Leaders Make the Future - Robert Johansen 2009-05-11

Some leadership skills are enduring. But to be successful in the future, leaders also need an emerging set of skills uniquely suited to dealing with the challenges of the threshold decade we are entering. Today's businesses and organizations are operating in a world characterized by volatility, uncertainty, complexity, and ambiguity. Though they already seemed stressed to the breaking point, Johansen reminds us that we are also more connected than ever before in our history, but we must fully realize the benefits of that connectivity. In the next decade, leaders will not just see the future—they will make it! But they will not be able to do it alone. Institute for the Future has been developing ten-year forecasts for some of the world's top organizations for forty years—it is the only futures group to outlive its own forecasts. Bob Johansen draws on IFTF's latest forecast (included in this book) to introduce skills that will help leaders see connections in the larger systems of which they are a part, embrace shared assets and opportunities, and cut through the chaos to make a better future. Separate chapters focus on each skill, identifying the new circumstances that make it necessary and providing examples of the skill in action. How adroit are you at dilemma flipping—turning problems that can't be permanently solved into opportunities? What is your level of immersive learning ability—the ability to dive into very different physical and online worlds and learn from them? Do you know what a smart mob is and how to organize one? Johansen provides role models, tools, and advice to help you develop these and seven other skills. We are facing times of unprecedented challenge. Combining research-based forecasts, real-world examples, and his own astute analysis, Bob Johansen helps you identify and acquire the abilities you

need to thrive in this difficult world.

Anni Albers - Ann Coxon 2018-08-07

A long-overdue reassessment of one of the most important and influential woman artists working at midcentury Anni Albers (1899–1994) was a German textile designer, weaver, and printmaker, and among the leading pioneers of 20th-century modernism. Although she has heavily influenced generations of artists and designers, her contribution to modernist art history has been comparatively overlooked, especially in relation to that of her husband, Josef. In this groundbreaking and beautifully illustrated volume, Albers's most important works are examined to fully explore and redefine her contribution to 20th-century art and design and highlight her significance as an artist in her own right. Featured works—from her

early activity at the Bauhaus as well as from her time at Black Mountain College, and spanning her entire fruitful career—include wall hangings, designs for commercial use, drawings and studies, jewelry, and prints. Essays by international experts focus on key works and themes, relate aspects of Albers's practice to her seminal texts *On Designing* and *On Weaving*, and identify broader contextual material, including examples of the Andean textiles that Albers collected and in which she found inspiration for her understanding of woven thread as a form of language. Illuminating Albers's skill as a weaver, her material awareness, and her deep understanding of art and design, this publication celebrates an artist of enormous importance and showcases the timeless nature of her creativity.

The Painter - Deepanjana Pal 2011-12-02

On April 29, 1848, in a small estate in Travancore, was born a boy destined to become more famous than the ruler of his kingdom. His uncle, noticing his precocious talent at art, took the teenager to the royal court at the invitation of the king to learn painting there. Ravi Varma's debut was to come seven years later when a Danish painter arrived in court to paint the Maharaja and his wife. The twenty-year-old boldly upstaged the experienced artist, presenting the king with a more flattering painting of the royal couple at the same time as the official portrait was unveiled. Jensen, the painter, never forgave Ravi Varma, but for the young man there was no looking back. His reputation grew with each painting. For the first time, an Indian artist was using the realism and sensuality of the European oil painters and applying them to not just ordinary Indians, but to the deities as well. The artist-prince became India's first celebrity painter. The lines to see his exhibition of mythological paintings in Bombay in 1890—the first public showing by any Indian artist—were endless; the prices he commanded were astronomical; then, when he started his own printing press, producing oleographs of his work, Raja Ravi Varma became a household name. Soon, every home had a Ravi Varma print. For the first time, comes a beautifully told, gripping account of Ravi Varma: the man who was the darling of the royal courts, but who hardly gave his own wife and children any time; the nobleman who took the revolutionary step of being an artist, yet who insisted on using the false title of raja; and the idealistic entrepreneur who bankrupted himself running a printing press, yet whose dream of bringing art to the masses became a reality. Blending fact with imagination, writing with wit and lyricism, Deepanjana Pal takes you into the life of an extraordinary man and brings him vividly alive.

which we live.
