

Design For Embedded Systems In C Gbv

Right here, we have countless books **Design For Embedded Systems In C Gbv** and collections to check out. We additionally meet the expense of variant types and furthermore type of the books to browse. The up to standard book, fiction, history, novel, scientific research, as well as various further sorts of books are readily understandable here.

As this Design For Embedded Systems In C Gbv , it ends up monster one of the favored book Design For Embedded Systems In C Gbv collections that we have. This is why you remain in the best website to see the incredible books to have.

Gender based violence in university communities - Anitha, Sundari 2018-06-27
Until recently, higher education in the UK has largely failed to recognise gender-based violence (GBV) on campus, but following the UK government task force set up in 2015, universities are becoming more aware of the issue. And recent cases in the media about the sexualised abuse of power in institutions such as universities,

Parliament and Hollywood highlight the prevalence and damaging impact of GBV. In this book, academics and practitioners provide the first in-depth overview of research and practice in GBV in universities. They set out the international context of ideologies, politics and institutional structures that underlie responses to GBV in elsewhere in Europe, in the US, and in Australia, and consider the implications of

implementing related policy and practice. Presenting examples of innovative British approaches to engagement with the issue, the book also considers UK, EU and UN legislation to give an international perspective, making it of direct use to discussions of 'what works' in preventing GBV.

Violence Against Women - 2014

"Violence against women undermines women's core fundamental rights such as dignity, access to justice and gender equality. For example, one in three women has experienced physical and/or sexual violence since the age of 15; one in five women has experienced stalking; every second woman has been confronted with one or more forms of sexual harassment. What emerges is a picture of extensive abuse that affects many women's lives but is systematically underreported to the authorities. The scale of violence against women is therefore not reflected by official data. This FRA survey is

the first of its kind on violence against women across the 28 Member States of the European Union (EU). It is based on interviews with 42,000 women across the EU, who were asked about their experiences of physical, sexual and psychological violence, including incidents of intimate partner violence ('domestic violence'). The survey also included questions on stalking, sexual harassment, and the role played by new technologies in women's experiences of abuse. In addition, it asked about their experiences of violence in childhood. Based on the detailed findings, FRA suggests courses of action in different areas that are touched by violence against women and go beyond the narrow confines of criminal law, ranging from employment and health to the medium of new technologies."-- Editor.

Annual Report - University of Sussex. Institute of Development Studies 2006 Vol. for include: Research review of ... quinquennium.

Closer You Are - Matthew Cutter 2018-08-21

The authorized biography of Robert Pollard, indie rock icon and founder of the music group Guided By Voices Robert Pollard has been a staple of the indie rock scene since the early '80s, along with his band Guided By Voices. Pollard was a longtime grade school teacher who toiled endlessly on his music, finding success only after adopting a do-it-yourself approach, relying on lo-fi home recordings for much of his and his band's career. A prolific artist, Pollard continues to churn out album after album, much to the acclaim of critics and his obsessive and devoted fans. But his story has never been faithfully told in its entirety. Until now. Author Matthew Cutter is a longtime friend of Pollard and, with Pollard's blessing, he's set out to tell the whole, true story of Guided By Voices. Closer You Are is the first book to take an in-depth look at the man behind it all, with interviews conducted by the author with Pollard's friends, family, and

bandmates, along with unfettered access to Pollard himself and his extensive archives. Robert Pollard has had an amazing and seemingly endless career in rock music, but he's also established himself as a consummate artist who works on his own terms. Now fans can at long last learn the full story behind one of America's greatest living songwriters.

Gender-based Violence - Geraldine Terry 2007

This book brings together some of the most interesting and innovative work being done to tackle gender-based violence in various sectors, world regions, and socio-political contexts. It will be useful to development and humanitarian practitioners, policy makers, and academics, including gender specialists.

Extractive Industries - Tony Addison 2018

"A study prepared by the United Nations University World Institute for Development Economics Research (UNU-WIDER)".

