Transmedia Narratives for Cultural Heritage - Nicole Basaraba 2022-04-22

Transmedia Narratives for Cultural Heritage focuses on theoretical approaches to the analysis and creative practice of developing non-fiction digital transmedia narratives in the rapidly growing cultural heritage sector. This book applies a media-focused transdisciplinary approach to understand the conventions of emerging digital narrative genres. Considering digital media's impact on narrative creation and reception, the approach, namely remixed transmedia, can aid practitioners in creating strategic non-fiction narratives for cultural heritage. These creations also need to be evaluated and a digital-media focused 'ludonarrative toolkit' allows for the critical analysis of the composition and public participation in interactive digital narratives. This toolkit is applied and exemplified in genres including virtual museums, serious games, and interactive documentaries. The book also includes a seven-phase theoretical framework that can assist future creators (and project managers) of non-fiction transmedia 'motherhood' narratives; and a methodology (based on 'big data analysis') for how to invent new cultural heritage narratives through bottom-up remixing that allows for public inclusion. Two transnational case studies on the 11 UNESCO World Heritage Australian Convict Sites and the Irish National Famine Way demonstrate the seven-phase framework's applicability. As many scholars across disciplines are increasingly creating digital narratives on historical topics for public consumption in various forms, the theoretical foundations and practical project management framework will be useful for scholars and project teams in the domains of transmedia studies, interactive narratives, cultural heritage, media studies, comparative literature, and journalism.

Taiwan A to Z - Amy C. Liu 2009

Taiwan Film Directors - Emilie Yueh-yu Yeh 2005

The year 2003 marked the fiftieth anniversary of James Watson's and Francis Crick's discovery of the structure of DNA, which began a revolution in the biological sciences and radically altered the way humans view life and themselves. In this poetic account Erwin Fleissner, an eminent cancer researcher and teacher, offers a personal and professional reflection on the most significant developments in molecular genetics and cell biology over the past fifty years. Vital Harmonies is a sweeping look at these crucial scientific advances and an insider's perspective on what scientists have actually learned from them. Contrasting the humanistic side of scientific research with more deterministic or "mechanical" explanations of life processes, Fleissner discusses everything from natural selection to the tradition of rational inquiry stemming from the Enlightenment. He goes on to describe the structures of macromolecules and their "organizing" principles as well as cancer genes, stem cells, and the Human Genome Project. He also explores neuronal cells and the emergence of consciousness and how biological evolution is the foundation of our personal reality as well as our global responsibility. Fleissner asserts that scientific investigations cannot negate our essential "humanness" nor should the public fear them. Taking an optimistic perspective, he argues that a deeper knowledge of ourselves as biological entities will provide us, ultimately, with greater health, serenity, and self-knowledge. Vital Harmonies gives readers, whatever their background, an engaging analysis of some of the most important questions facing humanity today.

Politics in Taiwan - Shelley Rigger 1999

"Politics of Taiwan is an accessible and highly readable survey of the Taiwanese political situation spanning from 1949 to the present. With a focus on the issue of democratization, Shelley Rigger covers Taiwan's complicated and unique political history, and tells the story of how Taiwanese, demanding a stonger voice in politics, drove their government to reinvent itself on a democratic blueprint. This book shows that Taiwan, unlike other countries, avoided serious economic disruption and social conflict, and arrived at its goal of multi-party competition with little bloodshed"--Publisher description.

Locating Taiwan Cineman in the Twenty-first Century - PAUL G. PICKWICZ 2020

The Culture Map - Erin Meyer 2014-05-27

An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

The Essential Science Fiction Television Reader - J.P. Telotte 2008-05-02

Once confined solely to literature and film, science fiction has emerged to become a firmly established, and wildly popular, television genre over the last half century. The Essential Science Fiction Television Reader provides insight into and analyses of the most important programs in the history of the genre and explores the breadth of science fiction programming. Editor J. P. Telotte and the contributors explain the gradual transformation of the genre from low-budget cinematic knockoffs to an independent and distinct televisual identity. Their essays track the dramatic evolution of early hits such as *The Twilight Zone* and *Star Trek* into the science fiction programming of today with its more recent successes such as *Lost* and *Heroes*. They highlight the history, narrative approaches, and themes of the genre with an inviting and accessible style. In essays that are as varied as the shows themselves, the contributors address the full scope of the genre. In his essay "The Politics of *Star Trek: The Original Series*," M. Keith Booker examines the ways in which *Star Trek* promoted cultural diversity and commented on the pioneering attitude of the American West. Susan George takes on the refurbished *Battlestar Galactica* series, examining how the show reframes questions of gender. Other essays explore the very attributes that constitute science fiction television: David Lavery's essay "The Island's Greatest Mystery: Is *Lost* Science Fiction?" calls into question the defining characteristics of the genre. From anime to action, every form of science fiction television is given thoughtful analysis enriched with historical perspective. Placing the genre in a broad context, *The Essential Science Fiction Television Reader* outlines where the genre has been, where it is today, and where it may travel in the future. No longer relegated to the periphery of television, science fiction now commands a viewership vast enough to sustain a cable channel devoted to the genre.

