Local and Regional

Development - Andy Pike

2016-07-15

Actors and institutions in localities and regions across the world are seeking prosperity and well-being amidst tumultuous and disruptive shifts and transitions generated by: an increasingly globalised, knowledge-intensive capitalism; global financial instability, volatility and crisis; concerns about economic, social and ecological sustainability, climate change and resource shortages; new

multi-actor and multi-level systems of government and governance and a re-ordering of the international political economy; state austerity and retrenchment; and, new and reformed approaches to intervention, policy and institutions for local and regional development. Local and Regional Development provides an accessible, critical and integrated examination of local and regional development theory, institutions and policy in this changing context. Amidst its rising importance,

the book addresses the fundamental issues of 'what kind of local and regional development and for whom?', its purposes, principles and values, frameworks of understanding, approaches and interventions, and integrated approaches to local and regional development throughout the world. The approach provides a theoretically informed, critical analysis of contemporary local and regional development in an international and multi-disciplinary context, grounded in concrete empirical analysis from experiences in the global North and South. It concludes by identifying what might constitute holistic, inclusive, progressive and sustainable local and regional development, and reflecting upon its limits and political renewal.

Communication Between Cultures - Larry A. Samovar
2016-01-01

Packed with current research and examples, bestselling COMMUNICATION BETWEEN CULTURES, 9E equips readers with a deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases--so they can understand the subtle and profound ways culture affects communication.

The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Educational Policy Borrowing in China - Charlene Tan

2016-02-22

For over a decade, Mainland China has been embarking on an ambitious nation-wide education reform ('New Curriculum Reform') for its basic education. The reform reflects China's propensity to borrow selected educational policies from elsewhere, particularly North America and Europe. Chinese scholars have used a local proverb "the West wind has overpowered the East wind" to describe this phenomenon of 'looking West'. But what do we mean by educational policy borrowing from the West? What are the educational policies in China's new curriculum reform that are

perceived to be borrowed from the West? To what extent have the borrowed educational policies in China's new curriculum reform been accepted, modified, and rejected by the various educational stakeholders? How does culture influence the various educational stakeholders in China in interpreting and mediating educational policy borrowing from the West? How do the findings of this study on China's education reform inform and add to the existing theories on and approaches to on cross-cultural educational policy borrowing? This book answers the above questions by critically discussing China's policy borrowing from the West through its current reform for primary and secondary education. It presents the latest in-depth research findings from a three-year empirical study (2013-2015) with school principals, teachers, students and other educational stakeholders across China. This study offers new insights into China's

educational policy borrowing from the West and international implications on cross-cultural educational transfer for academics, policymakers and educators. Creating Stellar Lessons with Digital Tools - Kenneth J. Luterbach 2022-05-13

Creating Stellar Lessons with Digital Tools prepares teachers in training and in-service teachers to use technologies for design and development activities with middle and high school students. While software, open resources, handheld devices, and other tools hold great potential to enhance learning experiences, teachers themselves must model technology use in ways that inspire students to become producers and leaders rather than consumers and followers. Featuring concrete applications in social studies, English, mathematics, and science scenarios, this book provides pre-service teachers with seven paths to creatively integrate and innovate with computational thinking, datasets, maker spaces, visual

design, media editing, and other approaches.

Urban Knowledge and Innovation Spaces - Tan Yigitcanlar 2018-10-19

The expansion of knowledge economy, globalization, and economic competitiveness has imparted importance of knowledge and innovation in local economies worldwide. As a result, integrating knowledge generation and innovation considerations in urban planning and development processes has become an important agenda for establishing sustainable growth and long-term competitiveness of contemporary cities. Today, making space and place that concentrate on knowledge generation and innovation is a priority for many cities across the globe. Urban knowledge and innovation spaces are integrated centres of knowledge generation, learning, commercialization

and lifestyle. In other words, they are high-growth knowledge industry and worker clusters, and distinguish the functional activity in an area, where agglomeration of knowledge and technological activities has positive externalities for the rest of the city as well as firms located there. Urban knowledge and innovation spaces are generally established with two primary objectives in mind: to be a seedbed for knowledge and technology and to play an incubator role nurturing the development and growth of new, small, high-technology firms; and to act as a catalyst for regional economic development that promotes economic growth and contributes to the development of the city as a 'knowledge or innovative city'. This book contains chapters reporting investigation findings on different aspects of urban knowledge and innovation spaces, such as urban planning and design, innovation systems, urban knowledge management, and regional

science. It was originally published as a special issue of the Journal of Urban Technology.

Recommended by Faculties and Read by UPSC Toppers. [Empowering Adolescent Girls in Developing Countries](#) - Caroline Harper 2018-02-13 The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315180250>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license Adolescence is a pivotal time in a girl's life. The development of educational, physical, psychosocial, familial, political and economic capabilities enable girls to reach their full potential and contribute to the wellbeing of their families and society. However, progress is still significantly constrained by discriminatory gender norms and the related attitudes and practices which restrict girls' horizons, restrain their ambition and, if unfettered, allow exploitation and abuse. [Empowering Adolescent Girls in Developing Countries](#) explores the detrimental impact of discriminatory gender norms on adolescent

girls' lives across very different contexts. Grounded in four years of in-depth research in Ethiopia, Nepal, Uganda and Viet Nam, the book adopts a holistic approach, recognising the inter-related nature of capabilities and the importance of local context. By exploring the theory of gendered norm change, contextualising and examining socialisation processes, the book identifies the patriarchal vested interests in power, authority and moral privilege, which combine in attempts to restrict and control girls' lives. Throughout the book, Empowering Adolescent Girls in Developing Countries demonstrates how efforts to develop more egalitarian gender norms can enable disadvantaged adolescent girls to change the course of their lives and contribute to societal change. Accessible and informative, the book is perfect for policy makers, think tanks, NGOs, activists, academics and students of gender and development studies.