Compendium on Law,

Gender Based Violence and Reproductive Rights - 2018

1990 Census of Population - 1993

Human Resource Information Systems -

Michael J. Kavanagh
2017-07-07

Human Resource Information Systems: Basics, Applications, and Future Directions is a one-of-a-kind book that provides a thorough introduction to the field of Human Resource Information Systems (HRIS) and shows how organizations today can leverage HRIS to make better people decisions and manage talent more effectively. Unlike other texts that overwhelm students with technical information and jargon, this revised Fourth Edition offers a balanced approach in dealing with HR issues and IT/IS issues by drawing from experts in both areas. It includes the latest research and developments in the areas of information security, privacy, cloud computing, social media, and

HR analytics. Numerous examples, best practices, discussion questions, and case studies, make this book the most student-friendly and current text on the market.

Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen - 2008

Violence in Families -

Committee on the Assessment of Family Violence

Interventions 1998-02-27

Reports of mistreated children, domestic violence, and abuse of elderly persons continue to strain the capacity of police, courts, social services agencies, and medical centers. At the same time, myriad treatment and prevention programs are providing services to victims and offenders. Although limited research knowledge exists regarding the effectiveness of these programs, such information is often scattered, inaccessible, and difficult to obtain. *Violence in Families* takes the first hard look at the

successes and failures of family violence interventions. It offers recommendations to guide services, programs, policy, and research on victim support and assistance, treatments and penalties for offenders, and law enforcement. Included is an analysis of more than 100 evaluation studies on the outcomes of different kinds of programs and services. Violence in Families provides the most comprehensive review on the topic to date. It explores the scope and complexity of family violence, including identification of the multiple types of victims and offenders, who require different approaches to intervention. The book outlines new strategies that offer promising approaches for service providers and researchers and for improving the evaluation of prevention and treatment services. Violence in Families discusses issues that underlie all types of family violence, such as the tension between family support and the protection of children, risk factors that contribute to

violent behavior in families, and the balance between family privacy and community interventions. The core of the book is a research-based review of interventions used in three institutional sectors--social services, health, and law enforcement settings--and how to measure their effectiveness in combating maltreatment of children, domestic violence, and abuse of the elderly. Among the questions explored by the committee: Does the child protective services system work? Does the threat of arrest deter batterers? The volume discusses the strength of the evidence and highlights emerging links among interventions in different institutional settings. Thorough, readable, and well organized, Violence in Families synthesizes what is known and outlines what needs to be discovered. This volume will be of great interest to policymakers, social services providers, health care professionals, police and court officials, victim advocates, researchers, and concerned

individuals.

Developing Helping Skills: A Step by Step Approach to Competency - Valerie Nash Chang 2012-02-17

Chang, Scott, and Decker's multilayered teaching and learning system presents a creative blend of learning methods and clear presentation of topics to help students think like practitioners and apply foundational skills to real-world practice. Students first read about professional practice and the skills required to work effectively with clients. Students then think and write about the ideas and concepts presented in the text by completing homework exercises following each new concept. Next, students watch and discuss the accompanying DVD (available for packaging with the text), which demonstrates how to use the skills covered in the text with an individual, family, or group. Furthermore, the text's modified case-based method introduces a continuing case, one section at a time, throughout the chapters, which

helps students learn how to think like professionals.

