A Slice of Saturday Night - Heather Brothers 1991

Little Theatre Musical Book, Music and Lyrics by The Heather Brothers. Characters: 4 male, 5 female Unit set. The Heather Brothers' homage to swinging sixties music was a smash hit at the King's Head Theatre and it enjoyed a long run after transferring to London's Arts Theatre. Slice has a lot of lively original songs in it, 30 of them, each neatly perched on the edge between parody of early rock and the real thing.-- Boston Globe. A pleasurable, lightly satirical revel in sixties manners and music ... with bite, kick and hanky panky.-- Guardian. Full of such clever, self mocking charm that it's difficult to come away feeling anything but thoroughly entertained.... The real pleasure comes from The Brothers' shameless poaching of an eclectic cross section of famous numbers.... Superb comic pastiche and sharp, cuff link humor.-- Time Out. A musical pastiche that takes you spinning back to the swinging decade to celebrate the eternal embarrassment of teen age.-- What's On.

Cruise Ships - Philip S. Dawson 2000

Since the first commercial cruises began in the 1840s, ships have evolved into one of the world's most sophisticated, specialized, complex, and expensive type of vessel. The large modern purpose-built cruise ships of the 1930s, the German KdF ships Wilhelm Gustloff and Robert Ley emerged as prototypes for carrying a mass-market clientele. At the other end of the scale, the exquisite 1927-built Norwegian cruise yacht Stella Polaris represents a smaller, elite type of vessel offering the ultimate in luxury. In the postwar years, the two ends of the industry have expanded dramatically and the myriad of ships built are described in detail. Analyses of design influences, descriptions of interior layouts, exterior design, machinery requirements, and cruising grounds

The Age of Cunard - Daniel Allen Butler 2004

For a century and a half, the single most important sea lane in the world was the transatlantic route linking the Old World with the New. For three hundred years, sailing ships sufficed to carry cargoes and people, but the demands of Steam Age business and commerce demanded more regularity. Just as the steam engine had allowed railroads to replace the unpredictability of stagecoaches on land with dependable schedules, steamships promised to bring this reliability to crossing the Atlantic. This is where the story of the Cunard Line began. The greatest influence Cunard would ever have on world events would be the leading role during the last half of the 19th century, when the great migration of millions of emigrants transformed the populations of Europe, the United States, and Canada. Wars devastation came to the Cunard Line with WW1 and WW2, as the power of the German submarine fleet -- built with one purpose in mind, to sever the North Atlantic shipping lanes -- threatened Great Britain's very existence. By 1963, more people chose to travel by airplane than by steamship -- and it was the beginning of the end. Sir Winston Churchill observed, "You came into great things by the accident of sea power... By an accident of air power, you will probably cease to exist."

Off Shore - Birgit Braasch 2020-09-11

The book highlights facets of people's experiences since the 19th century with Atlantic space and the design of their stay on board ships. The contributions range from the perspective of pleasure-seeking tourists, who used ships as a temporary, luxurious homes to the perspective of military personnel, who perceived the Atlantic Passage as a transition between homeland security and potentially dangerous professional operations - the risks of sea voyages even on technically sophisticated ocean liners, whose interiors and services often include grand hotels in the metropolises of the late 19th and 20th century, were discreetly ignored by the passengers. The charm of the Atlantic and the ship, unthinkable in earlier times, should not be decimated in any way.

The QE2 Story - Chris Frame 2009

There has been no more beloved liner than the Queen Elizabeth 2. The last liner to be built on British soil, she was constructed by John Brown & Co., Clydebank (Scotland) and her keel was laid on July 5, 1965, marking the start of her illustrious career. Her maiden voyage left Southampton on May 2, 1969, bound for New York, and she has remained in service for the past 40 years. She had a spell as a military ship from 1982, when she was requisitioned to serve as a troop carrier during the Falklands War, and during her military career QE2 successfully sailed more than 14,900 miles. Post-war, she has had many refits, including a headline-grabbing total refurbishment in 1994 to turn her into a 21st-century luxury liner. In November 2008, QE2 retired to a new life in Dubai World, where she began her conversion to a floating hotel, and the last chapter of her exceptional life in service will close.

