He then approaches the oral literature of the Luo through the genres of riddles, proverbs, poetry and narratives. For each genre, he offers a general introduction, notes on style, convention, performance and social function, and a wide range of samples, or 'primary texts' with commentaries.

All Fiction is real and lives in a place called Story. however, plenty of Fiction hangs out in the Mortal world living both innocent and nefarious lives. This might not mean much to the average Mortal unaware of the Fictional characters living among them, but for The Last Scion - the only Mortal that can kill Fiction - things are about to become very complicated. Tessa Battle is that Mortal. And Story is long from done with Tessa no matter how much she would like to deny her destiny. With more than one monster chasing her and

questionable allies like The Snow Queen and Robin Hood, Tessa is going to need all the superpowers he inherited just to stay alive. In fact, it may be a good thing that behind her back Stories call Tessa THE STORYKILLER.

The Good Enough Teen - Brad E. Sachs
2005-01-04

Respected psychologist Dr. Brad Sachs helps parents to recognize their unrealistic expectations for their teenagers and to love, accept and nurture the family they have to its full potential. His approach frees them to discover acceptance of themselves and of their children. The ages twelve to eighteen are often the most challenging and trying years for adolescents--and their parents. No other phase of life is characterized by so much physical and psychological change happening so quickly. And frequently the child parents had loved and understood becomes a teenager they hardly recognize--the child who loved music grows into a teen who wants to play video games rather than the piano; or the little girl who loved dolls becomes a teen who loves staying out with her older, rebellious boyfriend. *The Good Enough Teen*, however, shows you how to see your child's evolution as a window of opportunity--for

you, for your child, and for your entire family. Rather than having you brace for your offspring's adolescence with your eyes shut and your jaw clenched, this book will help you to understand the invisible transformation teens are experiencing, as well as the ways in which your own adolescence intimately influences this understanding. You will find yourself better able to see even your child's most exasperating behaviours as steps in his or her striving towards maturity, rather than chronic problems or mean-spirited efforts designed to make you miserable. The Good Enough Teen presents a developmental overview of what parents can expect from their children during adolescence, then delineates the five stages in the journey towards accepting a child for who he or she is. With prescriptive tools and strategies for parents, including checklists, quizzes, and exercises, and numerous case studies from the author's own practice, The Good Enough Teen is vital help for any parent with a teenager.

New Mainers - Patricia Nyhan 2009
Who are these new Mainers, and why have they come here? They are from war-torn countries

such as Somalia, Sudan, Afghanistan, and Cambodia; from poor Latin American nations; and from economically vibrant places like Hong Kong, India, and Europe—in other words, from across the global spectrum. They came to Maine for a job or to reunite with their family or because they fell in love or to attend college here or to flee persecution in their homelands. Although the twenty-five immigrants who tell their stories had widely varying reasons for coming to Maine, many have made remarkable contributions to the state. Some contribute high-level skills in medicine, engineering, academia, law, public-school education, hotel management, and social services. Others have enriched the state's arts and sports worlds. Several are used to going back and forth across borders, either as transnational professionals or as migrant workers. About one-third of these immigrants are successful entrepreneurs. As you will find out, the journeys of these immigrants have not been easy, but all of them are glad they wound

up in this state and are proud of their new identities as Mainers.

Tropical Sustainable Architecture - Joo Hwa Bay
2007-03-14

The tropical belt – where large areas of South East Asia, India, Africa and parts of both North and South America are located – forms the biggest landmass in the world and has one of the highest numbers of rapidly developing cities. Coincidentally, architecture in these regions shares common problems, the most easily

identifiable being the tropical conditions of climate and natural environment. The context for architecture here is fraught with conflicts between tradition and modernization, massive influx of rural poor into urban areas, poorly managed rapid urban development as well as the cultural and social strain of globalization. Many local and overseas architects, planners and city fathers are interested in the social and environmental dimensions of these areas that contribute towards short terms solutions and long term sustainable developments. This book, developed from the first conference of the International Network for Tropical Architecture, supplies a wealth of information from experts worldwide covering the cultural, environmental and technical aspects of thinking, researching and designing for the tropics.

The Case for Marriage - Linda Waite

2002-03-05

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being

single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues* "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal* www.broadwaybooks.com

Sukuma Labor Songs from Western Tanzania - Frank D. Gunderson 2010

This volume is an interpretive analysis of a collection of 335 song texts treated as primary historical sources. The collection highlights the cultural practices that link music with labor in Sukuma communities in northwestern Tanzania. These linkages are evident in the music of the elephant, snake, and porcupine hunting associations that flourished in the precolonial epoch, in the nineteenth-century regional and long-distance porter associations, and in the farmer associations that have proliferated since the beginning of the twentieth century. Acting primarily as an interpretive editor, the author collaborated with several Tanzanian scholars and translators towards fine-tuning the translation of these texts into English, and gathered testimonies in order to create succinct

interpretive statements about the songs.

Parched Earth - Elieshi Lema 2001

This is an extraordinary first novel by a Tanzanian women writer. The central character, Doreen, tells her story in the first person narrative. Born into a women headed household

in a rural area, her inner life and development mirror her life's passage: education, career, the town, marriage and motherhood. Whilst not didactic nor impinging on beautifully crafted writing, the novel deals with gender politics from a local level rather than a western oriented feminist stance. Both fatalism and seperatism are rejected and the book is imbued with insights and touchstones about the female condition.