Finally, exercises with specific directions for role-playing the client, practitioner, and peer supervisor, followed by a simple evaluation tool completed by the peer supervisor and practitioner, promote practice and evaluation. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. *Preventing Intimate Partner Violence Across the Lifespan* - Phyllis Holditch Niolon 2017

Advances in System-Integrated Intelligence - Maurizio Valle

This book reports on cutting-edge research and developments focusing on integrating intelligent functionalities into materials, components, systems and products. Gathering the proceedings of the 6th International Conference on System-Integrated Intelligence (SysInt 2022), held on September 7-9, in Genova,

Italy, it offers a comprehensive, multidisciplinary and applied perspective on the state-of-the-art and challenges in the field of intelligent, flexible and connected systems. The book covers advanced methods and applications relating to artificial, pervasive and ubiquitous intelligence, sensors, smart factory and logistics, structural health monitoring, as well as soft robotics, cognitive systems and human-machine interaction. Giving a special focus to artificial intelligence, it extensively reports on methods and algorithms for data-driven modeling, and agent-based data processing and planning. It aims at inspiring and fostering collaboration between researchers and professionals from the different fields of electrical, manufacturing and production engineering, and materials and computer sciences. .

Handbook on Effective Prosecution Responses to Violence Against Women and Girls - Eileen Skinnider 2014
Drawing upon the

recommendations and guidance contained in the updated Model Strategies and Practical Measures, the United Nations Office on Drugs and Crime (UNODC) and UN Women, in cooperation with Thailand Institute of Justice, have drafted the Handbook on Effective Prosecution Responses to Violence against Women and Girls with a view to assist prosecutors in their duty to uphold the rule of law, firmly protect human rights and serve their community with impartiality and fairness in cases involving violence against women and girls.--
Provided by publisher.

Some Men - Michael A. Messner 2015
What does it mean for men to join with women as allies in preventing sexual assault and domestic violence? Based on life history interviews with men and women anti-violence activists aged 22 to 70, *Some Men* explores the strains and tensions of men's work as feminist allies. When feminist women began to mobilize against rape and domestic

violence, setting up shelters and rape crisis centers, a few men asked what they could do to help. They were directed "upstream," and told to "talk to the men" with the goal of preventing future acts of violence. This is a book about men who took this charge seriously, committing themselves to working with boys and men to stop violence, and to change the definition of what it means to be a man. The book examines the experiences of three generational cohorts: a movement cohort of men who engaged with anti-violence work in the 1970s and early 1980s, during the height of the feminist anti-violence mobilizations; a bridge cohort who engaged with anti-violence work from the mid-1980s into the 1990s, as feminism receded as a mass movement and activists built sustainable organizations; a professional cohort who engaged from the mid-1990s to the present, as anti-violence work has become embedded in community and campus organizations, non-profits, and the state. Across

these different time periods, stories from life history interviews illuminate men's varying paths--including men of different ethnic and class backgrounds--into anti-violence work. *Some Men* explores the promise of men's violence prevention work with boys and men in schools, college sports, fraternities, and the U.S. military. It illuminates the strains and tensions of such work--including the reproduction of male privilege in feminist spheres--and explores how men and women navigate these tensions. Gender, Violence and Security - Laura Shepherd
2013-07-04

How do understandings of the relationships between gender, violence, security and the international inform policy and practice in which these notions are central? What are the practical implications of basing policy on problematic

discourses? In this highly original poststructural feminist critique, the author maps the discursive terrains of institutions, both NGOs and the UN, which formulate and implement resolutions and guides of practice that affect gender issues in the context of international policy practices. The author investigates UN Security Council Resolution 1325, passed in 2000 to address gender issues in conflict areas, in order to examine the discursive construction of security policy that takes gender seriously. In doing so, she argues that language is not merely descriptive of social/political reality but rather constitutive of it. Moving from concept to discourse, and in turn to practice, the author analyses the ways in which the resolution's discursive construction had an enormous influence over the practicalities of its implementation, and how the resulting tensions and inconsistencies in its construction contributed to its failures. The book argues for a

re-conceptualisation of gendered violence in conjunction with security, in order to avoid partial and highly problematic understandings of their practical relationship. Drawing together theoretical work on discourses of gender violence and international security, sexualised violence in war, gender and peace processes, and the domestic-international dichotomy with her own rigorous empirical investigation, the author develops a compelling discourse-theoretical analysis that promises to have far-reaching impact in both academic and policy environments.

