Therese the Philosopher -  
Marquis De D'Argens

2013-12-23

This first-person narrative by Therese is the charming tale of an innocent's initiation into sexual happiness. Self-discovery in a convent leads her to her confessor, Father Dirrag, and she is soon launched upon the path of reason that convinces her that

passion and love of the Deity are equal gifts of God. With additional mentors, Therese learns that sensations are but a part of temperament, as natural as hunger and thirst, and all may be satisfied as long as it does not harm others.

The First Treatise on Museums - Samuel Quiccheberg 2014-04-01

Samuel Quiccheberg's *Inscriptiones*, first published in Latin in 1565, is an ambitious effort to demonstrate the pragmatic value of curiosity cabinets, or Wunderkammern, to princely collectors in sixteenth-century Europe and, by so doing, inspire them to develop their own such collections. Quiccheberg shows how the assembly and display of physical objects offered nobles a powerful means to

expand visual knowledge, allowing them to incorporate empirical and artisanal expertise into the realm of the written word. But in mapping out the collectability of the material world, Quiccheberg did far more than create a taxonomy. Rather, he demonstrated how organizing objects made their knowledge more accessible; how objects, when juxtaposed or grouped, could tell a story; and how such strategies could enhance the value of any single object. Quiccheberg's descriptions of early modern collections provide both a point of origin for today's museums and an implicit critique of their aims, asserting the fundamental research and scholarly value of collections: collections are to be used, not merely viewed. The *First Treatise on Museums* makes Quiccheberg's now rare publication available in an English translation. Complementing the translation are a critical introduction by Mark A. Meadow and a preface by Bruce Robertson.

*Old Books, New Technologies* -

David McKitterick 2013-04-18

As we rely increasingly on digital resources, and libraries discard large parts of their older collections, what is our responsibility to preserve 'old books' for the future? David McKitterick's lively and wide-ranging study explores how old books have been represented and interpreted from the eighteenth century to the present day. Conservation of these texts has taken many forms, from early methods of counterfeiting, imitation and rebinding to modern practices of microfilming, digitisation and photography. Using a comprehensive range of examples, McKitterick reveals these practices and their effects to address wider questions surrounding the value of printed books, both in terms of their content and their

status as historical objects.

Creating a link between historical approaches and the emerging technologies of the future, this book furthers our understanding of old books and their significance in a world of emerging digital technology.

*The Palgrave Handbook of Masculinity and Political Culture in Europe* -  
Christopher Fletcher  
2018-02-02

This handbook aims to challenge 'gender blindness' in the historical study of high politics, power, authority and government, by bringing together a group of scholars at the forefront of current historical research into the relationship between masculinity and political power. Until very recently in historical terms, formal political authority in Europe was normally and ideally held by adult males, with female

power being perceived as a recurrent aberration. Yet paradoxically the study of the interactions between masculinity and political culture is still very much in its infancy. This volume seeks to remedy this lacuna by considering the different consequences of the masculinity of power over two millennia of European history. It examines how masculinity and political culture have interacted from ancient Rome and the early medieval Byzantine empire, to twentieth-century Germany and Italy. It considers a broad variety of case studies from early medieval Iceland and late medieval France, to Naples at the time of the French Revolution and Strasbourg after the Franco-Prussian War, with a particular focus on the development of political masculinities in Great Britain between the sixteenth century and the present day.

*Medieval Callings* - Jacques Le Goff 1995-12-18

These essays by eleven internationally renowned

historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, Times Literary Supplement

Translated by Elizabeth Price Sayer Show Excerpt shment unjustly; the punishment, I say, of exile and poverty! Since it was the pleasure of the citizens of the most beautiful and the most famous daughter of Rome, Florence, to cast me out from her most sweet bosom (wherein I was born and nourished even to the height of my life, and in which, with her

goodwill, I desire with all my heart to repose my weary soul, and to end the time which is given to me), I have gone through almost all the land in which this language lives--a pilgrim, almost a mendicant--showing forth against my will the wound of Fortune, with which the ruined man is often unjustly reproached. Truly I have been a ship without a sail and without a rudder, borne to divers ports and lands and shores by the dry wind which blows from doleful poverty; and I have appeared vile in the eyes of many, who perhaps through some report may have imaged me in other form. In the sight of whom not only my person became vile, but each work already completed was held to be of less value than that might again be w

*The Italians* - Luigi Barzini  
1991-05-30

The 'fatal charm of Italy' has held Lord Byron - and millions of tourists ever since - in its spell. Yet, beneath 'the brilliant and vivacious surface', what are the realities of Italian life? Few writers have ever painted a portrait of their compatriots as crisp, frank and fearless as Luigi Barzini's. Cutting through the familiar clichés, he instructs us with a cascade of anecdotes and provides a marvellous guided tour through centuries of history. He examines Machiavelli and Mussolini, popes, pilgrims and prostitutes, cliques and conspiracies, Casanova and the crippling power of the Church. Yet alongside the Baroque exuberance and spectacular display, the love of life and the life of love, he also shows us a divided nation, injustice, ignorance, poverty and fear. All

this is Italy, a country of dazzling achievement and an uncanny aptitude for getting round problems; both its virtues and its vices are celebrated in this sparkling book

The Port Jews of Habsburg Trieste - Lois C. Dubin 1999  
This work offers a perspective on the process of Jewish integration in modern Europe. The author addresses the Habsburg Monarchy, which contained the largest Jewish population in Europe outside Russia, by focusing on the free port of Trieste, at the crossroads of Central Europe, Italy, and the Levant. In this dynamic port city, mercantilist state-building, enlightenment absolutism, multicultural diversity, and Italian-Jewish traditions produced a path

toward integration that is generally ignored in modern Jewish history: that of merchants in commercial centers who were assimilated into the local culture. The book provides an in-depth study of enlightened absolutism in action - of the way rulers, officials, and subjects negotiated and implemented policies. It also emphasizes the commitment by Trieste Jews to the new norms of assimilation, enlightenment, and civil inclusion - in contrast to the wariness expressed by other European Jews to enlightened absolutist programs of societal transformation.

