Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Tallinn Manual 2.0 on the International Law Applicable to Cyber Operations - 2017-02-02

Tallinn Manual 2.0 expands on the highly influential first edition by extending its coverage of the international law governing cyber operations to peacetime legal regimes. The product of a three-year follow-on project by a new group of twenty renowned international law experts, it addresses such topics as sovereignty, state responsibility, human rights, and the law of air, space, and the sea. Tallinn Manual 2.0 identifies 154 'black letter' rules governing cyber operations and provides extensive commentary on each rule. Although Tallinn Manual 2.0 represents the views of the experts in their personal capacity, the project benefitted from the unofficial input of many states and over fifty peer reviewers.

Green Criminology and the Law - James Gacek 2021

This edited collection is grounded in a green criminological approach to understand whether the law, both in effect and implications, reflects, refracts, or sublimates the social, political and ecological conditions of our times. Since its initial proposal in the 1990s, green criminology has focused the criminological gaze on a wide array of harms and crimes affecting humans, animals other than humans, ecological systems, and the planet as a whole. As a continuously blossoming field of criminological inquiry, green criminology recognizes and examines behaviours that are both illegal and legal (yet detrimental), and in varying ways has made great efforts to provide insight into harms in a more fulsome manner. At the same time, there have been many significant legal instances, domestic, and international, including case law, legislation, regulation, treaties, agreements and executive directives which have troubled the laws understanding of green harms, illegal and legal activity, pushing legal boundaries in the process. Recognizing that humanity and nature are inextricably integrated, Green Criminology and the Law reflects the range and depth of high-quality research and scholarship, combining contributions from established scholars willing to explore new topics and recent entrants who are breaking new scholarly ground.

Prosecutor's Manual for Arrest, Search and Seizure - James A. Adams 2014-10-29

The ideal roadmap for defense lawyers and prosecutors, written by former prosecutors, Professors Adams and Blinka who appreciate the succinct analysis necessary to canvass the often tangled landscape of Fourth Amendment law. Their pragmatic approach has created a balanced, sound and comprehensive one-volume survey of arrest, search and seizure issues. The second edition now features all decisions by the Supreme Court through April 2004 as well as significant and helpful circuit court decisions, touching on a staggering array of issues including border searches, revisions as instituted by the USA Patriot Act, as well as the inclusion of timely and important new sections. Readers will likely find this edition even more beneficial, useful and helpful than the first edition.

The Accredited Counter Fraud Specialist Handbook - Martin Tunley 2014-11-11

The most complete, step-by-step guide to the ACFS qualification The Accredited Counter Fraud Specialist Handbook is the only guide designed to support all mandatory elements of the ACFS qualification, in-depth and step-by-step. Written by recognized industry leaders, this book focuses specifically on the practitioner's role in fraud investigation in England and Wales, providing complete information about each stage in the investigative process. Readers gain access to all of the information needed to successfully complete the ACFS qualification, and to develop an awareness of the key skills required to undertake efficient, legally compliant, professional investigations. The book includes a Directory of Useful Information, featuring legislation, codes of practice, model forms, and more. As incidence of fraud continues to rise, many organisations are recruiting more Counter Fraud Specialists, and mandating Continuous Professional Development for established CFSs. The Accredited Counter Fraud Specialist (ACFS) is a recognized qualification in the field, and is mandatory for investigators in many organisations throughout the public and private sectors. The Accredited Counter Fraud Specialist Handbook is a complete guide to the qualification, both for CPD and first-time qualifiers. Gain a deeper understanding of the legislation related to fraud and investigation Learn the surveillance and intelligence gathering techniques that build a solid case Review the rules of evidence and statement taking guidelines Follow courtroom procedures and prepare a thorough prosecution file The professional qualification of ACFS, which is endorsed by the Counter Fraud Professional Accreditation Board, requires both practical and written assessments that demonstrate successful knowledge transfer and understanding of all key concepts of the investigative process. For anyone tasked with the responsibility of countering fraud, The Accredited Counter Fraud Specialist Handbook is a comprehensive guide to the investigative process.

