NorthStar, Fourth Edition, a five-level series,

The approach to critical thinking in both the Reading/Writing and Listening/Speaking strands challenges students to move beyond basic comprehension to higher-level analysis. Accessible through MyEnglishLab: NorthStar. Classroom Audio CD — Listening and Speaking audio contains the recordings and activities as well as audio for the achievement tests. The Reading and Writing strand contains the readings on audio. The Development of a Common Framework Scale of Language Proficiency - Brian North 2000 Scales describing language proficiency in a

series of levels can provide orientation for educational programmes, criteria for assessment, and reporting to stakeholders. However, in most cases such instruments are produced just by expert opinion. A scale of language proficiency actually implies a descriptive scheme related to theory but usable by practitioners. It also implies a methodology for scaling content to different levels. This book describes the use of both qualitative and quantitative techniques to develop scales for the «Common Reference Levels» in the Common European Framework of Reference for modern languages. Short stand-alone descriptors were (i) developed and classified, (ii) refined and elaborated in workshops, and then (iii) scaled by analyzing the judgments of one hundred teachers on the English language proficiency of the learners in their classes.