Quando Maria Teresa succede al padre Carlo VI d'Asburgo, l'ultimo erede maschio di un casato che aveva prosperato per secoli, molti temono che una donna avvenente, giovane e inesperta non riesca a sopportare il gravoso fardello della corona. Armata di umiltà e determinazione, si rivelerà invece una sovrana illuminata, una «madre della patria» amorevole e attenta alle esigenze dei suoi sudditi, un'imperatrice propensa alla mediazione, ma capace anche di fermezza e pragmatismo, che attuerà una serie di importanti riforme. Costretta in nome della ragion di Stato a dare in sposa l'appena quattordicenne Maria Antonietta al delfino di Francia per rinsaldare l'alleanza fra Vienna e Versailles, Maria Teresa non smetterà mai di preoccuparsi della condotta di questa sua giovane figlia dal

carattere vivace, incline alla leggerezza e allo sfarzo. Soprannominata dai suoi nemici «l'Austriaca», considerata il simbolo di un potere opprimente, Maria Antonietta si attira l'odio del popolo per gli errori della prima fase di regno e per la violenta campagna denigratoria di cui è vittima. Dimostra grande fermezza e coraggio negli anni della Rivoluzione e, nell'ottobre del 1793, dopo aver sfilato con estrema dignità tra la folla inferocita, viene ghigliottinata. Un racconto appassionante che restituisce spessore alle due donne più influenti nell'Europa del Settecento, un'indagine coinvolgente su due distinte e opposte interpretazioni del potere, che getta nuova luce sulla difficile transizione tra il crepuscolo dell'assolutismo monarchico e l'affermazione, anche sanguinosa, delle nuove istanze democratiche.

*Napoleon the Great* - Andrew Roberts 2016-05-27

From Andrew Roberts, author of the Sunday Times bestseller *The Storm of War*, this is the

definitive modern biography of Napoleon It has become all too common for Napoleon Bonaparte's biographers to approach him as a figure to be reviled, bent on world domination, practically a proto-Hitler. Here, after years of study extending even to visits paid to St Helena and 53 of Napoleon's 56 battlefields, Andrew Roberts has created a true portrait of the mind, the life, and the military and above all political genius of a fundamentally constructive ruler. This is the Napoleon, Roberts reminds us, whose peacetime activity produced countless indispensable civic innovations - and whose Napoleonic Code provided the blueprint for civil law systems still in use around the world today. It is one of the greatest lives in world history, which here has found its ideal biographer. The sheer enjoyment which this book will give anyone who loves history is enormous.

**The French Book Trade in Enlightenment Europe** -

Simon Burrows 2018

"This is a rich and path-breaking comparative study of reading tastes in the final years of old regime Europe. Based on extensive research in the account books of the Swiss publishers, the Société Typographique de Neuchâtel (STN), and related archives, it charts the dissemination of literature and reading tastes

across Europe in the years leading up to the French revolution. In the process, it recasts our understanding of late 18th-century print culture and the contours of the enlightenment. The fruit of a widely acclaimed five year database project, the STN database, it is also a story of pioneering efforts to apply the latest digital technology and GIS mapping techniques to traditional historical and bibliographic problems. Although written to serve as a standalone study, this book is ideally complemented by its companion volume, Mark Curran's *The French Book Trade in Enlightenment Europe I: Selling Enlightenment*, which offers a radical reinterpretation of the structure and practices of the European book trade. The STN database is now recognised as a cutting-edge digital project of global significance. Robert Darnton has called it "a prodigious accomplishment and a joy to use" while Jeremy Popkin adds, "No one working in the field of French Enlightenment studies

... can afford to ignore the rich mine of data that Simon Burrows and his collaborators have made accessible, in an eminently usable form, and the new possibilities it opens up for scholars." *The French Book Trade in Enlightenment Europe I and II* offer a roadmap of that data and what it can show us." - Bloomsbury Publishing

*New Worlds, Lost Worlds* - Susan Brigden 2002-09-24  
No period in British history has more resonance and mystery today than the sixteenth century. *New Worlds, Lost Worlds* brings the atmosphere and events of this great epoch to life. Exploring the underlying religious motivations for the savage violence and turbulence of the period-from Henry VIII's break with Rome to the overwhelming threat of the Spanish Armada-Susan Brigden investigates the actions and influences of such near-mythical figures as Elizabeth I, Thomas More, Bloody Mary,

and Sir Walter Raleigh.  
Authoritative and accessible,  
New Worlds, Lost Worlds, the  
latest in the Penguin History of  
Britain series, provides a

superb introduction to one of  
the most important,  
compelling, and intriguing  
periods in the history of the  
Western world.