Prosecutorial Ethics - R. Michael Cassidy 2019

This book examines a prosecutor's ethical responsibilities throughout the criminal justice process in both federal and state practice, and explores constitutional and ethical constraints on prosecutorial discretion. Topics are ordered sequentially as they occur in the progression of a typical criminal case, including the prosecutor's role in the conduct of investigations, contacting and interviewing witnesses, grand jury practice, charging, pre-trial discovery, plea bargaining, jury selection, trial conduct, sentencing, media contacts and post-conviction remedies. The focal point of discussion in each of these areas is a prosecutor's ethical responsibilities under the American Bar Association's Model Rules of Professional Conduct (through 2019) drawing frequent comparisons to significant state variations on the Model Rules, and supplemental guidance provided by the ABA's Criminal Justice Standards: Prosecution Function; the National District Attorneys Standards; and, the Justice Department Manual. The authors also examine constitutional constraints on prosecutorial discretion (particularly under the 5th and 6th Amendments) that at times may deviate from or supplement ethical norms. For the purposes of brevity and ease of reference, the book deviates from the traditional casebook format by summarizing rather than reprinting significant case decisions. Each chapter concludes with practical problems designed to promote class discussion about the appropriate exercise of prosecutorial discretion in hypothetical situations. The book is designed to be used either in a stand-alone seminar on prosecutorial ethics, or as a companion to materials used in a prosecution clinic.

Legal Competence in Environmental Health - Terence Moran 1997-11-27

Legal Competence in Environmental Health assists the environmental health professional in understanding the operation of English law and navigating through some of its complexities. It covers those aspects of the work which are regulated by legal principles but not found in a single statute.

ATF - National Firearms Act Handbook - U.S. Department of Justice 2019-03-17

This handbook is primarily for the use of persons in the business of importing, manufacturing, and dealing in firearms defined by the National Firearms Act (NFA) or persons intending to go into an NFA firearms business. It should also be helpful to collectors of NFA firearms and other persons having questions about the application of the NFA. This publication is not a law book. Rather, it is intended as a "user friendly" reference book enabling the user to quickly find answers to questions concerning the NFA. Nevertheless, it should also be useful to attorneys seeking basic information about the NFA and how the law has been interpreted by ATF. The book's Table of Contents will be helpful to the user in locating needed information. Although the principal focus of the handbook is the NFA, the book necessarily covers provisions of the Gun Control Act of 1968 and the Arms Export Control Act impacting NFA firearms businesses and collectors.

Domestic Abuse and Child Contact - Rosemary Hunter 2020-12-30

This book presents papers from an International Symposium on Contact Disputes and Allegations of Domestic Violence: Identifying Best Practices, held in London in May 2017. The editors invited a group of international experts to explain the approaches taken in their jurisdictions to allegations of domestic violence in child contact cases, with a view to identifying international best practices in such cases. The book includes contributions from England and Wales, Scotland, Ireland, Canada, Sweden and Spain, as well as information presented at the symposium from New Zealand and Australia. The chapters include attention to particular issues such as specialist domestic violence courts, judicial training and hearing children's voices. Collectively, the chapters identify a set of common problems experienced across all of the jurisdictions, including an overwhelming emphasis on the value of children's ongoing contact with non-resident parents and the consequent minimisation of domestic violence and the muting of the voices of children who do not wish to have contact with abusive parents. Best practices in taking domestic violence seriously and providing adequate protection from further abuse for children and non-abusive parents were less in evidence. However, the concluding chapter draws together details of several initiatives and approaches which offer promising ways forward. The chapters in this book were originally published as a special issue of the Journal of Social Welfare and Family Law.

