more than just facing the elements.

Treacherous Women of Imperial Japan - Helene Bowen Raddeker

2014-04-08

Kanno Suga and Kaneko Fumika were both found guilty on different occasions in 1911 and 1926 of conspiring to assassinate the Japanese emperor. Kanno was executed and Kaneko hanged herself whilst in prison, but both women maintained their defiance of the state even in the face of death. Through examination of their own life stories and writings, Helene Bowen Raddeker brings to life the women's own interpretations of their lives and their attitudes to death, with the associations of political martyrdom, heroism and notions of immortality. She finds that their self-presentations became weapons in an ideological war of words about social and political realities and their deaths were a means of self-empowerment within their historical context.

Japanese Fairy Tales - Yei Theodora Ozaki 2022-06-09

First published in 1908, 'Japanese Fairy Tales' is a book of beautiful legends and fairy tales of Japan that were collected, translated and retold by the author, Yei Theodora Ozaki, an early translator of Japanese short stories and fairy tales. Her translations have been very popular, and were reprinted hundreds of times after her death. It is a delightful introduction to the culture of Japan through its traditional children's stories. In part, the project was the result of a suggestion made by her friend Andrew Lang, another collector of fairy stories, who printed his stories in the many Colored Fairy Books. They feature animals and humans, creatures normal and fantastical, peasants and kings. They contain 22 tales that include ghouls, goblins and ogres, sea serpents and sea kings, kindly animals and magic birds; demons and dragons; princes and princesses. Some are 'Momotaro', 'The Son of a Peach', 'The Jellyfish and the Monkey', 'The Mirror of Matsuyama', 'The Bamboo Cutter and the Moon Child', 'The Stones of Five Colors and the Empress Jokwa'.

Fort Worth Parks - Susan Allen Kline 2010-01-01

Fort Worth sits on a blend of timber and prairie land that is transected by the Trinity River and its tributaries. These physical attributes invited the creation of parks to preserve scenic landscapes and to provide Fort Worth residents with access to nature. Generous land donations as well as the foresight of city leaders allowed for the acquisition of park land,

particularly after the formation of the park department in 1909. Local architects and such well-known names as George E. Kessler, Hare and Hare, Philip Johnson, and Lawrence Halprin have left a rich legacy of nationally recognized parks and recreational amenities. These include the Fort Worth Zoo, Fort Worth Botanic Garden, the Water Gardens, Heritage Plaza, Fort Worth Nature Center and Refuge, and Fort Woof, the city's first dog park.

Gaulish - Mullen, Alex 2019-02-08

Language is important in both individual and group identities. In understanding the Iron Age and Roman worlds and their developments, we must strive to incorporate an appreciation of the local languages and their communities. Unfortunately a key ancient language such as Gaulish is generally only studied by specialist linguists, and many classical scholars, for example, have little knowledge of it. We have written a text which is designed to reveal the complexity and importance of the Gaulish language to a wider audience.

The Stratocaster Chronicles - Tom Wheeler 2004

(Book). The world's most famous guitar had a golden anniversary in 2004, and this official, authorized book/CD package offers the best photos, quotes, facts and sounds to properly celebrate this achievement. From Buddy Holly to Jimi Hendrix to today's hottest players, the Fender Stratocaster defines rock'n'roll for generations of fans and players. Special features include exclusive photos from the world's greatest guitar collection, as well as a CD with musical examples of famous Strat sounds and styles hilariously performed by Greg Koch even spoken excerpts from the author's interviews with the Strat's beloved inventor, Leo Fender. This book also recognizes that the Stratocaster's deeper significance lies in the music that guitarists have created with it. You'll hear what Strat players have to say about their instrument, their music and each other. The Fender Stratocaster both reflects and influences popular culture worldwide. The Stratocaster Chronicles focuses on the people who brought it into the world, the designers and builders who refined it, and the players who have taken it from there.

The Sociology of Food - Jean-Pierre Poulain 2017-02-09

A classic text about the social study of food, this is the first English language edition of Jean-Pierre Poulain's seminal work. Tracing the history of food scholarship, *The Sociology of Food* provides an overview of sociological theory and its relevance to the field of food. Divided into two parts, Poulain begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to food – including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food – the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains its development over the last forty years. Destined to become a key text for students and scholars, *The Sociology of Food* makes a major contribution to food studies and sociology. This edition features a brand new chapter focusing on the development of food studies in the English-speaking world and a preface, specifically written for the edition.

The Fourth Industrial Revolution - Klaus Schwab 2017-01-03

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will

fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.