Taiwan and China - Lowell Dittmer 2017-09-26

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. China's relation to Taiwan has been in constant contention since the founding of the People's Republic of China in October 1949 and the creation of the defeated Kuomintang (KMT) exile regime on the island two months later. The island's autonomous sovereignty has continually been challenged, initially because of the KMT's insistence that it continue to represent not just Taiwan but all of China—and later because Taiwan refused to cede sovereignty to the then-dominant power that had arisen on the other side of the Taiwan Strait. One thing that makes Taiwan so politically difficult and yet so intellectually fascinating is that it is not merely a security problem, but a ganglion of interrelated puzzles. The optimistic hope of the Ma Ying-jeou administration for a new era of peace and cooperation foundered on a landslide victory by the Democratic Progressive Party, which has made clear its intent to distance Taiwan from China's political embrace. The Taiwanese are now waiting with bated breath as the relationship tautens. Why did détente fail, and what chance does Taiwan have without it? Contributors to this volume focus on three aspects of the evolving quandary: nationalistic identity, social economy, and political strategy.

The New Generation Z in Asia - Elodie Gentina 2020-10-23

The New Generation Z in Asia: Dynamics, Differences, Digitalization is the first book to compare the Asiatic Generation Z (born 1990–1995) in terms of country and culture specific drivers and characteristics based on interdisciplinary and international scientific research.

Indigenous Knowledge in Taiwan and Beyond - Shu-mei Shih 2022-01-16

This book situates Taiwan's indigenous knowledge in comparative contexts across other indigenous knowledge formations. The content is divided into four distinct but interrelated sections to highlight the importance and diversity of indigenous knowledge in Taiwan and beyond. It begins with an exploration of the recent development and construction of an indigenous knowledge and educational system in Taiwan, as well as issues concerning research ethics and indigenous knowledge. This is followed by a section that illustrates diverse forms of indigenous knowledge, and in turn, a theoretical dialogue between indigenous studies and settler colonial studies. Lastly, the Paiwan indigenous author Dadelavan Ibau's trans-indigenous journey to Tibet rounds out the coverage. This book is useful to readers in indigenous, settler colonial, and decolonial studies around the world, not just because it offers substantive content on indigenous knowledge in Taiwan, but also because it offers conceptual tools for studying indigenous knowledge from comparative and relational perspectives. It also greatly benefits anyone interested in Taiwan studies, offering an ethical approach to indigeneity in a classic settler colony.

Women in Taiwan - Ya-chen Chen 2009

In the English-language publication market, this book is one of the earliest, and perhaps the first academic book focusing on Taiwanese women and gender issues from the late Qing Dynasty to the twenty-first century. It features the interrelations between cultural trends and women in Taiwan. In most current Western research and academic institution, Taiwanese studies deals with modern Taiwan since the Qing Dynasty or the Opium War to the contemporary era, and usually belongs to the division of Chinese studies or modern Chinese studies in the overall area of Asian studies. Historically and socioculturally, however, cultural dimensions in Taiwan are not exactly the same as those in mainland China and Hong Kong. This book sets itself apart by providing a bird's-eye view of gender issues impacted by diverse cultures in Taiwan from the Japanese colonial era to the present century.

Taiwan - Wei-chin Lee 1990

The Global Silicon Valley Home - Shenglin Chang 2006

The Global Silicon Valley Home takes a close look at how residents (Taiwanese American high-tech engineer families) of the jet-set, wired-to-the-Net, trans-Pacific commuter culture have invented new ways of thinking about how their homes and landscapes reflect their personal identities—ways that enable them to make sense of "living life within two places at once."

Communication Between Cultures - Larry A. Samovar 2016-01-01

Packed with current research and examples, bestselling *COMMUNICATION BETWEEN CULTURES*, 9E equips readers with a deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases—so they can understand the subtle and profound ways culture affects communication. The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Lien Heng, 1878-1936 - Shu-hui Wu 2005

Literary Culture in Taiwan - Sung-sheng Yvonne Chang 2004

Chang analyzes the political and economic forces that have shaped the publishing world in Taiwan from the middle of the last century to the present and the literary and cultural texts produced within this shifting landscape. *Literary Culture in Taiwan* positions various writers and genres squarely within the tensions between cultural production and the market-authorized economy of the past two decades, particularly in regard to cultural identity formations and their relationship to hegemonic and resistant powers. The lifting of martial law - and thus state-sponsored censorship - in 1987 introduced an electoral democracy that altered emerging literary trends and cast a dramatic new light on Taiwan's literary history. Chang traces this gradual but profound change and explores how multiple literary movements responded to one another and to the country's social and political upheaval.

Wealth Ribbon - Brenda Lin 2004

This book is a thematic narrative that intertwines the coming-of-age

story of Taiwan with three generations of the author's family and their relationship with American culture. Together, these interconnected essays form a distinctive view of what it is like to have a transnational identity and show how the everyday politics of an international cultural identity are in fact universal.

Global Gambling - Sytze F. Kingma 2009-09-10

While most research has examined the legal, economic and psychological sides of gambling, this innovative collection offers a wide range of cultural perspectives on gambling organizations. Using both historical

and present-day case studies from throughout the world, the authors seriously consider the rituals, symbols, the meanings, values, legitimations, relations (formal as well as informal), and the spaces and artifacts involved in the (re)production of gambling organizations. Contributors not only examine the global influence of commercial gambling, but also demonstrate how the local qualities of gambling organizations remain unique. This volume will be of interest to criminologists, sociologists, anthropologists, and all scholars of gambling.