Model Rules of Professional Conduct - American Bar Association. House of Delegates 2007

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Impaired-driving Program Assessments: a Summary of Recommendations (1991 to 2003). - Darrell W. Johnson 2004

The National Highway Traffic Safety Administration (NHTSA) developed an assessment process that gives States an opportunity to conduct a review of their efforts to control impaired driving by an outside team of nationally recognized experts. Each assessment examines a State's overall program and presents

recommendations to improve or enhance it. NHTSA reviewed 38 State assessment reports and found 2,982 individual recommendations, including 852 that were identified as priority recommendations by the teams. Most of the recommendations fit into 10 thematic areas: (1) increasing deterrence by prioritizing enforcement efforts and enhancing the arrest, prosecution, and adjudication process; (2) improving public information and education efforts related to prevention and deterrence; (3) remedying problems involving DUI data and records (reporting requirements, offender tracking systems, data linkages, uniform traffic citations); (4) enacting new laws or revising existing laws aimed at increasing the deterrence and/or prevention of DUI; (5) enhancing training for law enforcement, prosecution, and judicial personnel; (6) evaluating programs and activities to combat impaired driving; (7) providing sufficient resources for treatment and rehabilitation; (8) improving inter/intra-governmental coordination and cooperation; (9) providing funding (including self-sufficiency) to provide for adequate resources (personnel, equipment); and (10) developing or increasing task forces and/or community involvement.

The Evolving Role of the Public Prosecutor - Victoria Colvin 2018-09-24

The modern public prosecutor is a figure both powerful and enigmatic. Legal scholars and criminologists often identify “three essential components” of criminal justice systems: police, courts and corrections. Yet increasingly, the public prosecutor occupies a distinct role independent from any of these branches. Acting outside of the court, and therefore largely out of the public eye, the prosecutor’s control over whether and what charges proceed to court can limit judicial discretion on sentencing, open pathways to alternative measures and even deny entry into the criminal justice system entirely. In this sense the prosecutor serves as a true “gatekeeper” to the criminal process. This book addresses key aspects of the evolving role of domestic and international prosecutors in common law and civil law systems in the twenty-first century, and the challenges posed by this evolution. This collection of chapters from respected scholars takes an international, comparative approach and explores how these different legal systems have borrowed theorisations and articulations of the prosecutorial role from each other in adapting the office to changing conditions and expectations. The volume is structured around four main themes relating to the role of the modern prosecutor: the nature of the prosecutor’s office, the role of the prosecutor in investigations, prosecutorial discretion and how it is exercised, and politicisation and accountability of prosecutors. This book is essential for scholars and students in criminal justice, pre-law/legal studies, criminology, justice studies and political science, and is useful as a resource for those interested in legal change around the world.

Human Rights Manual for Prosecutors - Egbert Myjer 2008-07-01

The U.N. Vienna Declaration of 1993 declared that all human rights and fundamental freedoms are universal, indivisible, interdependent and interrelated and should be promoted and implemented in a fair and equitable manner. The prime responsibility for doing so falls upon States. Prosecutors are agents of States. The editors Egbert Myjer (Judge of the European Court of Human Rights and Professor of Human Rights at Amsterdam Free University) Barry Hancock (General Counsel of the IAP) and Nicholas Cowdery (president of the IAP) have compiled and edited a major work of great significance and value in the field and should find a place on the shelf of every professional working as 'agent of State'. The issues discussed in the book are: public prosecutor: 'human rights on duty'; international human rights law; international standards for the independence of the judiciary and the legal profession; human rights and the right to life; human rights and the investigation of offences; human rights during arrest and pre-trial detention; human rights and pre-trial procedures; human rights and trial procedures; human rights and sentencing; human rights and the treatment of prisoners; administration of criminal justice under states of emergency; human rights and juvenile justice; discrimination in the justice system and equality for women in the administration of justice. The book is published in cooperation with the International Association of Prosecutors (IAP), which is a non-governmental and non-political organisation. It is the first and only world organisation of prosecutors.