Putting Trials on Trial -

Elaine Craig 2018-02-16

Over the past few years, public attention focused on the Jian Ghomeshi trial, the failings of Judge Greg Lenehan in the Halifax taxi driver case, and the judicial disciplinary proceedings against former Justice Robin Camp have placed the sexual assault trial process under significant

scrutiny. Less than one percent of the sexual assaults that occur each year in Canada result in legal sanction for those who commit these offences. Survivors often distrust and fear the criminal justice process, and as a result, over ninety percent of sexual assaults go unreported. Unfortunately, their fears are well founded. In this thorough evaluation of the legal culture and courtroom practices prevalent in sexual assault prosecutions, Elaine Craig provides an even-handed account of the ways in which the legal profession unnecessarily - and sometimes unlawfully - contributes to the trauma and re-victimization experienced by those who testify as sexual assault complainants. Gathering conclusive evidence from interviews with experienced lawyers across Canada, reported case law, lawyer memoirs, recent trial transcripts, and defence lawyers' public statements and commercial advertisements, Putting Trials on Trial

demonstrates that - despite prominent contestations - complainants are regularly subjected to abusive, humiliating, and discriminatory treatment when they turn to the law to respond to sexual violations. In pursuit of trial practices that are less harmful to sexual assault complainants as well as survivors of sexual violence more broadly, Putting Trials on Trial makes serious, substantiated, and necessary claims about the ethical and cultural failures of the Canadian legal profession. Counselling Survivors of Domestic Abuse - Christiane Sanderson 2008-06-15 Counselling Survivors of Domestic Abuse explains how counsellors can facilitate recovery from domestic abuse within a secure, supportive therapeutic relationship. There has been growing awareness in recent years of the impact and consequences of domestic abuse, especially the relationship between domestic abuse and mental health. To appreciate the nature of trauma caused by domestic

abuse, professionals need to understand its complex nature and the psychobiological impact of repeated exposure to control and terror. This book examines the therapeutic techniques and specific challenges, such as secondary traumatic stress, faced by professionals when working with survivors of domestic abuse. The author stresses the importance of identifying domestic abuse so that it can be addressed in the therapeutic process to aid recovery, and explores issues such as safety and protection, the long-term effects of abuse and the importance of grieving to the restoration of hope. This book is essential reading for counsellors, therapists, social workers, mental health professionals, health care professionals including GPs and midwives, managers of refuges, legal professionals and all those working with survivors of domestic abuse.

Analysis and Modelling of Advanced Structures and Smart Systems - Holm Altenbach 2017-11-27

This book presents selected papers presented at the 8th International Conference "Design, Modeling and Experiments of Advanced Structures and Systems" (DeMEASS VIII, held in Moscow, Russia in May 2017) and reflects the modern state of sciences in this field. The contributions contain topics like Piezoelectric, Ferroelectric, Ferroelastic and Magnetostrictive Materials, Shape Memory Alloys and Active Polymers, Functionally Graded Materials, Multi-Functional Smart Materials and Structures, Coupled Multi-Field Problems, Design and Modeling of Sensors and Actuators, Adaptive Structures. *Violence Against Women and Girls* - Jennifer L. Solotaroff 2014-09-04

This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators

(male and female), risk and protective factors for both victims and perpetrators, and interventions to address violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against

women in South Asia.

[A Guide to Gender-analysis Frameworks](#) - Candida March 1999

This is a single-volume guide to all the main analytical frameworks for gender-sensitive research and planning. It draws on the experience of trainers and practitioners, and includes step-by-step instructions for using the frameworks.