Titanicat - Marty Crisp 2013-08-15

Young Jim Mulholland can't believe his good luck: He has signed on as a cabin boy to the world's finest ocean liner, the Titanic, and can't wait for the history-making voyage across the sea to America. As part of his duties Jim is in charge of the ship's cat, a beautiful tortoiseshell that also appears happy to be on board. He calls the cat by the ship's construction number, 4-0-1, certain that she will bring him good luck. And he's delighted when 4-0-1 shortly gives birth to a litter of kittens. But once the ship's trial runs are completed and it's ready to launch to sea, Jim notices that 4-0-1 is nowhere to be found. He's got to find her-the Titanic can't cast off without her lucky cat. Jim is faced with a decision that will affect the rest of his life. A newspaper journalist for 30 years, Marty Crisp often writes about the animals that hold a special interest and place in her heart. She has published many award-winning books for children and adults, including *White Star*, her book about a dog on the Titanic. Marty lives in Ephrata, Pennsylvania. RMS Caronia - William H. Miller 2011-02-01

Painted in shades of green and known affectionately as the 'Green Goddess', Cunard's Caronia of 1949 ushered in the era of modern cruising. Designed almost exclusively for an untapped passenger market - luxury cruising - she represented Britain's recovery and moreover the rebirth of the world's maritime industry after the devastation of the Second World War. With such illustrious Cunard predecessors as the Queen Mary, the ill-fated Lusitania, and the record-breaker Mauretania, Caronia was an instant favourite with the world's rich and famous. She gathered an exclusive, often American, clientele - the 'mink and diamonds set' - who sailed on her year after year. Many passengers lived on board for years, giving her the air of an ultra-wealthy country club. Yet she ignominiously met her end while under tow to the breaker's yard, ending up on the rocks at Guam after running aground during a typhoon. Her subsequent salvage was the largest ever undertaken by the US Army Corps of Engineers. Illustrated with previously unpublished photographs and rare memorabilia, including work from maritime artist Robert Lloyd, this history of one of Cunard's most beloved liners is a must for all those who fondly remember the 'Green Goddess'.

High Tea on the Cunard Queens - Paul Curtis 2019-08-12

THIS amusing insight into Cunard's legendary liners begins more than fifty years ago when Paul Curtis joined the original Queen Mary as entertainments officer. Over a Cunard high tea in the Queens Room, Paul recounts the stories of these iconic ships. Then, over a drink in the Red Lion, he shares the tales of the antics of both passengers and crews. The facts are delivered in vivid detail - some of them things you should know and an occasional peep at things you shouldn't. Simply turning these pages releases a sniff of the sea and a whiff of champagne. Paul has worked, travelled upon or photographed every Cunard Queen ever built. He has an offbeat sense of humour and a keen appetite for the ridiculous. A life at sea can do that to you.

RMS Queen Elizabeth 2 - Janette McCutcheon 2008-10-15

The illustrated history of the most famous ocean liner afloat today.

Qm2 - Chris Frame 2014-04-07

By the 1970s it looked as if QE2 would be the last of the great transatlantic ocean liners. However, over three decades later the world watched in awe as Queen Mary 2, the largest, longest, grandest and most expensive ocean liner ever to be constructed, set sail on her maiden voyage. Boasting beautiful lounges, dining rooms and the largest dance floor at sea, QM2 evokes the glamour of the golden age of travel. With over 200 never-before-published photographs of QM2 including her public rooms and accommodation as well as stunning exterior shots and behind-the-scenes insights, this book is delightfully complemented by little-known facts and fascinating information about this grand ship. In *QM2: A Photographic Journey*, the authors enthusiastically record the modern features and timeless elegance that makes the QM2 a true successor to the Cunard legacy. With a foreword by Commodore R. W. Warwick (QM2's first master) and insights from Commodore Bernard Warner into the running of the ship, this book provides the reader with a perfect souvenir of the Cunard Line flagship.