Counter-terrorism, Constitutionalism and Miscarriages of Justice - Genevieve Lennon 2018-11-01

The purpose of this book is to honour the influential and wide-ranging work of Professor Clive Walker. It explores Professor Walker's influence from three perspectives. Firstly, it provides a historical reflection upon the development of the law and policy in relation to counter-terrorism and miscarriages of justice since the 1970s. This historical perspective, which is often overlooked, is particularly timely 17 years after 9/11 as trends become clearer and historical perspective even more valuable. So too with miscarriages of justice: while there was considerable public and political scrutiny following high-profile miscarriages such as the Birmingham Six, Guildford Four, and others, in the early 1990s, today there is much less scrutiny, despite significant concern relating to issues such as legal aid and access to justice increasing the potential (if not likelihood) for miscarriages to occur. By including a critical historical perspective, this book enables us to learn lessons from the past and to minimise contemporary risks of miscarriages of justice. Secondly, this book provides a critical analysis of the law and policy as it stands today, and its future trajectory. Applying Walker's theoretical and analytical contributions to the field, the authors focus on pressing contemporary concerns, identifying lacunae where relevant, as well as the possible, probable and preferable future trends. Finally, the book celebrates and recognises the significant contributions by Walker, with each chapter built around one or more of Walker's key works.

Human Rights In The Administration Of Justice - United Nations. Office of the High Commissioner for Human Rights 2003-12-01

Independent legal professionals play a key role in the administration of justice and the protection of human rights. Judges, prosecutors and lawyers need access to information on human rights standards laid down in the main international legal instruments and to related jurisprudence developed by universal and regional monitoring bodies. This publication, which includes a manual and a facilitator's guide, seeks to provide a comprehensive core curriculum on international human rights standards for legal professionals. It includes a CD-ROM containing the full electronic text of the manual in pdf format.

The Prosecutor in Transnational Perspective - Erik Luna 2012-09-27

In this book, Erik Luna and Marianne Wade examine the considerable powers of the American prosecutor and look abroad in order to learn valuable lessons from a transnational examination of prosecutorial authority. They explore parallels and distinctions in the processes available to and decisions made by prosecutors in the United States and Europe. Through the varied topics covered by the contributors on both sides of the Atlantic, they demonstrate how the enhanced role of the prosecutor represents a crossroads for criminal justice with weighty legal and socio-economic consequences.

Who to Release? - Nicola Padfield 2013-03-07

This book is concerned to explore the changing role of the Parole Board across the range of its responsibilities, including the prediction of risk and deciding on the release (or continued detention) of the growing number of recalled prisoners and of those subject to indeterminate sentences. In doing so it aims to rectify the lack of attention that has been given by lawyers, academics and practitioners to back door sentencing (where the real length of a sentence is decided by those who take the decision to release) compared to front door sentencing' (decisions taken by judges or magistrates in court). Particular attention is given in this book to the important changes made to the role and working of the Parole Board as a result of the impact of the early release scheme of the Criminal Justice Act 2005, with the Parole Board now deciding in Panels concerned with determinate sentence prisoners, lifers and recalled prisoners. A wide range of significant issues, and case law, has arisen as a result of these changes, which the contributors to

this book, leading authorities in the field, aim to explore.

California Style Manual - Bernard Ernest Witkin 1977

Powers of the Prosecutor in Criminal Investigation - Karolina Kremens 2021-03-26

This comparative analysis examines the scope of prosecutorial powers at different phases of criminal investigation in four countries: the United States, Italy, Poland, and Germany. Since in all four the number of criminal cases decided without trial is constantly increasing, criminal investigation has become central in the criminal process. The work asks: who should be in charge of this stage of the process? Prosecutors have gained tremendous powers to influence the outcome of the criminal cases, including powers once reserved for judges. In a system in which the role of the trial is diminishing and the significance of criminal investigation is growing, this book questions whether the prosecutor's powers at the early stage of the

process should be enhanced. Using a problem-oriented approach, the book provides a parallel analysis of each country along five possible spheres of prosecutorial engagement: commencing criminal investigation; conducting criminal investigation, undertaking initial charging decisions; imposing coercive measures; and discontinuing criminal investigation. Using the competing adversarial-inquisitorial models as a framework, the focus is on the prosecutor as a crucial figure in the criminal process and investigation. The insights of this book will be of interest and relevance to students and academics in criminal justice, criminology, law, and public policy, as well as policymakers, government officials, and others interested in legal reform.
