Turabian 2019-06-28 Students of all levels need to know how to write a well-reasoned, coherent research paper—and for decades Kate L. Turabian's Student's Guide to Writing College Papers has helped them to develop this critical skill. For its fifth edition, Chicago has reconceived and renewed this classic work for today's generation. This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page.