Violence against Women in Politics - Mona Lena Krook 2020-07-16

Women have made significant inroads into political life in recent years, but in many parts of the world, their increased engagement has spurred attacks, intimidation, and harassment. This book provides the first comprehensive account of this phenomenon, exploring how women came to give these experiences a name: violence against women in politics. Tracing its global emergence as a concept, Mona Lena Krook draws on insights from multiple disciplines-- political science, sociology, history, gender studies,

economics, linguistics, psychology, and forensic science--to develop a more robust version of this concept to support ongoing activism and inform future scholarly work. Krook argues that violence against women in politics is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against rivals. Rather, it is a distinct phenomenon involving a broad range of harms to attack and undermine women as political actors, taking physical, psychological, sexual, economic, and semiotic forms. Incorporating a wide range of country examples, she illustrates what this violence looks like in practice, catalogues emerging solutions around the world, and considers how to document this phenomenon more effectively. Highlighting its implications for democracy, human rights, and gender equality, the book asserts that addressing this issue requires ongoing dialogue and collaboration to

ensure women's equal rights to participate--freely and safely--in political life around the globe.

Preventing and Responding to Gender-based Violence in Middle and Low-income Countries - Sarah Bott 2005

Worldwide, patterns of violence against women differ markedly from violence against men. For example, women are more likely than men to be sexually assaulted or killed by someone they know. The United Nations has defined violence against women as "gender-based" violence, to acknowledge that such violence is rooted in gender inequality and is often tolerated and condoned by laws, institutions, and community norms. Violence against women is not only a profound violation of human rights, but also a costly impediment to a country's national development. While gender-based violence occurs in many forms throughout the life cycle, this review focuses on two of the most common types--physical intimate partner violence and sexual violence by

any perpetrator. Unfortunately, the knowledge base about effective initiatives to prevent and respond to gender-based violence is relatively limited. Few approaches have been rigorously evaluated, even in high-income countries. And such evaluations involve numerous methodological challenges. Nonetheless, the authors review what is known about more and less effective- or at least promising- approaches to prevent and respond to gender-based violence. They present definitions, recent statistics, health consequences, costs, and risk factors of gender-based violence. The authors analyze good practice initiatives in the justice, health, and education sectors, as well as multisectoral approaches. For each of these sectors, they examine initiatives that have addressed laws and policies, institutional reforms, community mobilization, and individual behavior change strategies. Finally, the authors identify priorities for future research and action, including

funding research on the health and socioeconomic costs of violence against women, encouraging science-based program evaluations, disseminating evaluation results across countries, promoting investment in effective prevention and treatment initiatives, and encouraging public-private partnerships.

Ending Violence Against Women - United Nations. Division for the Advancement of Women 2006

This annual report examines changing trends in foreign direct investment (FDI) flows worldwide, at the regional and country levels and emerging measures to improve its contribution to development. The 2006 report highlights the changing role of developing countries and transition economies in global foreign direct investment and the international production system. It examines their emergence as significant sources of foreign direct investment as well as the underlying factors and broader

implications.

Global and Regional Estimates of Violence Against Women -

Claudia García-Moreno 2013
"World Health Organization, London School of Hygiene and Tropical Medicine, South African Medical Research Council"--Title page.

Male Roles, Masculinities and Violence - Ingeborg Breines 2000

This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of

Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

Trees of Delhi - Pradip Krishen 2006

Sexual Harassment of Women - National Academies of Sciences, Engineering, and Medicine 2018-09-01

Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that

sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. *Sexual Harassment of Women* explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and

examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings. [Dealing With Complexity in Development Evaluation](#) - Michael Bamberger 2015-10-16 Recognizing that complexity calls for innovative, conceptual, and methodological solutions, *Dealing with Complexity in Development Evaluation* by Michael Bamberger, Jos Vaessen, and Estelle Raimondo offers practical guidance to policymakers, managers, and evaluation practitioners on how to design and implement complexity-responsive evaluations that can be undertaken in the real world of time, budget, data, and political constraints.

Introductory chapters present comprehensive, non-technical overviews of the most common evaluation tools and methodologies, and additional content addresses more cutting-edge material. The book also includes six case study chapters to illustrate examples of various evaluation contexts from around the world.

Engaging Men and Boys in Violence Prevention -

Michael Flood 2018-11-07

Across the globe, violence prevention initiatives focused on men and boys are proliferating rapidly. *Engaging Men and Boys in Violence Prevention* highlights effective and innovative strategies for the primary prevention of domestic violence, sexual violence, and other forms of harassment and abuse. It combines research on gender, masculinities, and violence with case studies from a wide variety of countries and settings. Through the cross-disciplinary examination of these varied efforts, this work will enable advocates,

educators, and policy-makers to understand, assess, and implement programs and strategies which involve men and boys in initiatives to prevent violence against women.

Voice and Agency - Jeni Klugman 2014-09-29

Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of

women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

Gendered Perspectives on Covid-19 Recovery in Africa - Ogechi Adeola 2021

This book describes the political, social, and economic connections between gender and the Covid-19 pandemic. The authors offer innovative ideas for recovery that will

build a more prosperous, healthy, equitable, and sustainable future for African women and girls, targets identified under Goal 5 (Gender Equality and Women's Empowerment) of the United Nations' Sustainable Development Goals slated to be achieved by 2030. Within this context, authors identify issues related to the protection of women and girls from poverty, hunger, and gender-based violence; improved healthcare and healthcare workforce experiences; girl-child education; financial inclusion; and entrepreneurship opportunities for women in fintech, tourism, and information, communication and technology (ICT). The book concludes with a discussion of economic empowerment for women that focuses on normalising the 'un-normal' outcome of the pandemic. The book will be of value to policymakers, non-profit organisations, practitioners, and scholars who understand the importance of gender equality and women

empowerment in the African continent.

Violence Against Women - Lori Heise 1994

Researching Violence Against Women - Mary Ellsberg 2005
Draws on the collective experiences and insights of many individuals, and in particular from the implementation of the WHO Multi-country Study on Women's Health and Domestic Violence against Women in over 10 countries. Twenty years ago, violence against women was not considered an issue worthy of international concern. Gradually, violence against women has come to be recognized as a legitimate human rights issue and as a significant threat to women's health and well-being. Now that international attention is focused on gender-based violence, methodologically rigorous research is needed to guide the formulation and implementation of effective interventions, policies, and prevention strategies. The manual has been developed in

response to the growing need to improve the quality, quantity, and comparability of international data on physical and sexual abuse. It outlines some of the methodological and ethical challenges of conducting research on violence against women and describes a range of innovative techniques that have been used to address these challenges.

World Migration Report 2020 - United Nations
2019-11-27

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II:

balanced, evidence-based analysis of complex and emerging migration issues.
The Practice of Independent Accountability Mechanisms (IAMs) - Owen McIntyre
2019-11-04

This book presents a series of in-depth examinations, by leading experts from banking institutions, academia and civil society, of key aspects of the rapidly evolving practice of IAMs, and of the implications of such practice for environmental and social governance.

Addressing Gender-Based Violence in the Latin American and Caribbean Region - Andrew Morrison 2013

The authors present an overview of gender-based violence (GBV) in Latin America, with special emphasis on good practice interventions to prevent GBV or offer services to its survivors or perpetrators. Intimate partner violence and sexual coercion are the most common forms of GBV, and these are the types of

GBV that they analyze. GBV has serious consequences for women's health and well-being, ranging from fatal outcomes, such as homicide, suicide, and AIDS-related deaths, to nonfatal outcomes, such as physical injuries, chronic pain syndrome, gastrointestinal disorders, complications during pregnancy, miscarriage, and low birth-weight of children. GBV also poses significant costs for the economies of developing countries, including lower worker productivity and incomes, and lower rates of accumulation of human and social capital. The authors examine good practice approaches in justice, health, education, and multisectoral approaches. In each sector, they identify good practices for: (1) law and policies; (2) institutional reforms; (3) community-level interventions; and (4) individual behavior change strategies.

Making Prevention Work - 1995
